TIP • FISCAL YEARS 2025 / 2026 TO 2029 / 2030

2026–2030 TIP
Transportation Planning Organization for the Miami Urbanized Area

This document was prepared by the Transportation Planning Organization (TPO) for the Miami Urbanized Area in collaboration with the Florida Department of Transportation; Expressway Authority; Florida's Turnpike Enterprise; South Florida Regional Transportation Authority; Miami-Dade County Office of Strategic Business Management; Miami-Dade Department of Transportation and Public Works, Miami-Dade County Aviation Department; Miami-Dade Seaport Department; Miami-Dade League of Cities; Miami-Dade County Department of Regulatory and Economic Resources; and the Miami-Dade County School Board.

Miami-Dade TPO complies with the provisions of Title VI of the Civil Rights Act of 1964, which states: No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. It is also the policy of Miami-Dade TPO to comply with all requirements of the Americans with Disabilities Act (ADA). For materials in accessible format, please call 305-375-1881.

In accordance with 23 U.S.C. §134(j), 49 U.S.C. §5303(j), and 23 CFR §450.326, once this TIP has been approved, the first year of the program constitutes the "agreed to" list of projects for implementation. No further action is required for these projects to proceed unless there is a significant reduction in available federal funding or substantial changes in project timing. In such cases, the MPO, FDOT, and transit operators will coordinate a revised list.

For projects in non-TMA areas, project selection is carried out by FDOT and/or the transit operator in cooperation with the MPO (23 CFR §450.330(b)). For areas designated as Transportation Management Areas (TMAs), including Miami-Dade, the MPO is responsible for selecting all federally funded projects, excluding those on the National Highway System (NHS) in consultation with FDOT and transit operators. FDOT selects NHS projects in cooperation with the MPO (23 CFR §450.330(c)).

The preparation of this document has been financed in part from the U.S. Department of Transportation (U.S. DOT) through the Federal Highway Administration (FHWA) and/or the Federal Transit Administration (FTA), the State Planning and Research Program (Title 23, U.S. Code §505), and Miami-Dade County, Florida. The contents of this document do not necessarily reflect the official views or policy of U.S. DOT.

TIP • FISCAL YEARS 2025/2026 TO 2029/2030

EXECUTIVE SUMMARY

INTRODUCTION

The TIP is a major federally required document of the TPO for the Miami-Dade Urbanized Area that specifies proposed transportation improvements to be implemented in Miami-Dade County over the coming five years. The primary emphasis of the TIP is on the first three years of the program. As required by federal regulations, projects receiving federal funds during the October 1, 2025 to September 30, 2030 time period are to be drawn from those listed in this document. In addition, projects not using federal funds, but which are part of the area's program of improvements, are shown in the TIP. Projects shown for FY 2026 and beyond, regardless of their funding source, are included as proposed. While it is anticipated that most of these projects will be implemented as programmed, they will be periodically evaluated by the TPO as the TIP is updated or amended as necessary. The projects in the TIP are also shown for a five-year period. While the emphasis is on the first three years, presenting a five-year span allows for a more systematic forecast of funding needs during a five-year planning cycle and provides a more comprehensive view of the program for public informational purposes. Included in this TIP are Intermodal, Highway, Transit, Aviation, Seaport, and Non-Motorized improvements funded for $14.4 billion.

The projects and priorities in this TIP are consistent with those in the adopted 2050 Long Range Transportation Plan (LRTP). Because the 2050 LRTP was found to conform to federal regulations and the Florida State Transportation Improvement Plan (STIP), the TPO has found this TIP to also conform to all relevant laws, regulations and plans. Selected projects are from the prioritized projects found in the 2050 LRTP. The LRTP recommends phasing for surface transportation improvements classified into four categories:

Priority Period I - Priority improvements to be constructed and opened to traffic by the year 2030. Funds for most of these improvements are already programmed in this TIP.

Priority Period II - Improvements where project development and funding efforts would take place between 2031 and 2035.

Priority Period III - Improvements to be made between the years 2036 and 2040. In many cases, project development activities would need to commence in the 2031 - 2035 period, due to the amount of lead-time required to plan and implement a project.

Priority Period IV - Improvements to be made in the latter part of the 25-year plan period (2041 to 2050). Includes projects responding to long-range mobility needs and roadway improvements constructed through the County, which may be earlier than the 25-year period of the 2050 LRTP.

WHAT IS THE TIP?

The TIP is a multi-year program that prioritizes transportation improvement projects for federal, state, and local funding. The TIP is also the capital improvements element of the LRTP.

WHO PARTICIPATES IN PUTTING THE TIP TOGETHER?

The TPO, with local transportation agencies and other stakeholders, are listed as follows:

1. Florida Department of Transportation (FDOT), District Six
2. Florida's Turnpike Enterprise (FTE)
3. Greater Miami Expressway Agency (GMX)
4. Miami-Dade Aviation Department (MDAD)
5. Miami-Dade Department of Transportation and Public Works (DTPW)
6. Miami-Dade Office of Management and Budget (OMB)
7. Miami-Dade Regulatory and Economic Resources Department (RER)
8. Miami-Dade Seaport Department (PortMiami)
9. South Florida Regional Transportation Authority (SFRTA)

TIP PROGRAM FUNDING

WHERE DOES HIGHWAY FUNDING COME FROM?

The TIP highway projects are funded through gasoline taxes, such as federal gas tax, state motor fuel tax, local option gas tax, voter gas tax, motor vehicle fees and road impact fees and automobile-related user fees such as tolls.

WHERE DOES TRANSIT FUNDING COME FROM?

Transit funding comes from a combination of funds from the FTA, the State of Florida through the FDOT Public Transportation Office, Local Dedicated Source of Funding (half-penny sales tax) and Miami-Dade County's Budget (from local general funds).

WHAT IS A TIP AMENDMENT?

An amendment is a revision to a TIP or STIP that involves a major change to a project in a TIP or STIP, including addition or deletion of a project, a major change in project cost, project phase initiation dates, or a major change in design concept or design scope (i.e., changing project termini or the number of through traffic lanes). [23 C.F.R. 450.104] An amendment requires public review and comment, demonstration of financial constraint, or a conformity

determination, if applicable. Additionally, amendments to the TIP are available for public review at least fourteen (14) days prior to the scheduled public hearing. This information is also available to the public in the TPO Prospectus for Transportation Improvements at: Miami Dade TPO Prospectus (https://www.miamidadetpo.org/library/reports/prospectus-for-transportation-improvements-2019.pdf)

WHAT IS A TIP ADMINISTRATIVE MODIFICATION?

An administrative modification is a minor revision to a TIP or STIP that includes minor changes to project/ project phase costs, minor changes to funding sources of previously included projects, and minor changes to project/project phase initiation dates. An administrative modification does not require public review and comment, redemonstration of fiscal constraint, or a conformity determination, if applicable. [23C.F.R. 450.104]

FUNDING SUMMARY OVERVIEW

This section provides a summary of allocated transportation funding in the FY 2026-2030 Miami-Dade TIP. The projected $14.4 billion investment includes contributions from federal, state, local, and private sources, supporting a wide range of infrastructure projects across highways, transit, aviation, seaport, and other key transportation systems. As the primary mode, Highways accounts for the largest share of anticipated project funding with state roads comprising $5.4 billion (37.3%) of the total. Within the Highways mode category, the FDOT Primary system constitutes the largest funded portion at $4.7 billion (32.9%), followed by GMX at $335 million (2.3%) and FTE at $295 million (2.0%). The County Roads group represents an additional $672 million (4.7%) in funded projects. This includes sources such as Secondary Road improvements ($53 million), Mobility Impact Fees ($614 million), and the PTP ($6 million). Other modes and projects together also account for a significant share of the total anticipated project funding. Transit as a mode represents the second largest portion of the total funding with $5.2 billion (35.9%), followed by Seaport projects at $2.2 billion (15%). The remaining funded projects are allocated to other critical transportation needs as outlined in the summary table to the right.

Funding Summary - Fiscal Years 2026 - 2030 ($s in millions rounded)

Highways – State Roads	Primary (FDOT)	$	4,740	--	32.9%
	Turnpike	$	295	--	2.0%
	Greater Miami Expressway Agency	$	335	--	2.3%
		$	**5,370**		**37.3%**
County Roads	Secondary	$	53	--	0.4%
	Mobility Impact Fee	$	614	--	4.3%
	People's Transporation Plan	$	6	--	0.0%
	Private Sector	$	TBD	--	N/A
		$	**672**		**4.7%**
Other Modes and Projects	Local Option Gas Tax	$	98	--	0.7%
	Transit	$	5,173	--	35.9%
	Aviation	$	739	--	5.1%
	Seaport	$	2,158	--	15.0%
	SFRTA	$	-	--	0.0%
	Remaining	$	200	--	1.4%
		$	**8,368**		**58.1%**
	TOTAL	**$**	**14,410**		**100.0%**

Figure 1: Funding Summary – Fiscal Years 2026-2030 ($s in millions rounded)

VISUALIZING THE TIP FUNDING SUMMARY

The figures in this section illustrate the allocation of approximately $14.4 billion in transportation funding for Miami-Dade County during Fiscal Years 2026–2030. The figure below displays the distribution of anticipated transportation funding in Miami-Dade County by mode for Fiscal Years 2026–2030. Of the total $14.4 billion in anticipated funding, approximately $5.4 billion (37.3%), is allocated to state roads, while county roads account for $672 million (4.7%). The remaining $8.4 billion, also representing 58.1%, is dedicated to other modes and projects. The chart highlights the balanced investment between state - managed highway infrastructure and broader multimodal initiatives.

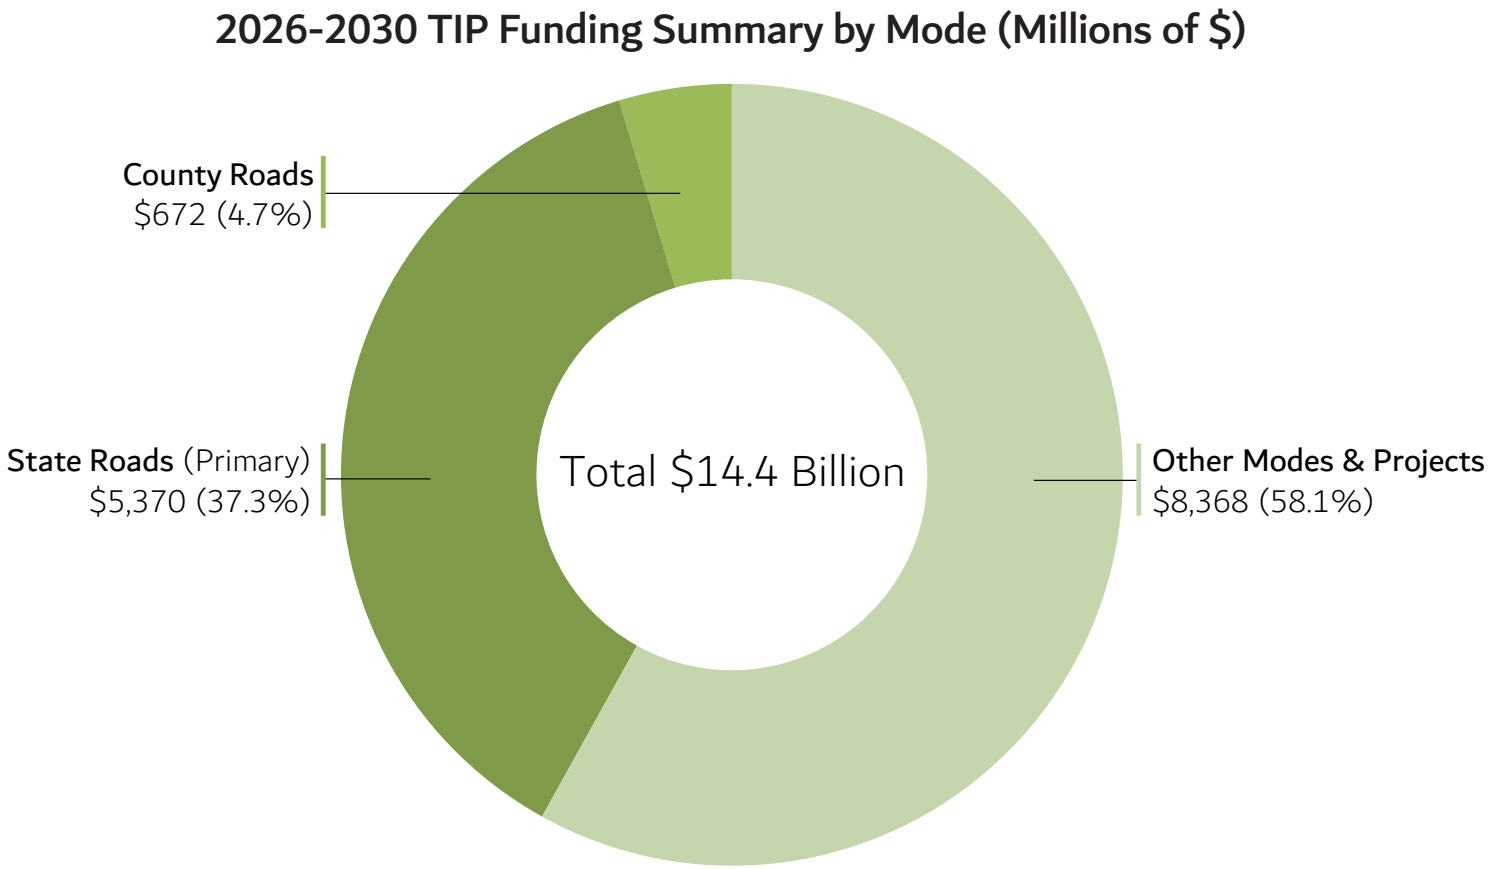

Figure 2: 2026-2030 TIP Funding Summary by Mode (Millions of $)

The donut chart below breaks down funding by agency, showing both the dollar amount and percentage share attributed to each category. The largest share of funding ($5.2 billion or 35.9%) is allocated to the Multimodal public transportation improvements. State Highway Program and Interstate System and seaport development followed with $4.7 billion and $2.2 billion respectively, making up 32.9% and 15.0%. Airport development receives $739 million, or 5.1%, while additional funding is distributed across local sources such as the Mobility Impact Fee, Local Option Gas Tax, and the PTP. Contributions from the FTE, GMX, and other smaller sources round out the funding distribution.

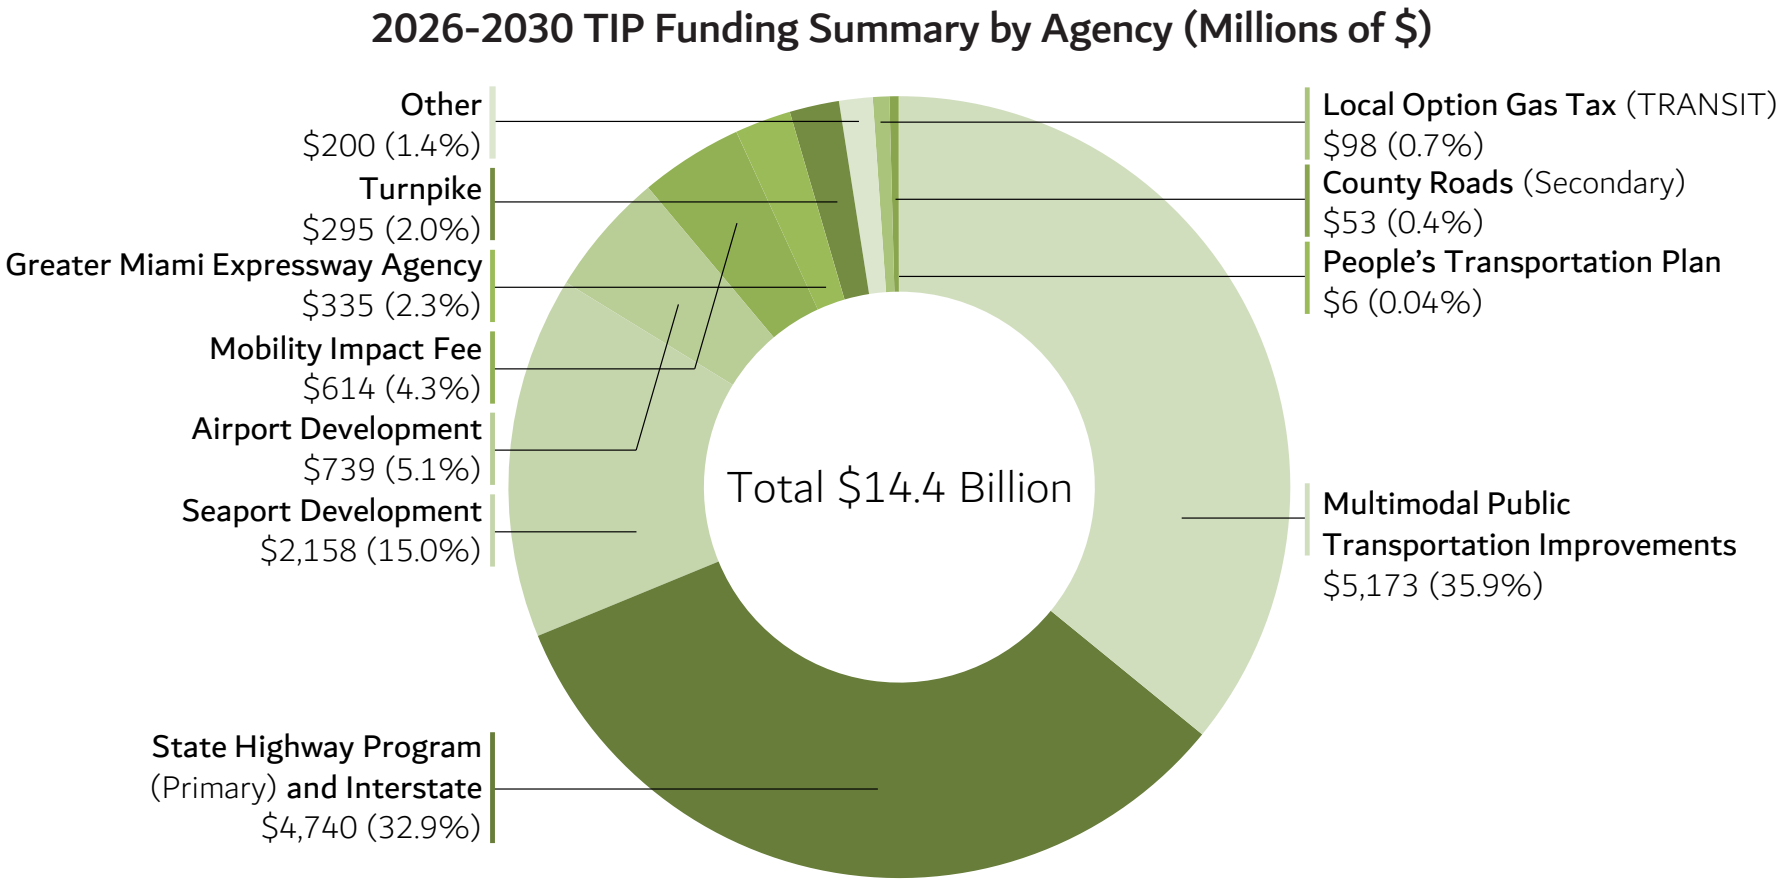

Figure 3: 2026-2030 TIP Funding Summary by Agency (Millions of $)

A breakdown by funding source is provided in this next figure. Local funding represents the largest share, with $6.4 billion (44.5%) allocated toward various projects. State sources contribute $4.8 billion (33.2%), while federal funding accounts for $2.6 billion (17.8%). Toll revenues provide an additional $663 million (4.6%). The chart highlights a diverse funding portfolio that combines state, local, federal, and toll-based revenues to support the region's transportation investments over the five-year period.

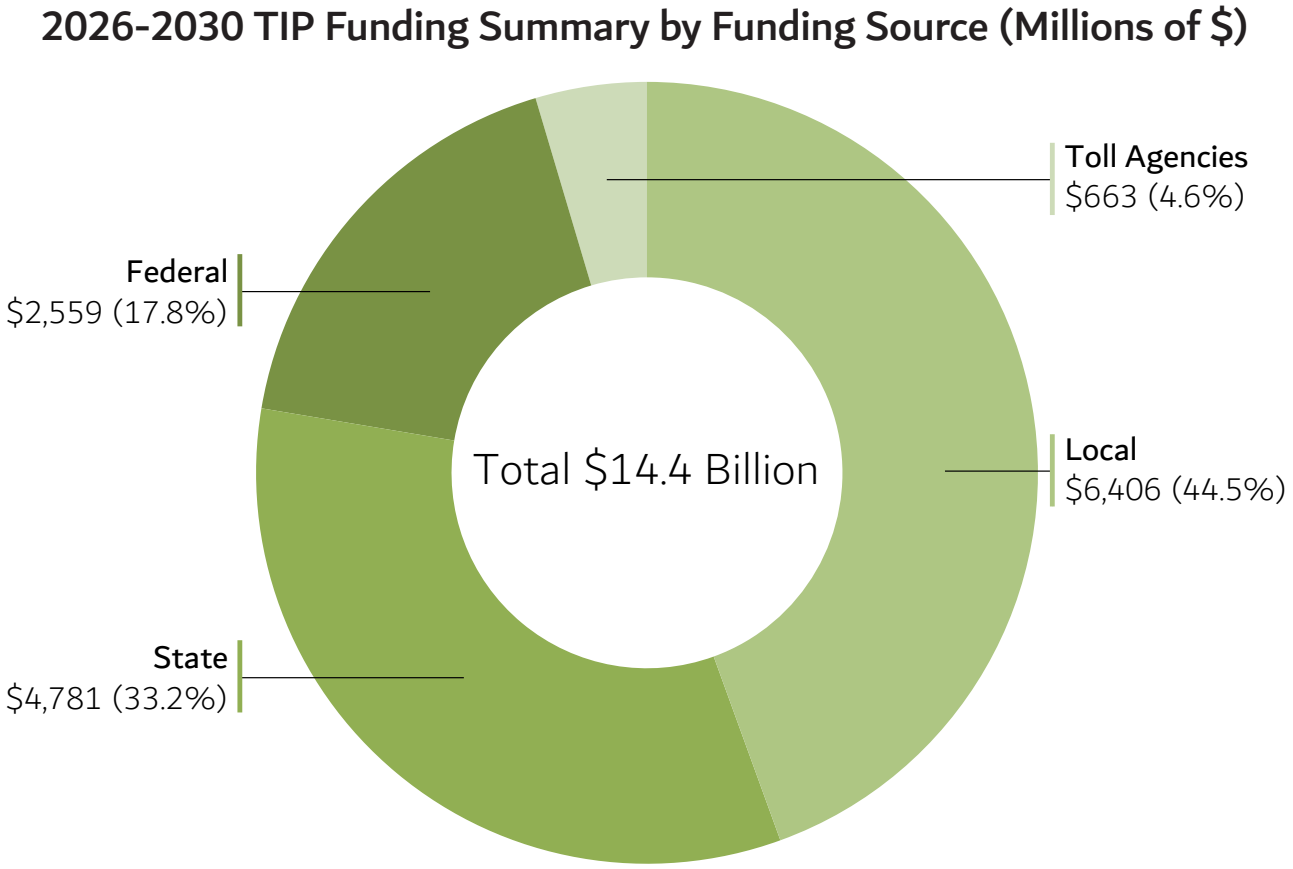

Figure 4: 2026-2030 TIP Funding Summary by Funding Source (Millions of $)

FEDERAL PERFORMANCE MEASURES OVERVIEW

Federal Performance Measures (PMs) were developed to address the Federal goals. Progress toward performance measures is reported in the LRTP every 5 years, and annually in the TIP. Beginning with the MAP-21 infrastructure bill, U.S. DOT issued a series of rulemakings that established performance measures tied to the national goals and general purpose areas [23 U.S.C. 150(c), 49 U.S.C. 5301]. The following pages reflect the trend of funding investment for PMs 1 through 3 over the last six TIPs. The TPO must design the TIP such that once implemented, it makes progress toward achieving the MPO's performance targets [23 CFR 450.326(c)], this section document.

The FHWA issued three performance measure rules that fall into the following categories:

Federal Performance Measure	Overview
PM 1: Highway Safety	Assesses road safety and facilitates the Highway Safety Improvement Program (HSIP). The HSIP is a federal aid funding program intended to achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
PM 2: Pavement and Bridge Condition	Requires state DOTs and MPOs to establish targets for pavement and bridge condition on Interstate and non-Interstate National Highway System (NHS) roads in each state. Pavement condition is assessed based on roughness, cracking, rutting, and faulting. Bridge condition is assessed by inspecting each bridge deck, superstructure, substructure, and culverts.
PM 3: System Performance	Assesses passenger and freight travel performance on the Interstate and non-Interstate NHS, and traffic congestion. This is calculated by percent of reliable person miles traveled (PMT) and Truck Travel Time Reliability (TTTR).

Additionally, FTA issued two performance measure rules that address transit asset management (TAM) and public transportation agency safety plans (PTASP). The FTA PMs are maintained through respective transit authrities and not included in this summary.

Figure 5 provides a high-level overview of how transportation investments are allocated across various project types and facility categories within the TIP. By examining both the number of projects and the associated funding over time, these performance measures offer valuable insight into regional priorities such as roadway safety, infrastructure preservation, system efficiency, and multimodal enhancements. The figures below display the number of TIP projects over time by category, including safety, pavement, bridge, system improvements, truck-related, transit, and other projects. The total number of projects varies by year, with a notable increase in safety and other category projects beginning in FY 2026-2030. This suggests broader investment in diverse or emerging needs, while core infrastructure areas such as pavement, bridges and transit remain steady. Not all projects can be associated with a Federal Performance Measure.

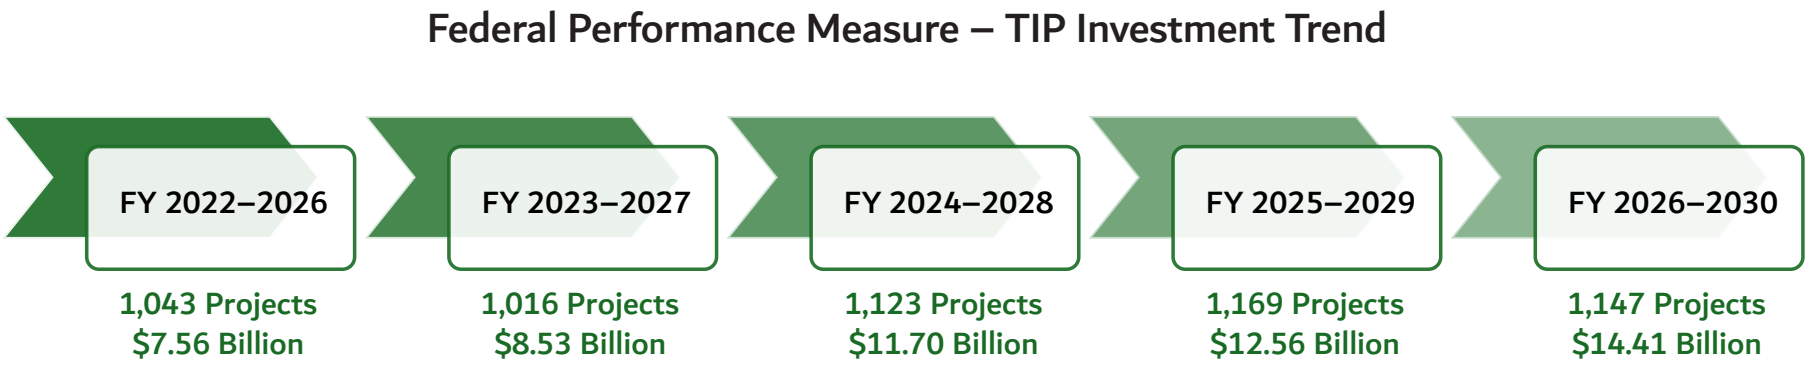

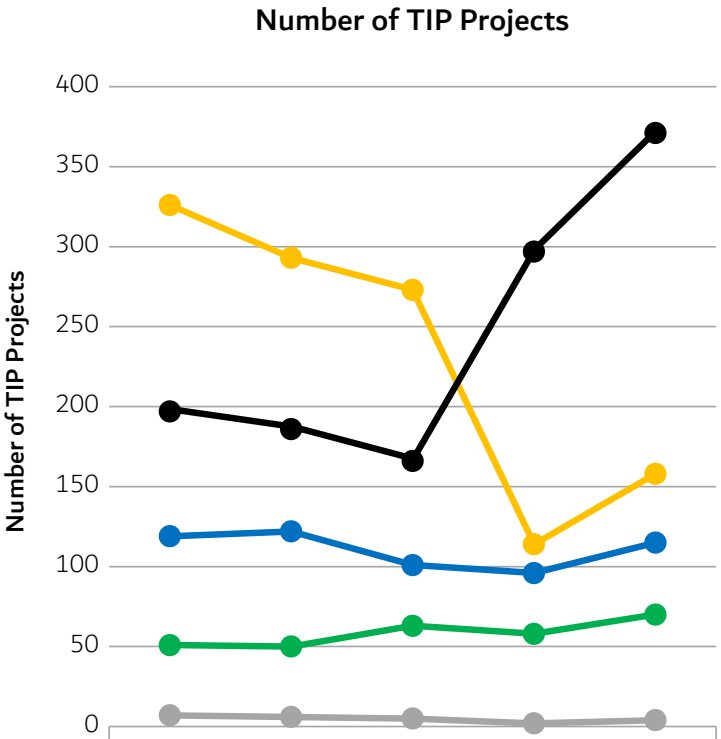

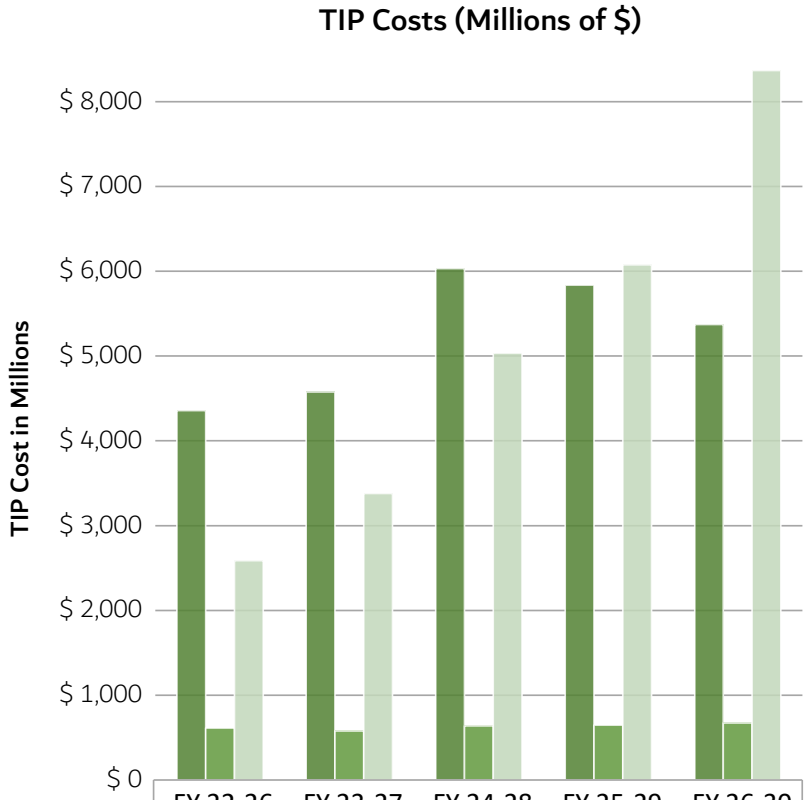

Figure 5: Federal Performance Measure – TIP Investment Trend

Federal Performance Measure – TIP Investment Trend Analysis

	FY 22-26	FY 23-27	FY 24-28	FY 25-29	FY 26-30
PM 1: Safety	197	186	166	297	371
PM 2: Pavement	119	122	101	96	115
PM 2: Bridge	51	50	63	58	70
PM 3: PMT	326	293	273	114	158
PM 3: TTTR	7	6	5	2	4

	FY 22-26	FY 23-27	FY 24-28	FY 25-29	FY 26-30
State Roads	$ 4,355	$ 4,576	$ 6,031	$ 5,837	$ 5,370
County Roads	$ 614	$ 580	$ 637	$ 649	$ 672
Other Modes and Projects	$ 2,586	$ 3,378	$ 5,034	$ 6,077	$ 8,368

Figure 6: Federal Performance Measure - TIP Investment Trend Analysis

HOW IS TRANSPORTATION PERFORMANCE MANAGEMENT BEING IMPLEMENTED?

The Moving Ahead for Progress in the 21st Century Act (MAP-21) included several provisions that collectively are transforming the Federal surface transportation program to be focused on the achievement of performance outcomes.

The performance outcomes provisions, administered by different agencies within the U.S. Department of Transportation (USDOT), were implemented by rulemakings, including several under FHWA's purview. The provisions are organized by six performance management elements.

The Fixing America's Surface Transportation (FAST) Act, signed in 2015, built on the MAP-21 changes and provided long-term funding certainty for surface transportation infrastructure planning and investment.

TPM performance management outcomes are grouped into six elements to more effectively communicate the efforts under way to implement the statutory requirements.

1. National Goals: Congressionally established goals or program purpose to focus the Federal-aid highway program into specific areas of performance.
2. Measures: FHWA-established measures to assess performance/condition in carrying out performance-based Federal-aid highway programs.
3. Targets: Targets established by Federal-aid highway funding recipients for the measures to document future performance expectations.
4. Plans: Development of strategic and/or tactical plans by Federal funding recipients to identify strategies and investments that address performance needs.
5. Reports: Development of reports by Federal funding recipients that document progress toward target achievement, including the effectiveness of Federal-aid highway investments.
6. Accountability and Transparency: FHWA-developed requirements for Federal funding recipients to use to achieve or make significant progress toward targets.

WHAT ARE THE FEDERAL PLANNING REQUIREMENTS?

Per 23 CFR §450.306 Scopes of the metropolitan transportation planning process, the metropolitan transportation planning process shall be continuous, cooperative, and comprehensive; consider the Federal Planning Factors, and provide a performance-based approach to decision making. Performance-based planning requires MPOs to establish performance targets that address the performance measures or standards of the National Performance Management Measures, Public Transportation Safety Program, and Transit Asset Management.

Per 23 CFR §450.324 Development and content of the metropolitan transportation plan, the MPO Long Range Transportation Plan (LRTP) shall include the following for the National Performance Management Measures:

- A description of the National Performance Management Measures and established performance targets used in assessing the performance of the transportation system.
- A System Performance Report evaluating the condition and performance of the transportation system, including progress achieved by the MPO in meeting performance targets.
- MPOs that voluntarily elect to conduct scenario planning shall describe how the preferred scenario has "improved performance of the transportation system. 23 CFR §450.324.

Additionally, per 23 CFR §450.326 Development and content of the transportation improvement program (TIP), the Transportation Improvement Program (TIP) shall make progress toward achieving performance targets and include a description of the anticipated effect of the

TIP toward achieving the performance targets identified by the MPO in the LRTP, linking investment priorities in the TIP to those performance targets.

RESOLUTION APPROVING FINAL TIP

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

Agenda Item 5.A.1

TPO RESOLUTION #09-2025

RESOLUTION APPROVING THE FINAL DRAFT FISCAL YEARS 2026-2030 TRANSPORTATION IMPROVEMENT PROGRAM

WHEREAS, the Interlocal Agreement creating and establishing the Metropolitan Planning Organization (MPO) for the Miami Urbanized Area requires that the Miami-Dade Transportation Planning Organization (TPO), in its role as the MPO, provides a structure to evaluate the adequacy of the transportation planning and programming process; and

WHEREAS, the Transportation Planning Council (TPC) has been established as the technical advisory council to the TPO Governing Board; and

WHEREAS, the Transportation Improvement Program is a federally required document which is to be updated annually and amended, as needed; and

WHEREAS, the TPC has reviewed the Final Draft Fiscal Years 2026-2030 Transportation Improvement Program (TIP), made a part hereof, and finds it consistent with the goals and objectives of the Transportation Plan for the Miami Urbanized Area,

NOW, THEREFORE, BE IT RESOLVED BY THE GOVERNING BOARD OF THE TRANSPORTATION PLANNING ORGANIZATION IN ITS ROLE AS THE MPO FOR THE MIAMI URBANIZED AREA, that the attached Final Draft Fiscal Years 2026-2030 Transportation Improvement Program, is hereby approved.

The adoption of the foregoing resolution was moved by Board Member Higgins. The motion was seconded by Board Member Desulme, and upon being put to a vote, the vote was as follows:

Chairman Anthony Rodriguez - Absent
Vice Chairman Eric Diaz-Padron - Aye

Board Member Roberto J. Alonso	- Aye	Board Member Eileen Higgins	- Aye
Board Member Marleine Bastien	- Aye	Board Member Eudaldo "Eddie" Lopez	- Aye
Board Member Juan Carlos Bermudez	- Aye	Board Member Steven D. Losner	- Aye
Board Member Danielle Cohen Higgins	- Absent	Board Member Kionne L. McGhee	- Absent
Board Member Alix Desulme	- Aye	Board Member Natalie Milian Orbis	- Aye
Board Member Christi Fraga	- Aye	Board Member Rodolfo Pages	- Aye
Board Member René Garcia	- Aye	Board Member Raquel A. Regalado	- Absent
Board Member Oliver G. Gilbert III	- Absent	Board Member Micky Steinberg	- Absent
Board Member Roberto Gonzalez	- Absent	Board Member David Suarez	- Absent
Board Member Keon Hardemon	- Absent	Board Member Francis Suarez	- Absent
Board Member Rodney Harris	- Absent		

The Chairperson thereupon declared the resolution duly passed and approved this 29th day of May 2025.

INTRODUCTION

TIP: PUTTING THE LONG RANGE TRANSPORTATION PLAN INTO ACTION

Picturing the projects contained in the 2050 LRTP for Miami-Dade County as a warehouse full of transportation projects for the next 20- plus years, the TIP is the vehicle that carries those projects to market. The TIP lists specific projects, the anticipated schedule, and cost for each project. Like the LRTP, projects in the TIP must be financially constrained, undergo a series of evaluations, and include opportunity for public comment. Once compiled, review of the TIP begins. During this period of time there is a 45-day public review.

The TIP is a "living" document. Frequently, projects may be added to meet changing priorities or to take advantage of a special opportunity. For this reason, the TIP may be changed after it is approved. It can be amended in order to add, change, or delete projects for a variety of reasons. Amendments to the TIP must undergo the same review and public scrutiny as the original TIP.

The joint annual FDOT/TPO certification was completed in April 2023. The TIP and TIP process are also reviewed during the FHWA/FTA TPO quadrennial certification. The Miami-Dade TPO's quadrennial certification took place in April 2023. The next quadrennial certification is anticipated to take place in 2027. Transportation Performance Management is fully integrated into the TPO planning process.

As the Performance Management process advances, the effectiveness of progress towards achieving the targets will be evaluated. The 2024 federal obligations for FDOT District Six projects are found listed in FDOT's Office of Work Program Annual Obligations Report at: FDOT - OFFICE OF WORK PROGRAM - ANNUAL OBLIGATIONS REPORT.

SOME BASIC FACTS ABOUT MIAMI-DADE COUNTY

POPULATION

With a 2020 Census population of more than 2.7 million, Miami-Dade County is the most populous county in Florida. By the year 250, the region's population is expected to climb to approximately 3.5 million. The number of households is expected to grow 37.4 percent, from 0.91 million to 1.25 million and the number of jobs in the county will increase from 1.3 million to over 1.8 million, between 2020 and 2050.

THE REGION

Miami-Dade County includes 641.46 square miles of urban development in 1,978 square miles of land area. The urban area encompasses thirty-four municipalities and the unincorporated area. The City of Miami is the County's most populous municipality, with a population of more than 442,291 inhabitants recorded in the 2020 census. There are 7 municipalities with populations over 50,000 and they are the City of Hialeah, City of Homestead, City of Miami, City of Miami Beach, City of Miami Gardens, City of North Miami, and City of Doral.

TRANSPORTATION NETWORK

Miami-Dade's transportation network includes 28 miles of interstate freeways, 112 miles of Turnpike and other freeways, 1,373 miles of major roadways, over 5,600 miles of local streets and roads, and 198 miles of shared-use paths. In all, that is over 7,000 miles that must be maintained, policed, cleaned, and frequently repaved or rebuilt. In addition, there are 918 bridges (584 on the State system and 334 off the State system), 122 miles of active railroad tracks including 273 rail crossings, one major airport, and one seaport.

PUBLIC TRANSPORTATION

Public Transportation services in the County are provided by the Miami-Dade DTPW, South Florida Regional Transportation Authority (SFRTA) and a number of municipalities. Miami-Dade Department of Transportation and Public Works operates the largest public transportation system in Florida, operating a fleet of 826 buses as well as Metrorail (the 24.8-mile elevated rail system) and Metromover (the 4.4-mile downtown people mover). DTPW's buses provide service throughout Miami-Dade County with local service extending into Broward County. DTPW contracts out 24 routes, with service extending into Monroe County. As of December 2023, DTPW Bus Operations directly operates 76 routes for a total of 23.8 million scheduled revenue miles and 2.9 million scheduled revenue miles for contracted bus routes. The annual boardings for the fiscal year 2022-2023 were 37.53 million for Metrobus; 11.56 million boardings for Metrorail and 5.47 million boardings for Metromover. SFRTA operates a 81-mile commuter rail system with 19 stations called Tri-Rail that connects Miami-Dade with Broward and Palm Beach Counties. Tri-Rail's new service connecting the SFRC at the Tri-Rail Metrorail Transfer Station, to the FECR corridor, into Downtown Miami at the "MiamiCentral Station" began on January 13, 2024. Tri-Rail is among the top ten commuter railroads in ridership in the U.S. Tri-Rail ridership increased by 18% and reached $3.9 million riders by the end of 2023.

HOW TO ACCESS THE TIP ON THE WEB?

The TIP document may be accessed through the website by visiting the TPO website at: https://www.miamidadetpo.org/tpo/home.page select "5 – Year Plan TIP" and click on the final report on the right-hand side of the screen.

TPO Home Page

TPO TIP Page

THE TIP'S MECHANICS

WHY IS THERE A TIP?

The U.S. DOT will not approve use of federal funds for an improvement unless the project is identified in the TIP. Inclusion in the TIP does not, however, guarantee federal funding. The TIP is fiscally constrained with reasonable estimates of project costs balanced against anticipated funding. Projects not funded by the federal government are included in the TIP to provide a more comprehensive picture of the proposed allocation of transportation funds in the region.

WHO PREPARES THE TIP?

The TIP is prepared by the TPO in cooperation with local transportation agencies. The TPO is the agency designated by the Governor of the State of Florida and certified by the federal government to carry out metropolitan transportation planning.

The TIP is one of the TPO's responsibilities.

HOW DOES THE TIP WORK?

1. The first year is current (the funded annual element); the remaining four are future.
2. Each year adds a new fifth year and advances a new annual period to current funded status.

Photo by Miami-Dade County Photographers

3. Identifies funding levels, by source and type, and whether funds are to be used for: road capacity, preservation, bridges, transit capital, safety, non- motorized, right-of-way, study or other.
4. Improvements in the TIP are based on TPO-established priorities from the LRTP.
5. The TIP is consistent with the currently adopted 2050 LRTP.

TIP CONSISTENCY

The TIP must be consistent with the LRTP.

WHAT FISCAL YEARS DOES THIS TIP INCLUDE?

This TIP covers fiscal years 2026 to 2030. Fiscal years spanned are 2026, 2027, 2028, 2029, and 2030. Fiscal years, as opposed to calendar years, begin on July 1 and end on June 30 .

Fiscal Year 2026	begins July 1, 2025 and	ends June 30, 2026
Fiscal Year 2027	begins July 1, 2026 and	ends June 30, 2027
Fiscal Year 2028	begins July 1, 2027 and	ends June 30, 2028
Fiscal Year 2029	begins July 1, 2028 and	ends June 30, 2029
Fiscal Year 2030	begins July 1, 2029 and	ends June 30, 2030

WHAT DOES THE TIP INCLUDE?

The TIP includes a listing of transportation improvement projects by Fiscal Year for the Miami-Dade County region for the next five fiscal years.

WHAT MAJOR PROJECT OR PROJECTS OF COUNTYWIDE SIGNIFICANCE ARE IN THE TIP?

Major projects and projects of countywide significance are referenced in the Citizen's TIP in each agency's section.

THE TIP'S TECHNICALITIES

WHO MUST APPROVE THE TIP LOCALLY?

The TTPO Governing Board must approve the TIP.

WHO MUST APPROVE THE TIP AT THE STATE LEVEL?

The Governor of the State of Florida must approve the TIP before the document becomes part of the State Transportation Improvement Program (STIP).

WHO MUST APPROVE THE TIP AT THE FEDERAL LEVEL?

The FHWA and the FTA approve the TIP for funding purposes.

WHERE DOES THE TPO GET ITS AUTHORITY?

Federal Law: From Title 23 U.S. Code -- "To carry out the transportation planning process a Metropolitan Planning Organization (MPO) shall be designated for each urbanized area with a population of more than 50,000 individuals". In 1973, the Federal Transportation Act mandated that each urbanized area with 50,000 or more in population establish an MPO. Federal law required that the Governor of the state designate the agency to serve as the MPO.

State Law: From 339.175 Florida Statues: "It is the intent of the Legislature to encourage and promote the safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people and freight..." To accomplish these objectives, MPOs shall develop plans and programs that "must provide for the development and integrated management and operation of transportation systems and facilities, including pedestrian walkways and bicycle transportation facilities that will function as an intermodal transportation system for the metropolitan area."

ADMINISTRATIVE TIP AMENDMENT BETWEEN THE START OF THE STATE AND FEDERAL FISCAL YEARS

An administrative TIP Amendment is an amendment that does not have to go to the full TPO Board for approval. FHWA and FTA will allow an administrative TIP Amendment during the three-month gap between the start of the new State fiscal year and the end of the old Federal fiscal year (July 1 to September 30) for new projects that were added during the Tentative Work Program development cycle.

In these instances, the TIP must be amended to include the project, but FHWA and FTA have agreed to allow the TPO Executive Director to process an Administrative TIP Amendment for these types of projects rather than having to go before the full Board. FHWA and FTA will allow this only under the following conditions:

- The amendment takes place between July 1 and September 30;
- The project must appear in the amendment exactly as it appears in the newly adopted TIP; and
- The TPO Director has been authorized by the Board to approve administrative TIP Amendments.

STRATEGIC MIAMI AREA RAPID TRANSIT PLAN

On February 18, 2016, the TPO Governing Board approved Resolution #06-16, establishing a policy to set as highest priority the advancement of rapid transit projects in Miami-Dade County. As a result, the Miami-Dade TPO Governing Board approved on April 21, 2016, Resolution #26-16 endorsing the Strategic Miami Area.

Strategic Miami Area Rapid Transit (SMART) Plan and directing the TPO Executive Director to work with the TPO's Fiscal Priorities Committee to determine the costs and potential sources of funding for Project Development and Environmental (PD&E) study for said projects.

The TPO Executive Director was further directed to take all necessary steps to implement the SMART Plan, which consists of:

- North Corridor (NW 27 Avenue)
- Beach Corridor
- East-West Corridor
- South Dade Transitway
- Northeast Corridor
- Kendall Corridor

In addition to the six (6) rapid transit corridors, the SMART Plan includes the implementation of the following express bus network along:

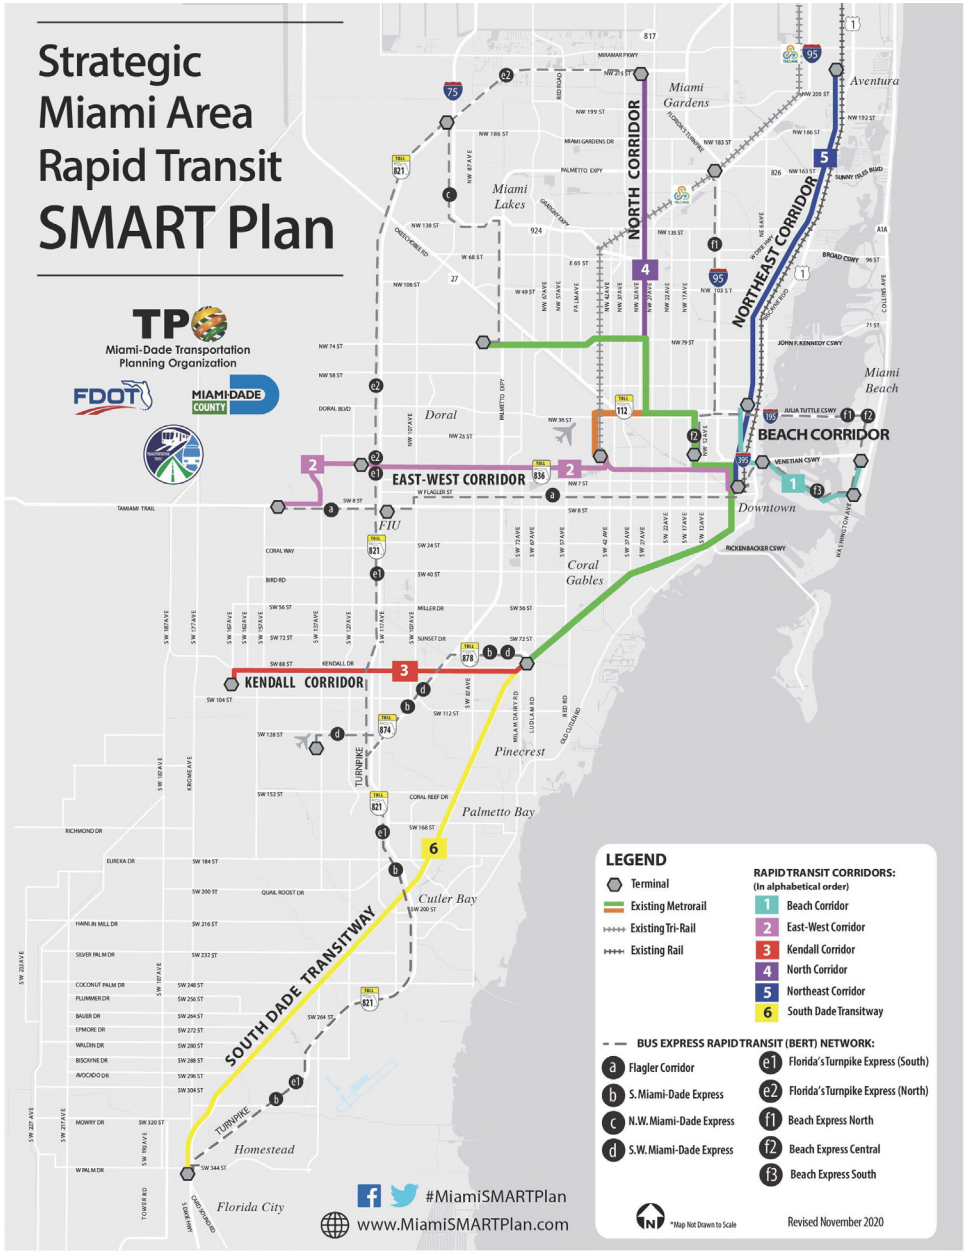

- **Route a** - Flagler Corridor - from 107 Avenue to Government Center with two branches west of 107 Avenue - along NW 12 Street to Dolphin Station at approximately NW 122 Avenue and along SW 8 Street to Tamiami Station at SW 147 Avenue.
- **Route b** - South Miami-Dade Express - express bus route from the SW 344 Street Park-and-Ride / Transit Terminal Facility along the HEFT to the Dadeland North Metrorail Station with an intermediate stop at a future Turnpike / SW 288 Street Park-and-Ride Station.
- **Route c** - NW Miami-Dade Express - from I-75 at Miami Gardens Drive Station to Palmetto Metrorail Station along SR 826.
- **Route d** - SW Miami-Dade Express - from Miami Executive Airport to Dadeland North Metrorail Station along SR 874 and SR 878.
- **Route e1** - Florida's Turnpike Express (South) - from the SW 344 Street Park-and- Ride / Transit Terminal Facility along the Turnpike to Panther and Dolphin Stations.

- **Route e2** - Florida's Turnpike Express (North) - from the FIU Panther Station to the Dolphin Station and along the Turnpike to the I-75 / Miami Gardens Drive Station and to the Unity Station / NW 215 Street.
- **Route f1** - Beach Express North - from Golden Glades Intermodal Terminal to the Earlington Heights Metrorail Station, the future Mount Sinai Transit Terminal, and the Miami Beach Convention Center area.
- **Route f2**- Beach Express Central - from Civic Center Metrorail Station to the Miami Beach Convention Center area.
- **Route f3** - Beach Express South - from Miami Central Station to the Miami Beach Convention Center area.

PUBLIC INVOLVEMENT

Public involvement for the development of the TIP is received through regularly scheduled meetings of the TPO Governing Board and its advisory committees. A typical TIP Development cycle, in Miami-Dade County, follows the following timeline:

- The TIP process begins at the start of each federal fiscal year on October 1st. FDOT District 6 and Florida's Turnpike Enterprise presents to advisory committees a very Tentative Five-Year Work Program document.
- During the month of November, the Citizen's Transportation Advisory Committee (CTAC) and the TIP Development Committee endorse the Tentative Five-Year Work Program. November public hearings are also scheduled for review and input to the FDOT District 6 Tentative Work Program in Miami-Dade and Monroe Counties.

INTRODUCTION

- In December, the Transportation Planning Council (TPC) and the TPO Governing Board endorse the Tentative Five-Year Work Program.
- By mid- December, the Interactive TIP web tool opens to county transportation stakeholder agencies.
- During the months of January through March of each year, the TIP Development Committee meets weekly to advance, review and approve a Draft TIP. These meetings are open to the public.
- By Mid-March to early April of each year, a printed Draft TIP Program document is available for Public review and input at the TPO Office. The Draft TIP is posted prominently on the TPO website at: http://www.interactip.com/ under TIP 2026 Documentation.
- By the end of April, an Executive Summary – Citizen's Version document is sent to CTAC and the TPC and a Draft TIP is posted to the TPO website for review and comment by the public. The Executive Summary – Citizen's Version is a user-friendly color booklet that condenses the big picture projects of that year's TIP, provides pictures, renderings and educates user as to what is the TIP and what projects are underway and which ones have been completed from the previous year's TIP. The current 2026 Executive Summary – Citizen's Version is prominently posted on the TPO website at: Approved FYs 2026-2030 Executive Summary Citizen's Version.
- Parallel to these efforts, the TPO has regularly scheduled meetings with the community where the Draft TIP is distributed. Favorable verbal comments have been received and citizens have expressed their continued interest in tracking major projects via a user-friendly interface.
- The Draft TIP is typically included as an information item on or around the May meeting agendas of the CTAC. This meeting is open to public for comments and input.
- CTAC initial review of the Draft FY 2026-2030 TIP took place this year at their April 9, 2025, meeting. TPC initially reviewed at their April 14, 2025, meeting.
- The TIP was advertised for public hearing.
- The Final Draft TIP was presented for approval on the May agendas of the CTAC and TPC committees, respectively. These meetings are open to the public.
- TPC approved the FY 2026-2030 TIP at their May 19, 2025, meeting.
- CTAC approved the FY 2026-2030 TIP at their May 14, 2025, meeting.

BICYCLE ACCOMMODATIONS LEGEND

CODE	NAME
Bike Lane	A bike lane is a portion of a roadway that is designated by signs and markings for preferential use by bicyclists.
Paved Shoulder	A paved shoulder is a portion of a roadway that has been delineated by edge line striping and may include bicycle lane pavement markings or signing.
Wide Curb Lane	A wide curb lane is a through lane that provides a minimum of 14 feet in width which allows most motor vehicles to pass cyclists safely within the travel lane.
Other Shared Use Path/ Paved Trails	A paved path that is physically separated from the road and is designed to accommodate two-way bicycle and pedestrian traffic. Sidewalks do not meet the width and operational criteria for multi-use paths.
Sharrow	An optional pavement marking used to indicate a shared environment for bicycles and motor vehicles. Sharrows are used where it is not practical to provide a bicycle facility. Note that a sharrow is not a bicycle facility.

PART 1: 4-YEAR FEDERALLY FUNDED PROJECTS

Purpose, Contents & Concluding Statements

PURPOSE OF THIS SECTION

The Infrastructure Investment and Jobs Act (IIJA) (Public Law 117-58) provides approximately $350 billion for Federal highway programs over a five-year period (fiscal years 2022 through 2026). Most of this funding is apportioned (distributed) to States based on formulas specified in Federal law. However, the IIJA also provides funding through a wide range of competitive grant programs. The intention of this section of Miami-Dade County's FY 2025/2026-2029/2030 TIP is to illustrate how the TPO's priorities are to be funded, by Federal funding category, and by fiscal year. Specifically, this section addresses the requirements for TIP development as cited in Title 23 USC Section 134 (subsections (h) 2 and (i) 4). Per the new Federal Administration, subsequent legislation is pending.

CONTENTS OF THIS SECTION

This section contains the project listings by major funding category. Projects are identified by Work Program Item Numbers and show the corresponding project description, type of work and funding for each of the first four (4) years of the TIP.

CONCLUDING STATEMENTS

- This section is presented in order to fulfill federal requirements as noted in Section 134 of Title 23, United States Code (ISTEA).
- Only major categories of federal funds are highlighted in this section.
- Only the first four years of the TIP (FY 2026/2027, 2027/2028, 2028/2029, and 2029/2030) are included in this section.
- The projects shown in this section are consistent with the FDOT District VI Adopted Work Program.
- Federal funds can reasonably be expected to be made available for all projects included in this section.

All information contained in this section is consistent with the adopted TIP attached hereto.

PART 2: 5-YEAR PROJECT LISTING
STATE TRANSPORTATION SYSTEM AND MAJOR PROJECTS

Florida Department of Transportation, District 6

The FDOT's Compass helps connect the work FDOT is doing to what matters most to our communities. The FDOT Compass centers on Communities, with five pillars surrounding them: Safety, Resilience, Supply Chain, Technology, and Workforce Development. These pillars establish the baseline for every project, plan, and investment. This allows FDOT to build transportation infrastructure that embraces the unique character of each community across the state.

This section of the TIP focuses on the State Transportation System and Major Projects located within Miami- Dade County. The projects listed include improvements to highways, transit, aviation, rail, seaport, freight, and bicycle/pedestrian modes over the next five fiscal years.

STATE TRANSPORTATION SYSTEM AND MAJOR PROJECTS

The FDOT District Six section provides an overview of the following topics:

- The FDOT Five-Year Work Program
- The Work Program Cycle
- Programs and Funding
- Strategic Intermodal System (SIS) Projects
- PD&E Studies
- Other Major Corridor Improvements / Resurfacing Projects
- Transportation Systems Management & Operations (TSM&O)
- Bicycle/Pedestrian Improvements
- Modal Development

FDOT'S FIVE-YEAR WORK PROGRAM

The FDOT District Six Work Program is a major component of the Miami-Dade TPO's TIP. The Work Program, which is updated annually, is a project specific list of transportation activities and improvements that the FDOT will undertake during the next five years. It is developed by District Six in cooperation with the Miami-Dade TPO and is consistent with the 2050 LRTP, and TPO priorities. The projects must also meet the objectives of the Florida Transportation Plan (FTP). The first three years of the Adopted Work Program represent a commitment that local governments may rely on for planning purposes, and for the development of capital improvement elements of the local government comprehensive plans.

*All renderings used in this report are subject to change as they continue through the project phase and may not denote the final product.

THE WORK PROGRAM CYCLE

In the summer of 2024, FDOT began the new cycle to develop the Tentative Work Program for Fiscal Years (FY) 2026 - 2030. FDOT coordinates the development of the Work Program with the TPO's TIP Committee to process and receive input through public hearings. The Tentative Work Program is then sent to the Governor's Office, Legislature, Florida Transportation Commission and the Department of Economic Opportunity for review and it will become effective as the Adopted Work Program on July 1, 2025.

PROGRAMS AND FUNDING

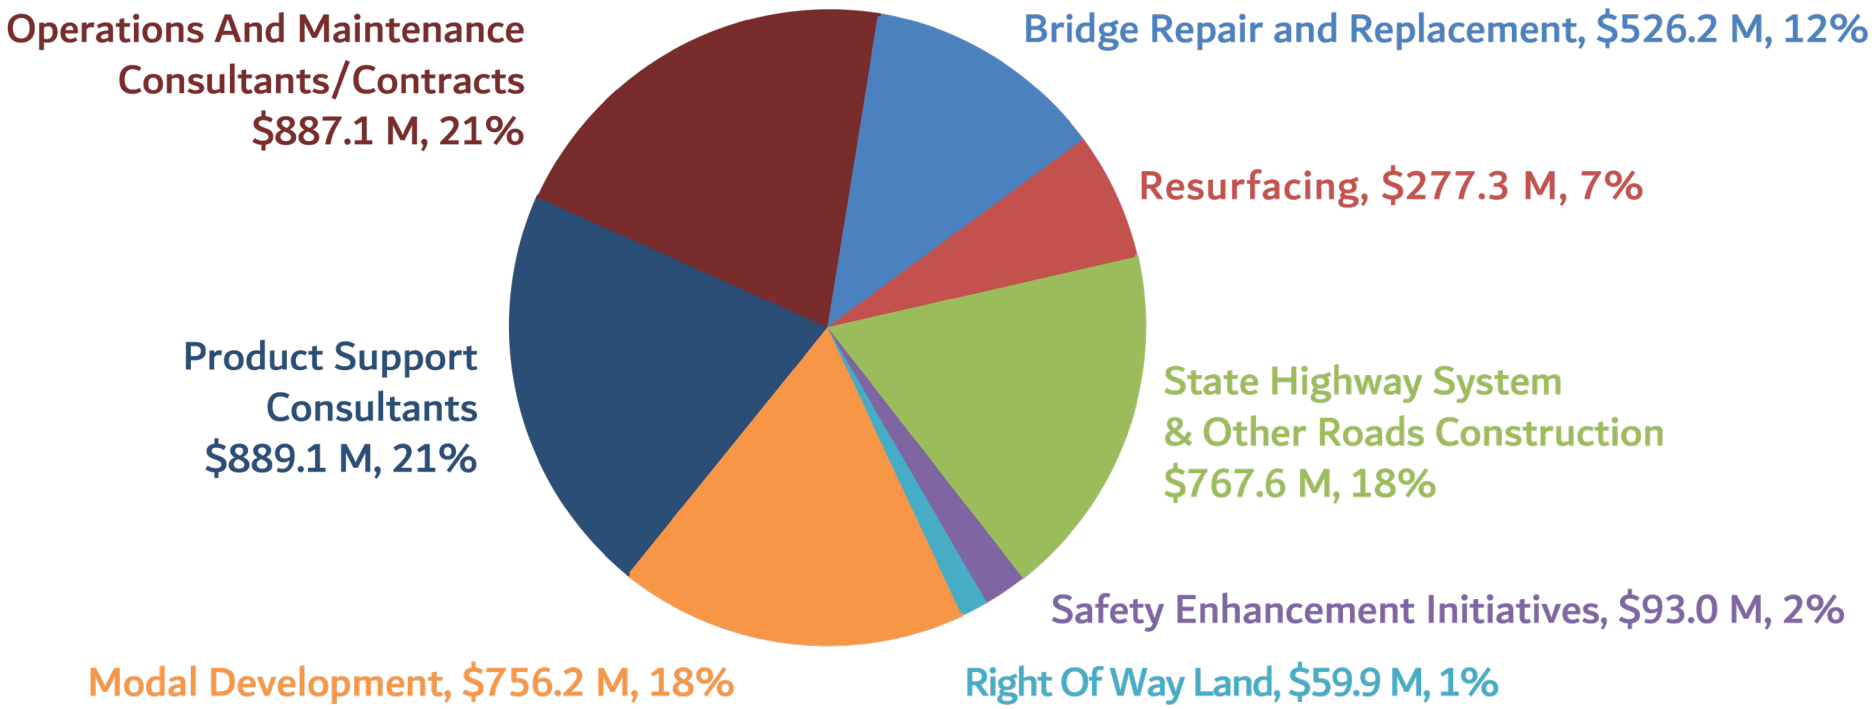

Program Descriptions — For budgeting purposes, the FDOT's Work Program comprises of eight budget categories. Programs are listed below:

- Safety Enhancements Initiatives
- Resurfacing
- Bridge Repair & Replacement
- State Highway System & Other Roads Construction
- Right of Way (ROW) Land
- Product Support Consultants
- Operations & Maintenance Consultants/Contracts
- Modal Development

Funding Overview — FDOT's funds are allocated among seven Districts statewide and the Florida Turnpike Enterprise. In Miami-Dade, the FDOT in consultation with the Miami-Dade TPO, determines the best use of Miami-Dade's share of funding. The FDOT's resources are primarily from federal and state dedicated sources. The State Transportation Trust Fund and the Federal Highway Trust Fund receive revenue from specific tax sources for transportation purposes. Additional funding for Work Program projects comes from local and discretionary sources. By statute, the FDOT must develop a program that is balanced with cash and revenue forecasts..

FDOT District Six, Total Budget Breakdown, Tentative Five-Year Work Program — FDOT District Six, Total Budget Breakdown, Tentative Five-Year Work Program - Fiscal Years 2026-2030— As shown in the Total Budget Breakdown chart below, the majority of the FDOT's $4.26 billion budget is applied to the Product Support Consultants, in the amount of $889.1 million.

TOTAL FIVE (5) YEAR TENTATVE WORK PROGRAM
$4.26 BILLION

SIS PROJECTS

The Florida Legislature established the SIS to enhance Florida's transportation mobility and economic competitiveness. The SIS consists of a network of high-priority transportation facilities which include commercial airports, spaceports, deep water seaports, freight rail terminals, passenger rail, intercity bus terminals, rail corridors, waterways, and highways. These facilities represent the state's primary means for moving people and freight between Florida's diverse regions, between states and nations. The following are major SIS improvement projects in Miami-Dade County:

GOLDEN GLADES INTERCHANGE (GGI) RECONSTRUCTION

The FDOT District Six and FTE have completed the design of several roadway projects within the GGI in Miami-Dade County. Some enhancements to the GGI Interchange include several miles of roadway and ramps. The overall project will help increase the regional connectivity to this major interchange. The following benefits are included in this project:

The project area consists of the following five major facilities: State Road (SR) 9A/I-95, SR 826/Palmetto Expressway, SR 91/Florida's Turnpike, SR 9 and SR 7/US 441/NW 7 Avenue.

The scope of the project includes the following:

- Milling and resurfacing the Palmetto Expressway between NW 17 Avenue and the GGI,
- Providing a direct connection flyover ramp from eastbound Palmetto Expressway to northbound I-95,
- Relocating NW 12 Avenue entrance ramp to I-95,
- Rebuilding and realigning various ramps throughout the interchange to meet current standards,
- Rebuilding and widening northbound and southbound I-95 from the GGI to Miami Gardens Drive to accommodate future express lanes,
- Rebuilding Florida's Turnpike Connector at the intersection of NW 2 Avenue and NW 167 Street,
- Widening the southbound lanes of the Turnpike Connector to accommodate two lanes from Florida's Turnpike and three lanes from eastbound Palmetto Expressway to southbound I-95,
- Providing a direct express lane connection from Florida's Turnpike to the southbound I-95 Express Lanes,
- Relocating the SR 7 exit ramp from southbound I-95,
- Rebuilding the westbound Palmetto Expressway bridge and entrance ramp to enhance access from Florida's Turnpike,
- Widening southbound I-95 from Biscayne Canal to NW 135 Street to accommodate an additional lane for the southbound Turnpike Connector,
- Rebuilding the pedestrian bridge at NW 147 Street to enhance pedestrian safety for Thomas Jefferson Middle School, Biscayne Gardens Elementary and the surrounding communities,
- Rebuilding toll gantry,
- Rebuilding and widening I-95 to provide a direct connection from northbound I- 95 Express Lanes to Florida's Turnpike,
- Rebuilding ramp connections to meet current standards.

GGI Improvements

Northeast View through the Core of the GGI

Construction of “Ramp O” Southbound Off-ramp from I-95 to US-441/NW 7 Avenue

Southwest Wiew through the Core of the GGI

The construction of the GGI project began March 18, 2024. For more information on the project, please visit: https://go-ggi.com/

PD&E STUDIES

SR 9A/I-95 FROM SOUTH OF MIAMI GARDENS DRIVE TO NORTH OF BROWARD COUNTY LINE

I-95/SR 9 PD&E STUDY

The PD&E study for I-95/SR 9 from Miami Gardens Drive to the north of Broward County Line will evaluate potentially providing additional express and/or general use lanes on I-95/SR 9 from south of SR 860/Miami Gardens Drive to north of the Broward County Line and implementing interchange improvements at SR 860/Miami Gardens Drive and CR 854/ Ives Dairy Road within Miami-Dade County. The following benefits are included in this project:

SAFETY · TECHNOLOGY · WORKFORCE DEVELOPMENT · RESILIENCY · COMMUNITIES · SUPPLY CHAIN

Overall, the project will offer enhanced mobility options for motorists and transit users as it will provide additional capacity along the I-95/SR 9 corridor throughout northern Miami-Dade County. Consistent with the existing managed lanes system on I-95/SR 9, the additional express lanes are anticipated to operate using variable toll pricing based on congestion to optimize traffic flow.

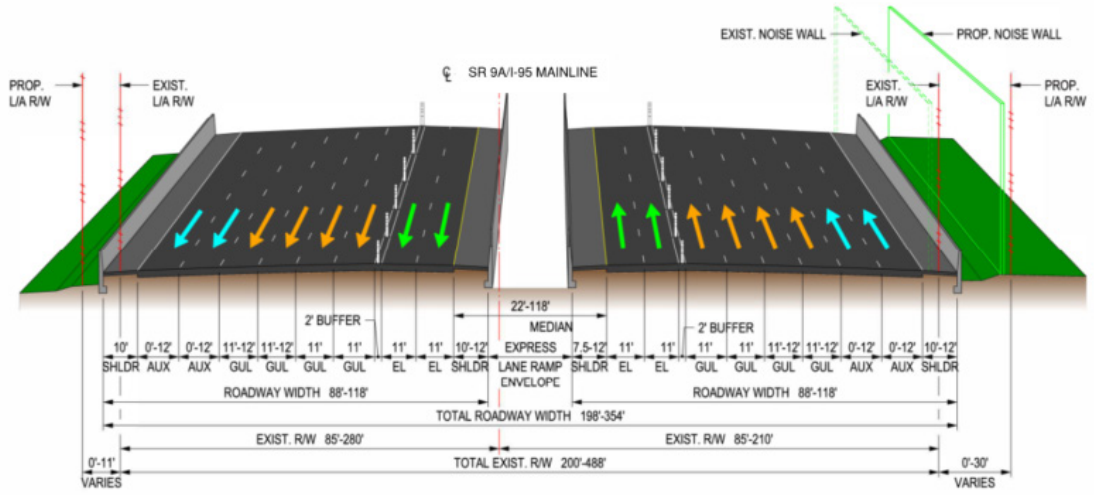

The PD&E study has the following project objectives:

- Address the deficient operational capacity and relieve existing/future congestion along the SR 9A/I-95 corridor.
- Preserve the operational integrity and regional functionality of SR 9A/I-95 (and, therefore, the regional transportation network) by complementing similar corridor improvements throughout Miami-Dade, Broward, and Palm Beach Counties.
- TeamGEnhance emergency evacuation and response times.

The PD&E is estimated to be completed by October 2025.

For information related to the project, visit:
www.southflroads.com/i95northPDE

I-95/SR 9A I-95/SR 9A Mainline and Express Lanes Proposed Typical Section

9A/I-95 FROM SOUTH OF NW 62 STREET TO NORTH OF NW 143 STREET

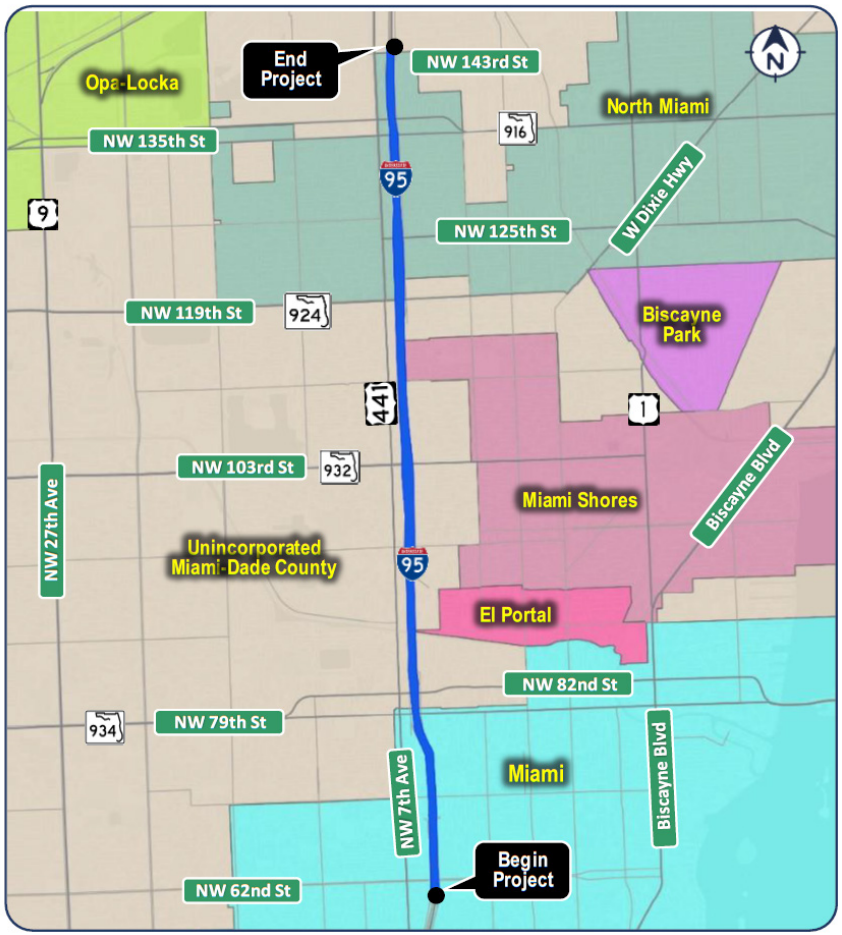

The FDOT, District Six, has initiated a PD&E Study for the SR 9A/I-95 Corridor from south of NW 62 Street to north of NW 143 Street. The study is located north of the SR 112/I-195 interchange and south of the GGI in northern Miami-Dade County, Florida. This PD&E Study builds on the I-95 Corridor Planning Study completed in 2019 by FDOT and will further evaluate, develop concepts, and provide information necessary for FDOT to reach a decision on the location and conceptual design to meet the following project's Purpose and Need:

- Address the operational deficiencies to relieve current and anticipated future congestion along the SR 9A/I-95 corridor.
- Preserve the operational integrity and regional functionality of SR 9A/I-95
- Enhance emergency evacuation and response times.
- Enhance safety and mobility needs of the community.

This PD&E Study started in June 2024 and is expected to be completed in late 2027. The design and construction phases have not yet been funded. Preliminary construction costs will be developed during the PD&E phase. The following benefits are included in this project:

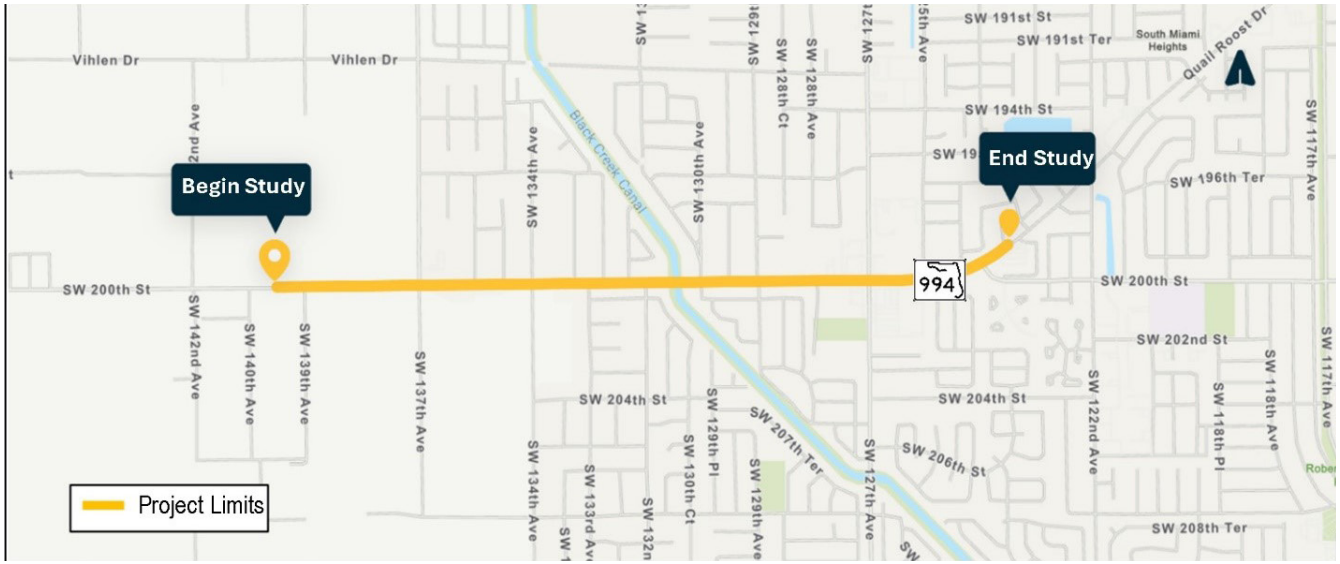

For more information on the project, please visit:
https://www.fdotmiamidade.com/sr9apde

SR 9A/I-95 from South of NW 62 Street to North of NW 143 Street Project Location

SR 994/SW 200 STREET/QUAIL ROOST DR FROM WEST OF SW 137 AVENUE TO EAST OF SW 127 AVENUE PD&E

A PD&E Study is being conducted by the FDOT to evaluate the potential impacts of widening SR 994/SW 200 Street/Quail Roost Drive from west of SW 137 Avenue to east of SW 127 Avenue from two lanes to four lanes. The project corridor is approximately 1.67 miles in length.

SR 994/SW 200 Street/Quail Roost Drive PD&E Study Project Limits

The following benefits are included in this project:

In addition to the potential widening, the proposed roadway improvements may include operational enhancements at the existing intersections, removal, and replacement of the bridge structure (No. 870633) over Black Creek Canal (C-1W), access management measures, and stormwater management facilities. The PD&E Study evaluates typical section alternatives based on design criteria, safety, and operational needs, and the minimization of environmental effects and right-of-way needs. The PD&E Study evaluates the provision of ADA compliant facilities as well as new/enhanced pedestrian and bicycle infrastructure. Improvements at four intersections/cross streets are also proposed as part of this project:

- SR 994 and SW 137 Avenue
- SR 994 and SW 134 Avenue
- SR 994 and SW 132 Avenue
- SR 994 and SW 127 Avenue

The purpose of this project is to address traffic operations and capacity constraints on SR 994 to accommodate future travel demand projected because of population and employment growth along the corridor. Other goals of the project are to:

1. Improve multimodal safety conditions along the corridor, including emergency evacuation and response times, and
2. Enhance mobility options and multimodal access.

Preferred Alternative Typical Section

Bicycle and Pedestrian Facilities

Black Creek Trail Underpass Crossing

The PD&E Study started in June 2021 and is expected to be completed in April 2025. The estimated construction cost is $38 million. After completion of the PD&E phase, the preferred alternative will move to the final design phase.

For more information, visit https://www.fdotmiamidade.com/QuailRoostPDE.html

SR 826 / PALMETTO EXPRESSWAY SOUTH

The PD&E Study aims to evaluate multiple alternatives, considering their potential impacts on traffic, engineering, environment, social factors, economics, costs, and benefits. FDOT commissioned this PD&E Study to conceptually assess a potential interchange connection to I-75, located between SR 860/Miami Gardens Drive and NW 138 Street. Two alternative interchange designs have been proposed to address spacing concerns, serve the local community, and ensure access for all traffic movements.

1. The first concept is a Full Collector-Distributor (CD) System, which would introduce a one-way, north-south frontage road (or CD road) adjacent to both sides of I-75. This two-lane frontage road would extend from SR 860/Miami Gardens Drive to NW 138 Street, linking to the existing I-75 on- and off-ramps. It would offer grade-separated access for traffic on NW 170 Street and NW 154 Street, allowing drivers to use the frontage road to reach I-75.
2. The second concept is a Loop Interchange, which would be located between NW 170 Street and NW 154 Street. The Design would provide direct access to I-75 for traffic traveling to and from both streets. A one-way loop circulator roadway system would be constructed between NW 170 Street and NW 154 Street, parallel to I-75. This loop road would consist of two lanes, with new on- and off- ramps to the northbound and southbound I-75 placed between the two streets.

The need for this project is driven by the following goals:

- Traffic Congestion Relief: Addressing concerns related to traffic congestion along the 3-mile segment of I-75 in northwest Miami-Dade County.
- Any new or modified access to an existing interstate requires a comprehensive evaluation of engineering and environmental factors before agency approval.
- This PD&E Study will provide the necessary analysis to support that process.

The PD&E focus areas include safety, workforce development, resiliency, technology, robust supply chain, and communities.

Safety:
Both the Full CD System and Loop Interchange are designed to reduce congestion, which would enhance overall traffic flow and decrease the likelihood of accidents caused by traffic backups and bottlenecks. The Full CD System would provide grade-separated access for traffic on NW 170 Street and NW 154 Street, which reduces conflict points between cross street traffic and highway traffic, improving safety for both local and highway users. Additionally, the Loop Interchange design would provide direct access to I-75 from NW 170 Street and NW 154 Street, minimizing the need for drivers to merge or navigate complex interchanges, further reducing the potential for collisions.

Communities:
By reducing traffic congestion and improving connectivity, these interchange improvements would make it easier for the workforce to access employment centers in the region. Shorter commute times could lead to increased workforce participation and retention. The development of these interchange alternatives would create job opportunities during the construction and ongoing maintenance phases. Skilled workers would be needed for engineering, construction, and other related sectors.

Workforce Development:
The PD&E supports workforce development by enabling better access to employment opportunities. A more reliable highway will improve transportation for workers, especially in high-demand areas. Additionally, the project offers opportunities for local labor in construction, monitoring, and data collection, supporting skill development in the workforce.

Technology:
Traffic flow improvements and congestion alleviation may be supported by advanced technologies to collect and analyze traffic data; this could inform future transportation planning decisions and improve overall system performance. Modern interchanges often incorporate advanced traffic management technologies such as smart traffic signals, real-time traffic monitoring systems, and vehicle-to-infrastructure communication. These technologies could be integrated into the new access designs, enhancing the overall efficiency and safety of the road network.

Robust Supply Chain:
The I-75 corridor is a critical route for regional and national freight movement. The proposed interchange improvements would facilitate smoother traffic flow for freight vehicles, reducing delays and improving the efficiency of supply chain logistics in the region. In addition to that, by improving access to I-75, businesses relying on freight transport would be able to better connect to major distribution centers and markets, potentially reducing costs associated with delivery delays.

Resiliency:
The existing drainage system will be analyzed to accommodate the improvements, the interchange design could incorporate features such as flood management systems, and stormwater drainage to effectively manage runoff.

The existing drainage system will be analyzed to accommodate the improvements, the interchange design could incorporate features such as flood management systems, and stormwater drainage to effectively manage runoff.

OTHER MAJOR CORRIDOR IMPROVEMENTS / RESURFACING PROJECTS

The following are major resurfacing projects in Miami-Dade County:

SR 953/LEJEUNE ROAD/NW 42 AVENUE/E 8 AVENUE FROM NORTH OF SR 932/NW 103 STREET/E 49 STREET TO SOUTH OF NW 135 STREET

The FDOT is currently developing the design along SR 953/LeJeune Road/NW 42 Avenue/E 8 Avenue from north of SR 932/NW 103 Street/E 49 Street to south of NW 135 Street, in Miami-Dade County.

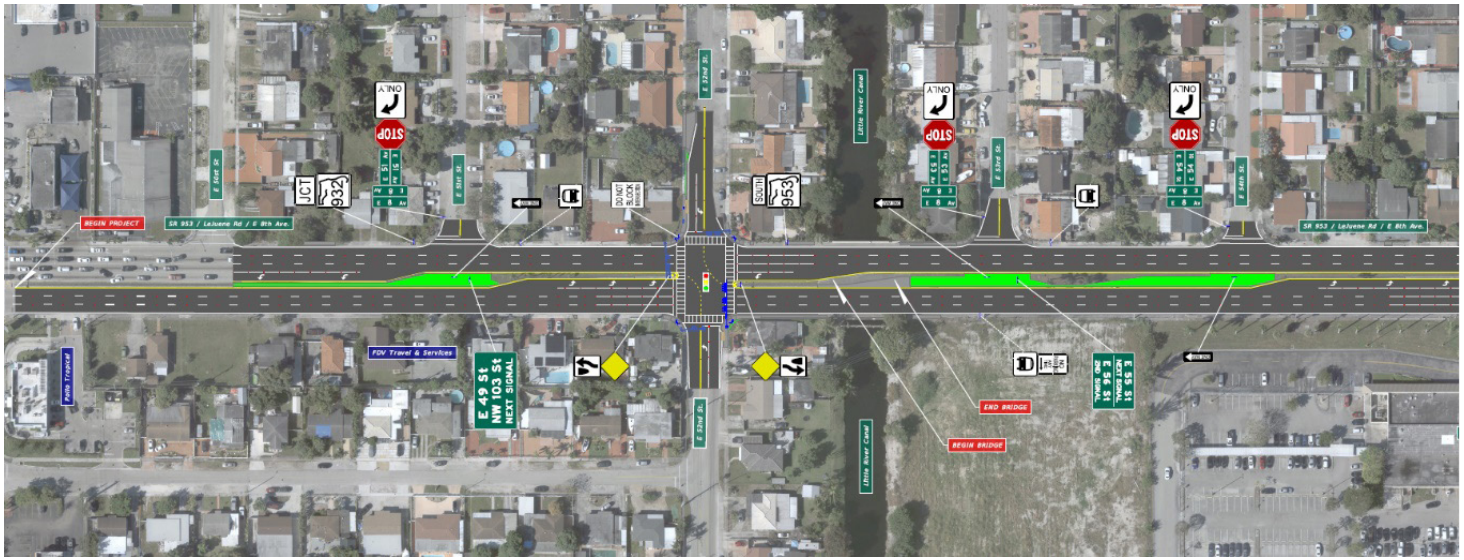

The following benefits are included in this project:

This project design entails the following:

- Closing the full median openings at the following intersections: E 51 Street, E 53 Street and E 54 Street
- Repaving and restriping the roadway
- Updating curb ramps
- Removing abandoned driveways
- Adding a new sidewalk and curb ramps at NW 37 Avenue Connector
- Repairing stormwater drainage
- Relocating the crosswalk at the NW 37 Avenue Connector to make it more visible to oncoming traffic
- Adding a left turn green arrow to the traffic light at E 52 Street and E 55 Street, in the northbound direction
- Widening the eastbound approaches at E 52 Street and E 55 Street
- Adding a new crosswalk across LeJeune Road at NW 37 Avenue Connector
- Upgrading pedestrian and vehicular signage

- Replacing the bridge expansion joints and guardrail
- Removing or relocating landscape due to the median and side street widening
- Upgrading street lighting at intersections

This project is anticipated to begin construction in January 2027 and will cost approximately $7.2 million.

For information related to the project, visit: https://www.fdotmiamidade.com/design-projects/north-miami-dade/sr-953lejeune-rdnw-42-avee-8-ave-from-sr-932nw-103-ste-49-st-to-nw-135-st.html

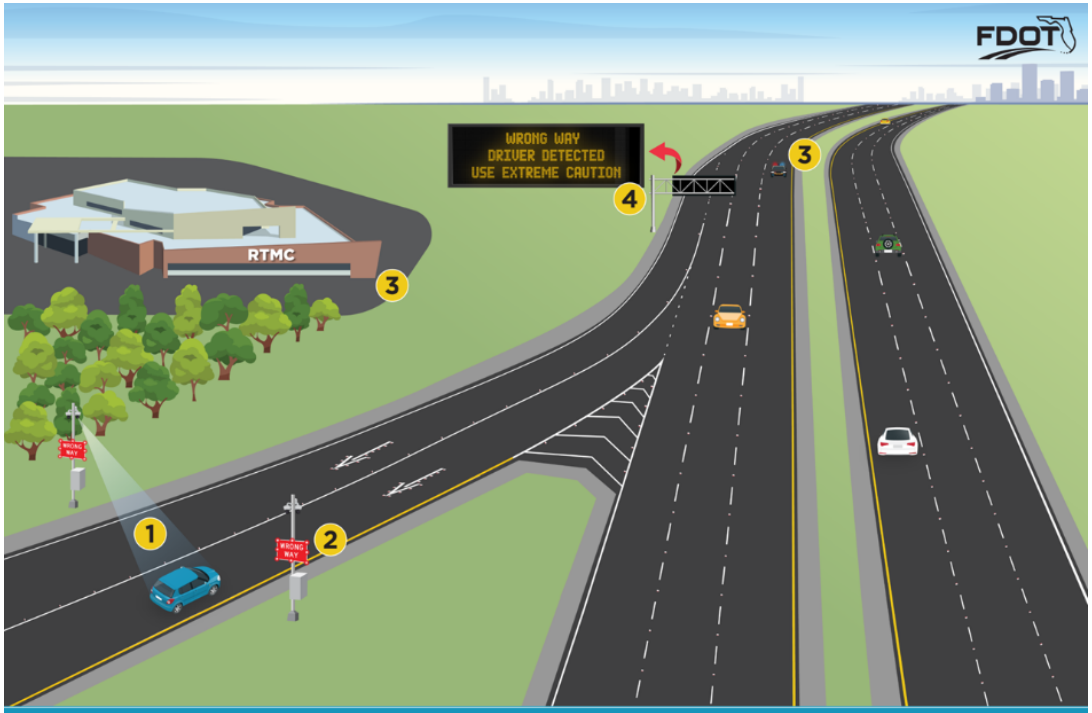

WRONG WAY DRIVING INITIATIVE AT VARIOUS RAMP LOCATIONS - PHASES 1, 2, 3 & 4

While Wrong Way Driving (WWD) crashes occur randomly and less frequently than other types of crashes, they often involve more than one vehicle and can result in multiple fatalities and/or serious injuries. Supported by research, FDOT's Wrong-Way Driving Initiative explores various WWD countermeasure systems to aid in warning wrong-way drivers, sending notifications to alert other motorists and notifying law enforcement.

The WWD Initiative supports the FDOT's commitment to achieving zero fatalities and serious injuries on the State Highway System.

The following benefits are included in this project:

HOW WRONG-WAY VEHICLE DETECTION SYSTEM WORKS

1. **Detects Vehicle:** Signs located on the exit ramps use system to detect vehicle traveling the wrong way.
2. **Triggers lights:** Flashing lights are turned on along sign border to alert the driver he/she is traveling in the wrong direction.
3. **Notifies officials**: Detection system sends alert immediately to operators at an FDOT Regional Transportation Management Center (RTMC) and law enforcement officials.
4. **Alerts other drivers:** RTMC system broadcasts a wrong-way driver alert on message boards along the freeway.

Prior to implementation, FDOT conducted statewide studies and various research projects to help analyze WWD trends and contributing factors, determine the effectiveness of various countermeasures and evaluate those countermeasures. Additional research conducted by FDOT focused on addressing the factors that were considered to affect the occurrence of WWD incidents including: Impaired drivers, drivers aged 65 years and older, and tourists. Findings from this study provide guidance to proactively deploy WWD countermeasures at all the off-ramps in Florida. In Miami-Dade County, FDOT District Six has been installing various devices to mitigate WWD occurrences on limited access facilities exit ramps including the installation of Light Emitting Diode (LED) Wrong Way Signs connected to the FDOT's Traffic Management Center (TMC). These improvements are being implemented in four (4) phases as described below:

- Phase 1 of this initiative proposes improvements along 11 off-ramps. Construction will be finalized in Spring 2024.
- Phase 2 proposes improvements along 24 off-ramps. Construction began in September 2023 and is scheduled to be completed by November 2025.
- Phase 3 proposes improvements to 15 off-ramps. The design-build project is ongoing, and the concept design will be advertised in November 2024 with letting in January 2025. Construction will begin in April 2025.
- Phase 4 proposes improvements along 21 off-ramps. The design-build project began in July 2024, and it is estimated to be advertised in November 2025.

In general, project improvements at each location include the installation of signage, pavement markings and LED Highlighted signs and vehicle detection systems. These improvements include:

- DO NOT ENTER signs.
- WRONG WAY sign(s).

- NO RIGHT TURN and NO LEFT TURN signs
- 2-4 dotted guideline striping for left turns between ramp entrances/exits and cross streets.
- Retroreflective yellow paint on ramp median nose where applicable.
- Straight arrow and route shield pavement marking in left-turn lanes extending from the far-side ramp intersection through the near-side ramp intersection to prevent premature left turns.
- Straight arrow and ONLY pavement message in outside lane approaching the ramp exit.
- One pair of ground-mounted Highlighted Signs with LED border lights and WWD Vehicle Detection System Assembly per ramp.
- ITS Cabinets, power service and lateral fiber drop for new Wrong Way Driving System.

For information related to this project, visit: https://www.fdotmiamidade.com/current-projects/expressways/wrong-way-driving-initiative.html

Wrong Way Driving Improvements at Flagler Street (Phase 1)

SR 860/MIAMI GARDENS DRIVE FROM EAST OF I-75 TO NW 79 PLACE

Miami Gardens Drive Proposed Typical Section

The SR860/Miami Gardens Drive from east of I-75 to NW 79 Place project has been deferred from FY 2025 to FY 2029 to allow for the evaluation of noise walls. The primary purpose of this project is to improve safety and relieve congestion along Miami Gardens Drive from east of I-75 to NW 79 Place by providing access management modifications to various median openings and increasing vehicular capacity. The proposed design widens the roadway from a four-lane facility to a six-lane facility, provides for additional turn lanes at major intersections, and proposes a shared-use path on the north side of the corridor. The project is anticipated to begin construction at the beginning of FY 2029 to allow FDOT time to engage with the public about ROW acquisition in relation to potential noise walls. FDOT is working closely with the local residents and community to consider noise walls as a result of extensive stakeholder engagement. Further improvements include milling and resurfacing of the existing pavement, replacing signal mast arms, lighting, upgrading pedestrian ramps and sidewalks to current standards, drainage improvements, and upgrades to the signing and pavement markings. Additional right-of-way acquisition is anticipated as a result of the noise walls and will cost approximately $30 million. The following benefits are included in this project:

For information related to this project, visit: https://www.fdotmiamidade.com/design-projects/north-miami-dade/sr-860miami-gardens-drnw-186183-st-from-sr-93i-75-to-sr-823nw-57-ave.html

SR 907 / ALTON ROAD FROM MICHIGAN AVENUE TO SOUTH OF ED SULLIVAN DRIVE / 43 STREET

Alton Road is a four-lane divided highway running north-south along Miami Beach's Biscayne Bay coastline. The asphalt pavement within the project limits is exhibiting significant deterioration, primarily due to the impacts of sea-level rise in the area. This has created an urgent need to improve the roadway and upgrade drainage facilities to address several issues: backflow from the Bay, increased runoff during the rainy season, and the inability of the outdated drainage system to effectively manage excess ponding water within the basin. As a vital north-south urban minor arterial in Miami-Dade County, Alton Road serves multiple critical functions. It is the primary emergency evacuation route connecting to the mainland via I-395 and I-195 and is a key commuter corridor for local and regional travelers accessing Miami Beach and the surrounding islands. These factors underscore the importance of rehabilitating this essential roadway.

This project is currently in the Design phase and focuses on the reconstruction of Alton Road from Michigan Avenue to 43 Street. Key elements of the design include elevating the roadway profile and adding a two-way protected bicycle facility from Michigan Avenue to Chase Avenue. Additional improvements include upgrading roadway lighting to energy-efficient LED fixtures, enhancing pedestrian ramps and sidewalks to meet current accessibility standards, replacing signal mast arms, and updating signage and pavement markings. The project also addresses critical drainage improvements by designing and constructing a new roadway drainage system. This system will include two pump stations and a single outfall to the Intracoastal Waterway, ensuring more effective management of stormwater and reducing the risk of flooding.

The project is anticipated to begin construction in Spring 2027 and end Winter 2029 and will cost approximately $66 million. For information about the construction schedule or related information, visit: https://www.fdotmiamidade.com/design-projects/beaches/sr-907alton-road-from-michigan-avenue-to-43-street-1.html

SR 934 / NE 79 STREET FROM WEST OF PELICAN HARBOR DRIVE TO EAST OF ADVENTURE AVENUE PD&E STUDY

This project involves the replacement of four prestressed concrete slab (Sonovoid) bridges arranged in two locations as parallel bridge pairs connecting three islands within the City of Miami and North Bay Village in Miami-Dade County. The project also involves improvements to the roadway approaches within the limits of the study. The bridges are part of SR 934/NE 79 Street (John F. Kennedy Causeway), a roadway classified as “Urban Principal Arterial - Other”, which connects mainland Miami to Miami Beach and North Bay Village. The project is approximately 0.87 miles in length.

The purpose of this project is to address the structural deficiencies of four existing bridges (arranged in two locations as parallel bridge pairs) along SR 934 and to address safety to maintain emergency evacuation capabilities.

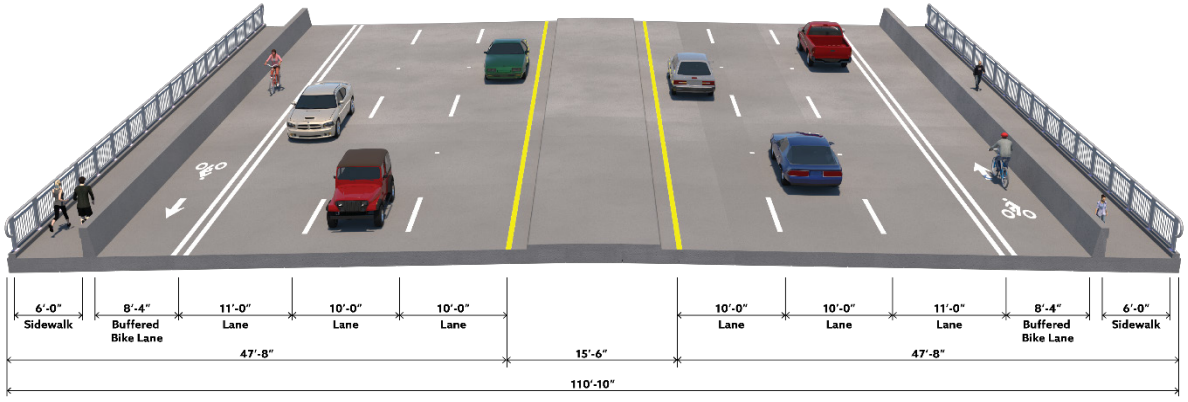

The following benefits are included in this project:

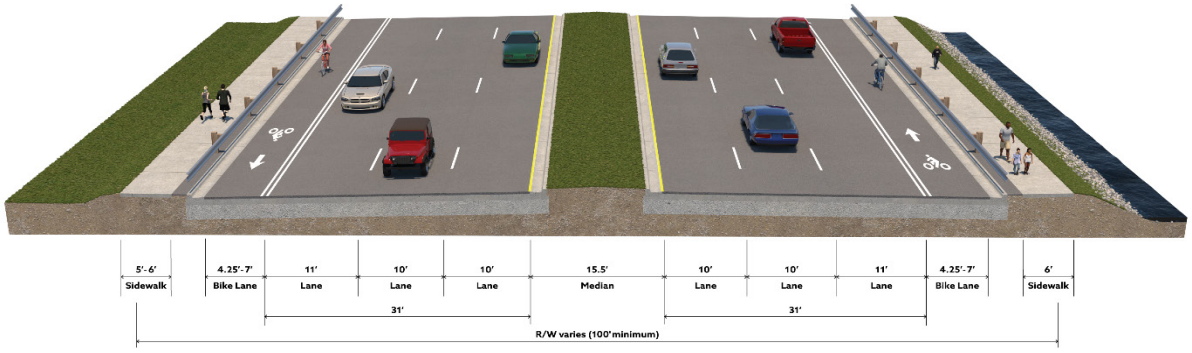

The need for the project is based on the following criteria:

Bridge Deficiencies: Address Substandard Structural Elements - The existing bridges were constructed in the early 1970s and have been determined to be Structurally Deficient given the condition of each bridge's superstructure (beams), which is referred to as "Sonovoid" design. Due to the structure type, the number of structural deficiencies, and the low clearance from the water, the bridge superstructures cannot properly be repaired.

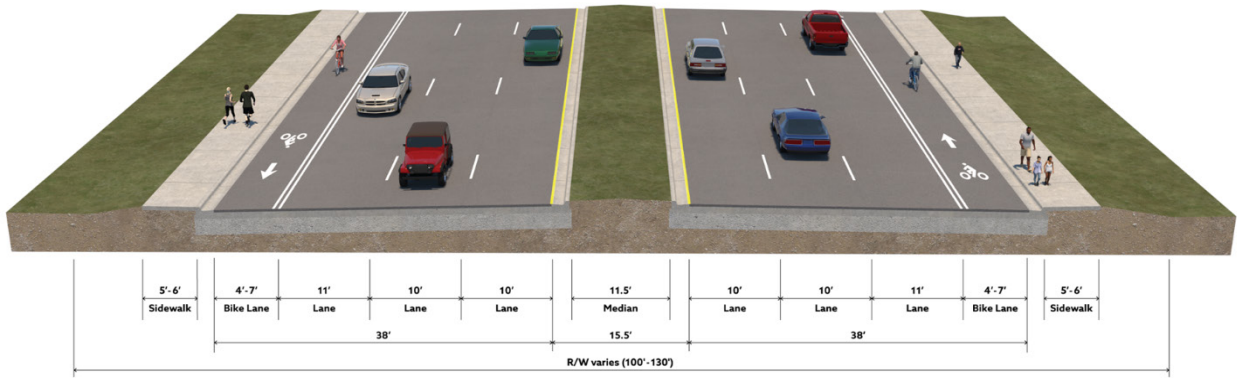

Safety: Maintain Evacuation and Emergency Response Times - Serving as part of the emergency evacuation route network designated by the Florida Division of Emergency Management (FDEM) and Miami-Dade County, SR 934 (including the bridges) plays a critical role in facilitating traffic between the beaches and the mainland of Miami during emergency evacuation periods. The project area is in a Storm Surge Planning Zone B, which is at risk for storm surge for Category 2 and higher storms. There is a need for the bridges to continue meeting emergency evacuation requirements.

Preferred Bridge Typical Section for the Bridge Replacement

Preferred Roadway Typical Section from Pelican Harbor Drive to the Western Bridge Pair

Preferred Roadway Typical Section from the Eastern Bridge Pair to the Eastern Project Limit

This PD&E Study started in July 2022 and is expected to be completed by early 2025. Design will subsequently begin in 2025 and is expected to be completed by Spring 2029.

For more information visit: https://www.fdotmiamidade.com/79thstreetbridgespdestudy.html

MODAL DEVELOPMENT

The FDOT Modal Development Office (MDO) aims to deliver and promote rail, transit, paratransit, seaport, waterway, and aviation facilities and services through administration and oversight of Federal and State programs to Agency partners, supporting the FDOT comprehensive multimodal transportation system. This is accomplished through the initiatives described below:

SMART PROGRAM

The SMART Program is an infrastructure investment program of projects developed to improve transportation mobility and create a transit system that will support economic growth and competitiveness in the global arena.

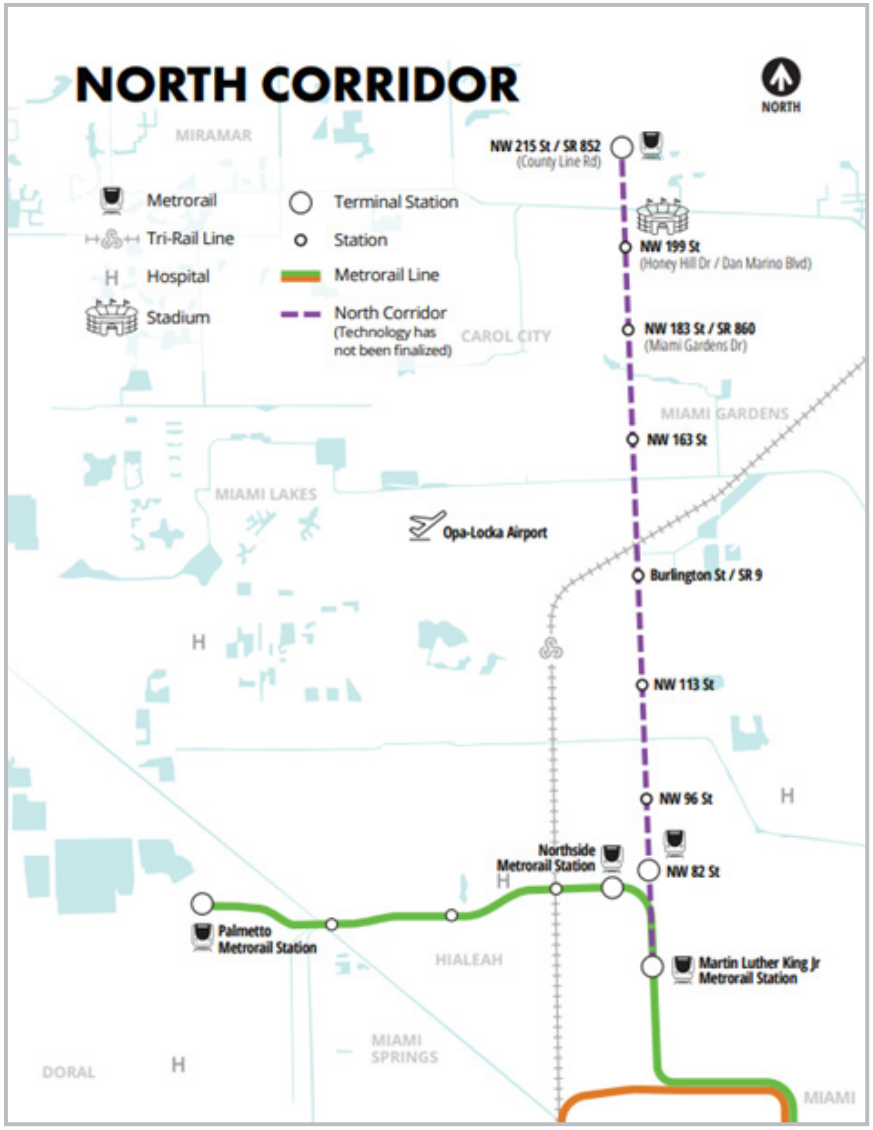

The SMART Program is expected to expand transit options in Miami-Dade County along six critical corridors that are linked to local, regional, national, and global economic markets as highlighted below. Another critical component of the SMART Program will be a network of Express Buses, known as Bus Express Rapid Transit (BERT), which is intended to expand South Florida's Express Lanes network with the implementation of six identified BERT express lane concepts. This innovative approach effectively expands the reach of transit in Miami-Dade County and beyond.

- **Beach Corridor:** Highest tourist demand in the region with major employment centers.
- **East-West Corridor:** Heaviest commuter travel for international, state, and local businesses.
- **Kendall Corridor:** One of the most congested arterial roadways with the highest demand.
- **North Corridor:** Key regional mobility linkage for access to jobs, the stadium, and educational facilities.
- **Northeast Corridor:** High transit demand and part of a critical regional corridor stretching to Palm Beach County.
- **South Corridor:** Experiencing the fastest population growth in Miami-Dade County.

NORTH CORRIDOR

The North Corridor is a 10-mile-long corridor along NW 27 Avenue, from NW 62 Street/Dr. Martin Luther King, Jr. Metrorail Station to NW 215 Avenue. The Project consists of implementing a Heavy Rail Transit (Metrorail) extension along NW 27 Avenue. The envisioned transit corridor will include public on-street transit stations located along a dedicated running way. These stations can include public or private facilities located adjacent to the corridor where potential park-and-ride or

transit terminals will be considered. In October 2019, the Miami-Dade TPO selected elevated Metrorail as the locally preferred alternative for the North Corridor. On April 23, 2020, the TPO Governing Board accepted a report by Miami-Dade County's DTPW on alternative transit technologies for NW 27 Avenue and directed DTPW to issue a request for proposals (RFP) to identify whether transit technologies, other than heavy rail are viable for the corridor. FDOT placed its North Corridor PD&E study on hold after consulting with the FTA until the outcome of the DTPW RFP process is known and a final decision on the transit technology and alignment for NW 27 Avenue is made by the TPO Governing Board. On November 15, 2022, the Board of County Commissioners (BCC) passed a motion to terminate the development of the DTPW's RFP and to accelerate the implementation of the North Corridor as an elevated fixed guideway. In May 2023, FDOT and DTPW collaborated to conduct a Value Engineering (VE) Workshop to identify the best and most cost-effective methods of implementing the project. Results of the VE Workshop were formalized in a final VE Report which was completed October 2023. The PD&E Study restarted in April 2024 and is currently ongoing.

For information related to this project, visit:
https://www.fdotmiamidade.com/27thAvenueRapidTransit.html

The following benefits are included in this project:

NORTHEAST CORRIDOR

The Northeast Corridor is a 13.5-mile commuter rail project in Miami-Dade County, part of the 85-mile Coastal Link and the SMART program. It involves planning, designing, and constructing five new commuter rail stations and park-and-ride facilities between Brightline's Miami Central Station and the West Aventura Station, utilizing the existing FECR right-of-way. Key elements include track infrastructure improvements, such as siding tracks, crossovers, and turnouts, as well as a rail connection (IRIS Connection) to the Hialeah Maintenance Yard for maintenance purposes. The service will operate daily from 5 am to midnight with 30–60-minute headways. Minimal environmental and community impacts are expected, supported by an FTA-approved Documented Categorical Exclusion. Safety and hazard mitigation measures will enhance operations.

- Increased transportation connectivity and reliability
- Reduce traffic congestion
- Promote transportation options by enhancing commuter rail services in Miami-Dade County

The following benefits are included in this project:

FLAGLER CORRIDOR

The Flagler Corridor consists of implementing a rapid transit service along SR 968/Flagler Street. This includes multimodal street improvements to accommodate rapid transit service along Flagler Street. On January 28, 2021, the Miami-Dade TPO selected Curbside Bus Access Transit (BAT) Lanes as the recommended alternative with the exception that the PD&E study shall not consider the reduction of vehicular traffic lanes for any portion of Flagler Street west of NW 24 Avenue. On March 3, 2022, the TPO adopted a resolution to place the Flagler PD&E study on hold to

implement a Flagler Street SMART Demonstration Project. On April 2023, the TPO adopted a resolution to remove the exception that said study shall not consider the reduction of vehicular traffic lanes for any portion of Flagler Street west of West 24 Avenue to allow FDOT to continue with the study of the recommended alternative. On November 28, 2023, the project restarted, however on January 25, 2024, the TPO unanimously passed a resolution requesting FDOT to pause the study and evaluate an elevated fixed guideway option from Downtown Miami to FIU.

For information related to this project, visit:

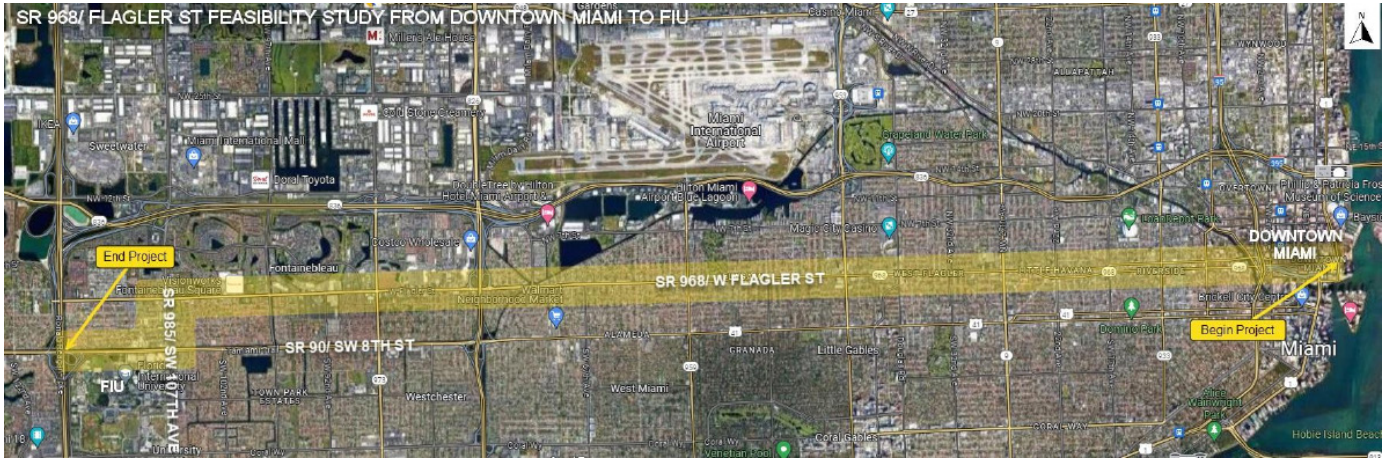

https://www.fdotmiamidade.com/flaglerpremiumtransitstudy

The following benefits are included in this project:

FLAGLER FEASIBILITY STUDY FROM DOWNTOWN MIAMI TO FIU

The feasibility study will evaluate an elevated fixed guideway system along SR-968/Flagler Street from Downtown Miami to FIU. The feasibility study will examine project alternatives, benefits, costs, funding options, economic development, mobility, and environmental considerations.

The following benefits are included in this project:

FLAGLER DEMONSTRATION PROJECT

The Flagler Demonstration Project will implement BAT Lanes along a portion of the Flagler Corridor. The project consists of implementing BAT lanes by repurposing an existing travel lane along SR 968 Flagler Street (westbound) and SW 1 Street (eastbound) between SW 27 Avenue and SW 6 Avenue. As part of the Flagler Demonstration Project, traffic analysis, monitoring plan and design plans for implementation of dedicated transit lane will be developed. FDOT will conduct before and after studies to evaluate the performance of the implementation of the curbside of the BAT lanes. The data collected will allow FDOT, the TPO and DTPW to jointly evaluate and determine the feasibility of a dedicated curbside rapid transit lane concept throughout the corridor and on the Kendall Corridor. The FDOT is currently analyzing whether this project will be implemented.

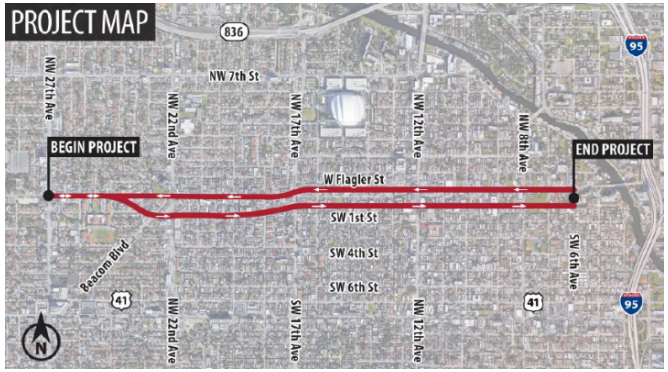

Proposed Flagler Street – Looking West

For information related to this project, visit: https://www.fdotmiamidade.com/design-projects/north-miami-dade/sr-968flagler-street-smart-demonstration-project.html

The following benefits are included in this project:

FREIGHT OPERATIONS

The FDOT MDO, encompasses a level of modal representation and industry engagement unlike any other state DOT organization. MDO acts as a tool to better connect, develop, and implement a freight planning process that maximizes the use of existing facilities while integrating and coordinating the various modes of transportation, including the combined utilization of both government owned and privately-owned resources.

Annually, MDO allocates funds toward transportation infrastructure improvements in all modes. Working together collaboratively, MDO leads Florida's multimodal transportation initiatives through work with federal and local government partners in planning, coordination, financing, grant management, ridership, and regional analysis.

The following benefits are included as part of this initiative

The Modal Development Office includes Aviation, Rail, Freight, Seaports, and Transit Projects.

AVIATION

MIA Central Base Pavement Rehabilitation

MIA Airport Operations and Communication Center (AOCC) MIA Surface Management System (Aerobahn System)

MIA Terminal "E" thru "F" Connector

MIA Federal Inspection Station Refurbishment

Miami Opa Locka Executive Airport Upgrade 9L/27R Pavement Rehabilitation Miami Opa Locka Executive Apron Rehabilitation

Miami Executive Airport Taxiway Rehabilitation Miami Executive Airport Runway Incursion Mitigation

Dade-Collier Training and Transition Airport CCTV Camera Installation

RAIL

Passenger and Freight Rail Safety Projects

Railroad Crossing Surface Rehabilitation Projects

Grade Separation on NE 203 Street

SR 826 / Palmetto Expressway (SB) Bridge Widening over the FECR

I-395 Signature Bridge over the FECR

SEAPORT

Port of Miami Seaport Security Grant Program

Port of Miami Passenger Boarding Bridges

Port of Miami Cruise Terminal Improvements

Port of Miami Upland Cargo Improvements

STATE TRANSIT BLOCK GRANT TO DTPW FOR OPERATING COSTS

This grant provides operating assistance for Miami-Dade DTPW Fixed Route Bus Service. The Metrobus fixed route bus service is run by Miami-Dade DTPW and operates seven days a week, 24 hours per day. A total of 76 routes – Miami-Dade DTPW directly operated regular bus service structure which are served by a total fleet of 826 buses and 24 contracted routes with 159 contractor- owned buses. Two of these Contract Routes are Express Bus Service in Monroe County with 11 buses. Metrobus includes local, feeder, circulator, limited-stop, express, and Bus Rapid Transit (BRT) Arterial Busway services. The FDOT provides 50% State Participation Rate for this program. The following benefits are included as part of this initiative:

FREIGHT OVERVIEW

From agriculture and heavy equipment to daily consumables, freight movement impacts every aspect of our daily lives. It is crucial for the nation's economy to maintain a safe and reliable transportation system that moves goods efficiently. Freight transportation has been a driving force for economic productivity, global competitiveness, and job creation. Every economic sector depends on a reliable, safe, and cost-effective network to move goods and services. As a leading international hub, this statement is relevant to the state of Florida. With goods worth hundreds of billions of dollars flowing through Florida's airports and seaports, it is critical for the State to maintain and improve its extensive multimodal freight infrastructure. Today, MIA is the leader in the Americas in international freight and the world's largest gateway to Latin America & the Caribbean. Similarly, PortMiami is the State's fifth highest port for total trade tonnage and second highest in Twenty-Foot Equivalent Units (TEU's). It is known as the Global Cargo Gateway. These major freight hubs, along with a booming construction industry, growing population and strong local economy indicate Miami-Dade County is vital for the movement of freight throughout Florida and beyond its borders.

The following benefits are included as part of this initiative:

FDOT District Six is home to diverse communities with unique transportation freight mobility and transportation needs. These needs can be traced back to some of the State's leading freight facilities and international trade gateways such as MIA and PortMiami. The Miami-Dade County BCC adopted a new capital improvement program at MIA that will fund 6.8 billion in airports modernization projects over the next 5-15 years. This paves the way for future growth in passenger and cargo traffic at MIA.

PortMiami is developing the nation's first net zero carbon emission supply chain, this is in line with Miami Dade County's 2030 25% emissions reduction goal at the port. The IIJA has awarded PortMiami two RAISE grants in support of their Cargo Mobility Optimization and Resiliency Project and the NetZero On-and-off Port Master Planning effort.

Hence, it is essential that District Six and its industrial based communities identify and invest in infrastructure improvements to position themselves for economic development and growth in cargo. Key developments and tools should be incorporated such as ITS/technologies, truck parking needs, economic impact analyses, innovative funding programs, and land use and redevelopment opportunities-helping market these industrial based communities as competitive global logistics service centers.

District Six identified the following freight-intensive sub-areas:

- Town of Medley
- City of Opa-Locka
- Port of Miami River Corridor
- City of Doral
- City of Miami Gardens
- City of Hialeah
- City of Homestead
- Monroe County.

District Six has completed all Sub-area Freight Improvement Studies. District Six plans to perform one additional Freight Study that will be countywide and look at various types of improvements we can make to our sub-areas.

This will be known as the Freight Village Analysis Study of Miami-Dade County. These studies will identify a comprehensive Project Bank of freight-specific and freight-oriented projects that may be considered for further development.

For information related to this project, visit: https://www.fdotmiamidade.com/district-six-freight-village-analysis- study-countywide-freight-improvement-plan.html.

FDOT D6 SUB-AREA FREIGHT PLANNING EFFORTS:

NAME	STATUS
Town of Medley Freight Improvement Plan	Completed 2017
Opa-Locka Freight Improvement Plan	Completed 2017
Miami River Freight Improvement Plan	Completed 2018
Doral Freight Improvement Plan	Completed 2018
Miami Gardens Freight Improvement Plan	Completed 2019
Hialeah Freight Improvement Plan	Completed 2020
Homestead Freight Improvement Plan	Completed 2023
Freight Village Analysis Study	In-Progress

BICYCLE/PEDESTRIAN CORRIDOR IMPROVEMENTS

The bicycle/pedestrian network is a component of the overall transportation system. The Department evaluates bicycle and pedestrian improvements in conjunction with all capacity and resurfacing projects.

Systemwide Bicycle/Pedestrian Improvements on Resurfacing Projects include the following:

- New ADA-complaint pedestrian signal pushbuttons
- Pedestrian traffic signals at all signalized crosswalks
- Installation of missing crosswalks at signalized intersections where feasible

FDOT D6 BICYCLE/PEDESTRIAN IMPROVEMENTS:

LOCATION	IMPROVEMENTS
Julia Tuttle Causeway /I- 195 from NW 12 Avenue to SR 907/ Alton Road.	Add separated shared use path on the Julia Tuttle Causeway (PD&E in Ongoing, Design not funded)
SR A1A/MACARTHR CWY from E of SR 5 /Biscayne Blvd to W of SR 907/Alton Road	Add separated shared use path on the Julia Tuttle Causeway (PD&E in 2025, Design not funded)
SR 9336/Palm Drive from SW 182nd Avenue to SW 192nd Avenue	Widening from 2-4 lanes, adding a shared use path. (PD&E in 2027)
SR 94/Kendall Drive from SR 997/Krome Avenue to SW 167 Avenue	Bike Path/Trail (Design to begin in 2029)
William Lehman Causeway from SR 5/US 1 to SR A1A/Collins Avenue	Shared Use Path (PD&E Ongoing)
SR 9336/SW 392 Street from SW 192 Avenue to Everglades National Park	Separated Shared Use Path (PD&E in 2029)
Ludlam Trail	Construct new shared use path bridges over SR 976/Bird Road SR 90/US 41/ SW 8 Street and SR 968/Flagler Street (Design is on-going. Construction in 2027)

The following benefits are included in these projects:

Bicycle & pedestrian projects are also implemented by local agencies, who oversee construction and management. In addition, some projects are funded through the federally funded Transportation Alternatives Program (TAP), or state funded SUN Trail Program. The Safe Routes to Schools (SRTS) program integrate safety, traffic relief, health, environmental awareness, physical activity, and fitness under one program focusing on school zones.

The table below shows some of the upcoming improvements by local agencies.

LOCAL AGENCY BICYCLE/PEDESTRIAN IMPROVEMENTS:

PROJECT AGENCY/ PROGRAM	PROJECT TYPE	PROJECT AREA
City of Miami Beach	Bike Lane/Sidewalk	17 Street Bicycle Lane Project
City of Miami Gardens	Bike Path/Trail	NW 199 Street/Betty Ferguson Recreation Complex
Miami-Dade County	Bike Path/Trail	GGF to Industrial Park – Bike-Ped Bridge and Kiss-Ride Terminal
Miami-Dade County	Bike Path/Trail	Bike Boulevard Demo Project – NW 41 Street to NW 79 Street along NW 21 Street
North Bay Village	Bike Lane / Sidewalk	Harbor Island Sidewalk Improvements
City of Homestead	Bike Path/Trail	Biscayne Everglades Greenway Phase II
City of Miami Springs	Pedestrian Improvements including ADA DWS and landing pads	Citywide
Village of Pinecrest	Bike Path / Trail	Kendall Drive Shared Use Path
City of Miami Gardens	Bike Path / Trail	Shared Use Path along NW 27 Avenue with pedestrian bridge over NW 17 Avenue Canal

PROJECT AGENCY/ PROGRAM	PROJECT TYPE	PROJECT AREA
Town of Cutler Bay	Bike Lane / Sidewalk	Marlin Road Complete Streets
Town of Cutler Bay	Bike Lane/Sidewalk	Caribbean Boulevard
Safe Routes to School Infrastructure	Pedestrian Safety Improvements	Homestead Middle School, North Miami Beach Senior High School, Miami Jackson Senior High School, Ruben Dario Middle School, Horace Mann Middle School, Brownsville Middle School, Booker T. Washington Senior High School, Miami Southridge Senior High School, Georgia Jones-Ayers Middle, North Miami Middle School, Carol City Middle School, North Miami Senior High School
City of North Miami	Pedestrian Bridge	Between NE 2 Avenue and Griffing Boulevard
Miami-Dade County	Bike Path/Trail	Meridian Avenue Shared Use Path from Dade Boulevard to 28 Street
City of South Miami	Pedestrian Bridge	US-1 adjacent to South Miami Metrorail
Town of Miami Lakes	Bike Lane/Sidewalk	Along Montrose Road and Balgowan Road
Village of Miami Shores	Bike Path/Trail	Flagler Trail connecting residential neighborhoods with Miami Shores Recreation Complex and Community Center

The following benefits are included in these projects:

FDOT D6 BICYCLE/PEDESTRIAN FEASIBILITY ASSESSMENTS:

NAME	LIMITS	STATUS
Little Havana Area to Brickell & Underline Route Options Assessment and Feasibility Analysis	From: SR 9/NW 27 Avenue to: Underline	In Progress
SR 976 Bird Road Multimodal Gap Assessment	From: SR 959/SW 57 Street/Red Road To: SR 5/US-1/S Dixie Highway	In Progress
SR 913/SW 26 Road Bicycle and Pedestrian Improvement Feasibility Analysis	From: Underline to: Rickenbacker Causeway	Completed
SR 9336/SW 344 Street Feasibility Study	From: SW 192 Avenue to: SW 182 Avenue	In Progress
SR 826 Frontage Road Separated Bicycle Facilities	From: NW 154 Street to: NW 57 Avenue/Red Road	Completed

The following benefits are included in these feasibility assessments:

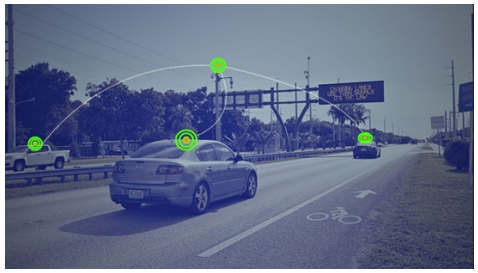

TRANSPORTATION SYSTEMS MANAGEMENT AND OPERATIONS

The District Six Transportation Systems Management and Operations (TSM&O) Program Office manages multi-modal traffic strategies that improve the safety and people-moving capacity of the state roadway system in Miami-Dade County.

The Office uses a series of innovative services and technologies to deliver transportation solutions that meet current and future traffic demand. These services include incident management, traveler information, express lanes operations, arterial management, and others. The combination of these strategies provides a multi-pronged approach to congestion management and benefits all roadway users.

The following benefits are included in this project:

The District Six TSM&O Office is housed at the SunGuide Transportation Management Center (STMC) which serves as the main traffic management hub for Southeast Florida. TSM&O staff located at the STMC use Intelligent Transportation System (ITS) devices such as closed-circuit television cameras, dynamic message signs, roadway detectors, ramp signals, and other devices to manage traffic 24 hours per day, 7 days per week.

Dedicated staff monitor the roadways to provide incident clearance, publish real-time traffic information, and promote the travel-time reliability of the regional transportation network. The goal of the TSM&O staff is to optimize current operations while expanding the program to meet the future traffic needs of South Florida.

The TSM&O Office is committed to achieving the transportation goals of the region and is implementing key projects that will achieve this mission. These projects include several vehicle-to-everything (V2X) projects that integrate advanced communication systems to enable the exchange of information between vehicles and the roadway infrastructure. For more information about the program, please visit www.sunguide.info

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

PART 2: 5-YEAR PROJECT LISTINGS
FLORIDA'S TURNPIKE ENTERPRISE

FDOT · FLORIDA'S TURNPIKE · GMX GREATER MIAMI EXPRESSWAY · MIA MIAMI INTERNATIONAL AIRPORT · PORTMIAMI · MIAMI-DADE COUNTY · RTA SOUTH FLORIDA REGIONAL TRANSPORTATION AUTHORITY · SEFTC Southeast Florida Transportation Council

FTE is an agency of the FDOT and currently owns and operates over 515 miles of toll facilities and 148 interchanges in the State of Florida. The Turnpike System includes the 47-mile-long Turnpike Mainline / SR 821 located in Miami-Dade and Broward counties. It also includes the Turnpike Mainline / SR 91, which extends from North Miami to a junction with Interstate 75 in Central Florida, through Miami-Dade, Broward, Palm Beach, Martin, St. Lucie, Indian River, Okeechobee, Osceola, Orange, Lake, and Sumter counties. The remainder of the Turnpike System comprises several other facilities located throughout the State of Florida.

The Turnpike System is user-financed and uses toll revenues, service plaza sales revenue, and bonds, to pay for new construction and maintenance of the entire system. It does not receive traditional gas tax revenue.

MIAMI-DADE COUNTY TURNPIKE PLANNED MAJOR PROJECTS

WIDENING PROJECTS:

#	PROJECT NAME	FPID	LIMITS
1	**Turnpike Mainline / SR 91 Widening (widen from 6 to 8 lanes)**	423373-5	MP 0.4X (Golden Glades Plaza) to MP 3.3X (Miami-Dade / Broward County Line)

INTERCHANGE PROJECTS:

#	PROJECT NAME	FPID	LIMITS
1	**Turnpike Mainline / SR 91 Interchange Improvements (Partnership Project)**	437053-1,-2, -3,-4,-5	MP 0X (I-95 / US 441 / SR 826 – Golden Glades)
2	**Turnpike Mainline / SR 821 Interchange Improvements**	452112-1	MP 0 (US 1)
3	**TSM&O Interchange Improvements**	453762-1	MP 9 (SW 112 Avenue / SR 989)

OTHER PROJECTS:

#	PROJECT NAME	FPID	LIMITS
1	**Service Plaza Improvements along Turnpike Mainline / SR 821**	453108-1	MP 12.5 to MP 13.3
	Snapper Creek Service Plaza General Improvements along Turnpike Mainline / SR 821	442620-1	MP 19

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

PART 2: 5-YEAR PROJECT LISTINGS
MOVING MIAMI-DADE

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

PART 2: 5-YEAR PROJECT LISTING

MOVING MIAMI-DADE

Greater Miami Expressway Agency

This section of the TIP focuses on the major mobility improvement projects programmed by the GMX for the next five years. GMX was created under the 2023 Florida Statute which granted ownership, and control of the roads that constitute the expressway system in Miami-Dade County and portions of northeast Monroe County.

THE EXPRESSWAY AGENCY SYSTEM

The GMX System includes five (5) of the busiest and most important expressways in Miami-Dade County: Airport Expressway (SR 112); Dolphin Expressway (SR 836); Don Shula Expressway (SR 874); Snapper Creek Expressway (SR 878); and Gratigny Parkway (SR 924). It also includes NW 138 Street from US-27 to just east of NW 97 Avenue, the LeJeune Frontage Roads from SR 836 to Central Boulevard as well as portions of northeast Monroe County.

PROJECT FUNDING

GMX's primary source of revenue is the tolls collected on its five expressways. GMX does not receive any gas tax, property tax, sales tax, or any other source of revenue.

FY 2026-2030 TIP

Major projects included in the GMX FY 2026 - 2030 TIP are highlighted within the following pages. The projects have been organized by the following categories: Existing System Improvements and System Expansion.

EXISTING SYSTEM IMPROVEMENT PROJECTS

The following projects are categorized as Existing System Improvements in the current Five-Year TIP and include widening or reconstruction within an existing roadway segment:

PROJECT 11212-000 – SR 112 RAMP IMPROVEMENTS AT NW 37 AVENUE

This project will construct a new partial interchange at SR 112 and NW 37 Avenue including signalization improvements at NW 37 Avenue. The project provides additional access to industrial hub with new traffic movements within the SR 112/NW 37 Avenue, will relieve congestion on LeJeune Road and NW 36 Street. It is estimated that more than 7,400 additional vehicles would utilize the corridor because of the completion of this project. Construction of this project is anticipated to begin in FY 2027 once the environmental document is completed. The total project cost is estimated at $35.3 million.

PROJECT 11213-000 – SR 112 CORRIDOR ASSESSMENT

GMX will be funding the PD&E Study of the SR 112 Airport Expressway for the purpose of modernizing the corridor by bringing the bridges crossing SR 112 up to modern standards, improving safety and operational efficiency at the NW 22 and NW 27 Avenue ramp connections, and improving safety and operational efficiency through the addition of roadway shoulders at locations where none exist. Final design and construction to be advanced once the PD&E is finalized and funding is available.

PROJECT 83611-001 – SR 836 / I-95 INTERCHANGE IMPROVEMENTS

GMX has partnered with FDOT to acquire right-of-way, design and build the SR 836 improvements from NW 17 Avenue to I-95 in conjunction with the FDOT's I-95/I-395 project. Improvements to SR 836 include both eastbound and westbound widening for operational optimization between NW 17 Avenue to I-95. Additionally, a new viaduct consisting of an elevated 4 lane structure to bypass traffic on the lower level of SR 836 will be provided to improve mobility and eliminate existing weaving conditions to and from Downtown Miami and Miami Beach.

Furthermore, the project will improve access to the Health District by eliminating the current weaving conditions created by southbound I-95 traffic to NW 14 Street and SR 836 mainline, and westbound mainline traffic trying to access the Heath District via NW 14 Street. The design-build contract was executed in July 2018 and completion is anticipated by FY 2029. The total cost for the GMX project is estimated at $279.1 million.

PROJECT 83635-000 – SR 836 PD&E FROM WEST OF SR 826 TO EAST OF SR 923 / LEJEUNE ROAD

GMX will be funding the PD&E Study of the SR 836 Dolphin Expressway for the purpose of improving the multilane weaving from traffic entering the system from Flagler Street, NW 72 Avenue and SR 826 exiting at NW 57 Avenue, with traffic continuing onto eastbound SR 836 mainline and MIA as well as lane balance. The Study will also include improving traffic operations on the SR 836 eastbound ramp to MIA. Final design and construction to be advanced once the PD&E is finalized and funding is available.

PROJECT 87413-000 – SR 874/SW 72 STREET (SUNSET DRIVE) INTERCHANGE IMPROVEMENTS

This project will construct a new partial interchange at SR 874 and SW 72nd Street to provide access to SW 72 Street from southbound SR 874 and to northbound SR 874 from SW 72 Street to improve access to the expressway and reduce congestion at key intersections along SW 72 Street. Design-build is anticipated to begin in FY 2026 once the environmental document is completed. The total project cost is estimated at $32.8 million.

PROJECT 92408-001 – SR 924 PARTIAL INTERCHANGE AT NW 67 AVENUE

This project will construct a new westbound on-ramp and off-ramp on SR 924 at NW 67 Avenue and new eastbound on-ramp from NW 67 Avenue. This partial interchange will provide congestion relief to Miami Lakes and Hialeah by providing additional traffic movements and access to SR 924 at NW 67 Avenue. It is estimated that over 5,000 additional vehicles will utilize the corridor after project completion. Design-build is anticipated to begin in FY 2026 once the environmental document is completed. Total cost is estimated at $73.0 million.

PROJECT 83618-007 SR 836 WIDENING IN THE EASTBOUND AND WESTBOUND DIRECTION FROM HEFT TO EAST OF NW 97 AVENUE

This project constructs an additional lane on SR 836 mainline from HEFT to 97 Avenue in both directions to harmonize with the existing lane configuration and tie into the newly completed SR 836 new ramp connections to the HEFT. The additional capacity along this segment will improve mobility and safety along the expressway. The final design for this project will begin in FY 2025. The total project cost including construction is $49.3 million.

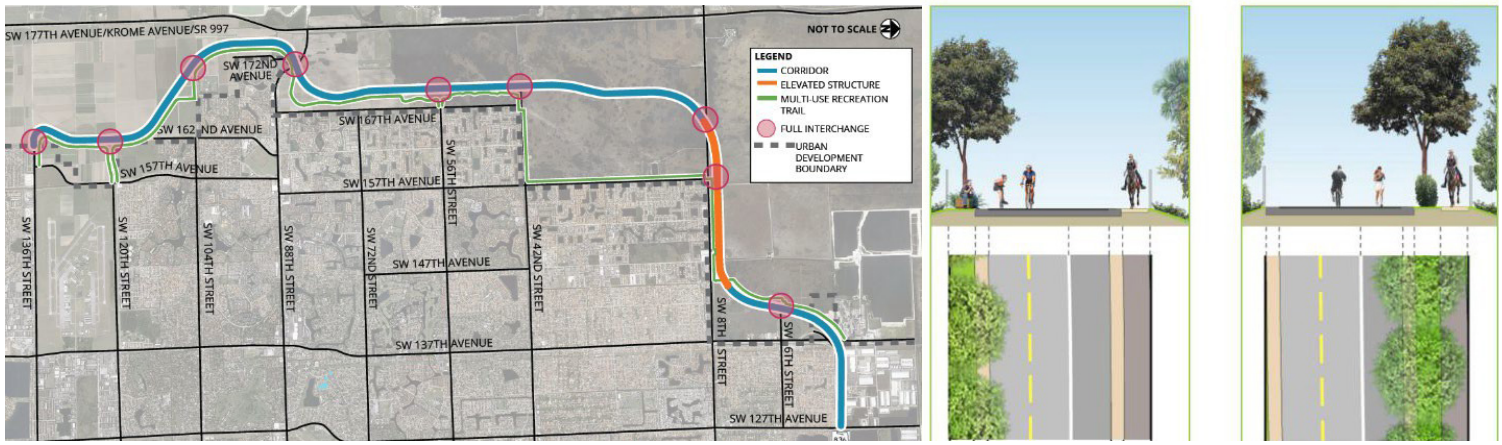

SYSTEM EXPANSION PROJECTS

The following projects are categorized as System Expansions in the current Five-Year TIP and include all construction of new roadway segments on new alignments adjacent to the existing system that will increase the total centerline miles of the system:

PROJECT 83618 – SR 836 SOUTHWEST EXTENSION/ KENDALL PARKWAY

As an initial phase of the project GMX is advancing the geotechnical investigation from NW 137 Avenue to SW 104 Street as well as the environmental site assessment from NW 137 Avenue to SW 56 Street in order to refine the cost estimate and obtain vital information on existing field conditions for future procurement of final design and construction services. GMX is also coordinating the required environmental permitting, mitigation and right-of-way acquisition program from willing sellers.

The ultimate project is a 14-mile multimodal corridor that will extend SR 836 from NW 137 Avenue to SW 136 Street and provide the residents in the southwestern portion of Miami-Dade County an alternate transportation option to improve travel conditions. The project is envisioned to include: Express bus service and park & ride facilities in the vicinity of SW 88 Street and SW 136 Street; a multi-use recreational trail for non-motorized transportation including walking and biking; a minimum of 1,000 acres of land for wetland preservation and creation that will be held in perpetuity; improvements to 137 Avenue, 157 Avenue, SW 88 Street and SW 104 Street to facilitate access. The improvements to local streets and portions of ramp connections will be contributions to Miami-Dade County. The start date for final design and construction for the mainline extension, multi-use recreational trail and transit stations is to be determined pending funding availability.

OTHERS

PROJECT 83618-009- WIDENING OF SW137 AVENUE FROM 4-LANES TO 6-LANES

Miami-Dade County owns, operates and maintains SW 137 Avenue between SW 8 Street and SW 26 Street. The intent of this project is to correct an operational deficiency because the existing four lane configuration of this corridor does not match the lane configuration south and north of this segment (6-lane configuration), thus creating severe congestion for traffic entering or exiting the SR 836 Extension at the SW 137 Avenue terminus. The project will also correct an operational deficiency at the intersection of SW 137 Avenue and SW 8 Street, which causes severe traffic congestion for southbound traffic during peak hours. This project is an unfunded priority project in the 2040 LRTP. Via resolution, GMX was tasked to fund, procure and manage the design and construction of this transportation infrastructure project which will improve traffic flow and alleviate traffic congestion in Miami-Dade County by providing better access to the SR 836 Extension on and off ramps at SW 137 Avenue. Final design is complete, and Construction is anticipated to begin in FY 2026. The total project cost is $14.7 million.

PART 2: 5-YEAR PROJECT LISTINGS
THREE-CENT LOCAL OPTION FUEL TAX

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

PART 2: 5-YEAR PROJECT LISTING

THREE-CENT LOCAL OPTION FUEL TAX

Miami-Dade County

INTRODUCTION

The Capital Improvement Local Option Fuel Gas Tax, authorized by Section 336.025 (1) (B), Florida Statutes became effective January 1, 1994. It was reduced from five cents to three cents on September 1, 1996. In accordance with state statute, proceeds of this tax have been programmed for transportation expenditures needed to meet the requirements of the capital improvement element of the adopted comprehensive plan.

FY 2025-26 PROJECTED MUNICIPAL DISTRIBUTION

The actual distribution to the municipalities for FY 2025-26 will be based on a weighted formula which accounts for percentage of population (statistics from the Bureau of Economic and Business Research, at the University of Florida) and the centerline mileage of municipal roadway for each incorporated area from the "2024 City/County Mileage Report" – Florida Department of Transportation prepared in the Spring of each year with data reported as of September 30, 2024. The figures contained herein were calculated using these same reports. This estimate for FY 2025-26 will be sent to the municipalities at the time the County files its official estimate with the Florida Department of Revenue in April 2025.

In FY 2025-26, the estimated net revenue for the Capital Improvement Local Option Gas Tax projected as of February 2025 is $27.54 million at 95 percent with $7.16 million to be distributed to the municipalities and $20.38 million to be distributed to the County (26 percent to the municipalities and 74 percent to the County according to the current interlocal agreements). The State of Florida is allowed to impose a 7.3 percent administrative fee. The FY 2025-26 estimates, reflects a minor increase from the current year in fuel tax revenues.

PART 2: 5-YEAR PROJECT LISTING

AVIATION ON-SITE IMPROVEMENTS

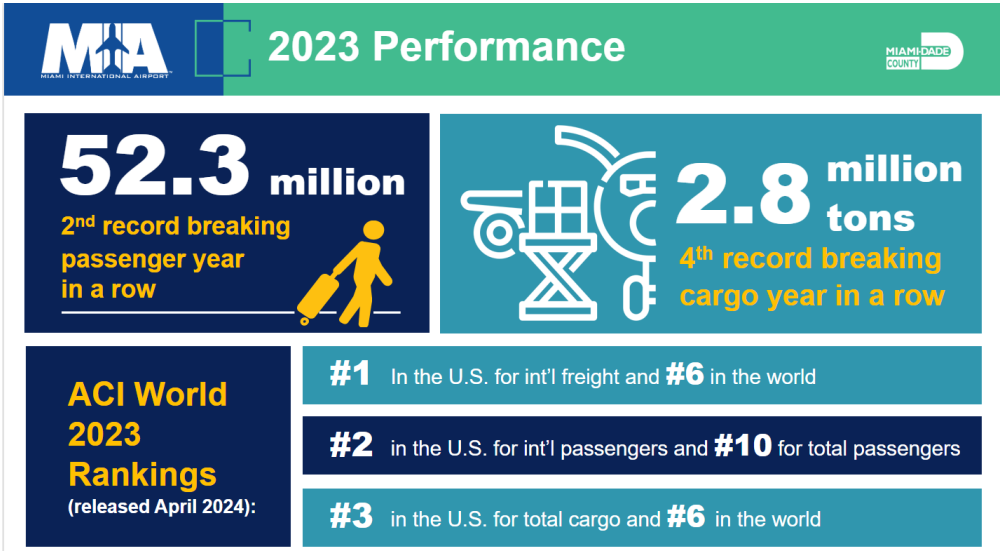

Miami-Dade County Aviation Department

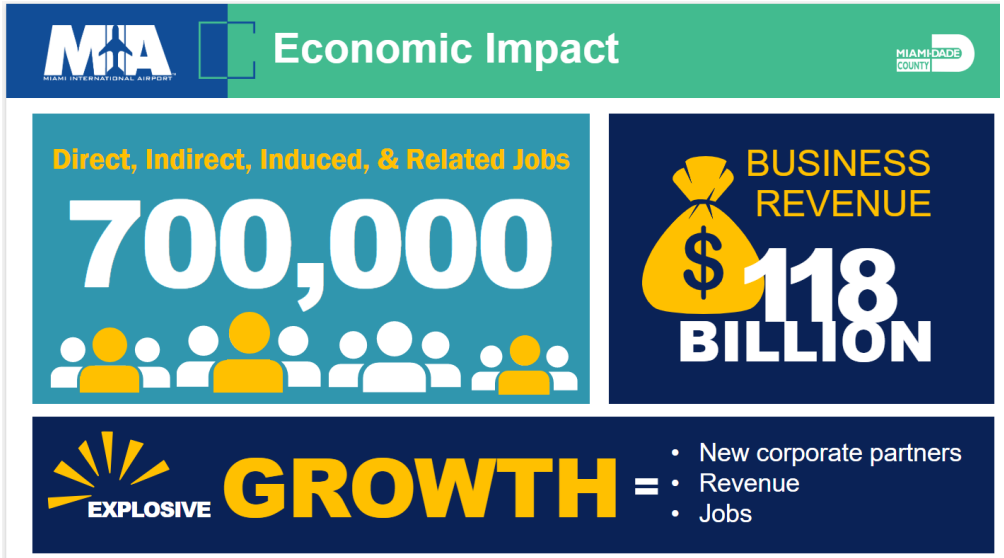

Miami International Airport

The Miami-Dade County TIP includes Capital Improvements for the Miami-Dade Aviation Department for the continued development of MIA and the General Aviation Airports (GAA) – Miami-Opa Locka Executive Airport (OPF), Miami Executive Airport (TMB), Miami Homestead General Aviation Airport (X51) & Dade-Collier Training and Transition Airport (TNT). The funding for this program is primarily from revenue generated by the Aviation Department and from Federal and State grants.

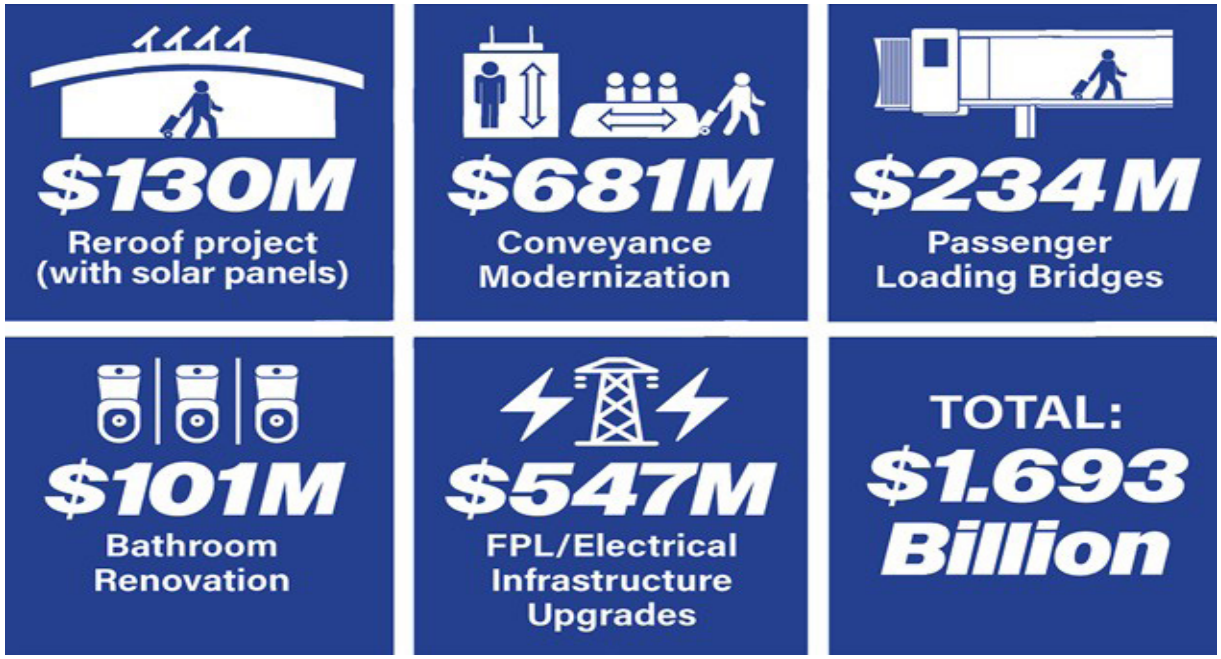

MIA BY THE NUMBERS

Source: ACI World 2023 Rankings (released April 2024)

HISTORIC INVESTMENT IN DEFERRED MAINTENANCE PROJECTS

MIA is in the early days of delivering on two massive new improvement plans. A $7.4 billion investment will redesign the Central Terminal, including concourses E and F, expand South Terminal, and renovate Concourse D. A separate $1.7 billion plan will replace all 126 passenger bridges, remodel all 447 restrooms and upgrade elevators, escalators and walkways.

The bill for the $9 billion in improvements is being paid by airport-generated revenue-tenant rent, and airline fees. No tax dollars are involved. The Miami-Dade County Commission still has to approve projects. The 150 projects in the works will take 15 years to complete.

What's coming?

The plans include the reconfiguration of boarding areas to have more space, and concession areas. The terminals will have more natural light and less congestion, with roomier areas for travelers to walk through. TSA lines will be added for quicker security checks, and more parking will help ease the holiday crunch. MIA is also adding a Westin hotel and expanding its cargo centers.

"We are addressing every single passenger pain point," Cutie said. "Five to 15 years from now," the airport "is going to be totally transformed."

How MIA is changing

Miami International is on track to hit 57 million passengers this year. That would be a 9% increase from 2023 and a new record for the third consecutive year. By 2040, MIA forecasts 77 million passengers, 35% more than today.

The airport is home to nearly 1,000 flights each day and is the ninth busiest in the nation, as well as second in international passengers.

Skytrain, which serves passengers and crews at 60 gates in Concourse D, closed in September 2023 due to cracks in concrete supports for the train. Three of four stations have since reopened and the fourth is scheduled to open by next summer.

MIA's ranking on J.D. Power's 2024 North American Airport Satisfaction Study was slightly below average and tied for 10 with Boston's Logan Airport out of 20 airports in the mega airport group. A year earlier in its annual survey, the global consumer insight and advisory firm had MIA tied for fourth with Dallas-Fort Worth International Airport.

Parking, bridges bathrooms: Boosting basics at the airport

MIA broke ground in February on a seven-story, 2,240-space addition to the Flamingo parking garage. It's on track for completion by the end of next year. A new Concourse K, part of the South Terminal expansion, will add six new gates for narrow aircraft. The concourse will also have space for airline lounges and more concessions.

All 450,000 square feet of existing terminal roof will be replaced, draining and lighting systems will be improved, and solar panels will go up on the roof. This will be done in phases, starting in winter 2025 and finishing by winter 2029.

The $1.7 billion improvement plan also is underway, already replacing 32 of MIA's 126 passenger bridges that serve 126 gates. Of those, 30 are traditional steel bridges but they experimented with two glass bridges at two gates, D14, which serves American Airlines, and H17, used for Delta. Cutie said they got lots of good feedback from passengers who used them, so the airport decided the rest of the bridges would be glass. They are easier to maintain, and passengers get a nice view of the airfield and feel less claustrophobic. The airport is about to seek approval from the County Commission for the next 10. The entire project is expected to be completed in 2028. Replacing all 447 restrooms at MIA has already started, too. So far, 48 bathrooms have been

fully renovated and ready for the public. The new ones have paper towels instead of hand dryers. About 158 restrooms are in design or permitting, and so 241 are still the older ones. All restrooms should be remodeled by 2030.

MIA has a total of 616 conveyance units, slightly more than half of what's in all Miami-Dade County facilities combined. 90% of them are in service. However, South and North Terminal expansions have been prioritized over conveyances, said Cutie in an internal presentation he gave on June 7 and shared. That, combined with high turnover of contractors and a global supply chain slow-down that started during the pandemic, have led MIA to modernize or replace only 30 conveyance units since 2016. MIA plans to modernize every one of the 616 units, aiming to do 30 each year while doing repair on other units when needed. So far, about 34 units have been modernized. That includes two elevators in the Flamingo Garage, which resumed working in October. Each had been out of service since December 2022. The timeline from initial ordering to the final inspection by Miami-Dade County is 80 to 90 weeks for a moving walkway, 75 weeks for an escalator and 68 weeks for an elevator.

There are also units that need repairs. Earlier this year, 41 conveyance units were listed as out of service on an MIA spreadsheet. Six of those returned to service in October, including the two units on the third level of Concourse D. Another 13 are scheduled to be up and running again by March 31, 2025. Of course, more units are expected to go out of service and be added to the list.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

PART 2: 5-YEAR PROJECT LISTINGS
MULTIMODAL SEAPORT DEVELOPMENT

FDOT · FLORIDA'S TURNPIKE · GMX GREATER MIAMI EXPRESSWAY · MIA MIAMI INTERNATIONAL AIRPORT · PORTMIAMI · MIAMI-DADE COUNTY · RTA SOUTH FLORIDA REGIONAL TRANSPORTATION AUTHORITY · SEFTC Southeast Florida Transportation Council

PORTMIAMI

PART 2: 5-YEAR PROJECT LISTING

MULTIMODAL SEAPORT DEVELOPMENT

The Dante B. Fascell Port of Miami-Dade

TRANSPORTATION IMPROVEMENT PROGRAM STRATEGY

PortMiami, one of the nation's busiest seaports, contributes approximately $61 billion and more than 340,000 direct and indirect jobs annually to Florida's economy. Its sustained performance propels PortMiami to be recognized as the Cruise Capital of the World and Cargo Gateway of the Americas.

CRUISE

PortMiami achieved its highest-ever cruise passenger total of 8,233,056 travelers in Fiscal Year 2024, which started October 1, 2023, and ended September 30, 2024. The Port experienced a 12.79% increase in cruise passenger totals compared to its previous record of 7,299,294 passengers in Fiscal Year 2023.

CARGO

As Florida's busiest international port, PortMiami has handled more than one million twenty- foot equivalent units (TEUs) annually for the past nine years. By 2035, PortMiami anticipates an unconstrained container throughput projection ranging between 1.77 and 3.38 million TEUs.

RESILIENCE AND NET ZERO

All PortMiami's projects are inherently committed to improving its robust climate adaptation, carbon mitigation, and resilience. PortMiami has adopted proactive policies that enhance its sustainability and ensure environmentally friendly port operations.

With this in mind, PortMiami has embarked on a visionary and transformational Net Zero program. This will be the nation's first end-to-end net zero carbon emission supply chain in line with the County's goal of a 25% reduction in emissions by 2030 for PortMiami, in accordance with the 2021 Miami-Dade Climate Action Strategy. The program addresses supply chain disruptions and congestion and is a significant step forward for the County's economic development goals.

MULTIMODAL SEAPORT DEVELOPMENT

The Program began with electrification of key elements of the supply chain, including certain electric cargo handling equipment, all electric ship-to-shore gantry cranes, and one state of the art cargo security gate.

As continuation of the Port's drive to sustainability, the Program has progressed with the implementation of shorepower at five cruise berths, infrastructure improvements to support electric cargo handling equipment, and infrastructure investments that address sea-level rise. This Program includes an inland port with electric infrastructure in off-port areas that will create new jobs and have a positive economic impact within Miami-Dade County. The NetZero Program further expands its economic benefit in the community with the development of a workforce training program with Miami Dade College to develop and train future port workers. The training program will expand and focus on new technologies, additional resiliency elements such as a solar farm at the inland port, electric vehicle charging, and infrastructure improvements to key roadways, and rail infrastructure improvements.

TRANSPORTATION

The Port's TIP comprises of a total of approximately $2 billion in funded and unfunded projects over the next five years; and reflects the Port's aggressive strategy for optimizing land use and enhancing throughput capacity to meet the demands of the cargo and cruise industries.

The Port is dedicated to meet and exceed industry demands by supporting the following Capital Improvement Projects:

- Construction of Cruise Terminals and Parking Garages
- Roadway projects for both cruise and cargo efficient movements
- Bascule Bridge rehabilitation
- Modernization and Densification of Cargo Yard Terminals, including additional reefer capacity
- Electric Ship-to-Shore Gantry Cranes
- Bulkhead Improvements and Replacement projects
- Fumigation and Cold Chain Processing Facility
- Inland Port and Logistic Center
- Projects promoting Technological Improvements to reduce delays, emissions, and/or improve safety and efficiencies
- Projects promoting Sustainability and Resiliency
- Intermodal Railway Expansion
- State-of-the-Art Cargo Gates
- Shorepower program
- Sustainable Commercial Development
- Navigational Improvements
- Shorepower program
- Sustainable Commercial Development
- Navigational Improvements

The Port continues to assertively seek grant funding from local, state, and federal sources. The TIP reflects participation from the FDOT with over $20 million in support of roadways, cargo improvements and other infrastructure projects. This agency and the Port's partners continue to be part of the established goals to support the program and accommodate growth.

PORTMIAMI ACCOMPLISHMENTS

CRUISE

CRUISE TERMINALS D & E – UPGRADES

Upgrade terminals D and E for the new Carnival Cruise Line services.

CRUISE TERMINAL C

PortMiami completed renovations to combine Cruise Terminals B and C (Completed in 2022) into a new Cruise Terminal C (Completed in 2023) for various existing and new cruise lines. Conversions include passenger boarding bridges and waterside improvements.

CRUISE TERMINAL F EXPANSION (Phase 2)

PortMiami completed Cruise Terminal F in 2023 to support Carnival Cruise Line's expanding operations. The project has achieved LEED Silver Certification.

CRUISE TERMINAL V

PortMiami completed the design and construction of this new cruise terminal and expanded berth to support expanding operations with Virgin Voyages. The project achieved LEED Gold certification.

CRUISE TERMINALS A AND AA – ROADWAYS FLYOVER

PortMiami constructed a new road and flyover bridge to handle increased Port traffic to accommodate the new Cruise Terminal AA.

INFRASTRUCTURE IMPROVEMENTS – NORTH CRUISE BOULEVARD EXTENSION

PortMiami extended North Cruise Boulevard for added roadway capacity and increase safe operations.

SHOREPOWER AT CRUISE TERMINALS A, B, and F

PortMiami has completed the fully commissioned shorepower for Cruise Terminals A, B, and F, which will allow ships to turn off their primary engines while docked maintaining our high air quality metrics.

CARGO

INFRASTRUCTURE IMPROVEMENTS – SOUTH FLORIDA CONTAINER TERMINAL (SFCT) – ERTG PHASE 1

PortMiami has improved the infrastructure within South Florida Container Terminal's cargo yard to transition from diesel power cargo handlers to eRTGs. Each eRTG replaces approximately two diesel top loaders, and this first phase reduces carbon dioxide emissions by 20%.

INFRASTRUCTURE (ELECTRIC)

FPL SUBSTATION EXPANSION

FPL has completed the relocation of its utilities in preparation for the next phase –expanding its substation. The FPL substation expansion was completed in May of 2023.

PORTMIAMI CURRENT PROJECTS

CRUISE

CRUISE TERMINAL G

PortMiami is expanding Cruise Terminal G to support the cruise line's expanding operations. The project will achieve a minimum of LEED Silver Certification, and include solar panels, a multimodal parking garage, and roadway improvements.

CRUISE TERMINAL AA (SHARED TERMINAL)

PortMiami has partnered with MSC Cruise Line to design and construct two new cruise berths, a shared "state of the art" multi-vessel Cruise Terminal, and Parking Garage Complex. The LEED Silver Certified terminal will be equipped with shorepower.

BERTH 10

PortMiami is developing the third berth to supply berthing space for Cruise Terminal AA (Shared Terminal) and introduce a resilient bulkhead system capable of addressing future sea level rise.

SHOREPOWER

As part of PortMiami's Net Zero goals, the Port will complete shorepower at two remaining Cruise Terminals (CTV and CTAA) which will allow ships to turn off their primary engines while docked, resulting in reduced air emissions. With the existing three Cruise Terminals currently served by shorepower the total near-future terminals with access to shorepower service will be a total of five.

CARGO

RESILIENT CARGO PROGRAM

PortMiami is developing the nation's first end-to-end resilient supply chain in line. Transformational endeavors include rail expansion, improved cargo gates, cargo yard's operational efficiencies, and infrastructure improvements to support various types of cargo yard equipment. As part of the program, PortMiami will construct additional rail capacity and increase the cargo gate optimization to reduce traffic congestion at the Port and lower carbon emissions.

GANTRY CRANES

As PortMiami receives deeper draft vessels, the Port will add up to eight super post-panamax gantry cranes. The gantry cranes will improve productivity and support expanding operations, reduce energy costs with higher efficiencies and by significantly reducing maintenance and repair.

INSPECTION & FUMIGATION FACILITY

The new facility will be a state-of-the-art cold chain processing and fumigation center that will provide a more efficient inspection, cold chain processing, and phytosanitary services for the Port's perishable goods. The facility will become the port's central location to serve various markets and reduce truck travel times and traffic accidents.

CARGO YARD TERMINAL EQUIPMENT & RTGs

As part of the Resilient Program, cargo yard equipment will continue to be upgraded with lower emission diesel engines, hybrids and electrical engines. .

INFRASTRUCTURE

INFRASTRUCTURE IMPROVEMENTS – VARIOUS THROUGHOUT PORTMIAMI

PortMiami is improving infrastructure that includes, but is not limited to, road work, stormwater, landscape, and relocations for future buildings.

INFRASTRUCTURE IMPROVEMENTS - PASSENGER BOARDING BRIDGES (PBBS)

PortMiami is purchasing passenger boarding bridges for various terminals in response to new Cruise Terminal construction, increased demand, and the north bulkhead rehabilitation project.

INFRASTRUCTURE IMPROVEMENTS - CONTAINER YARD (SEABOARD)

PortMiami is providing drainage improvements and various other resiliency improvements in Seaboard's container yard area. The projects will increase capacity, modernize the cargo gate, improve cargo yard pavement to handle various types of cargo handling equipment, install LED high mast lighting retrofits, and implement improved reefer racks for refrigerated cargo.

INFRASTRUCTURE IMPROVEMENTS - CONTAINER YARD (POMTOC)

PortMiami is providing drainage improvements and various other improvements in the container yard area to increase capacity, and improve stormwater management, modernize cargo yard operations, security gates, charging stations, and similar resiliency projects.

INFRASTRUCTURE IMPROVEMENTS – SOUTH FLORIDA CONTAINER TERMINAL (SFCT) - PHASE 2

PortMiami and SFCT have partnered to continue to improve the drainage in the SFCT's cargo yard, construct infrastructure improvements to support eRTGs, and construct a parking garage which in turn increases capacity with the cargo yard. This continued effort addresses sea level rise and meets the port's resilient goals by introducing 18 eRTGs across Phase 1 and 2.

INFRASTRUCTURE IMPROVEMENTS – PORTWIDE SECURITY ENHANCEMENTS

PortMiami is establishing a new Command, Control, and Communications (C3) facility, and other security enhancements.

INFRASTRUCTURE IMPROVEMENTS - NORTH BULKHEAD REHABILITATION

PortMiami will rehabilitate six bulkheads along cruise berths over six years to add at least 75 years of life to the Port, improve resiliency, and raise the bulkhead in preparation for sea level rise. This project includes shorepower infrastructure within the berth, water upgrades, fenders, and mooring improvements. The infrastructure project is seeking Envision Certification.

INFRASTRUCTURE IMPROVEMENTS – SOUTH BULKHEAD REHABILITATION

PortMiami is providing repairs and improvements to the Port's south bulkhead.

INFRASTRUCTURE IMPROVEMENTS - FEDERAL INSPECTION FACILITY (FIF)

PortMiami is planning a facility for Central Examination Stations and cargo related services, and the seaport is planning to upgrade the current US Customs and Border Patrol (US CBP) facility. This investment directly supports the local and national economies and helps ensure the safety and security for the residents of Miami Dade County.

INFRASTRUCTURE IMPROVEMENTS - WATER & SEWER UPGRADES

PortMiami is upgrading its water, sewer and stormwater system for new services that improve the seaport's resiliency. To maintain or resume operations following a storm event it is critical that all Port asset types maintain their functional services. This Project will provide necessary stormwater improvements to reinforce the resilience of a critical at- risk coastal infrastructure so that operations can continue.

INFRASTRUCTURE IMPROVEMENTS - PORTWIDE

PortMiami is undergoing infrastructure improvements in various areas of the port. Port wide infrastructure improvements include beautification, drainage, dredging, road improvements, BMS upgrades, wayfinding, landscaping, lighting, HVAC, sidewalks, etc. The upgrades promote innovative technology that increases safety and operational efficiencies, improves economic competitiveness, cost savings, and resiliency.

INFRASTRUCTURE IMPROVEMENTS – VARIOUS FACILITY MOVES

PortMiami is overseeing the movement of customer warehouses and/or other facilities, as determined.

INFRASTRUCTURE IMPROVEMENTS – CTJ SEAWALL

PortMiami is continuing to rehabilitate the bulkhead cap, expected to add at least 30 years of life to the Port, to address upkeep, address sea level rise, and improve resiliency.

INFRASTRUCTURE IMPROVEMENTS – BERTH REDEVELOPMENT (BAYS 165-177 AND 148-155)

PortMiami is improving the bulkheads along part of Seaboard Marine's cargo yards to address sea level rise and improve PortMiami's resiliency. The Port's infrastructure will be strengthened, and the berthing capacities will increase by fixing the grade elevation, providing stormwater improvements, and removing two existing roll-/roll-off ramps, which increase the overall linear length of the berth to allow multiple ships.

INFRASTRUCTURE IMPROVEMENTS – CHANNEL MODIFICATIONS

PortMiami is undergoing a safety and navigation improvements planning program with the US Army Corps of Engineers.

ROADWAY IMPROVEMENTS - TRANSPORTATION MASTER PLAN

PortMiami is developing roadway expansion and improvement projects to enable the Seaport to manage increased cargo and cruise traffic.

INFRASTRUCTURE IMPROVEMENTS – CARGO GATE MODIFICATIONS

PortMiami is providing infrastructure for a new cargo security gate system, including weigh stations, stormwater improvements, and realigned roadways.

INFRASTRUCTURE COMPLIANCE

PortMiami is rehabilitating and conducting other infrastructure and shoreline improvements throughout the seaport.

OFF-DOCK LOGISTICS YARD RAIL EXTENSION

PortMiami is expanding a railroad track along US27 to connect to the Inland Port and Logistics Center. The Rail Extension project will provide rail connection from the existing rail line in west Miami-Dade County to the future inland port. The shift to rail will reduce truck traffic and emissions throughout the County.

NEW PARKING GARAGES

PortMiami is planning parking garages for both cargo and cruise operations.

PORT ADMINISTRATION FACILITY

PortMiami is planning a new PortMiami Administrations and Operations Facility. The new facility will include police, safety, and security headquarters, and other maritime related offices.

PORTMIAMI FUTURE PROJECTS

INFRASTRUCTURE IMPROVEMENTS – INLAND PORT LOGISTICS SUPPORT YARD

PortMiami is undergoing an Inland Port development of the container storage and transfer staging areas, including truck parking, workforce training center, solar farm, security gates, improved infrastructure for eRTGs, charging stations, reefer racks, etc.

INLAND PORT DEVELOPMENT – PHASE 1

As part of the Resilient Program, an inland port will increase Port Miami's cargo capacity and volume, leading to new business opportunities and access to the burgeoning Orlando and Tampa markets. Preliminary estimates indicate that a new inland port could provide approximately 50% increase in container volume annually, increasing Miami Dade County's economic competitiveness at various scales. The program will include a variety of projects, including truck parking, export consolidation, eRTGs, rail shuttles, etc.

BRIGHTLINE TRAIN STATION

PortMiami is planning to build a train station for passengers and employees at a location that reduces congestion and emissions by optimizing access to terminals and employment destinations.

CRUISE TERMINAL K

PortMiami is planning to design and construction of a new Cruise Terminal, Parking Garages and intermodal facilities to support expanding operations.

WALKABILITY PROGRAM – SIDEWALKS & TREE CANOPY INSTALLATION

The Port's Walkability Program focuses on enhancing infrastructure and promoting pedestrian-friendly areas that provide safe, covered, and efficient mobility options for the millions of cruise passengers who visit the Cruise Capital of the World annually. The project involves comprehensive urban programming, sidewalk enhancements, tree canopies, crosswalk installations, and traffic calming measures that will also help address the dangers of extreme heat. These improvements will provide enhancements to the passenger experience and provide a competitive advantage.

PORTWIDE UTILITIES MASTER PROGRAMMING & IMPLEMENTATION

PortMiami will be developing a stormwater Master Plan, and Decarbonization and Electrification Master Plan Program. The Port is implementing master plans and other portwide projects to reduce emissions through electrification and stormwater management for a more resilient PortMiami.

HYBRID TUGBOATS

As part of the Resilient Program the seaport is introducing hybrid harbor tugboats to the seaport's end-to-end services.

SHOREPOWER

Phase 2

Further investments in the Port's shorepower infrastructure will improve resiliency at the Port. GOB funding will support the purchase of 2 additional electrical feeders for dedicated shorepower to five terminals, instead of sharing 3 electrical feeders amongst the 5 terminals. The implementation of a battery energy storage system (BESS) will help address peak electrical demand needs and help support the Seaport's Resilient initiative by storing excess energy during non-demand periods when shorepower is not in use at any of the five terminals and relaying it during peak hours for the various needs across the cruise, cargo, and administrative programs. The backup power can also act as a reliable source of backup power during grid outages.

Phase 3

The Shorepower Phase 3 project will provide electrical power to additional cruise berths and introduce shorepower to certain cargo berths. The project will also fund power transmission lines and a substation in coordination with FPL, if needed.

MIAMI HARBOR NAVIGATIONAL IMPROVEMENTS

PortMiami is planning to implement a navigational channel and berth improvements project in partnership with the US Army Corps of Engineers for safe transit and expanded operations.

COMMERCIAL DEVELOPMENT

PortMiami is planning to expand the Port's business model for economic competitiveness and maritime development at PortMiami.

BASCULE ROAD BRIDGE

PortMiami is planning to improve the bascule road bridge to return to full operation.

PART 2: 5-YEAR PROJECT LISTINGS
COUNTY TRANSPORTATION SYSTEM AND MAJOR PROJECTS

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

TIP • FISCAL YEARS 2025/2026 TO 2029/2030

PART 2: 5-YEAR PROJECT LISTING

COUNTY TRANSPORTATION SYSTEM AND MAJOR PROJECTS

Miami-Dade County Department of Transportation and Public Works

This section of the TIP focuses on Major Projects from Miami-Dade's DTPW. DTPW's goal is to enhance the quality of life of Miami-Dade County's residents, businesses, and visitors by providing high-quality, safe, clean, efficient, and connected public transportation infrastructure services.

SHIFT305 is an initiative to revitalize Miami-Dade's transportation system, encompassing four key objectives:

CLEAN **EFFICIENT** **SAFE** **CONNECTED**

The projects listed are the tactical execution of the SHIFT 305 strategy and include improvements to highways, transit, and bicycle/pedestrian modes.

The DTPW section provides an overview of the following topics:

- Funding Overview
- SMART Program
- Metrobus System
- Metrorail & Metromover
- Transit Maintenance and Modernization
- Transit Capital Projects
- Pedestrian & Bicycle
- Vision Zero Program
- Major Highway and Bridge Improvement Projects
- Neighborhood Improvement Projects

FUNDING OVERVIEW

DTPW uses a mix of funding sources to plan for, construct and maintain transportation projects, including but not limited to:

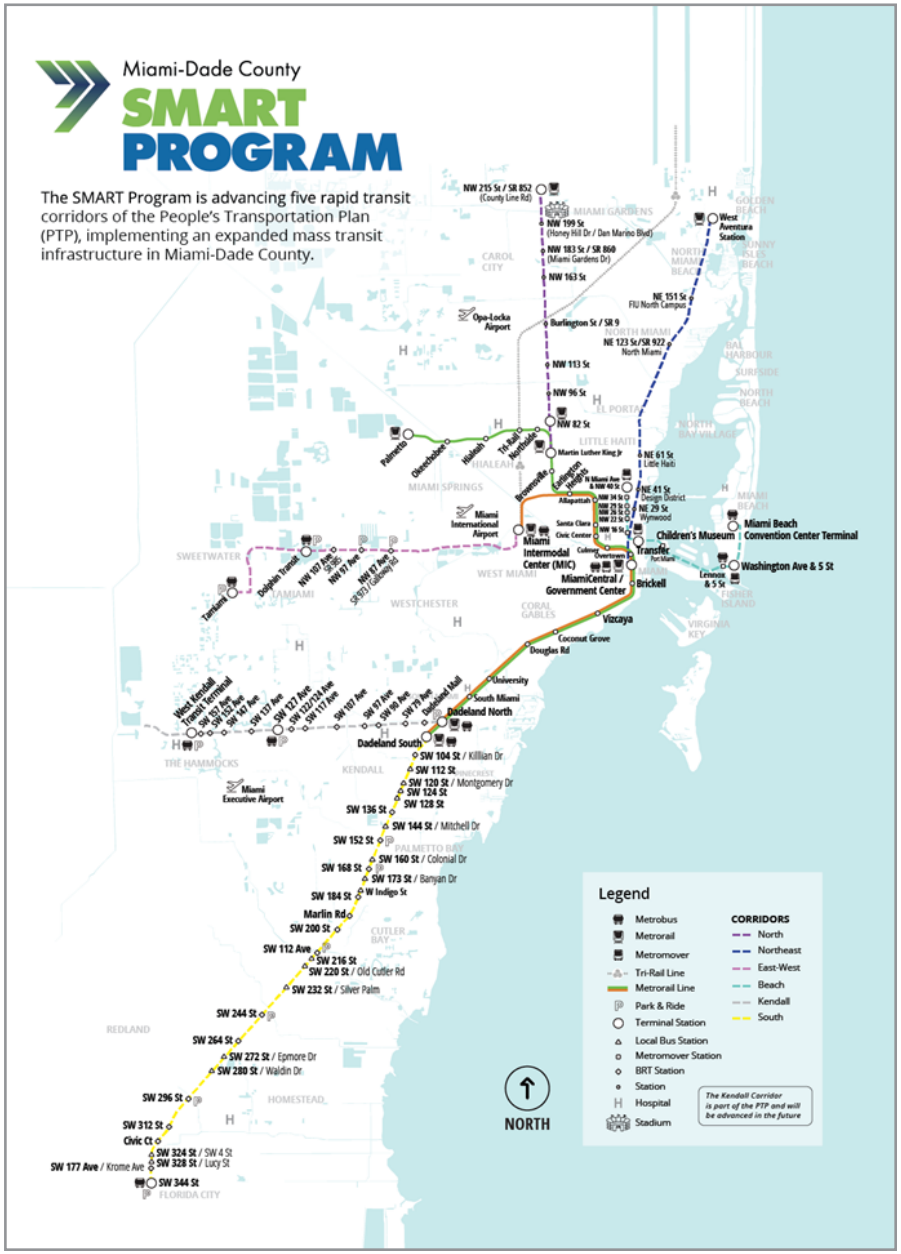

- Local General Funds
- Secondary Gas Tax (SGT)
- Mobility Impact Fees (MIF)
- People's Transportation Plan (PTP)
- Federal and State Grants
- Private Sector
- Municipal Partners

SMART PROGRAM

The SMART Program is advancing the rapid transit corridors of the PTP, implementing an expanded mass transit infrastructure in Miami-Dade County. It represents a strategic and far-reaching vision for the region, leveraging existing infrastructure and advanced technology to expand transportation options.

In partnership with the FTA and the FDOT, the implementation of the SMART Program increases opportunities for transit-oriented development (TOD) projects along corridors, expands a network of premium transit to connect to more key destinations, improves reliability and on-time performance, creates more job opportunities in the transit industry, and increase the availability of real-time arrival and departure information at transit stations. In partnership with the FTA and the FDOT, the program is comprehensive and proactive, supporting the future population and employment growth anticipated in our region. DTPW and FDOT are advancing the following rapid transit corridors:

- South Corridor: Experiencing the fastest population growth in Miami-Dade County. (DTPW)
- Northeast Corridor: High transit demand and part of a critical regional corridor stretching to Palm Beach County. (DTPW)
- Beach Corridor: Highest tourist demand in the region with major employment centers. (DTPW)
- East-West Corridor: Heaviest commuter travel for international, state, and local businesses. (DTPW)
- North Corridor: Key regional mobility linkage for access to jobs, the stadium, and educational facilities. (FDOT)
- Kendall Corridor: One of the most congested arterial roadways with the highest demand. (FDOT)
- Flagler Corridor: Key east-west transit route enhancing multimodal connectivity between Downtown Miami and FIU. (FDOT)

SOUTH CORRIDOR

The project follows the existing South Dade TransitWay (formerly known as the Busway), extending from Dadeland South Metrorail Station to the SW 344 Street Park-and-Ride/Transit Terminal Facility. The corridor will connect Florida City, Homestead, Cutler Bay, Palmetto Bay, and Pinecrest – areas experiencing the fastest population growth in Miami-Dade County. This project facilitates the highest demand movement of passengers to and from southern Miami-Dade to Downtown Miami, improving travel times and safety, while enhancing station platforms and increasing accessibility.

DTPW initiated a PD&E study to evaluate premium transit solutions in this corridor in April 2017. The TPO Governing Board selected the LPA on August 30, 2018, as BRT. The project was advertised on June 7, 2019, and Notice to Proceed (NTP) to the Design- Build Firm was issued on February 2, 2021. The estimated total project capital cost is $300 million. Miami-Dade County and FDOT have both committed $100 million each to fund design and construction, while the project team successfully secured $100 million from the FTA Small Starts Grant program. The project is currently under construction.

Once completed, BRT will provide rail-like travel time, iconic stations, level boarding through all doors, and pre-paid fares for speedy access. BRT will also provide enhanced safety features and other upgrades along with dedicated lanes with multilayered service lines along the existing TransitWay (formerly known as Busway) to the SW 344 Street Park-and-Ride/Transit Terminal Facility. It will connect Florida City, City of Homestead, Town of Cutler Bay, Village of Palmetto Bay, and Village of Pinecrest, which represent the fastest population growth in Miami-Dade County. This project facilitates the highest demand movement of passengers to and from southern Miami-Dade to Downtown Miami. Project Completion is anticipated by Summer 2025.

20-mile Corridor running from Florida City to Dadeland South Metrorail, along the South Dade TransitWay

BRT

Construction

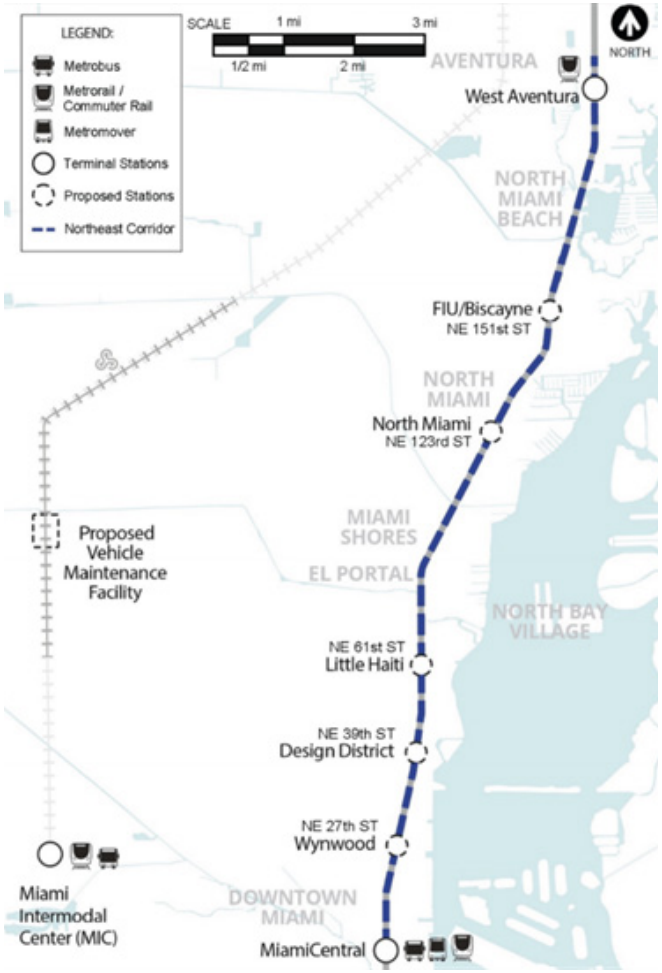

STRATEGIC TARGETS

NORTHEAST CORRIDOR

The Northeast Corridor is the first segment of the 85-mile Coastal Link commuter rail corridor, aimed at connecting Miami-Dade with Broward and Palm Beach counties. Spanning 13.5 miles, the project leverages the existing rail corridor shared with Brightline, Tri-Rail and the FECR. The project provides regional passenger service and will integrate the Miami Central and West Aventura stations while adding five new stops, providing direct connections to: Wynwood, Design District, Little Haiti, North Miami, and the FIU Biscayne Bay Campus. Service will run every 30-minutes during peak times on weekdays and 60-minutes off-peak and on weekends. The project is also building a new vehicle maintenance and storage facility in FDOT's existing Hialeah Yard.

In June 2020, the County began its effort in advancing the implementation of the Northeast Corridor. In March 2021, the TPO Governing Board adopted commuter/passenger rail as the LPA for the Northeast Corridor. The project entered the Project Development (phase) for FTA's New Start program in October 2021. In November 2023, the project received approval of the Categorical Exclusion (CE), completing the necessary steps under the National Environmental Policy Act (NEPA) for the planning and environmental phase.

In October 2024, the FTA granted DTPW approval to enter the engineering phase of the project. The project received a 'Medium-High' rating and can proceed to engineering design. With an estimated cost of $927.3 million, the FTA committed $389.5 million (42%) in funding. DTPW can proceed with Engineering activities, however at the County's risk as the FTA's appropriation must undergo standard federal budget approvals. The FDOT has committed $200 million (22%), with the remaining funds provided by the PTP, completing the local funding commitment. Together, these contributions ensure the project can move towards implementation.

Downtown Miami to the City of Aventura, along the existing FECR tracks (13.5 miles)

Commuter Rail

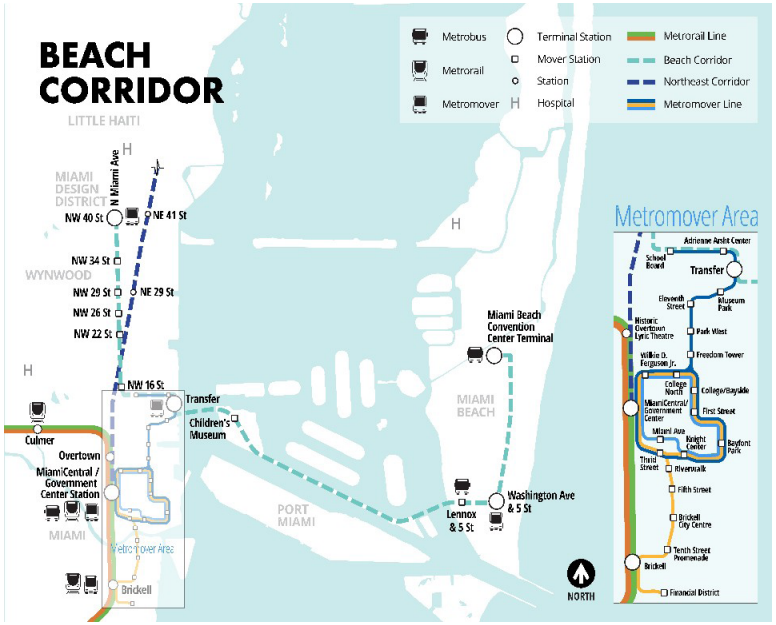

Engineering Design

STRATEGIC TARGETS

BEACH CORRIDOR

The Beach Corridor is the east-west segment of the SMART Program that traverses Biscayne Bay, connecting Downtown Miami and the Design District (Mainland) area to the City of Miami Beach.

Downtown Miami/Overtown (Mainland) area and Miami Beach have both experienced rapid population growth, a trend expected to continue. A planning study of the Beach Corridor - Baylink is currently underway. The project is focused on providing rapid transit connections from Downtown Miami to South Beach.

In May 2017, DTPW initiated a PD&E Study to evaluate proposed transportation solutions between Downtown Miami and the City of Miami Beach via I-395 and I-195. In January 2020, the Miami-Dade TPO selected elevated automated rail transit for the Baylink connection to Miami Beach (automated people mover) for the Midtown/Design District, and Bus/Trolley in dedicated lanes on Miami Beach as the locally preferred alternative (LPA), recommended by the PD&E. The project received an Environmental Assessment (EA) as the NEPA Class of Action (COA) for the Baylink segment, which crosses the McArthur Causeway and connects to Miami Beach, from the United States Coast Guard (USCG) and published the Draft EA document for public review and comment in Summer 2022.

Two Beach Corridor extensions are under evaluation: one connecting Downtown Miami to the Design District/Midtown (Design District Extension) and another linking South Beach to the Miami Beach Convention Center (Convention Center Extension). The LPA for the extension from Downtown Miami to the Design District/Midtown is Metromover and dedicated lanes for bus/trolley along Washington Ave for South Beach to the Miami Beach Convention Center extension. DTPW is finalizing the traffic analysis for the Baylink segment, reassessing stop locations for the Design District Extension and working with the City of Miami Beach on the Convention Center Extension.

Along a 9.7-mile corridor, crossing Biscayne Bay linking Downtown Miami to Miami Beach

Various premium transit modes

Project Development, NEPA for Baylink

STRATEGIC TARGETS

EAST-WEST CORRIDOR

The East-West Corridor project spans approximately 14 miles from the Miami Intermodal Center (MIC) at MIA, west along the SR-836/ Dolphin Expressway, to Tamiami Terminal Station and Park-and-Ride facility at SW 8 Street and SW 147 Avenue. It provides multimodal solutions for severe traffic congestion along SR-836, the only east-west expressway in central Miami-Dade County. The intention is to connect southwestern residential areas with major activity centers including MIA, MIC, and Downtown Miami to major employment areas (Sweetwater, Doral, Health District, Central Business District, Brickell, etc.).

In April 2017, DTPW initiated a PD&E study to evaluate proposed transportation solutions along the SR836/ Dolphin Expressway corridor. On October 22, 2020, the TPO Governing Board selected the LPA as BRT. The LPA includes BRT routes operating within dedicated transit-only lanes, including reversible transit-only lanes along SW 8 Street from the Tamiami Terminal to SW 137 Avenue and along SW 137 Avenue to the SR 836 Extension. Further east, the BRT routes would use dedicated lanes on the inside shoulders of SR 836 on routes to the MIC and Downtown Miami. The East-West BRT routes would be in addition to and complement the SR836 Express Services which already began operating in the Corridor in early 2020. In August 2021, the County submitted a letter to the FTA requesting entry into the Project Development (PD) phase under the FTA Capital Investment Grants Small Starts program for the East-West Corridor Rapid Transit Phase One. The Project was granted entry into the program by FTA on October 26, 2021. DTPW is working closely with the FTA on the BRT LPA for the corridor while considering alternative modes and alignments as directed by the TPO board.

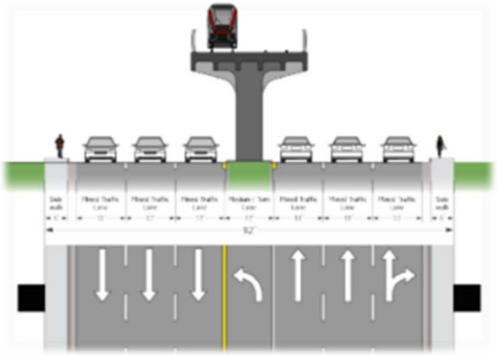

TPO Governing Board acted on January 25, 2024, and unanimously approved the DTPW to re-evaluate the project. The Department continues to coordinate with stakeholders and the FTA.

BRT or Commuter Rail

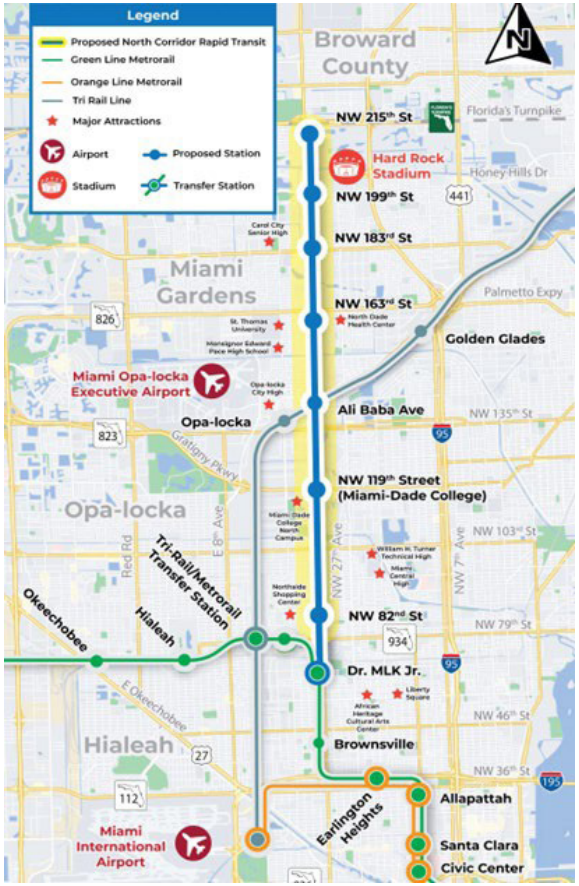

Project Development

STRATEGIC TARGETS

NORTH CORRIDOR

The North Corridor is a 10-mile-long corridor along NW 27 Avenue, from NW 62 Street/Dr. Martin Luther Kind, Jr. Metrorail Station to NW 215 Avenue. The Project consists of implementing a Metrorail extension along NW 27 Avenue. The envisioned transit corridor will include public on-street transit stations located along a dedicated running way. These stations can include public or private facilities located adjacent to the corridor where potential Park-and-Rides or transit terminals will be considered. In October 2019, the Miami-Dade TPO selected elevated Metrorail as the locally preferred alternative for the North Corridor. On April 23, 2020, the TPO Governing Board accepted a report by Miami-Dade County's DTPW on alternative transit technologies for NW 27 Avenue and directed DTPW to issue a RFP to identify whether transit technologies, other than heavy rail, are viable for the corridor. FDOT placed its North Corridor PD&E study on hold after consulting with the FTA, until the outcome of the DTPW RFP process is known and a final decision on the transit technology and alignment for NW 27th Avenue is made by the TPO Governing Board. On November 15, 2022, the BCC passed a motion to terminate the development of the DTPW's RFP and to accelerate the implementation of the North Corridor as an elevated fixed guideway. In May 2023, FDOT and DTPW collaborated to conduct a Value Engineering (VE) Workshop to identify the best and most cost-effective methods of implementing the project. Results of the VE Workshop were formalized in a final VE Report which was completed October 2023. The PD&E Study restarted in April 2024 and is currently ongoing.

NW 27 Avenue Corridor from NW 215 Street to NW 38 Street along NW 27 Avenue and from the MIC (at MIA) to NW 27 Avenue via SR 112

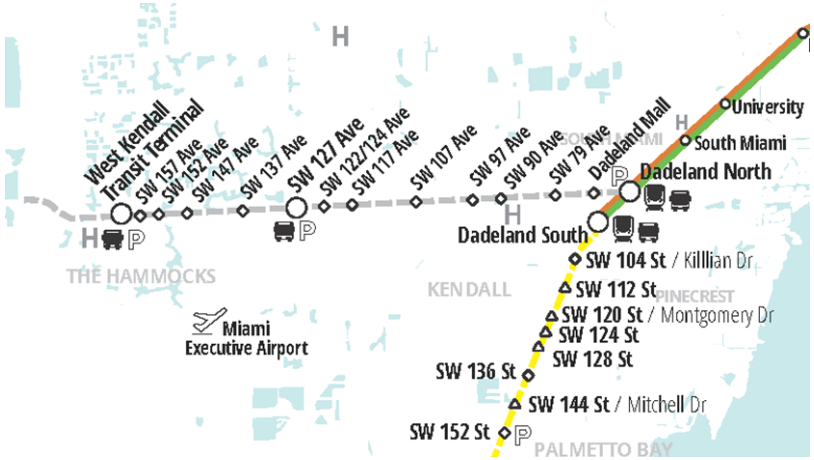

Heavy Elevated Rail

FDOT PD&E

STRATEGIC TARGETS

KENDALL CORRIDOR

The Kendall Corridor consists of implementing a premium transit service along SR 94/Kendall Drive/SW 88 Street. The project also considers a connection with another segment running along SR 874 and SR 878 from Kendall Drive to the Dadeland North Metrorail Station, and potentially north along the HEFT from Kendall Drive to FIU (at the proposed Panther Station) and/or to the proposed Dolphin Station (at SR 836). In November 2019, Curbside BAT Lane was identified as the recommended alternative for the Kendall Corridor. In March 2022, a joint-agency recommendation by the FDOT and DTPW to place the Kendall PD&E study on hold was approved by the TPO Governing Board. The Kendall Corridor PD&E study will remain on hold until the outcome of the Flagler Demonstration Project is assessed. The data collected from the Flagler Demonstration Project will inform the study team on an effective multi-modal transportation solution to improve transit along the Kendall Corridor.

BRT Curbside

FDOT PD&E on Hold

STRATEGIC TARGETS

FLAGLER CORRIDOR

The Flagler Corridor consists of implementing a rapid transit service along SR 968/ Flagler Street. This includes multimodal street improvements to accommodate rapid transit service along Flagler Street. On January 28, 2021, the Miami-Dade TPO selected Curbisde BAT Lanes as the recommended alternative with the exception that the PD&E study shall not consider the reduction of vehicular traffic lanes for any portion of Flagler Street west of NW 24 Avenue. On March 3, 2022, the TPO adopted a resolution to place the Flagler PD&E study on hold to implement a Flagler Street SMART Demonstration Project. On April 2023, the TPO adopted a resolution to remove the exception that said study shall not consider the reduction of vehicular traffic lanes for any portion of Flagler Street west of West 24 Avenue to allow FDOT to continue with the study of the recommended alternative. On November 28, 2023, the project restarted, however on January 25, 2024, the TPO unanimously passed a resolution requesting FDOT to pause the study and evaluate an elevated rail option from Downtown Miami to FIU.

FDOT PD&E on Hold

STRATEGIC TARGETS

FLAGLER DEMONSTRATION PROJECT

The Flagler Demonstration Project will implement BAT Lanes along a portion of the Flagler Corridor. The project consists of implementing BAT lanes by repurposing an existing travel lane along SR 968 Flagler Street (westbound) and SW 1 Street (eastbound) between SW 27 Avenue and SW 6 Avenue. As part of the Flagler Demonstration Project, traffic analysis, monitoring plans and design plans for implementation of a dedicated transit lane will be developed. FDOT will conduct before and after studies to evaluate the performance of the implementation of the curbside BAT lanes. The data collected will allow FDOT, the TPO and DTPW to jointly evaluate and determine the feasibility of a dedicated curbside rapid transit lane concept throughout the corridor and on the Kendall Corridor.

METROBUS SYSTEM

The Better Bus Network launched in 2023, creating a new foundation of a high frequency bus network connecting more people to more places more quickly. The following year saw three service improvements further refining the network based on passenger feedback and data analysis. Key metrics showed the success of the redesign a year after implementation: ridership increased by over 10%, on-time performance improved, and key journeys were quicker.

To help address mobility gaps, the County launched MetroLink as a demonstration service in Summer 2024. MetroLink served areas affected by the changes and provided a fixed route service with smaller buses every 45 minutes. Staff improve the network three times a year, while actively engaging with communities to create tailored solutions. An example is the Overtown senior lifeline service launched in December 2024 and developed through extensive public meetings.

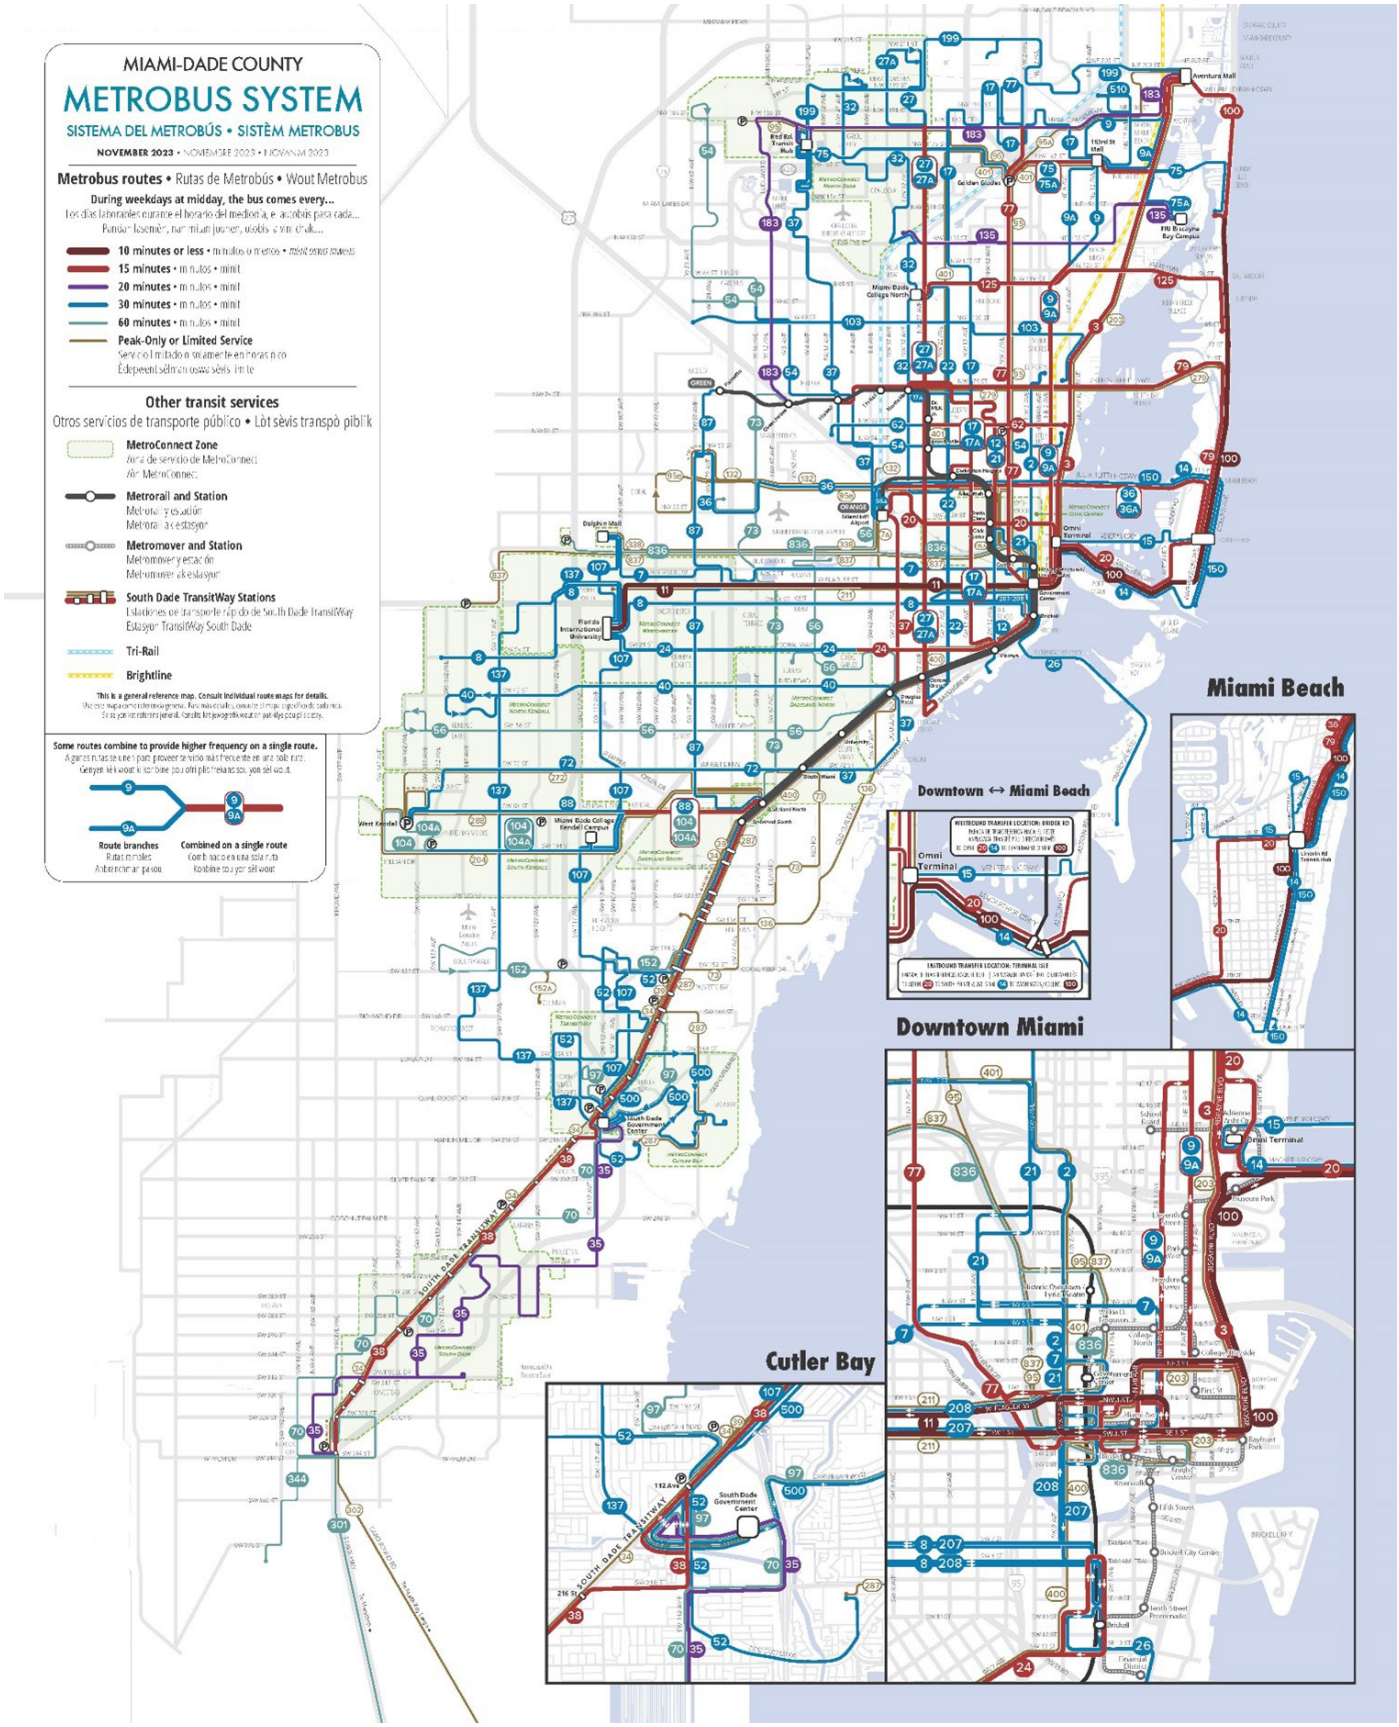

Lastly, staff continue to work with municipalities ensuring their services complement the regional network. This has been key to the continuous improvement of the entire County bus network.

DTPW continues improving the network through data-driven updates, community input, and municipal coordination

BUS PASSENGER AMENITIES PROGRAM

The Bus Passenger Amenities Program is part of the department's strategic vision to operate and grow a safer, cleaner, quicker, and more connected transit system. The program consists of the installation of new bus passenger amenities including new trash containers, new bicycle racks, improved pedestrian accessibility to and from bus passenger amenities, and a complete renovation of the existing bus passenger amenities inventory installed within Miami-Dade County's Metrobus service area. The program will ensure that all bus passenger amenities, either new or existing, trash containers and bicycle racks are well maintained, safe, clean, well illuminated, and have an attractive appearance. As of December 2024, 373 new bus shelters, trash containers, and illuminations systems have been installed, along with 800 bicycle racks. An additional batch of 331 of these transit amenities is set to be fabricated and installed by the Summer of 2027.

Ongoing

STRATEGIC TARGETS

METRORAIL & METROMOVER

DTPW is actively working to upgrade the Metrorail, a 25-mile dual track system that provides heavy rail service to MIA and runs from Kendall through South Miami, Coral Gables, and Downtown Miami; to the UHealth Jackson Station/Jackson Memorial Hospital area; and to Brownsville, Liberty City, Hialeah, and Medley in northwest Miami-Dade, as well as upgrade the Metromover, a free elevated people mover system that operates seven days a week in the Downtown Miami, Omni, and Brickellareas.

METRORAIL ACOUSTICAL BARRIER REPLACEMENT

This Program consists of the installation of acoustical barriers with associated hardware along the Metrorail system where Type "B" concrete barriers have been removed. The new barriers are intended to abate sound/noise produced by passing trains avoiding their propagation to adjacent properties. In 2019, DTPW launched a three-phase acoustical barrier replacement program. Currently, Phases One and Two have been completed. The first two phases of the program involved the removal of Type B barriers. On January 4, 2021, DTPW entered Phase Three of the program which entails the replacement of the acoustical barriers in the areas where the Type "B" panels were removed. In November 2023, a supplemental scope was approved forthe program incorporating all remaining existing barriers to also be removed and replaced. Currently, the program is well underway, the original scope is at approximately 98% completed and supplemental scope is approximately 65% completed. This $100M program is scheduled to be completed by August 2025.

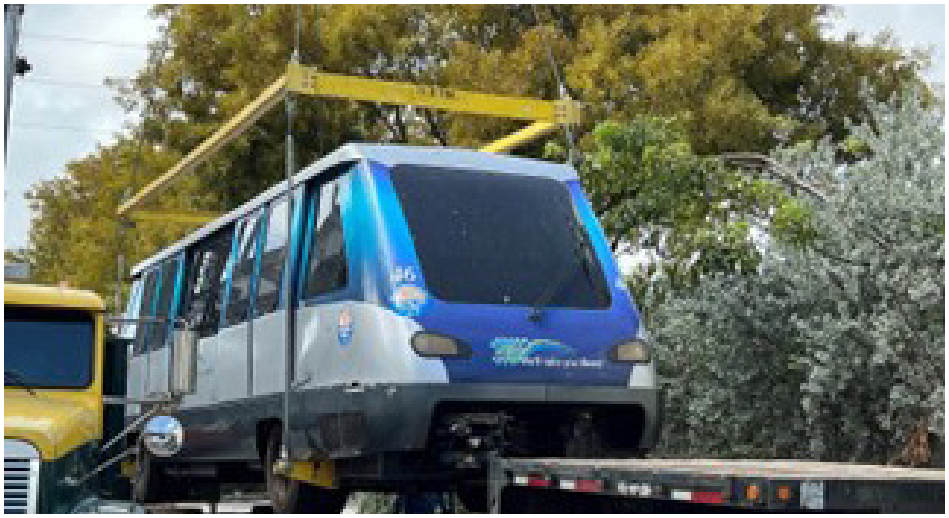

Countywide

BRT Curbside

FDOT PD&E on Hold

STRATEGIC TARGETS

METROMOVER WAYSIDE SYSTEM OVERHAUL

Metromover is an automated people mover system that was designed and installed by Bombardier Transportation, formerly Westinghouse, (most recently Alstom) and began passenger service in April 1986. The Metromover system is comprised of 21 stations, 4.4 miles of dual lane guideway, 25 guideway switches, 29 vehicles and a central control facility located at the Government Center. Over its 40-year history, Metromover has expanded, and its vehicle fleet has been replaced. However, many major subsystems have not been upgraded and have now reached the end of their design life. These subsystems include the Automatic Train Control (ATC) System, Data Transmission System (DTS) with Supervisory Control and Data Acquisition (SCADA), several Power Distribution System (PDS) elements (e.g., low voltage breakers, protective relays, ground switches, etc.), guideway switch equipment and the central control equipment. To maintain good equipment reliability and an overall high Metromover system service availability, these major subsystems need to be replaced or refurbished. The comprehensive wayside overhaul will include the design, supply, manufacture, installation, testing and commissioning of the system into a fully functional, safe, and reliable Metromover system. The original baseline schedule completion date was 2025. The project is experiencing delays and awaiting a recovery schedule to realign the timeline.

Improvements Across Most of Metrorail System

Rapid Transit Improvement

Construction Phase

STRATEGIC TARGETS

TRANSIT MAINTENANCE AND MODERNIZATION

Regular maintenance and upgrades to the transit infrastructure not only improve passenger experience, but also help to reduce delays and breakdowns, which can have a significant impact on the overall efficiency of the system. Additionally, modernization efforts, such as the introduction of new technologies and the use of cleaner and more sustainable energy sources, help to improve the environmental impact of transit.

These improvements have become more critical with the implementation of the BBN, as the need for transfers has increased. Key transfer locations within the County have been identified so enhanced facilities can be implemented to ease these transfers. For example, DTPW modernization efforts include:

- Electric signage at Metrorail and Metromoverstations
- Parking space counters at Metrorail parkinggarages

SOUTH DADE TRANSIT OPERATIONS CENTER (SDTOC)

With the implementation of the SMART Program, the County inventoried the availability of garages located within the south area of the County for bus maintenance facilities and determined that the closest maintenance facility to the South Miami-Dade area is the Coral Way facility, which has reached its capacity and is approximately 30-miles away from the southern county line of Miami-Dade. A new facility in this area is necessary. This new maintenance facility will improve

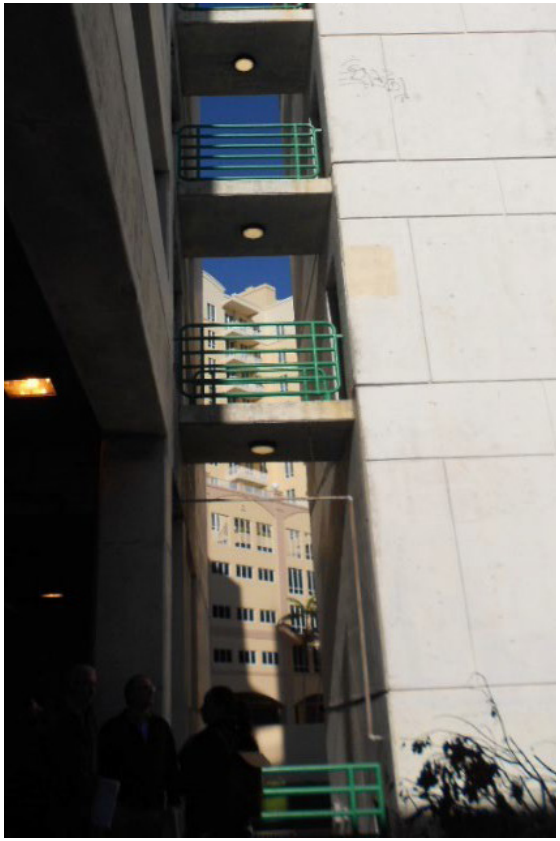

transit's operational efficiency by decreasing the turnaround time for placing buses back in revenue service. A county owned site with good access was identified at the NW Quadrant of Biscayne Drive andSW 127 Avenue. The Project was advertised on September 28, 2023, to procure a contractor for the construction of the facility. The Bid Opening took place on December 2024. The NTP for Construction was issued on June 10, 2024. Final completionis scheduled for July 10, 2026. Most of the foundation work has been completed, and vertical and utility work is currently ongoing. The project has successfully met the 90-day milestone.

Northwest Quadrant of Biscayne Drive and SW 127 Avenue	STRATEGIC TARGETS
Transit Modernization / Construction Phase	

ADDITIONAL ELEVATORS AT DADELAND NORTH METRORAIL STATION PARKING GARAGE

Since its completion in 1984, the Dadeland North Metrorail Station's use has increased over the years. Because of increasing ridership at the Dadeland North Metrorail Station, the existing bank of elevators (four elevators) does not provide an acceptable level of service during peak hours. Peak passenger flows create congestion and long waiting periods for Metrorail passengers, generating complaints from existing customers. DTPW is adding two elevators to the existing parking facility. The two new elevators will be built at the Northern end of the existing parking garage. DTPW has selected the Design-Build firm for the project. The proposed project was presented to the Miami-Dade County BCC on July 16, 2024. The contract with the Design-Build firm was fully executed and attested on November 1, 2024. The NTP is scheduled for January 2025, with final acceptance of the project anticipated in April 2026.

Proposed 11-story building to house two elevators at the North end of the existing Dadeland North Metrorail Station Parking Garage

Station Modernization

Design-Build Firm Selected, Contract Executed on November 1, 2024

STRATEGIC TARGETS

BUS NEW VEHICLE REPLACEMENT

DTPW continues to implement its bus replacement program. Funding for this program is provided through various sources including PTP, FDOT and Federal funding sources. The DTPW bus fleet is continuously aging; therefore, an aggressive bus replacement plan is in place to ensure compliance with FTA's bus retirement criteria. After examining various alternative fuels, DTPW decided to migrate its bus fleet to clean-burning, compressed natural gas (CNG). The purchase of alternative fuel buses for replacements and enhancements are not only an improvement to transit but also promotes the County's long- term initiative towards a state of good repair, economic competitiveness, livability, sustainability, safety, job creation, and economic stimulus.

In addition to CNG, a total of 69 Proterra 40' Electric Buses have been delivered and assigned to provide services to date. These vehicles are the first of their kind in Miami-Dade County's Metrobus Fleet and complement the ongoing modernization of the fleet. In January 2023, Miami-Dade County and New Flyer of America, Inc., entered into an agreement to procure one-hundred articulated 60-foot battery electric, zero- emission, low floor buses, fifty chargers for depot-based charging and two on-route fast chargers for charging the buses while awaiting passengers to board at the end stations. As of December 2024, 16 buses were delivered to DTPW.

Procurement Phase

Transit Modernization

STRATEGIC TARGETS

TRANSIT CAPITAL PROJECTS

TRANSIT FACILITIES MASTER PLAN

The Transit Facilities Master Plan will provide a comprehensive, 20-year roadmap for the future of Miami-Dade County's DTPW transit facilities. This plan will evaluate ten key transit facilities, assessing their current conditions and identifying necessary improvements to support service expansion, fleet transitions, and operational efficiency. The plan will review facility conditions, analyze operational needs, and determine space requirements and design criteria. It will also evaluate Metrobus fixed routes to understand service capabilities and develop a Zero- Emission Transition Plan to support the County's move toward a 100% battery electric bus (BEB) fleet. Each facility will be assessed against its future space and design needs to identify deficiencies and recommend solutions, which may include renovations, expansions, new facilities, or a combination of these approaches.

The master plan will include concept site and floor plans, cost estimates covering construction and operational impacts, and a cost-loaded implementation plan outlining project sequencing, funding, vehicle acquisition, design, construction, move-in, and start-up. Additionally, immediate short-term facility improvements will be identified to address pressing operational needs. This plan is a critical step in ensuring DTPW's transit facilities remain functional, efficient, and capable of supporting Miami-Dade County's evolving transportation network.

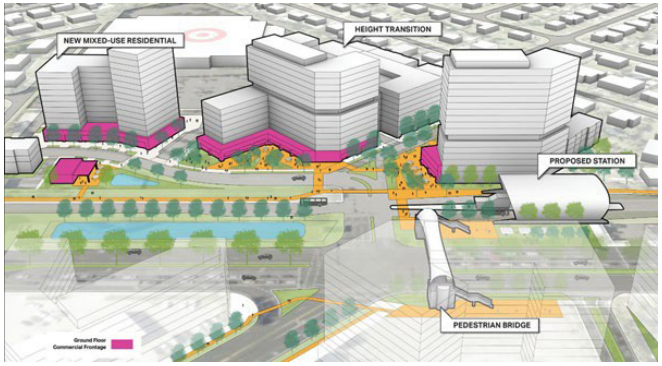

Countywide		STRATEGIC TARGETS
Facilities Master Plan	Planning Phase	

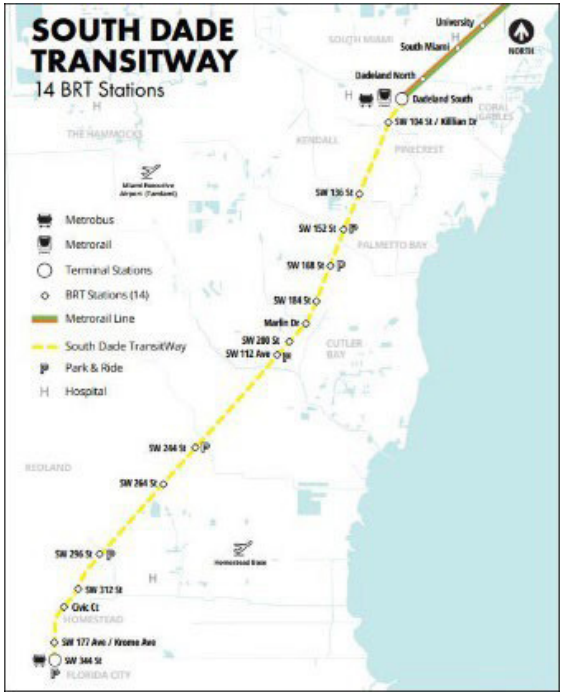

SOUTH CORRIDOR TOD MASTER PLAN STUDY

The purpose of this Study is to produce a Master Plan that can leverage South Dade communities' new transit access to enhancing employment options and higher density residential development in the areas around the future BRT stations along the South Dade TransitWay.

This Study seeks to spur significant redevelopment along the corridor and provide distinctive placemaking opportunities around each station. In the long term each evaluation, location allows for new mixed-use urban centers, designed to fit into the physical and historical context of its neighborhood, providing for new commercial development opportunities, affordable housing and employment.

The Study focused on a 1/2-mile radius around each selected station to create a walkable, higher density development with a mix of uses and plan for landscaping/tress planting and other nature-based infrastructure elements that address stormwater management, urban heat island impacts, improve air quality and other natural system best practices. Each of the Station areas along the corridor was given a station area typology designation by assessing the land availability, public support, accessibility and market strength surrounding the South Corridor TransitWay, as identified through prior planning work of the TPO and others. After an evaluation, the fourteen (14) station areas, five (5) station areas were selected for the development of station area plans which will aim to represent one of each of the station typologies.

1/2-mile radius around selected station areas along the South Dade TransitWay

TOD Master Plan

Planning Phase

STRATEGIC TARGETS

GLADES SUNSHINE STATION

The project includes the design and construction of a pick-up/drop-off ("Kiss-and-Ride") facility (Sunshine Station) located in the Sunshine State Industrial Park on the west side of the SFRC just north of the Golden Glades Tri-Rail Station. The project will also include a pedestrian and bike overpass comprised of two bridges: one over the SFRC to connect to the Golden Glades Tri-Rail Station, and another to replace the existing bridge over SR9 to connect to the Golden Glades Multimodal Transportation Facility (GGMTF). The proposed Sunshine Station facility would improve access for individuals traveling to and from the Golden Glades Tri-Rail Station and GGMTF via walking, biking, transit modes including the Miami Gardens Trolley, and auto drop-off, eliminating the need to drive on the highway along a circuitous and highly congested route to access the GGMTF from the City of Miami Gardens.

Sunshine State Industrial Park, West side of the SFRC, North of the Golden Glades Tri-Rail Station

Kiss-and-Ride Station

Planning Phase

STRATEGIC TARGETS

PEDESTRIAN & BICYCLE

THE UNDERLINE

The Underline is a 10-mile mobility corridor from Brickell to the Dadeland South Metrorail station that repurposes existing underutilized industrial space under the existing Miami-Dade County Metrorail, which is the most widely used regional transit heavy rail system. The project increases connectivity to eight Metrorail stations and bus terminals, facilitating increased ridership and safety. As a multi-modal corridor, this project helps to connect individual streets and neighborhoods.

The Underline will serve as the first and last mile connections to twenty-four (24) schools, one (1) university, two (2) hospitals, three (3) urgent care facilities, four (4) major malls and over 250,000 residents within a ¼ mile. The project includes transportation and non-transportation components. The Underline is building separate bicycle and pedestrian paths as well as improving 34 intersections along US-1. DTPW and FDOT are working together in the coordination of intersection improvements. It encourages active transportation and a healthier lifestyle by promoting mass transit, walking, and biking, and reducing US-1 traffic by five percent. It will serve as the spine for a future network of 180 miles of county and city trails and as the spine for the 22-mile Miami Loop.

The project was originally planned with nine segments for development, and it is getting built in three phases. Phase 1 of The Underline was completed in 2021, and Phase 2 was completed in early 2024. As of February 2025, the estimated completion date for Phase 3 is expected towards the end of the first quarter of 2026.

From the southern bank of the Miami River to the northern curb of Dadeland Boulevard

Multimodal Urban Trail

Phase III Under Construction

STRATEGIC TARGETS

The Underline Phase I – Brickell Backyard Project — — The Brickell Backyard is 0.5 miles long and the most complex of all the phases. It extends from the southern edge of the Miami River to SW 13 Street (Coral Way). This phase is within the limits of the City of Miami. This phase of The Underline features urban biking and walking paths, flex basketball and soccer courts, outdoor gym, nature, and butterfly gardens gathering spaces to eat, play, discover and relax.

Commenced Construction in December 2018; Completed 2021

The Underline Phase II – Hammock Trail — The Hammock Trail extends from SW 13 Street (Coral Way) to SW 19 Avenue. This segment is approximately 2.14 miles long. Phase Two is within the City of Miami

Completed Spring 2024

The Underline Phase III — This segment is the longest of all the Underline Phases. It extends 7.36 miles, from SW 19 Avenue to the Dadeland South Kiss-and-Ride Facility. The phase will traverse through the Cities of Miami, Coral Gables, and South Miami and end in Unincorporated Miami-Dade County. Similar to Phase 2, this phase is also designed on three key drivers, highlighting safe multi- modal transportation, nature, and community.

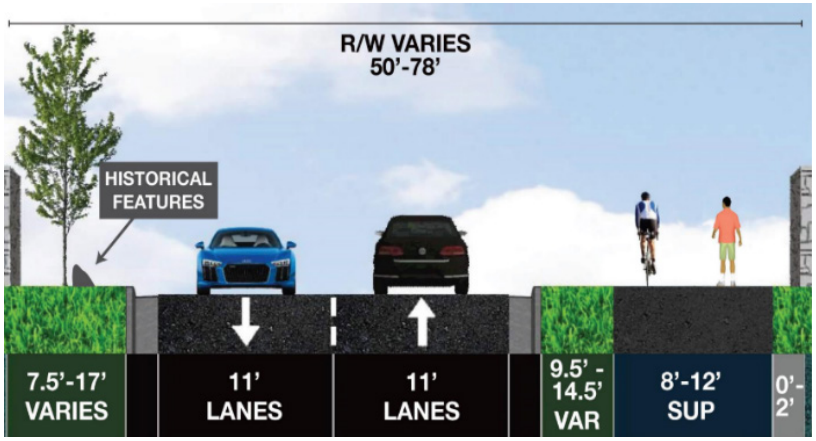

Construction Completion Expected in 2026

SOUTH BAYSHORE DRIVE

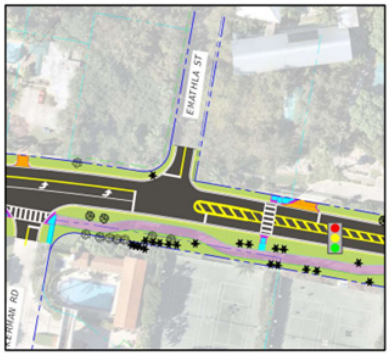

The South Bayshore Drive project will provide continuous pedestrian and bicycle facilities to improve the connections to parks, trails, and transit facilities. This project includes an 8 to 12 feet wide shared-use path north of Aviation Avenue that forms part of the Commodore Trail – an essential trail that connects the Old Cutler Trail to the Rickenbacker Causeway. Improvements include roadway reconstruction, new drainage, a new pump station on David Kennedy Park, new lighting, new signing and pavement markings, continuous shared-use path, and landscaping. This project will remove pinch points and deficiencies in the trail network, improve existing trail crossings and increase safe access to the trail. The project's completion is anticipated by the beginning of 2031.

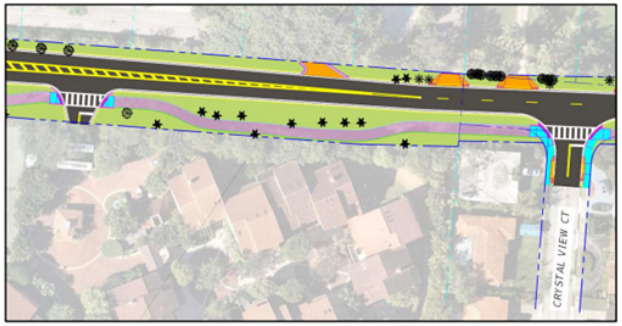

This segment is excluded from the City of Miami Commodore Trail Master Plan, however, coordination with the city is ongoing to ensure the master plan connects to this project at the south and north limits

STRATEGIC TARGETS

VISION ZERO PROGRAM

Vision Zero is a countywide safety initiative with a goal to eliminate all traffic fatalities and severe injuries by 2040, while increasing the safety, mobility, and health of all county residents. DTPW's Vision Zero program is focused on system-level changes in how we plan, design, and build our transportation network.

The program kicked off in late 2021 with the development of the Vision Zero Framework Plan which identified over 2,000 locations where fatalities or serious injuries have occurred across the County and established actions the County must take to achieve zero.

On average, over 300 vehicle crash fatalities occur annually in Miami-Dade County, with more than 100 involving vulnerable road users such as pedestrians and bicyclists. Miami-Dade County continues to be identified as one of the most dangerous counties for vulnerable road users (Smart Growth America: Dangerous by Design 2010 to 2022). While the County continues to thrive economically and grow in population and travel demand, it is DTPW's responsibility to ensure a safe transportation network. Miami-Dade County is committed to eliminating traffic deaths and serious injuries within our transportation network by 2040. Building from the results of the 2021 Vision Zero Framework Plan Miami-Dade County formally established the Vision Zero Program and identified the top 100 high injury crash locations to implement safety countermeasures across the County, prioritizing locations near transit facilities and equity neighborhoods.

Making a commitment to zero traffic deaths means addressing all aspects of safety through five overarching program focus areas. DTPW's focus areas are based on the Safe System Approach that, together, creates a comprehensive approach with layers of protection for all road users.

Our focus areas are:

- Promote a Culture of Safety
- Enhance Process and Collaboration
- Build Safe Streets for Everyone
- Create Safe Speeds
- Making Data-Driven Decisions

To reach our Vision Zero goals, the County has received several state and federal grants for the program, as well as committed local funding, to move the County closer achieving their goal of zero fatalities along the County's roadway network. The awarded funds will focus on infrastructure improvements at 24 critical locations within the County's high-injury network, helping to enhance safety for all road users, particularly in areas of the County where pedestrians and cyclists have been disproportionately impacted by road crashes. To date, DTPW has completed the construction and operational improvements of 22 out of an identified 24 Vision Zero safety projects throughout Miami-Dade County.

22 of the 24 Vision Zero Projects Have Been Completed	STRATEGIC TARGETS
County	Safety Initiative

MAJOR HIGHWAY AND BRIDGE IMPROVEMENT PROJECTS

Major road and bridge projects under construction or scheduled to begin construction include, but are not limited to:

NW 25 STREET CORRIDOR ROAD WIDENING

NW 25 Street is a county-maintained section line road within the cities of Doral and Sweetwater. A feasibility study was completed in 2015. Recommendations from the study include widening the road, providing raised medians, improving sidewalks, new drainage system, adding a new signalized intersection at 99 Avenue, and adding turning lanes at major intersections to increase capacity. As the next step for this project, DTPW is seeking to develop a PD&E study to further evaluate the future widening and other capacity and multimodal needs of the corridor. While DTPW is conducting the PD&E, the Department understands the need for more immediate improvements on the corridor and are planning a roadway resurfacing and reconstruction project that will provide drainage improvements, signalization improvements, additional turning lanes at major intersections, and other operational improvements.

NW 25 Street from West of NW 117 Avenue to NW 87 Avenue	STRATEGIC TARGETS
Infrastructure Improvement	Construction Phase

NW 12 STREET IMPROVEMENTS

The project consists of widening and resurfacing NW 12 Street from the Dolphin Park and Ride Facility to NW 114 Avenue. The project will increase the capacity for existing left turn and right turn lanes as well as provide new left turn and right turn lanes along NW 12 Street. Exit ramps from the Florida Turnpike, and the right turn lane exit from the Dolphin Mall at NW 114 Avenue will be improved. The project will also add new Bus Only lanes to service the new Dolphin Park-and-Ride facility.

The project will include a new storm drainage system, pavement markings and signage, intersection and signalization improvements, roadway lighting, culvert extension, and construction administration services. The project length is approximately 0.65 miles. The project is currently in the design phase will be completed in May 2025.

NW 12 Street from the Dolphin Park and Ride Facility to NW 114 Avenue

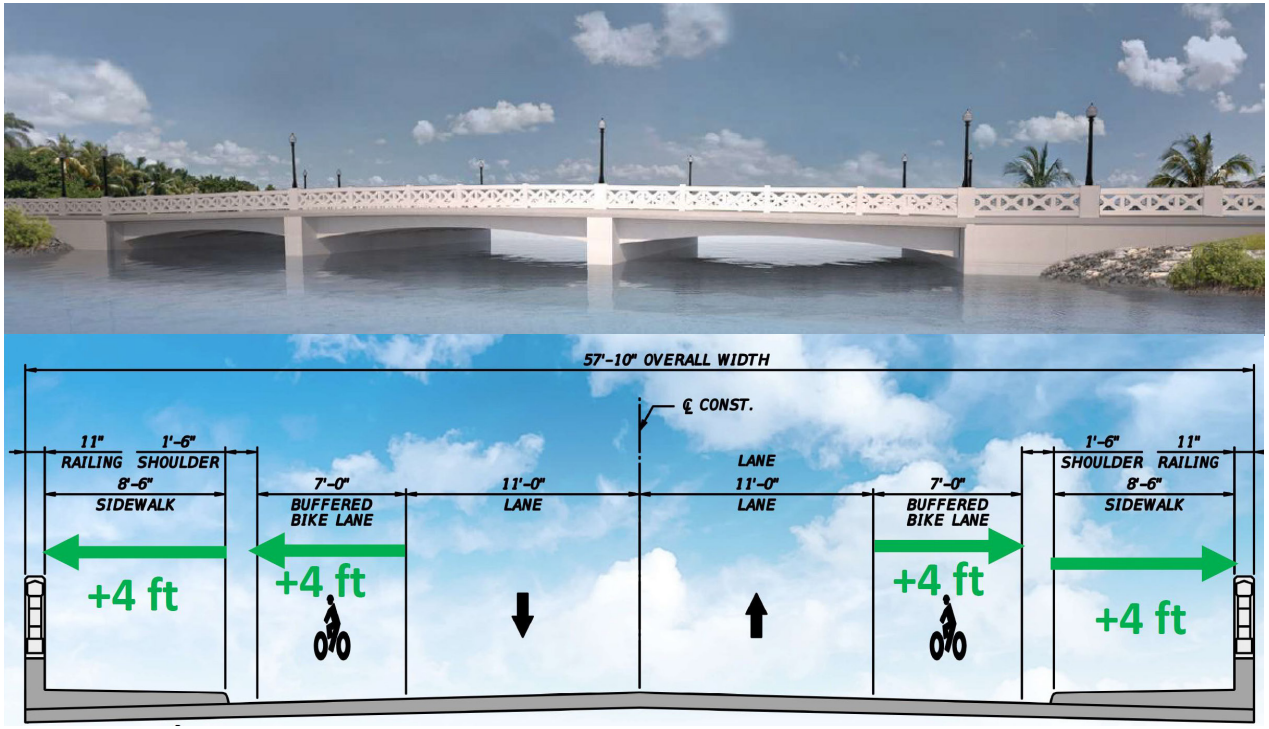

Infrastructure Improvement

Design Phase

STRATEGIC TARGETS

VENETIAN CAUSEWAY

The historic Venetian Causeway is a 2.5-mile-long facility that provides a major link between the City of Miami on the west and the City of Miami Beach on the east. The Venetian Causeway is comprised of ten fixed bridges and two bascule bridges separated by five spoil islands, and six residential islands. Following the PD&E study, it was determined that eleven of the twelve bridges will require replacement. Miami-Dade County has started the final design phase for the replacement of the 11 bridges along the Venetian Causeway, following completion of the PD&E study performed by FDOT.

Proposed

The final design will provide new wider bridges which will enhance safety and connectivity for all modes of transportation, including pedestrians, bicyclists, navigable traffic, and vehicular traffic. The replacement bridges will adhere to the existing causeway historic aesthetic and ensure minimal environmental impact. Additionally, resiliency measures are being studied to ensure the new bridges are not affected by sea-level rise effects, and that they can provide continued connectivity for emergency services, construction, and commerce vehicles.

The final design phase has begun and is estimated to conclude in Spring 2026, with Construction advertisement to immediately follow.

11 bridges along the Venetian Causeway, a 2.5-mile-long roadway spanning 11 man-made islands

Infrastructure Improvement

Final Design Phase

STRATEGIC TARGETS

RICKENBACKER CAUSEWAY

The Rickenbacker Causeway is a multimodal corridor that provides the only ingress and egress connection to the Village of Key Biscayne, including access to several unique cultural sites and water sports opportunities, and serves as one of the busiest bicycling and running routes in Miami-Dade County.

The Rickenbacker Causeway is approximately 3.6 miles in length with 1.2 miles of bridge structures and 2.4 miles of roadway with the toll facility near its western terminus at Brickell Avenue on the mainland. The eastern terminus is located at the end of the Bear Cut Bridge where the roadway becomes Crandon Boulevard.

MASTER PLAN

DTPW is developing a Master Plan that will provide for a holistic planning framework for the Causeway. The scope of the Master Plan includes coordination with partner agencies and stakeholders, the identification of short-term projects aimed at funding within the Capital Improvement Program (CIP), and long-term projects for future funding opportunities.

The Master Plan incorporates a comprehensive public engagement process, including pop-up informational events at community festivals, a study advisory committee, an online map and survey for public input, and public workshops. This process ensures community involvement and feedback are integrated into the plan.

The Master Plan will provide the opportunity to finalize recommendations into a coordinated plan that will improve traffic flow while creating a multimodal safety environment and include continued coordination with the Village of Key Biscayne, Miami-Dade Police Department (MDPD), MDPROS, and other stakeholders. The study is scheduled to be completed in March 2025.

As the Rickenbacker Causeway Master Plan is being developed, several short-term safety enhancement efforts have been implemented to ensure the well-being of all users. The causeway underwent resurfacing to improve road conditions, providing a smoother and safer driving experience. Additionally, traffic signals were upgraded to enhance traffic flow and reduce the risk of accidents. To further ensure safety, drainage systems were improved to prevent water accumulation on the roadway, minimizing the likelihood of hydroplaning and other water-related hazards. These measures collectively contribute to a safer and more efficient causeway while the long-term master plan is being finalized.

Infrastructure Improvement / Master Plan	

BEAR CUT BRIDGE PD&E STUDY

Miami-Dade County is performing a planning study to analyze the options for replacement or major rehabilitation of the Bear Cut Bridge from Virginia Key to Key Biscayne. A portion of the bridge was constructed in 1944 and will require replacement of part, all or major rehabilitation to continue to serve as the only connection between mainland Miami and the Village of Key Biscayne. The study will include public outreach and input, stakeholder coordination, design alternative development, cost benefit analysis, long range cost estimating, and analysis of the environmental, archaeological, and socioeconomic impact of the design alternatives. The PD&E study started in October 2024 and is set to be completed in early 2027.

Infrastructure Improvement

PD&E Study

STRATEGIC TARGETS

HOBIE ISLAND BEACH NORTH SIDE SHORELINE STABILIZATION

The purpose of this project is to stabilize the shoreline along the north side of Hobie Island Beach through shoreline protection and stormwater treatment solutions for the north half of the open space along the Rickenbacker Causeway.

As part of this shoreline protection project, 160 invasive Australian Pine trees must be removed, in accordance with Chapter 19 of the Code of Miami-Dade County. These invasive trees will be replaced with 290 native trees, palms, and additional shrub species. This project will improve and beautify this open space by increasing the resilience of the shoreline and beach and improving the parking area, while providing an improved pedestrian and bicycle underpass that connects Hobie Island Beach North to Hobie Island Beach South, beneath the William Powell Bridge.

This Project covers 9.6 acres of recreational shoreline along the Rickenbacker Causeway and is currently an area that has been closed to the public due to damage caused by Hurricane Irma in 2017. The construction started May 2023 and was completed in December 2024.

Infrastructure Improvement

Completed December 2024

STRATEGIC TARGETS

NW 17 AVENUE BRIDGE OVER MIAMI RIVER PD&E STUDY

Miami-Dade County is performing a PD&E study, to analyze alternatives for the replacement or major rehabilitation of the NW 17 Avenue movable Bridge from NW 7 Street to NW 14 Street within the City of Miami and Miami-Dade County. The study will aim to address operational reliability, structural and functional deficiencies, as well as address future transportation demands and multimodal safety opportunities for pedestrians and bicyclists. Constructed in 1928, this bridge provides access to many major points of interest and emergency services in Miami and provides interchange access to the Dolphin Expressway/SR836.

The PD&E study will include public outreach and input, stakeholder coordination, design alternative development, cost benefit analysis, long range cost estimating, and analysis of the environmental, archaeological, and socioeconomic impact of the design alternatives. The PD&E study is expected to take approximately four years to conclude, which will then be followed by Final Design. The Final Design phase is tentatively expected to take approximately two years to complete.

Infrastructure Improvement

PD&E Study

STRATEGIC TARGETS

NEIGHBORHOOD IMPROVEMENT PROJECTS

DTPW, as part of the PTP, has been tasked with coordinating and constructing various categories of Neighborhood Improvement Projects. To address the various non-site-specific categories discussed in the PTP Ordinance, the Department created "The Neighborhood Improvement Projects Formula" to allocate funds. The formula considers population in the Unincorporated Municipal Service Area for each commission district, the needs as reported to the Department, and the percentage of maintained arterial and collector lane miles. A portion is then evenly distributed to each district.

PTP neighborhood Improvements include modifications of intersections, resurfacing of local and arterial roads, installation / repairs of guardrails, installation of school flashing signals, enhancement of greenways and bikeways, A.D.A. curb cuts / repairs, pavement markings, roadway lighting, traffic calming, traffic signals, and traffic sign replacement / repair. Such improvements also include replacement / repair of sidewalks, repair / installation of drainage and landscape beautification (including community image enhancements) related to the development, construction, operation, or maintenance of roads and bridges in the County or to the expansion, operation, or maintenance of bus and fixed guideway system.

The Neighborhood Improvement Projects include:

- Site Specific Neighborhood ImprovementSites
- Non-Site-Specific Neighborhood ImprovementSites
- Countywide NeighborhoodImprovements
- School Flashing SignalsProgram

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

PART 2: 5-YEAR PROJECT LISTINGS
PUBLIC TRANSPORTATION IMPROVEMENTS

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

The mission of the SFRTA is to collaborate with partners and deliver a safe, convenient, and effective service that serves as South Florida's multimodal backbone. SFRTA is an agency of the State of Florida, created in 2003 by Chapter 343, Florida Statute, and is authorized to own, operate, maintain, and manage the Tri-Rail Commuter Rail System in the tri-county area of Miami-Dade, Broward, and Palm Beach Counties. The following projects are included in SFRTA's Capital Budget and/or Five-Year Plan in Fiscal Year 2026 through 2030.

TRI-RAIL DOWNTOWN MIAMI LINK

SFRTA, in coordination with multiple partners, has extended the Tri-Rail Commuter Rail System to provide a new service into Downtown Miami at the MiamiCentral Station. The 9.05-mile extension, known as Tri-Rail Downtown Miami Link (TRDML), provides a connecting service from the SFRC at the Tri-Rail Metrorail Transfer Station, to the FECR corridor, into Downtown Miami. The MiamiCentral Station serves as Downtown Miami's multimodal hub, providing connections to Brightline, Tri-Rail, the existing Miami Dade county bus system, Metrorail, and Metromover.

TRDML is a cost-effective and strategic transit solution for Miami-Dade County. In addition to the recent SFRC connections to the FEC railway corridor, the quiet zone funds provided by the Miami-Dade TPO, and the region's previous investment in the Tri-Rail system - this new service will also leverage Brightline's express train service and station investments.

TRDML service began on January 13, 2024, providing twenty-three (23) weekday and twenty-two (22) weekend trains. In July 2024, SFRTA initiated a one-year pilot project, implementing a round-trip Express Train to bring passengers directly to and from MiamiCentral, with limited stops along the SFRC. Average ridership is approximately 400 riders per day.

ROLLING STOCK

On May, 5, 2023, SFRTA was awarded $71.7M in federal funds to support the purchase of new Rolling Stock to replace up to 24 rail vehicles or a third On May, 5, 2023, SFRTA was awarded $71.7M in federal funds to support the purchase of new Rolling Stock to replace up to 24 rail vehicles or a third of its

current fleet. Procurement of new Tri-Rail Rolling stock will enable SFRTA to both maintain and increase passenger service operations along the existing SFRC. New rolling stock will also allow for increased ridership capacity, operational improvements, and train scheduling flexibility.

Currently, SFRTA is in advanced negotiations with the manufacturers for the purchase of locomotives, coaches, and cab cars. A contract for locomotives is expected to be finalized by Spring 2025. A contract for coaches and cab cars is expected to be finalized by Summer 2025..

TRI-RAIL PASSENGER INFORMATION SYSTEM (PIS)

Tri-Rail PIS will provide train locations and predicted arrival times at each station via the internet/web-site, smartphone app, automated telephone calls, text messages, and Liquid Crystal Displays (LCDs) located on the station platforms. The system will also include onboard signage and an audio system on train cars - which will display and announce upcoming station arrival and destination information. Installation of the PIS is ongoing, with anticipated completion in Spring 2025.

SAFETY AND SECURITY CAMERAS, PHASE 2

This project is for the installation of surveillance camera hardware and monitoring technology at all Tri-Rail Stations. Cameras will be installed in parking lots, stairwells, pedestrian walkways and bridges, and locations within Tri-Rail stations that require safety monitoring (Phase 2). The recently completed Phase 1 project focused on installing surveillance cameras on Tri-Rail station platforms.

Phase 2 allows SFRTA's Public Safety Coordination Center (PSCC) to monitor/detect suspicious and/or unlawful activities in real time for timely detection and response. Activities are recorded for reference, training, system improvement, and/or as video evidence when further law enforcement is needed. As part of the Phase 2 project, new cameras have been installed and brought online for Pompano Beach, Deerfield Beach, Hialeah Market, and the Ft. Lauderdale Airport stations and the parking garage at the Ft. Lauderdale Airport Station. Phase 2 is scheduled to be completed by the end of Spring 2025.

PUBLIC TRANSPORTATION IMPROVEMENTS

MR-MICCI PROJECT

The MR-MICCI Project will provide an additional mainline track within the last 1.25 miles of the SFRC from just north of the Tri-Rail Hialeah Market Station to the Tri-Rail Miami Airport Station located at the MIC. The project will increase capacity and improve track connections across the Miami River, including bridge, track, and signal upgrades. SFRTA has finalized the PD&E Study. The final design and construction will be completed by the FDOT, District Four. 90% project design is underway, and the project is fully funded.

PLANNING AND CAPITAL DEVELOPMENT

The Planning and Capital Development Department performs short and long-term planning activities and facilitates the performance of planning studies and various regional coordination efforts. Such activities include: the 5-Year Transit Development Plan (TDP), 20-Year Capital Plan, TOD station area plans, Bicycle and Pedestrian Studies and Passenger Surveys, along with other regionally significant activities.

PROGRAM OF PROJECTS

SFRTA receives annual Federal Appropriations of Sections 5307 and 5337 funding from the FTA. This funding is programmed within SFRTA's Capital Budget to cover preventive maintenance expenditures (such as rolling stock and station maintenance) and other FTA-allowable capital projects/initiatives that the Agency plans to undertake.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

PART 2: 5-YEAR PROJECT LISTINGS
NON-MOTORIZED COMPONENT

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

PART 2: 5-YEAR PROJECT LISTING
NON-MOTORIZED COMPONENT

The development of safe facilities for people who walk or use a bicycle is guided by the Comprehensive Development Master Plan (CDMP) and the 2050 Long Range Transportation Plan (LRTP).

CDMP Transportation Element Objective TE-2 states: "In furtherance of pedestrianism and other non-motorized modes of transportation in the planned urban area, Miami-Dade County shall enhance its transportation plans, programs and development regulations as necessary to accommodate the safe and convenient movement of pedestrians, non-motorized vehicles and motorized vehicles."

The 2050 LRTP lists the following goals and objectives, related to non-motorized projects/programs:

LRTP GOAL 1: MAXIMIZE MOBILITY CHOICES SYSTEMWIDE

- Objective: Provide a comprehensive transportation network for dependable and reliable transportation options.
- Objective: Increase mobility choices throughout the county

LRTP GOAL 2: INCREASE THE SAFETY OF THE TRANSPORTATION SYSTEM FOR ALL USERS

- Objective: Improve the safety of the transportation system
- Objective: Promote projects in high crash locations – (locations with the highest number of crashes)
- Objective: Improve safety of the transportation system for the elderly and disabled

Bicycle and pedestrian projects in the 2025/2026 to 2029/2030 Transportation Improvement Program are taken from the non-motorized section of the 2050 LRTP, the Transportation Alternatives Program application cycle and through agency coordination for other transportation projects. Projects are presented to the Miami-Dade Bicycle Pedestrian Advisory Committee (BPAC) for public information and comment.

NON-MOTORIZED COMPONENT

The Miami-Dade 2050 Bicycle Pedestrian Master Plan assesses opportunities amongst the SMART Plan transit hubs and stations to expand the reach of bicycle and pedestrian trip distances to the entire county, with the help of transit connections. This plan's primary focus is on the daily commuter trip and aims to incentivize projects that safely connect the largest number of people, that need it the most, to the most places, on a daily basis. This plan also looks at other pedestrian and bicycle trip destinations such as educational facilities, major medical centers, high employment areas, and outdoor recreational locations. Realizing these opportunities will help manage the ever-present issue of traffic any metropolitan area deals with and further encourages healthy and sustainable communities within the County. This plan serves as the Bicycle and Pedestrian element of the 2050 LRTP.

More information on the TPO's Bicycle Pedestrian Program is available from the TPO website at: https://miamidadetpo.org/library/studies/mdtpo-2050-bicycle-pedestrian-master-plan-final-report-2024-09.pdf

INTELLIGENT TRANSPORTATION SYSTEMS

Intelligent Transportation Systems (ITS) is a combination of leading-edge applications and communication technologies used to improve transportation safety, efficiency, and sustainability of surface transportation system. ITS technologies enable the users to be better informed and make smarter use of the network in our region. ITS encompasses a broad range of advanced and traditional communications-based information and electronic technologies to:

- Improve safety by increasing information to the driver and augmenting driver control of the vehicle. Features include warning systems that activate when cars get too close to another vehicle or the edge of the road and enhanced traffic control systems that decrease stops and speed variations, reducing the number of crashes.
- Reduce congestion and improve accessibility through rapid detection and clearing of incidents that cause delays; enhanced public transit systems can reduce highway traffic; and real-time traffic control systems can adapt automatically to changing conditions and improve the flow of traffic.
- Improve energy efficiency and environmental quality by providing travelers with information to support decisions that can reduce highway demand and travel time and vehicle emissions by providing mobility options to use high occupancy vehicles or public transit or on demand services to mitigate congestion.
- Enhance economic productivity by improving the transportation system efficiency through better routing of vehicles, automated toll collection, safety enhancements and streamlining commercial vehicle regulatory enforcement and compliance.

PART 2: 5-YEAR PROJECT LISTINGS
TRANSPORTATION DISADVANTAGED SECTION

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

TRANSPORTATION DISADVANTAGED SECTION

Section 427.015, Florida Statutes, requires that the Metropolitan Planning Organization, as part of its Transportation Improvement Program "shall... identify transportation improvements that will be advanced with [transportation disabled] funds during the program period." This requirement is reiterated in section 3(f)2.g of the Florida Department of Transportation directive 525-010-012-c ("Transportation Improvement Program Development and Review"). The purpose of this section is to meet these requirements, and to reference, in a user-friendly format, transportation improvements to assist the safe and efficient transport of those citizens who need special services and facilities to obtain access to life-sustaining activities.

EXPLANATION

The projects listed in this section do show funding amounts but no construction schedules. This is because the same projects are also listed in other sections of this document grouping projects by funding category. The items listed are referenced by the page number in which they appear in other TIP sections.

In addition, this section includes pedestrian facilities and sidewalks and some transit passenger amenities which, once completed, could enhance and facilitate usage by not only disadvantaged passengers but the public in general. This section does not include relevant improvements associated with larger transportation projects. Examples would include curb cuts and tactile surface treatments added onto sidewalks as part of an intersection widening and reconstruction, or wheelchair ramps and elevators included within the design of major facilities, as required by the 1991 Americans with Disabilities Act.

PART 2: 5-YEAR PROJECT LISTINGS
CONGESTION MANAGEMENT PROCESS

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

CONGESTION MANAGEMENT PROCESS

The Miami-Dade TPO has developed a Congestion Management Plan to meet the unique needs of the Miami-Dade metropolitan area. The federal regulations, as provided in 23 C.F.R. 450.322, require metropolitan planning organizations with a population over 200,000 to develop and implement a congestion management process as a part of the overall transportation planning process. The CMP is intended to be a systematic way to monitor, measure and identify transportation congestion within the metropolitan area. It is used to evaluate and advance performance-based strategies to manage current and future transportation congestion. The CMP was developed with input from local, state and regional transportation partners and stakeholders.

The 2024 CMP builds on the 2019 analysis which identified 16 congested corridors. Most of the 2019 corridors still reflect relatively moderate to high when the 2024 analysis was completed and therefore retained as corridors for continued observation and intervention. In both the 2024 and 2019 analysis, a point scoring system was used to identify congested segments within the SMART Congestion Management Dashboard (CMD) network. The selected corridors were further prioritized by their proximity to the SMART Program corridors in order to expand and improve mobility options.

In addition to the identified corridors, there are the main limited-access facilities such as I-95, SR 836, SR 826, SR 874, I-75 and others which continue to have recurring congestion. The agencies maintaining these facilities are working on alleviating traffic congestion through many strategic approaches. The focus on future corridors to address congestion provides direction for funding prioritization apart from the Strategic Intermodal System (SIS) and allows for justification of priorities in the Cost Feasible Plan (CFP). Further details of this process are documented in the Projects chapter of the 2050 LRTP.

This section of the FY 26-30 TIP includes projects that are in close proximity to, or included in the list of congested corridors identified in the 2024 CMP. Ongoing advancement of these corridors will involve close coordination with respective facility owners.

TRANSPORTATION IMPROVEMENT PROGRAM (TIP)

PART 2: 5-YEAR PROJECT LISTINGS
FREIGHT-RELATED TRANSPORTATION IMPROVEMENTS

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

FREIGHT-RELATED TRANSPORTATION IMPROVEMENTS

On November 15, 2021, President Biden signed into law a bipartisan bill known as IIJA $1.2 trillion committed to a five-year plan over fiscal years 2022 through 2026 that impacts every aspect of the nation's transportation system. In brief, it will finance the rebuilding and rehabilitation of thousands of decaying bridges, tens of thousands of miles of roadway, improvements in railroad infrastructure in addition to increasing the capacity and resilience of the nation's airports, seaports and waterways. The IIJA funding represents an increase of $273.9 billion over the FAST Act baseline.

SIGNIFICANT FREIGHT PROVISIONS

The IIJA includes a number of provisions to improve the condition and performance of the national freight network and support investment in freight-related surface transportation projects. Specifically, the Freight Provisions over the next five years (along with the funding amounts) are as follows:

- **Office of Multimodal Freight Infrastructure and Policy**: USDOT will establish a Freight Office led by an Assistant Secretary for Multimodal Freight. The Office will oversee national and state freight planning and policy as well as implement and administer multimodal freight grant programs.
- **INFRA Grant Program – Nationally Significant Freight and Highway Projects:** Freight-specific competitive grant program with broad applicant eligibility that provides funding for large highway and bridge projects, as well as port, rail, intermodal, and rail-highway at-grade crossing and grade separation projects. A maximum of 30 percent of annual INFRA funding may go toward non-highway freight projects ($8 billion).
- **Freight Formula Program – National Highway Freight Program:** Freight-specific formula program for statewide projects. A maximum of 30 percent of annual freight formula funding may go toward non-highway freight projects ($7.15 billion).
- **National Infrastructure Project Assistance Program:** Fully multimodal competitive grant program available to a wide variety of large transportation infrastructure projects. 50 percent of funding will go toward projects that have a total cost of at least $500 million and 50 percent will be set aside for projects with a total cost between $100-$500 million ($5 billion).
- **TIGER/BUILD/RAISE Grant Program – Local and Regional Project Assistance:** Codifies the TIGER/BUILD/RAISE grant program, previously subject to annual appropriations, into reauthorization law for the first time. The program is fully multimodal and open to a broad range of eligible transportation projects ($7.5 billion).

FREIGHT-RELATED TRANSPORTATION IMPROVEMENTS

- **Railroad Crossing Elimination Program:** Discretionary grant program for highway-rail or pathway-rail grade crossing improvement projects, including: grade separations or closures; track relocations; installation of related protective devices, signals or signs; and related planning or environmental reviews ($3 billion).
- **Consolidated Rail Infrastructure and Safety Improvements Program:** Discretionary grant program for passenger and freight rail safety, efficiency, and reliability improvement projects. Eligible projects include: the deployment of railroad safety technology (including positive train control); capital rail projects to address congestion and safety challenges affecting rail service; highway-rail grade crossing improvement projects; projects to improve short-line or regional railroad infrastructure; and projects to enhance multimodal connections or facilitate service integration between rail service and other modes ($5 billion).
- **Port Infrastructure Development Program:** Multi-year direct appropriations for the PIDP grant program, which provides grants to improve facilities, operations, and intermodal connections near or within seaports, inland ports, and Great Lakes ports. This program is typically subject to annual appropriations. While it still remains separate from surface transportation reauthorizations within the IIJA, this provision ensures consistent funding for the PIDP program over the next five years ($2.25 billion).
- **Bridge Program – Formula:** Creates a bridge replacement, rehabilitation, preservation, protection, and construction program. Funding is distributed by formula based on a state's share of bridges in "poor" and "fair" condition ($27.5 billion).
- **Bridge Investment Program – Discretionary:** Establishes a competitive grant program for projects to replace, rehabilitate, preserve, or protect bridges on the National Bridge Inventory ($12.5 billion).

The Florida Strategic Intermodal System (SIS) program also has freight-emphasis. The SIS was established to ensure that transportation dollars were invested in areas that supported the local economic generators such as the seaport and the airport and the roadway facilities that connect them. The 2050 Miami-Dade LRTP Update embraced freight movement with the inclusion of a freight element that includes projects that focus on improving freight movement along major corridors, and specifically, in to and out of Miami International Airport and PortMiami. Miami-Dade County is committed to providing a transportation system that enhances the efficiency of freight movement.

The Freight Transportation Advisory Committee (FTAC), that includes representatives from the freight, logistics, warehousing and intermodal industries in addition to consultants and municipalities, is the industry's advisory panel to the TPO Governing Board on freight movement and truck traffic needs. Aside from advising the TPO, the FTAC considers the types of improvements that should be made with regard to safety and freight efficiency in the county including:

- Determining logistics for truck parking/staging
- Development of Inland Port locations for PortMiami
- Improving the turning radii for trucks
- Enhancing access to freight trucks

- Increasing capacity through select road widening projects
- Modifying access to both seaport cargo and cruise operations at PortMiami
- Promoting regular communication among freight businesses, elected officials, and appointed officials

MIAMI-DADE COUNTY FREIGHT PLAN

The county is home to a well-established and expanding freight transportation system. This system serves as the cornerstone of the region's economy, providing goods and services to Florida's largest consumption market as well as connecting the region to the global economy through major sea and air gateways, taking into account emerging and future technologies. The Freight Plan was recently updated in Spring 2024.

PLANNED FREIGHT-RELATED TRANSPORTATION IMPROVEMENTS

Taking advantage of existing freight provisions, multiple freight-related projects have been planned to prepare Miami-Dade County for the future. For starters, a network of Connected and Autonomous Vehicles (CAV) corridors is planned to modernize the county's freight infrastructure. Starting with SR 821/Homestead Extension of the Florida's Turnpike (HEFT) from SR 836/Dolphin Expressway to NW 106th Street and followed by SR 826/Palmetto Expressway to/from SR 836/Dolphin Expressway to US 27/SR 25/Okeechobee Road, CAV technology will be researched, tested, and implemented on dedicated lanes. Moreover, the county continues in the process of developing its first full-service truck travel center at the Golden Glades Interchange, known as the GGTTC, it will be the only full-service truck parking facility in Miami-Dade County and is located approximately 14miles south from the nearest comparable facility for truckers travelling to PortMiami. The GGTTC will inform truckers on the highway of parking availability through an intelligent network of digital signs called Truck Parking Availability System (TPAS). Other potential private sector full-service truck parking sites are currently being planned for future development.

With trucks moving more than 75% of the county's annual freight tonnage, traffic operation and signal improvements are planned for SR 969/NW 72nd Avenue/Milam Dairy Road at SR 934/SW 74th Street/Hialeah Expressway and US 27/SR 25/Okeechobee Road from SR 821/HEFT to NW 74th Street. Aside from these projects, other large improvements are ongoing or have been planned such as interchange improvements at SR 826/Palmetto Expressway at US27/SR 25/Okeechobee Road, SR 924/Gratigny Expressway west extension, new SR 821/HEFT interchanges at NW 170th Street and I-75, new direct ramps at SR 821/HEFT and NW 12th Street, new direct ramps at SR 948/NW 36th Street and US 27/SR 25/Okeechobee Road, and capacity improvements along US 27/SR 25/Okeechobee Road, I-395/SR 836/Dolphin Expressway and at the Golden Glades Interchange. The TPO, along with FDOT District 6, annually submits freight related projects to the MPOAC Freight Priorities Program in an effort to obtain and advance additional funding for locally significant freight projects.

More information on the TPO's Freight & Logistics Program is available from the TPO website at: https://www.miamidadetpo.org/tpo/freight-logistics-planning-program.page

1. LUDLAM TRAIL

MDPROS is working to develop the Ludlam Trail, a 5.6-mile multi-use trail within a former railroad corridor. As a priority paved land trail from the Florida Greenways and Trails System (FGTS) Priority Network and SUN Trail Network, the proposed publicly accessible corridor will serve bicyclists, pedestrians, and other types of non-motorized uses. The Ludlam Trail is intended to provide a safe, dedicated, and direct means of non-motorized transportation to and from areas of residences, transit, work, schools, parks, and shopping centers.

Illustrative Conceptual Rendering of the Proposed Ludlam Trail

The project limits extend from SW 80 Street to 400 feet north of NW 7 Street, between 69 and 70 Avenue. The County acquired the ROW for the Ludlam Trail in December 2018, including fee simple owned areas and easements through three private development node areas for a continuous trail. The ROW for the proposed Ludlam Trail Corridor is approximately 100 feet wide for most of its length, although it narrows to between 75 and 80 feet in some areas and down to 18 feet in easement sections through areas designated for mixed-use development. The Ludlam Trail traverses sections of the City of Miami and unincorporated Miami-Dade County (MDC). It is adjacent to the City of South Miami and proximate to the City of West Miami.

The multi-use trail generally consists of a 12-foot-wide, two-way, asphalt bike path, separated by a landscaped buffer from an 8-foot-wide concrete pedestrian path with a 2-foot-wide soft natural jogging surface adjacent to it.

The trail development will include eleven (11) at-grade crossings, four (4) grade-separated bridge crossings over roadways (at SR 976 / SW 40 Street / Bird Road; SW 24 Street / Coral Way; US 41 / SR 90 / SW 8 Street / Tamiami Trail / Calle Ocho; and SR 968 / W Flagler Street), and two (2) bridges across existing South Florida Water Management District (SFWMD) canals (C-3/ Coral Gables Canal and C-4 / Tamiami Canal).

The purpose of the proposed Ludlam Trail Corridor Project is to encourage the use of alternate modes of transportation and enhance overall connectivity and accessibility to schools, parks, transit stations, and bus stops for more than 30,500 residents present within two (2) miles of the proposed project corridor. The need for the proposed project is based on the criteria identified below.

The project supports the vision of the MDPROS Open Space Master Plan (OSMP), a primary element of which is to "provide an interconnected trail system which offers transportation alternatives and reduces traffic congestion." The OSMP provides a 50-year unifying vision for a livable and sustainable MDC, which involves the development of a seamless system of greenways, trails, and water trails. The Ludlam Trail will be a vital component of this network as it will link open spaces and civic institutions to neighborhoods, while offering a reliable transportation alternative.

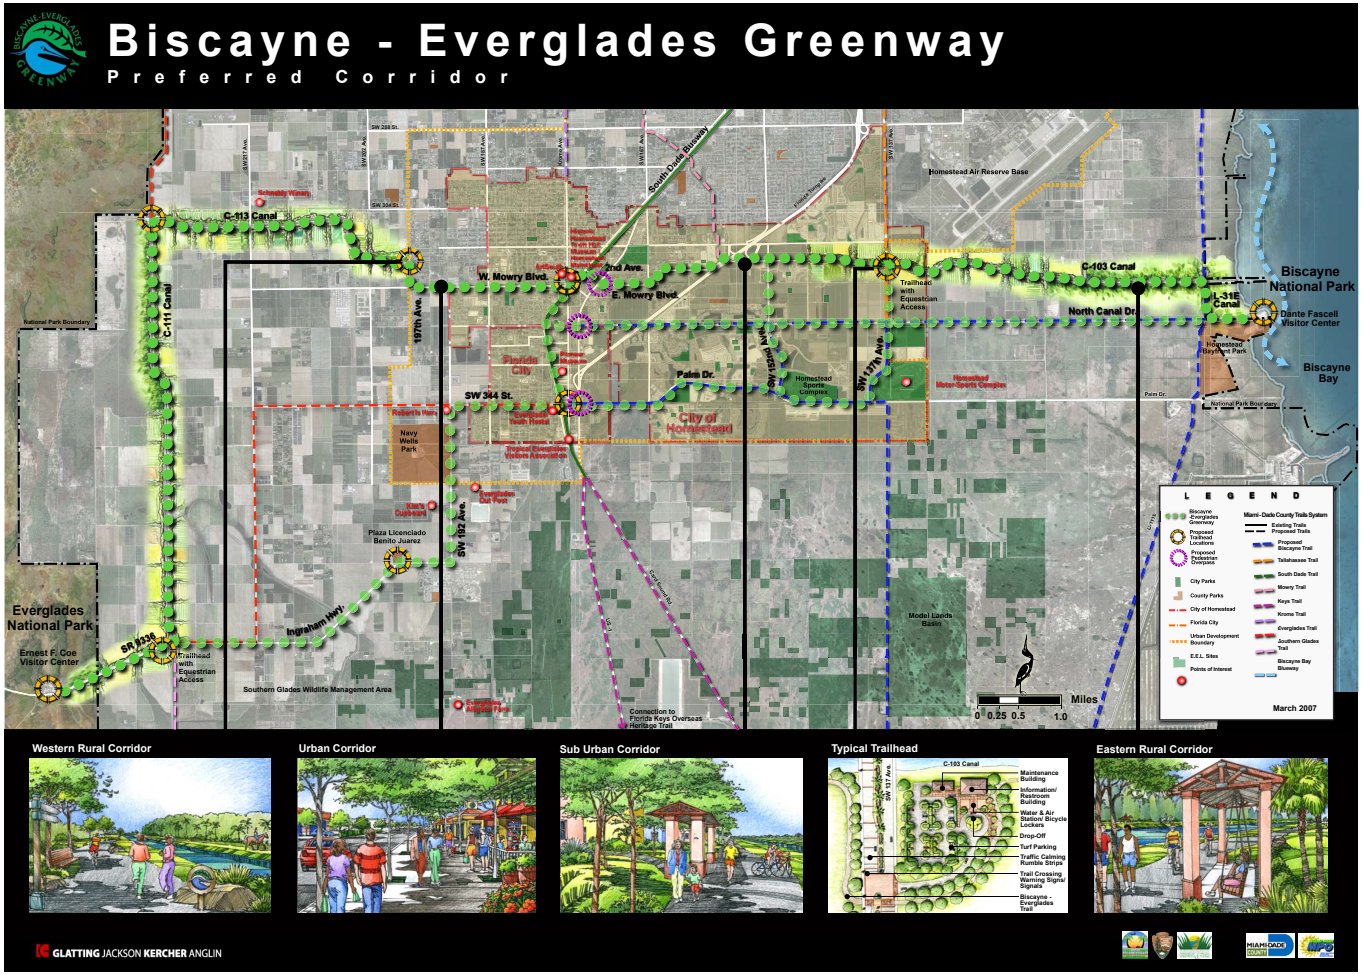

From a regional perspective, the proposed project will connect to the Metrorail Dadeland North Station via existing sidewalks along SW 70 Avenue from SW 80 Street to SW 85 Street; the proposed SMART Plan Corridor #2 (East-West Corridor) near NW 7 Street to the north; and to other planned trails including The Underline/East Coast Greenway, South Dade Trail, Snapper Creek Trail, East/West Trail, and Merrick Trail.

Illustrative Conceptual Rendering of theProposed Ludlam Trail

2. BISCAYNE TRAIL

MDPROS is developing the 43-mile Biscayne-Everglades Greenway Segments D including phase 1 and phase 2, and Segment 8. As a priority paved land trail from the FGTS Priority Network and SUN Trail Network, the trail corridor will serve bicyclists, pedestrians, and users of other types of non-motorized vehicles. The purpose of the Biscayne-Everglades Greenway is to encourage the use of alternate modes of transportation and enhance overall connectivity and accessibility to schools, local and national parks, and transit hubs for more than 127,000 residents present within the census tracts of the proposed corridor.

Biscayne-Everglades Greenway Network, Highlighting Current MDPROS Project Segments

The project limits for Segment D Phase 1 begin at SW 328 Street at Biscayne National Park and Miami-Dade County's Homestead Bayfront Park, then head north along the L31-E Canal, then west along the south bank of the Mowry Canal to SW 117 Avenue Phase 2 of the Biscayne-Everglades Greenway picks up at SW 117 Avenue, then continues west along the Mowry Canal, south along SW 127 Avenue, west along SW 320 Street, then north along SW 137 Avenue and ending at the Mowry Canal, where it will connect to the segment recently completed by the City of Homestead. Segment 8 limits from intersection of C-111 and C-113 Canals, and runs for 4.5-miles up to the intersection of W Mowry Drrive/SW 320 Street and SW 192 Avenue. Together, these segments will connect users between Downtown Homestead, and Biscayne National Park to the east, with connection to convenient transit access to the rest of Miami-Dade County.

The trail at Segment D will generally consist of a 10 to 12-foot-wide, two-way, asphalt multi-use path within SFWMD right-of-way, and Segment 8 roughly 8-foot-wide similar path including dedicated bikes when the trail utilizes road right-of-way. The trail will include high emphasis pavement markings at intersections, regulatory and wayfinding signage, bike racks, benches, and bike repair stations.

This trail project supports the vision of the MDPROS OSMP, a primary element of which is to "provide an interconnected trail system which offers transportation alternatives and reduces traffic congestion." The OSMP provides a 50-year unifying vision for a livable and sustainable MDC, which involves the development of a seamless system of greenways, trails, and water trails. The Biscayne-Everglades Greenway Segment D, and Segment 8 will be a vital component within the overall OSMP network as it will link people to Homestead and Florida City, National Parks, and transit hubs, while offering a reliable transportation alternative. From a regional perspective, the trail will connect to the SMART Plan South Corridor in Downtown Homestead, as well as the South Dade Trail.

3. SNAPPER CREEK TRAIL

MDPROS is developing the Snapper Creek Trail, a 9.4-mile greenway corridor consisting of a multi-use, non-motorized trail. As a priority paved land trail from the FGTS Priority Network and SUN Trail Network, the trail corridor will serve bicyclists, pedestrians, and users of other types of non-motorized vehicles. This greenway corridor was initially conceptualized in the 1998 North Dade Greenways Master Plan, where it was envisioned into two segments: Segment A (5.6 miles) and Segment B (3.8 miles). The long-term vision for the Snapper Creek Trail is to create a continuous route that will connect FIU with Dante B. Fascell Park near Red Road. The greenway corridor will provide a vital link between local parks, schools, Metrobus routes, and other community amenities, while offering an alternative to motor vehicle travel and reducing traffic congestion. It will create a safer, more accessible route for residents and visitors in the area.

The trail will be located primarily along the Snapper Creek (C-2) Canal bank, within SFWMD land, with some portions within the street right-of-way. MDPROS is currently developing three projects including the SW 107 Avenue Gap within Segment A, and two other areas within Segment B. The project limits for Segment A SW 107 Avenue Gap continues through SW 107 Avenue to SW 105 Court, which will connect to an existing portion of the trail north of it. The Segment B Dadeland connection project extends between the existing pedestrian bridge across Snapper Creek just east of the Palmetto Expressway, near Dadeland North Metrorail Station. The third project that MDPROS is developing within Snapper Creek Trail is Segment B,

Snapper Creek Trail's Current MDPROS Project Segments

Phase 1 which extends between US 1 and SW 67 Avenue. These projects phases are approximately 1-mile of the 94-mile greenway corridor, planned to become a 12-foot-wide, two-way, asphalt multi-use path, enhancing transit routes and connectivity for users.

The Snapper Creek Trail is part of a broader effort to create an interconnected trail system in South Florida, aligning with regional plans to reduce congestion and provide transportation alternatives. The Snapper Creek Trail supports the vision of the MDPROS OSMP, a primary element of which is to "provide an interconnected trail system which offers transportation alternatives and reduces traffic congestion." The OSMP provides a 50-year unifying vision for a livable and sustainable MDC, which involves the development of a seamless system of greenways, trails, and water trails. The Snapper Creek Trail will be a vital component of this network as it will link open spaces and civic institutions to neighborhoods, while offering a reliable transportation alternative. From a regional perspective, the proposed project will connect to the Metrorail Dadeland North Station via existing sidewalks along SW 70 Avenue from SW 80 Street to SW 85 Street; the proposed SMART..

TPO
Miami-Dade Transportation Planning Organization

150 WEST FLAGLER STREET, SUITE 1900, MIAMI, FL 33130
305-375-4507 || MIAMIDADETPO.ORG

Miami-Dade TPO has set a policy that assures that no person shall on the basis of race, color, national origin, sex, age, disability, family, or religious status, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, and the Florida Civil Rights Act of 1992, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity. It is the policy of the Miami-Dade TPO to comply with all requirements of the Americans with Disabilities Act (ADA). To request this document in accessible format, please call 305-375-1881. If you are interested in participating in the transportation planning process, please contact TPO at 305-375-4507.

The preparation of this report has been funded in part from the U.S. Department of Transportation (USDOT), the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA), the State Planning and Research Program (Section 505 of Title 23, U.S. Code), and Miami-Dade County, Florida. The contents of this report do not necessarily reflect the official views or policy of the USDOT.
