DRAFT

Miami-Dade Transportation Planning Organization

TIP • FISCAL YEARS 2026 / 2027 TO 2030 / 2031

2027–2031 TIP
Transportation Planning Organization for the Miami Urbanized Area

DRAFT

This document was prepared by the Transportation Planning Organization (TPO) for the Miami Urbanized Area in collaboration with the Florida Department of Transportation; Expressway Authority; Florida's Turnpike Enterprise; South Florida Regional Transportation Authority; Miami-Dade County Office of Strategic Business Management; Miami-Dade Department of Transportation and Public Works, Miami-Dade County Aviation Department; Miami-Dade Seaport Department; Miami-Dade League of Cities; Miami-Dade County Department of Regulatory and Economic Resources; and the Miami-Dade County School Board.

Miami-Dade TPO complies with the provisions of Title VI of the Civil Rights Act of 1964, which states: No person in the United States shall, on the ground of race, color, or national origin be excluded from participation in, be denied the benefits of, or be subjected to discrimination under any program or activity receiving Federal financial assistance. It is also the policy of Miami-Dade TPO to comply with all requirements of the Americans with Disabilities Act (ADA). For materials in accessible format, please call 305-375-1881.

In accordance with 23 U.S.C. §134(j), 49 U.S.C. §5303(j), and 23 CFR §450.326, once this TIP has been approved, the first year of the program constitutes the "agreed to" list of projects for implementation. No further action is required for these projects to proceed unless there is a significant reduction in available federal funding or substantial changes in project timing. In such cases, the MPO, FDOT, and transit operators will coordinate a revised list.

For projects in non-TMA areas, project selection is carried out by FDOT and/or the transit operator in cooperation with the MPO (23 CFR §450.330(b)). For areas designated as Transportation Management Areas (TMAs), including Miami-Dade, the MPO is responsible for selecting all federally funded projects, excluding those on the National Highway System (NHS) in consultation with FDOT and transit operators. FDOT selects NHS projects in cooperation with the MPO (23 CFR §450.330(c)).

The preparation of this document has been financed in part from the U.S. Department of Transportation (U.S. DOT) through the Federal Highway Administration (FHWA) and/or the Federal Transit Administration (FTA), the State Planning and Research Program (Title 23, U.S. Code §505), and Miami-Dade County, Florida. The contents of this document do not necessarily reflect the official views or policy of U.S. DOT.

TIP • FISCAL YEARS 2026/2027 TO 2030/2031

EXECUTIVE SUMMARY

DRAFT

INTRODUCTION

The Transportation Improvement Program (TIP) is a major federally required document of the TPO for the Miami-Dade Urbanized Area that specifies proposed transportation improvements to be implemented in Miami-Dade County over the coming five years. The primary emphasis of the TIP is on the first three years of the program.

As required by federal regulations, projects receiving federal funds during the October 1, 2026 to September 30, 2031 time period are to be drawn from those listed in this document. In addition, projects not using federal funds, but which are part of the area's program of improvements, are shown in the TIP. Projects shown for FY 2027 and beyond, regardless of their funding source, are included as proposed. While it is anticipated that most of these projects will be implemented as programmed, they will be periodically evaluated by the TPO as the TIP is updated or amended as necessary. The projects in the TIP are also shown for a five-year period. While the emphasis is on the first three years, presenting a five-year span allows for a more systematic forecast of funding needs during a five-year planning cycle and provides a more comprehensive view of the program for public informational purposes. Included in this TIP are Intermodal, Highway, Transit, Aviation, Seaport, and Non-Motorized improvements funded for $XXXXX. billion.

The projects and priorities in this TIP are consistent with those in the adopted 2050 Long Range Transportation Plan (LRTP). Because the 2050 LRTP was found to conform to federal regulations and the Florida State Transportation Improvement Plan (STIP), the TPO has found this TIP to also conform to all relevant laws, regulations and plans. Selected projects are from the prioritized projects found in the 2050 LRTP. The LRTP recommends phasing for surface transportation improvements classified into four categories:

Priority Period I - Priority improvements to be constructed and opened to traffic by the year 2030. Funds for most of these improvements are already programmed in this TIP.

Priority Period II - Improvements where project development and funding efforts would take place between 2031 and 2035.

Priority Period III - Improvements to be made between the years 2036 and 2040. In many cases, project development activities would need to commence in the 2031 - 2035 period, due to the amount of lead-time required to plan and implement a project.

Priority Period IV - Improvements to be made in the latter part of the 25-year plan period (2041 to 2050). Includes projects

responding to long-range mobility needs and roadway improvements constructed through the County, which may be earlier than the 25-year period of the 2050 LRTP.

WHAT IS THE TIP?

The TIP is a multi-year program that prioritizes transportation improvement projects for federal, state, and local funding. The TIP is also the capital improvements element of the LRTP.

WHO PARTICIPATES IN PUTTING THE TIP TOGETHER?

The TPO, with local transportation agencies and other stakeholders, are listed as follows:

1. Florida Department of Transportation (FDOT), District Six
2. Florida's Turnpike Enterprise (FTE)
3. Greater Miami Expressway Agency (GMX)
4. Miami-Dade Aviation Department (MDAD)
5. Miami-Dade Department of Transportation and Public Works (DTPW)
6. Miami-Dade Office of Management and Budget (OMB)
7. Miami-Dade Regulatory and Economic Resources Department (RER)
8. Miami-Dade Seaport Department (PortMiami)
9. South Florida Regional Transportation Authority (SFRTA)

TIP PROGRAM FUNDING

WHERE DOES HIGHWAY FUNDING COME FROM?

The TIP highway projects are funded through gasoline taxes, such as federal gas tax, state motor fuel tax, local option gas tax, voter gas tax, motor vehicle fees and road impact fees and automobile-related user fees such as tolls.

WHERE DOES TRANSIT FUNDING COME FROM?

Transit funding comes from a combination of funds from the FTA, the State of Florida through the FDOT Public Transportation Office, Local Dedicated Source of Funding (half-penny sales tax) and Miami-Dade County's Budget (from local general funds).

WHAT IS A TIP AMENDMENT?

An amendment is a revision to a TIP or STIP that involves a major change to a project in a TIP or STIP, including addition or deletion of a project, a major change in project cost, project phase initiation dates, or a major change in design concept or design scope (i.e., changing project termini or the number of through traffic lanes). [23 C.F.R. 450.104] An amendment requires public review and comment, demonstration of financial constraint, or a conformitY

DRAFT

determination, if applicable. Additionally, amendments to the TIP are available for public review at least fourteen (14) days prior to the scheduled public hearing. This information is also available to the public in the TPO Prospectus for Transportation Improvements at: Miami Dade TPO Prospectus (https://www.miamidadetpo.org/library/reports/prospectus-for-transportation-improvements-2019.pdf)

WHAT IS A TIP ADMINISTRATIVE MODIFICATION?

An administrative modification is a minor revision to a TIP or STIP that includes minor changes to project/ project phase costs, minor changes to funding sources of previously included projects, and minor changes to project/project phase initiation dates. An administrative modification does not require public review and comment, redemonstration of fiscal constraint, or a conformity determination, if applicable. [23C.F.R. 450.104]

FUNDING SUMMARY OVERVIEW

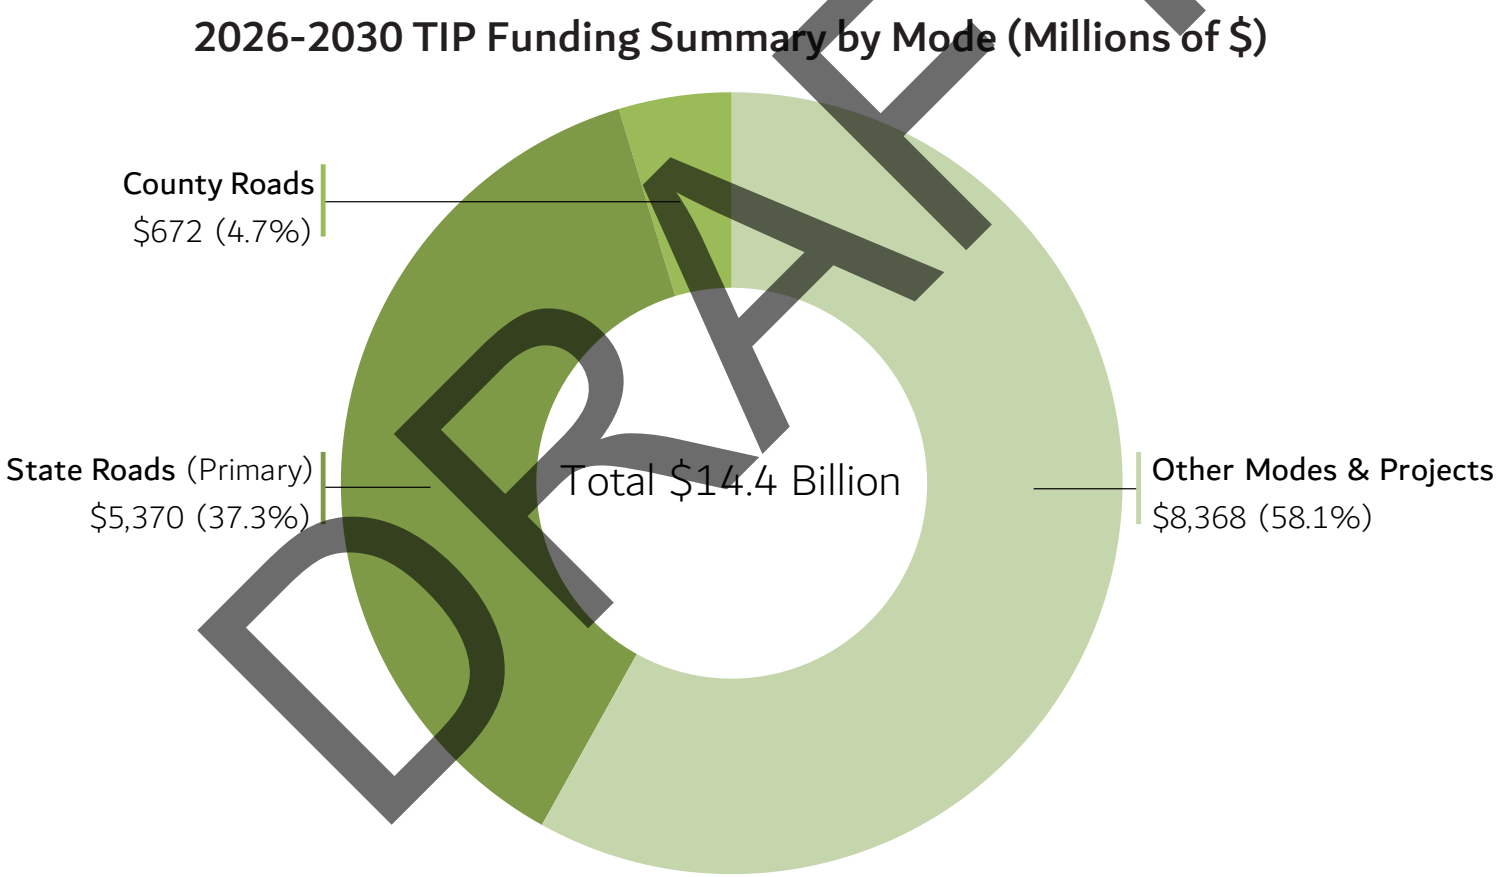
This section provides a summary of allocated transportation funding in the FY 2027-2031 Miami-Dade TIP. The projected $XX.X billion investment includes contributions from federal, state, local, and private sources, supporting a wide range of infrastructure projects across highways, transit, aviation, seaport, and other key transportation systems. As the primary mode, Highways accounts for the largest share of anticipated project funding with state roads comprising $5.4 billion (37.3%) of the total. Within the Highways mode category, the FDOT Primary system constitutes the largest funded portion at $4.7 billion (32.9%), followed by GMX at $335 million (2.3%) and FTE at $295 million (2.0%). The County Roads group represents an additional $672 million (4.7%) in funded projects. This includes sources such as Secondary Road improvements ($53 million), Mobility Impact Fees ($614 million), and the PTP ($6 million). Other modes and projects together also account for a significant share of the total anticipated project funding. Transit as a mode represents the second largest portion of the total funding with $5.2 billion (35.9%), followed by Seaport projects at $2.2 billion (15%). The remaining funded projects are allocated to other critical transportation needs as outlined in the summary table to the right.

DRAFT

TO BE UPDATED

VISUALIZING THE TIP FUNDING SUMMARY

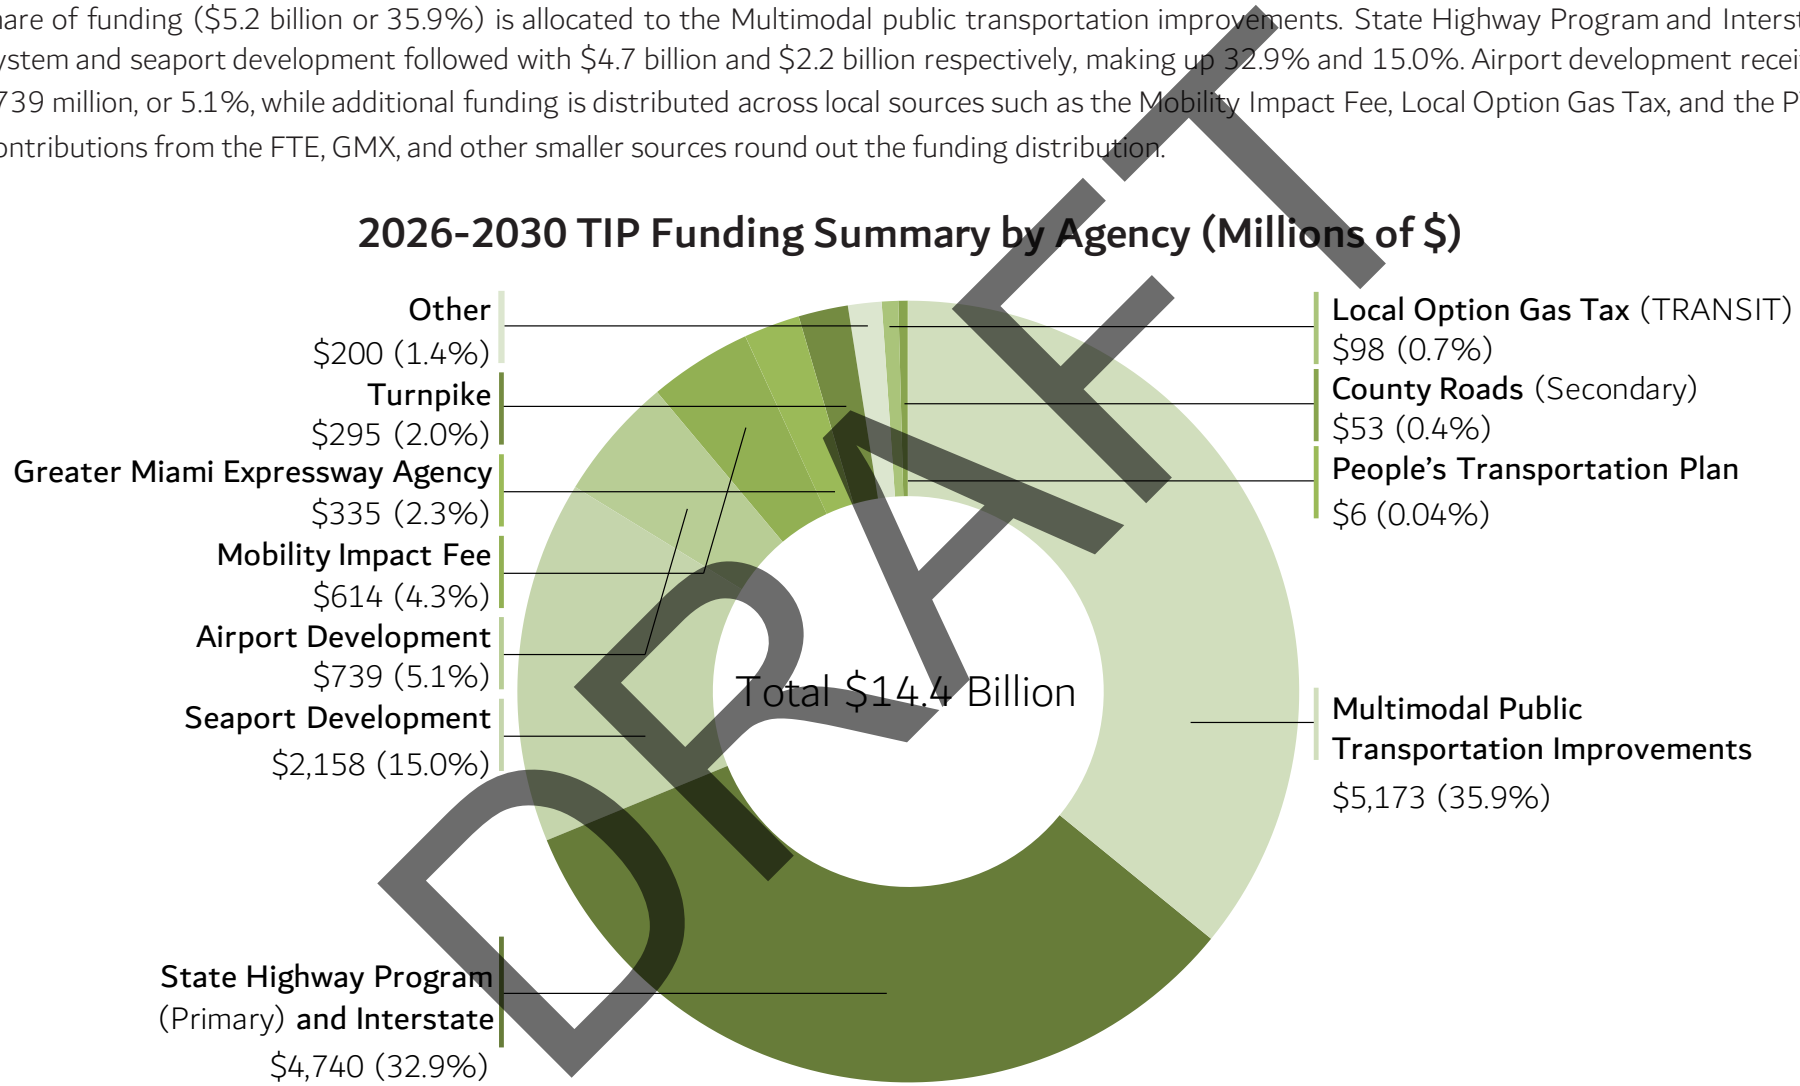
The figures in this section illustrate the allocation of approximately $14.4 billion in transportation funding for Miami-Dade County during Fiscal Years 2027–2031. The figure below displays the distribution of anticipated transportation funding in Miami-Dade County by mode for Fiscal Years 2027–2031. Of the total $14.4 billion in anticipated funding, approximately $5.4 billion (37.3%), is allocated to state roads, while county roads account for $672 million (4.7%). The remaining $8.4 billion, also representing 58.1%, is dedicated to other modes and projects. The chart highlights the balanced investment between state - managed highway infrastructure and broader multimodal initiatives.



DRAFT

Figure 2: 2026-2030 TIP Funding Summary by Mode (Millions of $)

The donut chart below breaks down funding by agency, showing both the dollar amount and percentage share attributed to each category. The largest share of funding ($5.2 billion or 35.9%) is allocated to the Multimodal public transportation improvements. State Highway Program and Interstate System and seaport development followed with $4.7 billion and $2.2 billion respectively, making up 32.9% and 15.0%. Airport development receives $739 million, or 5.1%, while additional funding is distributed across local sources such as the Mobility Impact Fee, Local Option Gas Tax, and the PTP. Contributions from the FTE, GMX, and other smaller sources round out the funding distribution.



DRAFT

Figure 3: 2026-2030 TIP Funding Summary by Agency (Millions of $)

A breakdown by funding source is provided in this next figure. Local funding represents the largest share, with $6.4 billion (44.5%) allocated toward various projects. State sources contribute $4.8 billion (33.2%), while federal funding accounts for $2.6 billion (17.8%). Toll revenues provide an additional $663 million (4.6%). The chart highlights a diverse funding portfolio that combines state, local, federal, and toll-based revenues to support the region's transportation investments over the five-year period.

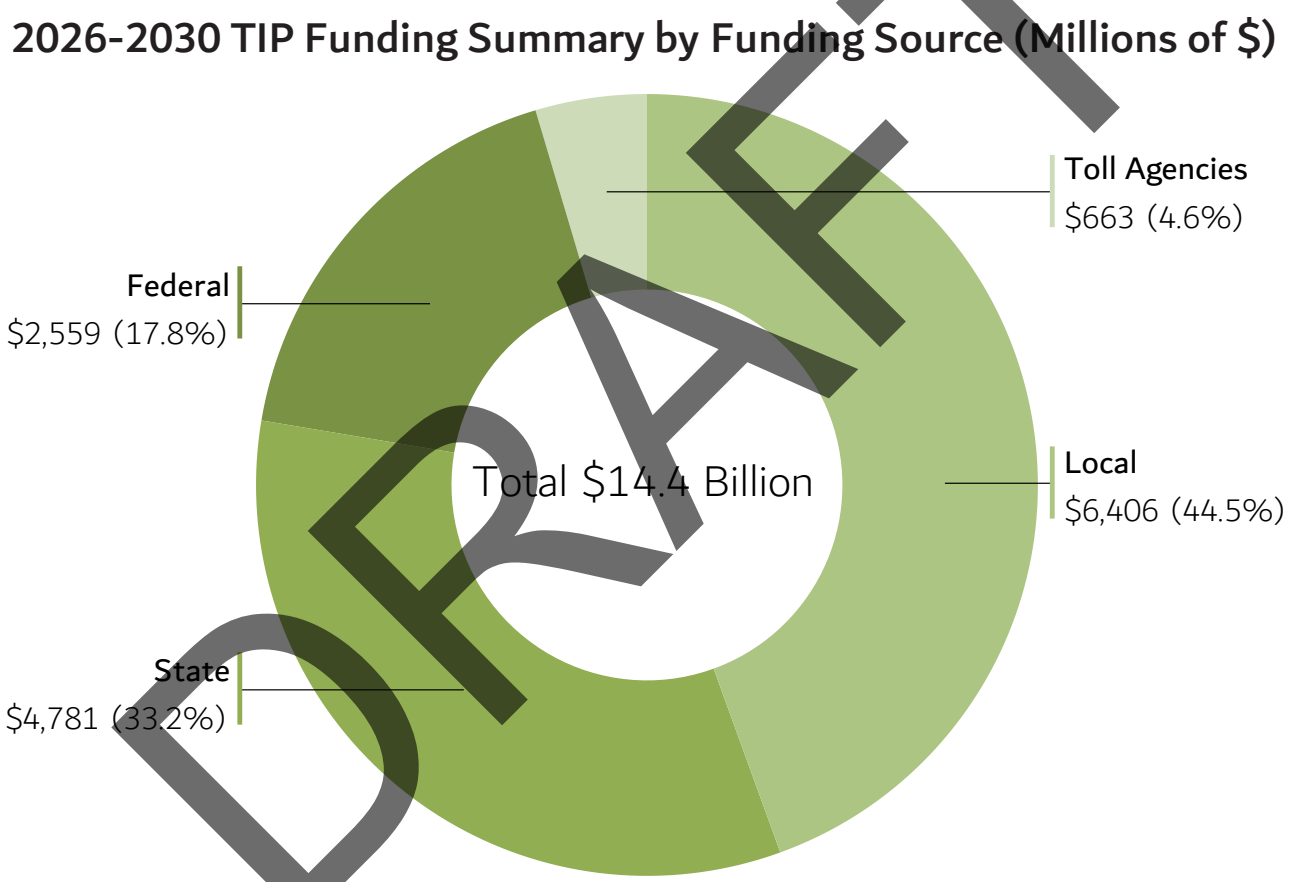


Figure 4: 2026-2030 TIP Funding Summary by Funding Source (Millions of $)

FEDERAL PERFORMANCE MEASURES OVERVIEW

Federal Performance Measures (PMs) were developed to address the Federal goals. Progress toward performance measures is reported in the LRTP every 5 years, and annually in the TIP. Beginning with the MAP-21 infrastructure bill, United States Department of Transportation (USDOT) issued a series of rulemakings that established performance measures tied to the national goals and general-purpose areas [23 U.S.C. 150(c), 49 U.S.C. 5301]. The following pages reflect the trend of funding investment for PMs 1 through 3 over the last six TIPs. The TPO must design the TIP such that once implemented, it makes progress toward achieving the MPO's performance targets [23 CFR 450.326(c)], this section document.

The FHWA issued three performance measure rules that fall into the following categories:

Federal Performance Measure	Overview
PM 1: Highway Safety	Assesses road safety and facilitates the Highway Safety Improvement Program (HSIP). The HSIP is a federal aid funding program intended to achieve a significant reduction in traffic fatalities and serious injuries on all public roads.
PM 2: Pavement and Bridge Condition	Requires state DOTs and MPOs to establish targets for pavement and bridge condition on Interstate and non-Interstate National Highway System (NHS) roads in each state. Pavement condition is assessed based on roughness, cracking, rutting, and faulting. Bridge condition is assessed by inspecting each bridge deck, superstructure, substructure, and culverts.
PM 3: System Performance	Assesses passenger and freight travel performance on the Interstate and non-Interstate NHS, and traffic congestion. This is calculated by percent of reliable person miles traveled (PMT) and Truck Travel Time Reliability (TTTR).

Additionally, FTA issued two performance measure rules that address transit asset management (TAM) and public transportation agency safety plans (PTASP). The FTA PMs are maintained through respective transit authorities and not included in this summary.

DRAFT

Figure 5 provides a high-level overview of how transportation investments are allocated across various project types and facility categories within the TIP. By examining both the number of projects and the associated funding over time, these performance measures offer valuable insight into regional priorities such as roadway safety, infrastructure preservation, system efficiency, and multimodal enhancements. The figures below display the number of TIP projects over time by category, including safety, pavement, bridge, system improvements, truck-related, transit, and other projects. The total number of projects varies by year, with a notable increase in safety and other category projects beginning in FY 2026-2030. This suggests broader investment in diverse or emerging needs, while core infrastructure areas such as pavement, bridges and transit remain steady. Not all projects can be associated with a Federal Performance Measure.

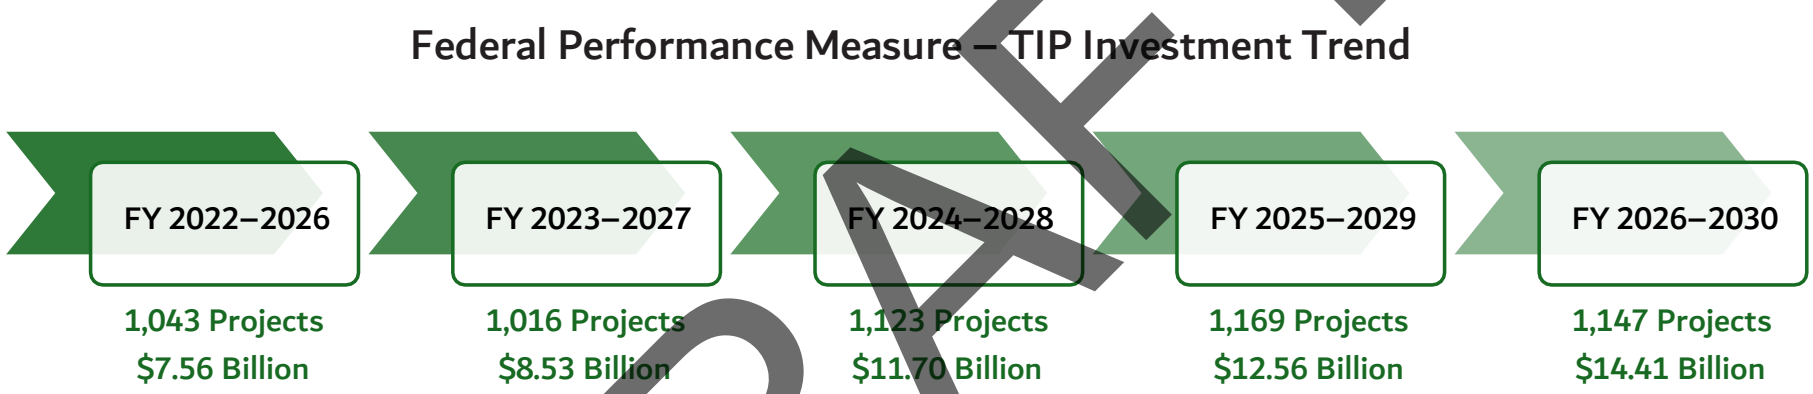

Figure 5: Federal Performance Measure – TIP Investment Trend

DRAFT

Federal Performance Measure – TIP Investment Trend Analysis

	FY 22-26	FY 23-27	FY 24-28	FY 25-29	FY 26-30
PM 1: Safety	197	186	166	297	371
PM 2: Pavement	119	122	101	96	115
PM 2: Bridge	51	50	63	58	70
PM 3: PMT	326	293	273	114	158

	FY 22-26	FY 23-27	FY 24-28	FY 25-29	FY 26-30
State Roads	$ 4,355	$ 4,576	$ 6,031	$ 5,837	$ 5,370
County Roads	$ 614	$ 580	$ 637	$ 649	$ 672
Other Modes and Projects	$ 2,586	$ 3,378	$ 5,034	$ 6,077	$ 8,368

DRAFT

Figure 6: Federal Performance Measure - TIP Investment Trend Analysis

HOW IS TRANSPORTATION PERFORMANCE MANAGEMENT BEING IMPLEMENTED?

The Moving Ahead for Progress in the 21st Century Act (MAP-21) included several provisions that collectively are transforming the Federal surface transportation program to be focused on the achievement of performance outcomes.

The performance outcomes provisions, administered by different agencies within the USDOT, were implemented by rulemakings, including several under FHWA's purview. The provisions are organized by six performance management elements.

The Fixing America's Surface Transportation (FAST) Act, signed in 2015, built on the MAP-21 changes and provided long-term funding certainty for surface transportation infrastructure planning and investment.

TPM performance management outcomes are grouped into six elements to more effectively communicate the efforts under way to implement the statutory requirements.

1. National Goals: Congressionally established goals or program purpose to focus the Federal-aid highway program into specific areas of performance.
2. Measures: FHWA-established measures to assess performance/condition in carrying out performance-based Federal-aid highway programs.
3. Targets: Targets established by Federal-aid highway funding recipients for the measures to document future performance expectations.
4. Plans: Development of strategic and/or tactical plans by Federal funding recipients to identify strategies and investments that address performance needs.
5. Reports: Development of reports by Federal funding recipients that document progress toward target achievement, including the effectiveness of Federal-aid highway investments.

Accountability and Transparency: FHWA-developed requirements for Federal funding recipients to use to achieve or make significant progress toward targets.

WHAT ARE THE FEDERAL PLANNING REQUIREMENTS?

Per 23 CFR §450.306 Scopes of the metropolitan transportation planning process, the metropolitan transportation planning process shall be continuous, cooperative, and comprehensive; consider the Federal Planning Factors and provide a performance-based approach to decision making. Performance-based planning requires MPOs to establish performance targets that address the performance measures or standards of the National Performance Management Measures, Public Transportation Safety Program, and Transit Asset Management.

DRAFT

Per 23 CFR §450.324 Development and content of the metropolitan transportation plan, the MPO Long Range Transportation Plan (LRTP) shall include the following for the National Performance Management Measures:

- A description of the National Performance Management Measures and established performance targets used in assessing the performance of the transportation system.
- A System Performance Report evaluating the condition and performance of the transportation system, including progress achieved by the MPO in meeting performance targets.
- MPOs that voluntarily elect to conduct scenario planning shall describe how the preferred scenario has "improved performance of the transportation system. 23 CFR §450.324.

Additionally, per 23 CFR §450.326 Development and content of the transportation improvement program (TIP), the Transportation Improvement Program (TIP) shall make progress toward achieving performance targets and include a description of the anticipated effect of the TIP toward achieving the performance targets identified by the MPO in the LRTP, linking investment priorities in the TIP to those performance targets

TIP: PUTTING THE LONG-RANGE TRANSPORTATION PLAN INTO ACTION

Picturing the projects contained in the 2050 LRTP for Miami-Dade County as a warehouse full of transportation projects for the next 20- plus years, the TIP is the vehicle that carries those projects to market. The TIP lists specific projects, the anticipated schedule, and cost for each project. Like the LRTP, projects in the TIP must be financially constrained, undergo a series of evaluations, and include opportunity for public comment. Once compiled, review of the TIP begins. During this period of time there is a 45-day public review.

The TIP is a "living" document. Frequently, projects may be added to meet changing priorities or to take advantage of a special opportunity. For this reason, the TIP may be changed after it is approved. It can be amended in order to add, change, or delete projects for a variety of reasons. Amendments to the TIP must undergo the same review and public scrutiny as the original TIP.

The joint annual FDOT/TPO certification was completed in April 2023. The TIP and TIP process are also reviewed during the FHWA/FTA TPO quadrennial certification. The Miami-Dade TPO's quadrennial certification took place in April 2023. The next quadrennial certification is anticipated to take place in 2027. Transportation Performance Management is fully integrated into the TPO planning process.

As the Performance Management process advances, the effectiveness of progress towards achieving the targets will be evaluated. The 2024 federal obligations for FDOT District Six projects are found listed in FDOT's Office of Work Program Annual Obligations Report at: FDOT - OFFICE OF WORK PROGRAM - ANNUAL OBLIGATIONS REPORT.

SOME BASIC FACTS ABOUT MIAMI-DADE COUNTY

POPULATION

With a 2020 Census population of more than 2.7 million, Miami-Dade County is the most populous county in Florida. By the year 2050, the region's population is expected to climb to approximately 3.5 million. The number of households is expected to grow 37.4 percent, from 0.91 million to 1.25 million and the number of jobs in the county will increase from 1.3 million to over 1.8 million, between 2020 and 2050.

THE REGION

Miami-Dade County includes 641.46 square miles of urban development in 1,978 square miles of land area. The urban area encompasses thirty-four municipalities and the unincorporated area. The City of Miami is the County's most populous municipality, with a population of more than 442,291 inhabitants recorded in the 2020 census. There are 7 municipalities with populations over 50,000 and they are the City of Hialeah, City of Homestead, City of Miami, City of Miami Beach, City of Miami Gardens, City of North Miami, and City of Doral.

TRANSPORTATION NETWORK

Miami-Dade's transportation network includes 28 miles of interstate freeways, 112 miles of Turnpike and other freeways, 1,373 miles of major roadways, over 5,600 miles of local streets and roads, and 198 miles of shared-use paths. In all, that is over 7,000 miles that must be maintained, policed, cleaned, and frequently repaved or rebuilt. In addition, there are 918 bridges (584 on the State system and 334 off the State system), 122 miles of active railroad tracks including 273 rail crossings, one major airport, and one seaport.

PUBLIC TRANSPORTATION

Public Transportation services in the County are provided by the Miami-Dade DTPW, South Florida Regional Transportation Authority (SFRTA) and a number of municipalities. Miami-Dade Department of Transportation and Public Works operates the largest public transportation system in Florida, operating a fleet of 826 buses as well as Metrorail (the 24.8-mile elevated rail system) and Metromover (the 4.4-mile downtown people mover). DTPW's buses provide service throughout Miami-Dade County with local service extending into Broward County. DTPW contracts out 24 routes, with service extending into Monroe County. As of December 2023, DTPW Bus Operations directly operates 76 routes for a total of 23.8 million scheduled revenue miles and 2.9 million scheduled revenue miles for contracted bus routes. The annual boardings for the fiscal year 2022-2023 were 37.53 million for Metrobus; 11.56 million boardings for Metrorail and 5.47 million boardings for Metromover. SFRTA operates a 81-mile commuter rail system with 19 stations called Tri-Rail that connects Miami-Dade with Broward and Palm Beach Counties. Tri-Rail's new service connecting the SFRC at the Tri-Rail Metrorail Transfer Station, to the FECR corridor, into Downtown Miami at the "Miami Central Station" began on January 13, 2024. Tri-Rail is among the top ten commuter railroads in ridership in the U.S. Tri-Rail ridership increased by 18% and reached $3.9 million riders by the end of 2023.

DRAFT

HOW TO ACCESS THE TIP ON THE WEB?

The TIP document may be accessed through the website by visiting the TPO website at: https://www.miamidadetpo.org/tpo/home.page select "5 – Year Plan TIP" and click on the final report on the right-hand side of the screen.

TPO Home Page

TPO TIP Page

THE TIP'S MECHANICS

WHY IS THERE A TIP?

The U.S. DOT will not approve use of federal funds for an improvement unless the project is identified in the TIP. Inclusion in the TIP does not, however, guarantee federal funding. The TIP is fiscally constrained with reasonable estimates of project costs balanced against anticipated funding. Projects not funded by the federal government are included in the TIP to provide a more comprehensive picture of the proposed allocation of transportation funds in the region.

WHO PREPARES THE TIP?

The TIP is prepared by the TPO in cooperation with local transportation agencies. The TPO is the agency designated by the Governor of the State of Florida and certified by the federal government to carry out metropolitan transportation planning.

The TIP is one of the TPO's responsibilities.

HOW DOES THE TIP WORK?

1. The first year is current (the funded annual element); the remaining four are future.
2. Each year adds a new fifth year and advances a new annual period to current funded status.

Photo by Miami-Dade County Photographers

DRAFT

3. Identifies funding levels, by source and type, and whether funds are to be used for: road capacity, preservation, bridges, transit capital, safety, non- motorized, right-of-way, study or other.
4. Improvements in the TIP are based on TPO-established priorities from the LRTP.
5. The TIP is consistent with the currently adopted 2050 LRTP.

TIP CONSISTENCY

The TIP must be consistent with the LRTP.

WHAT FISCAL YEARS DOES THIS TIP INCLUDE?

This TIP covers fiscal years 2027 to 2031 Fiscal years spanned are 2027, 2028, 2029, 2030, and 2031. Fiscal years, as opposed to calendar years, begin on July 1 and end on June 30 .

Fiscal Year 2027	begins July 1, 2026 and	ends June 30, 2027
Fiscal Year 2028	begins July 1, 2027 and	ends June 30, 2028
Fiscal Year 2029	begins July 1, 2028 and	ends June 30, 2029
Fiscal Year 2030	begins July 1, 2029 and	ends June 30, 2030
Fiscal Year 2031	begins July 1, 2030 and	ends June 30, 2031

WHAT DOES THE TIP INCLUDE?

The TIP includes a listing of transportation improvement projects by Fiscal Year for the Miami-Dade County region for the next five fiscal years.

WHAT MAJOR PROJECT OR PROJECTS OF COUNTYWIDE SIGNIFICANCE ARE IN THE TIP?

Major projects and projects of countywide significance are referenced in the Citizen's TIP in each agency's section.

DRAFT

THE TIP'S TECHNICALITIES

WHO MUST APPROVE THE TIP LOCALLY?

The TTPO Governing Board must approve the TIP.

WHO MUST APPROVE THE TIP AT THE STATE LEVEL?

The Governor of the State of Florida must approve the TIP before the document becomes part of the State Transportation Improvement Program (STIP).

WHO MUST APPROVE THE TIP AT THE FEDERAL LEVEL?

The FHWA and the FTA approve the TIP for funding purposes.

WHERE DOES THE TPO GET ITS AUTHORITY?

Federal Law: From Title 23 U.S. Code -- "To carry out the transportation planning process a Metropolitan Planning Organization (MPO) shall be designated for each urbanized area with a population of more than 50,000 individuals". In 1973, the Federal Transportation Act mandated that each urbanized area with 50,000 or more in population establish an MPO. Federal law required that the Governor of the state designate the agency to serve as the MPO.

State Law: From 339.175 Florida Statues: "It is the intent of the Legislature to encourage and promote the safe and efficient management, operation, and development of surface transportation systems that will serve the mobility needs of people and freight…" To accomplish these objectives, MPOs shall develop plans and programs that "must provide for the development and integrated management and operation of transportation systems and facilities, including pedestrian walkways and bicycle transportation facilities that will function as an intermodal transportation system for the metropolitan area."

ADMINISTRATIVE TIP AMENDMENT BETWEEN THE START OF THE STATE AND FEDERAL FISCAL YEARS

An administrative TIP Amendment is an amendment that does not have to go to the full TPO Board for approval. FHWA and FTA will allow an administrative TIP Amendment during the three-month gap between the start of the new State fiscal year and the end of the old Federal fiscal year (July 1 to September 30) for new projects that were added during the Tentative Work Program development cycle.

DRAFT

In these instances, the TIP must be amended to include the project, but FHWA and FTA have agreed to allow the TPO Executive Director to process an Administrative TIP Amendment for these types of projects rather than having to go before the full Board. FHWA and FTA will allow this only under the following conditions:

- The amendment takes place between July 1 and September 30;
- The project must appear in the amendment exactly as it appears in the newly adopted TIP; and
- The TPO Director has been authorized by the Board to approve administrative TIP Amendments.

STRATEGIC MIAMI AREA RAPID TRANSIT PLAN

On February 18, 2016, the TPO Governing Board approved Resolution #06-16, establishing a policy to set as highest priority the advancement of rapid transit projects in Miami-Dade County. As a result, the Miami-Dade TPO Governing Board approved on April 21, 2016, Resolution #26-16 endorsing the Strategic Miami Area.

Strategic Miami Area Rapid Transit (SMART) Plan and directing the TPO Executive Director to work with the TPO's Fiscal Priorities Committee to determine the costs and potential sources of funding for Project Development and Environmental (PD&E) study for said projects.

The TPO Executive Director was further directed to take all necessary steps to implement the SMART Plan, which consists of:

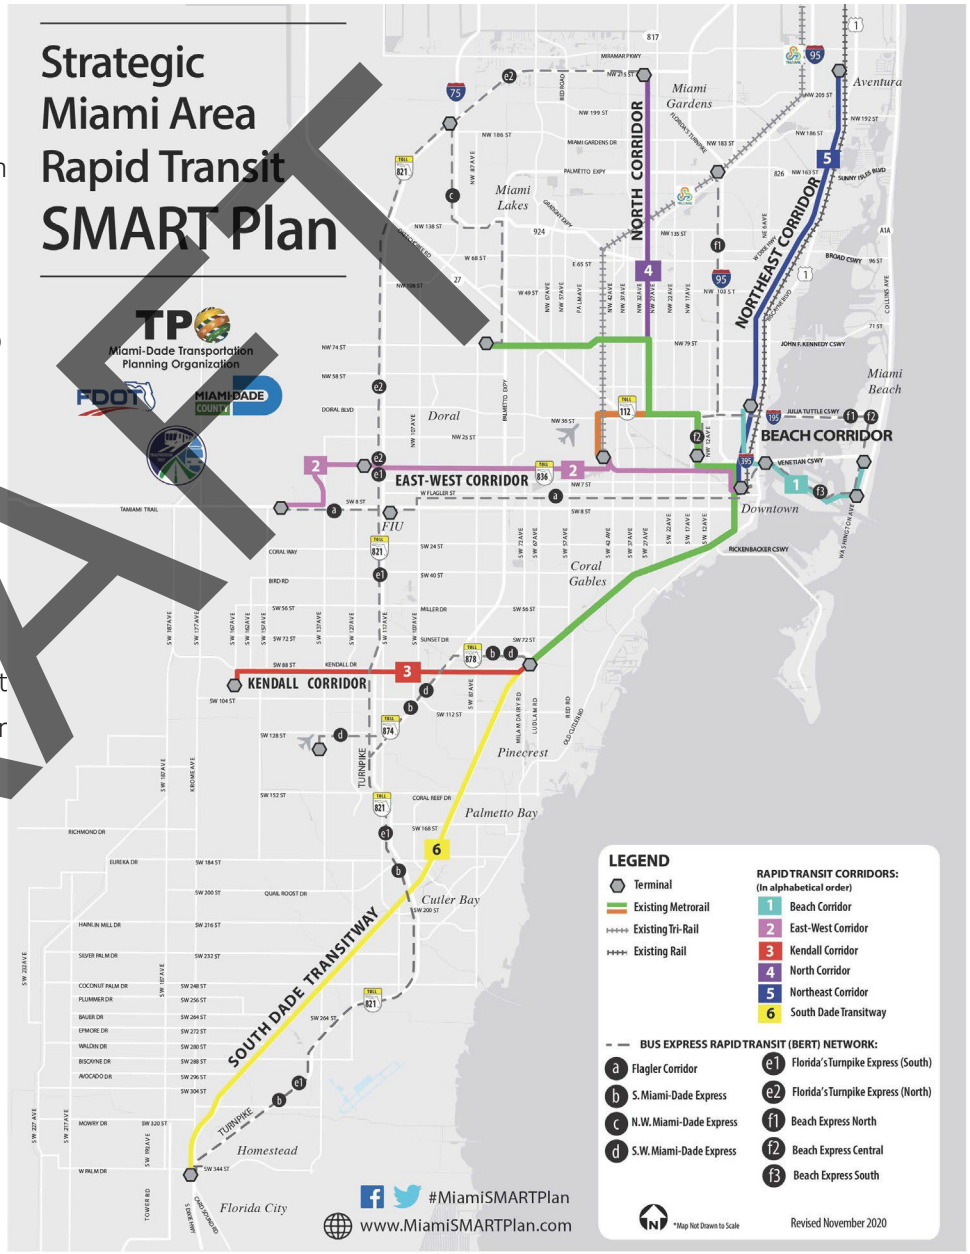
- North Corridor (NW 27 Avenue)
- Beach Corridor
- East-West Corridor
- South Dade Transitway
- Northeast Corridor
- Kendall Corridor

DRAFT

INTRODUCTION

In addition to the six (6) rapid transit corridors, the SMART Plan includes the implementation of the following express bus network along:

- **Route a** - Flagler Corridor - from 107 Avenue to Government Center with two branches west of 107 Avenue - along NW 12 Street to Dolphin Station at approximately NW 122 Avenue and along SW 8 Street to Tamiami Station at SW 147 Avenue.
- **Route b** - South Miami-Dade Express - express bus route from the SW 344 Street Park-and-Ride / Transit Terminal Facility along the HEFT to the Dadeland North Metrorail Station with an intermediate stop at a future Turnpike / SW 288 Street Park-and-Ride Station.
- **Route c** - NW Miami-Dade Express - from I-75 at Miami Gardens Drive Station to Palmetto Metrorail Station along SR 826.
- **Route d** - SW Miami-Dade Express - from Miami Executive Airport to Dadeland North Metrorail Station along SR 874 and SR 878.
- **Route e1** - Florida's Turnpike Express (South) - from the SW 344 Street Park-and- Ride / Transit Terminal Facility along the Turnpike to Panther and Dolphin Stations.
- **Route e2** - Florida's Turnpike Express (North) - from the FIU Panther Station to the Dolphin Station and along the Turnpike to the I-75 / Miami Gardens Drive Station and to the Unity Station / NW 215 Street.
- **Route f1** - Beach Express North - from Golden Glades Intermodal Terminal to the Earlington Heights Metrorail Station, the future Mount Sinai Transit Terminal, and the Miami Beach Convention Center area.
- **Route f2**- Beach Express Central - from Civic Center Metrorail Station to the Miami Beach Convention Center area.



DRAFT

- **Route f3** - Beach Express South - from Miami Central Station to the Miami Beach Convention Center area.

PUBLIC INVOLVEMENT

Public involvement for the development of the TIP is received through regularly scheduled meetings of the TPO Governing Board and its advisory committees. A typical TIP Development cycle, in Miami-Dade County, follows the following timeline:

- The TIP process begins at the start of each federal fiscal year on October 1st. FDOT District 6 and Florida's Turnpike Enterprise presents to advisory committees a very Tentative Five-Year Work Program document.
- During the month of November, the Citizen's Transportation Advisory Committee (CTAC) and the TIP Development Committee endorse the Tentative Five-Year Work Program. November public hearings are also scheduled for review and input to the FDOT District 6 Tentative Work Program in Miami-Dade and Monroe Counties.
- In December, the Transportation Planning Council (TPC) and the TPO Governing Board endorse the Tentative Five-Year Work Program.
- By mid- December, the Interactive TIP web tool opens to county transportation stakeholder agencies.
- During the months of January through March of each year, the TIP Development Committee meets weekly to advance, review and approve a Draft TIP. These meetings are open to the public.
- By Mid-March to early April of each year, a printed Draft TIP Program document is available for Public review and input at the TPO Office. The Draft TIP is posted prominently on the TPO website at: http://www.interactip.com/ under TIP 2026 Documentation.
- By the end of April, an Executive Summary – Citizen's Version document is sent to CTAC and the TPC and a Draft TIP is posted to the TPO website for review and comment by the public. The Executive Summary – Citizen's Version is a user-friendly color booklet that condenses the big picture projects of that year's TIP, provides pictures, renderings and educates user as to what is the TIP and what projects are underway and which ones have been completed from the previous year's TIP. The current 2026 Executive Summary – Citizen's Version is prominently posted on the TPO website at: Approved FYs 2026-2030 Executive Summary Citizen's Version.
- Parallel to these efforts, the TPO has regularly scheduled meetings with the community where the Draft TIP is distributed. Favorable verbal comments have been received and citizens have expressed their continued interest in tracking major projects via a user-friendly interface.
- The Draft TIP is typically included as an information item on or around the May meeting agendas of the CTAC. This meeting is open to public for comments and input.
- CTAC initial review of the Draft FY 2026-2030 TIP took place this year at their April 9, 2025, meeting. TPC initially reviewed at their April 14, 2025, meeting.
- The TIP was advertised for public hearing.
- The Final Draft TIP was presented for approval on the May agendas of the CTAC and TPC committees, respectively. These meetings are open to the public.
- TPC approved the FY 2026-2030 TIP at their May 19, 2025, meeting.

DRAFT

INTRODUCTION

- CTAC approved the FY 2026-2030 TIP at their May 14, 2025, meeting.

BICYCLE ACCOMMODATIONS LEGEND

CODE	NAME
Bike Lane	A bike lane is a portion of a roadway that is designated by signs and markings for preferential use by bicyclists.
Paved Shoulder	A paved shoulder is a portion of a roadway that has been delineated by edge line striping and may include bicycle lane pavement markings or signing.
Wide Curb Lane	A wide curb lane is a through lane that provides a minimum of 14 feet in width which allows most motor vehicles to pass cyclists safely within the travel lane.
Other Shared Use Path/ Paved Trails	A paved path that is physically separated from the road and is designed to accommodate two-way bicycle and pedestrian traffic. Sidewalks do not meet the width and operational criteria for multi-use paths.
Sharrow	An optional pavement marking used to indicate a shared environment for bicycles and motor vehicles. Sharrows are used where it is not practical to provide a bicycle facility. Note that a sharrow is not a bicycle facility.

Purpose, Contents & Concluding Statements

DRAFT

PURPOSE OF THIS SECTION

The Infrastructure Investment and Jobs Act (IIJA) (Public Law 117-58) provides approximately $350 billion for Federal highway programs over a five-year period (fiscal years 2022 through 2026). Most of this funding is apportioned (distributed) to States based on formulas specified in Federal law. However, the IIJA also provides funding through a wide range of competitive grant programs. The intention of this section of Miami-Dade County's FY 2026/2027-2030/2031 TIP is to illustrate how the TPO's priorities are to be funded, by Federal funding category, and by fiscal year. Specifically, this section addresses the requirements for TIP development as cited in Title 23 USC Section 134 (subsections (h) 2 and (i) 4). Per the new Federal Administration, subsequent legislation is pending.

CONTENTS OF THIS SECTION

This section contains the project listings by major funding category. Projects are identified by Work Program Item Numbers and show the corresponding project description, type of work and funding for each of the first four (4) years of the TIP.

CONCLUDING STATEMENTS

- This section is presented in order to fulfill federal requirements as noted in Section 134 of Title 23, United States Code (ISTEA).
- Only major categories of federal funds are highlighted in this section.
- Only the first four years of the TIP (FY 2027/2028, 2028/2029, 2029/2030, and 2030/2031) are included in this section.
- The projects shown in this section are consistent with the FDOT District VI Adopted Work Program.
- Federal funds can reasonably be expected to be made available for all projects included in this section.

All information contained in this section is consistent with the adopted TIP attached hereto.

PART 2: 5-YEAR PROJECT LISTING
STATE TRANSPORTATION SYSTEM AND MAJOR PROJECTS

Florida Department of Transportation, District 6

DRAFT

The Florida Department of Transportation's (FDOT) Compass helps connect the work FDOT is doing to what matters most to our communities. The FDOT Compass centers on Communities, with five pillars surrounding them: Safety, Resilience, Supply Chain, Technology, and Workforce Development. These pillars establish the baseline for every project, plan, and investment. This allows FDOT to build transportation infrastructure that embraces the unique character of each community across the state.

This section of the Transportation Improvement Program (TIP) focuses on the State Transportation System and Major Projects located within Miami- Dade County. The projects listed include improvements to highways, transit, aviation, rail, seaport, freight, and bicycle/pedestrian modes over the next five fiscal years.

The FDOT District Six section provides an overview of the following topics:

- The FDOT Five-Year Work Program
- The Work Program Cycle
- Programs and Funding
- Strategic Intermodal System (SIS) Projects
- Project Development and Environmental (PD&E) Studies
- Other Major Corridor Improvements / Resurfacing Projects
- Transportation Systems Management & Operations (TSM&O)
- Bicycle/Pedestrian Improvements
- Modal Development

FDOT'S FIVE-YEAR WORK PROGRAM

The FDOT District Six Work Program is a major component of the Miami-Dade Transportation Organization's (TPO) TIP. The Work Program, which is updated annually, is a project specific list of transportation activities and improvements that the FDOT will undertake during the next five years. It is developed by District Six in cooperation with the Miami-Dade TPO and is consistent with the 2050 Long Range Transportation Plan (LRTP), and TPO priorities. The projects must also meet the objectives of the Florida Transportation Plan (FTP). The first three years of the Adopted Work Program represent a commitment that local governments may rely on for planning purposes, and for the development of capital improvement elements of the local government comprehensive plans.

*All renderings used in this report are subject to change as they continue through the project phase and may not denote the final product.

THE WORK PROGRAM CYCLE

In the summer of 2025, FDOT began a new cycle to develop the Tentative Work Program for Fiscal Years (FY) 2027 - 2031. FDOT coordinates the development of the Work Program with the TPO's TIP Committee to process and receive input through public hearings. The Tentative Work Program is then sent to the Governor's Office, Legislature, Florida Transportation Commission and the Department of Economic Opportunity for review and it will become effective as the Adopted Work Program on July 1, 2026.

PROGRAMS AND FUNDING

Program Descriptions — For budgeting purposes, the FDOT's Work Program comprises eight budget categories. Programs are listed below:

- Safety Enhancements Initiatives
- Resurfacing
- Bridge Repair & Replacement
- State Highway System & Other Roads Construction
- Right of Way Land
- Product Support Consultants
- Operations & Maintenance Consultants/Contracts
- Modal Development

Funding Overview — FDOT's funds are allocated among seven Districts statewide and the Florida Turnpike Enterprise. In Miami-Dade, the FDOT in

DRAFT

consultation with the Miami-Dade TPO, determines the best use of Miami-Dade's share of funding. The FDOT's resources are primarily from federal and state dedicated sources. The State Transportation Trust Fund and the Federal Highway Trust Fund receive revenue from specific tax sources for transportation purposes. Additional funding for Work Program projects comes from local and discretionary sources. By statute, the FDOT must develop a program that is balanced with cash and revenue forecasts.

FDOT District Six, Total Budget Breakdown, Tentative Five-Year Work Program - Fiscal Years 2027-2031:

As shown in the Total Budget Breakdown table below, the majority of the FDOT's $4.2 billion budget is applied to the Product Support Consultants, in the amount of $887.1 million.

Bridge Repair & Replacement	**$528.2M**
Resurfacing	**$277.3M**
State Highway System & Other Roads Construction	**$753.0M**
Stand Alone Safety	**$93.0M**
Right of Way Land	**$59.9M**
Modal Development	**$761.0M**
Product Support Consultants	**$933.5M**
Operations & Maintenance Consultants/Contracts	**$887.1 M**

FIVE-YEAR TENTATIVE WORK PROGRAM FOR FY 2026/27 – 2030/31

$4.2 BILLION as of 10/9/2025

DRAFT

STRATEGIC INTERMODAL SYSTEM (SIS) PROJECTS

The Florida Legislature established the SIS to enhance Florida's transportation mobility and economic competitiveness. The SIS consists of a network of high-priority transportation facilities which include commercial airports, spaceports, deep water seaports, freight rail terminals, passenger rail, intercity bus terminals, rail corridors, waterways, and highways. These facilities represent the state's primary means for moving people and freight between Florida's diverse regions, between states and nations. The following are major SIS improvement projects in Miami-Dade County:

SR 25/OKEECHOBEE ROAD RECONSTRUCTION PROJECT

This project involves reconstruction of SR25/Okeechobee Rd from east of NW 116 Way to east of 87 Avenue using rigid pavement. Project

improvements include Building a third level bridge on SR 25/Okeechobee Road over NW 87 Avenue, Building flyover ramps to and from SR 25/ Okeechobee Road and NW 87 Avenue, Reconstructing NW 87 Avenue from just south of NW 96 Street to north of NW 103 Street, Realigning NW 103 St, sidewalk construction, reconstructing NW S River Dr from west of NW 106 St to E of NW 87 Avenue, removing the existing bridge at NW 105 Way and building a new low-level bridge at NW 106 St, widening of NW 106 St, and construction of a South Florida Water Management District (SFWMD) control structure.

The following benefits are included in this project:

This project will create an envelope for a grade separation of Okeechobee Road by:

- Reconstructing portions of NW 87 Avenue
- Reconstructing portions of State Road 932/NW 103 Street
- Reconstructing portions of South River Drive

Design is currently underway, and construction is expected in FY 2031.

For information related to this project, visit: www.southflroads.com/okeechobee

DRAFT

PROJECT DEVELOPMENT AND ENVIRONMENT (PD&E) STUDIES

SR 9/I-95 CORRIDOR IMPROVEMENT PROJECTS (PD&E)

There are two PD&E projects programmed for improvements along the I-95 corridor from US-1 to the Broward County Line, and both will overlap with the design phase. These projects are part of the SIS. Their purpose is to address the deficient operational capacity and relieve existing and future congestion along the SR 9/I-95 corridor. This includes the review and analysis of potential impacts for the proposed project on a social, economic, natural, physical, and cultural resources basis in the surrounding environment. The project also aims to maintain the operational integrity and regional functionality of I-95 and the broader transportation network by supporting similar corridor improvements throughout Miami-Dade, Broward, and Palm Beach Counties, while enhancing emergency evacuation and response times.

Overall, the projects will offer more mobility options for motorists and transit users, as they will provide additional capacity along the corridor throughout Miami-Dade County.

The following benefits are included in this project:

Below are the two projects and their status:

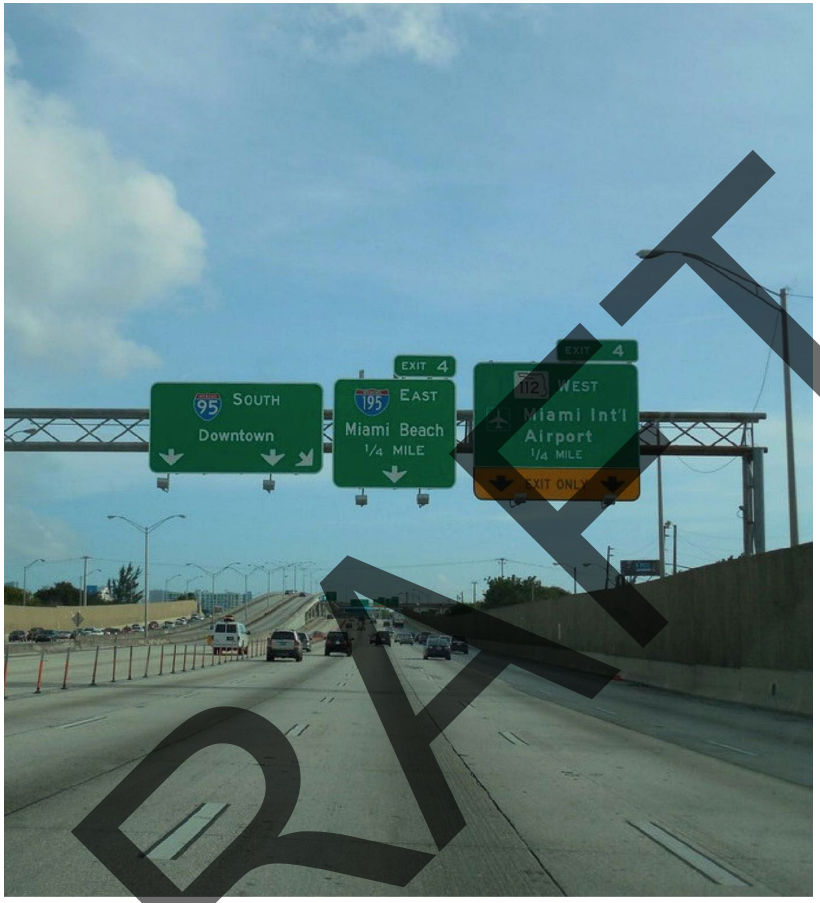
- I-95 from US_/South Dixie Highway to South of NW 62nd Street – PD&E is expected in Fiscal Year 2029
- I-95 from South of NW 62nd Street to North of NW 143rd Street – PD&E is underway with Design in Fiscal Year 2031

The scope of the project includes the following:

- Review and analyze potential impacts for the proposed transportation improvement
- Preserving the operational integrity and regional functionality of I-95, and the regional transportation network throughout Miami-Dade, Broward, and Palm Beach Counties
- Enhancing emergency evacuation and response times
- Offering more mobility options for motorists and transit users
- Provide additional capacity along the corridor

For information related to this project, visit : www.southflroads.com/sr9apde

DRAFT



SR 9A/I-95 Corridor Improvement Projects

DRAFT

SR 826/PALMETTO EXPRESSWAY SOUTH CAPACITY IMPROVEMENT PROJECT(PD&E)

The Palmetto South project is located in southwest Miami-Dade County and extends from US 1 to NW 25 Street. This project is part of the SIS. The main purpose of the project is to add mainline and interchange capacity within the project limits to meet future transportation demands, improve travel time reliability, and to provide long term mobility options. The PD&E project is evaluating alternatives to meet the purpose and need.

The following benefits are included in this project:

The scope of the project includes the following:

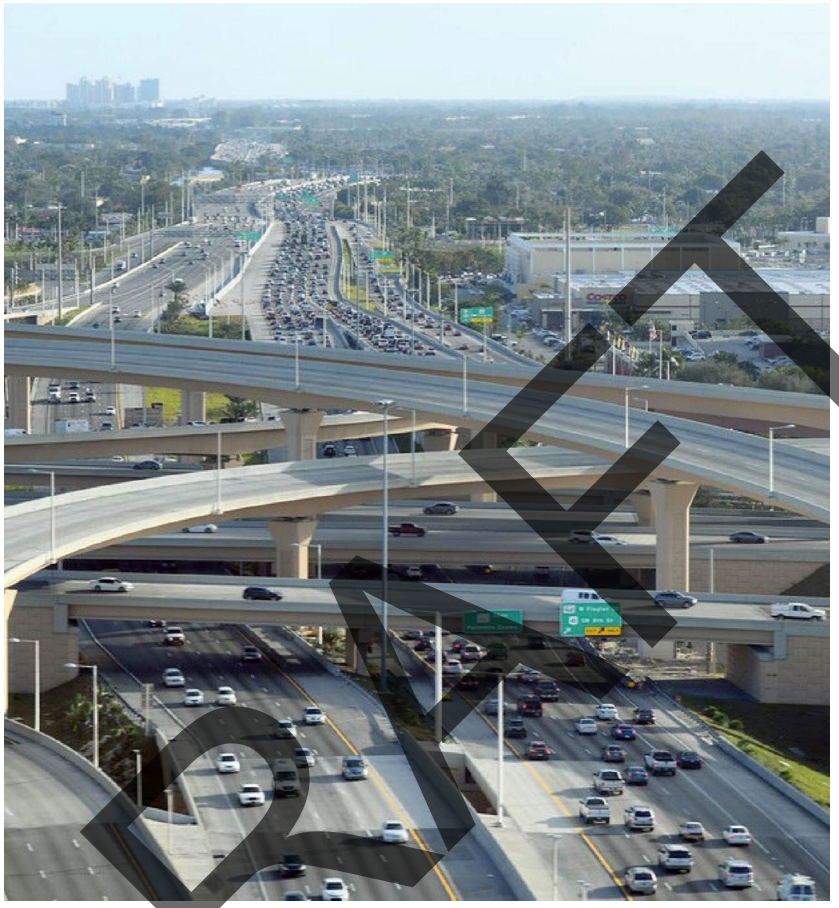
- Add capacity to mainline and interchanges
- Improving travel time reliability
- Providing long-term mobility options

The PD&E for the project is currently underway.

Design is broken into 5 phases for funding purposes and is expected to start in FY 2027.

For information related to this project, visit: www.SouthFLRoads.com/826expresssouth

DRAFT



SR826/Palmetto South Corridor Capacity Improvement Project

DRAFT

SR 994/QUAIL ROOST DRIVE CORRIDOR IMPROVEMENTS (PD&E)

The Quail Roost Drive project is located in Miami-Dade County and extends from west of SW 137 Avenue to east of SW 127 Avenue. This project is part of the SIS. The PD&E Study focuses on addressing traffic and capacity challenges on SR 994 from SW 137th Avenue to SW 127th Avenue to meet future travel demand resulting from anticipated growth in population and employment along the corridor. Other goals of the project are to improve multimodal safety conditions along the corridor, including emergency evacuation and response times, and to enhance mobility options and multimodal access.

The following benefits are included in this project:

The scope of the project includes the following:

- Providing additional capacity to accommodate future travel demands
- Improving multimodal safety conditions
- Enhancing mobility
- Improving emergency evacuation and response/recovery time

DRAFT

SR 994/Quail Roost Drive Corridor Improvements

DRAFT

OTHER MAJOR CORRIDOR IMPROVEMENTS / RESURFACING PROJECTS

The following are major resurfacing projects in Miami-Dade County:

SR 934/79th STREET AND 81ST STREET CORRIDOR IMPROVEMENT PROJECTS

Consists of 2 projects:

- Converting one of the three eastbound lanes on NE/NW 79 Street east of I-95 to a westbound lane to provide two lanes in each direction
- Converting NE/NW 81/82 Street to a two-way facility with one westbound lane and one eastbound lane

The following benefits are included in this project:

SR 934Corridor Improvement Projects

DRAFT

Design is expected to begin in 2028 with construction in 2032

SR 907/ALTON ROAD RECONSTRUCTION

The purpose of the project is to raise the roadway for resiliency of the corridor from Michigan Avenue to South of Ed Sullivan Drive, extend and preserve the service life of the pavement for future transportation demand, provide additional accommodation for pedestrians and bicyclists, and enhance safety for all roadway users.

The following benefits are included in this project:

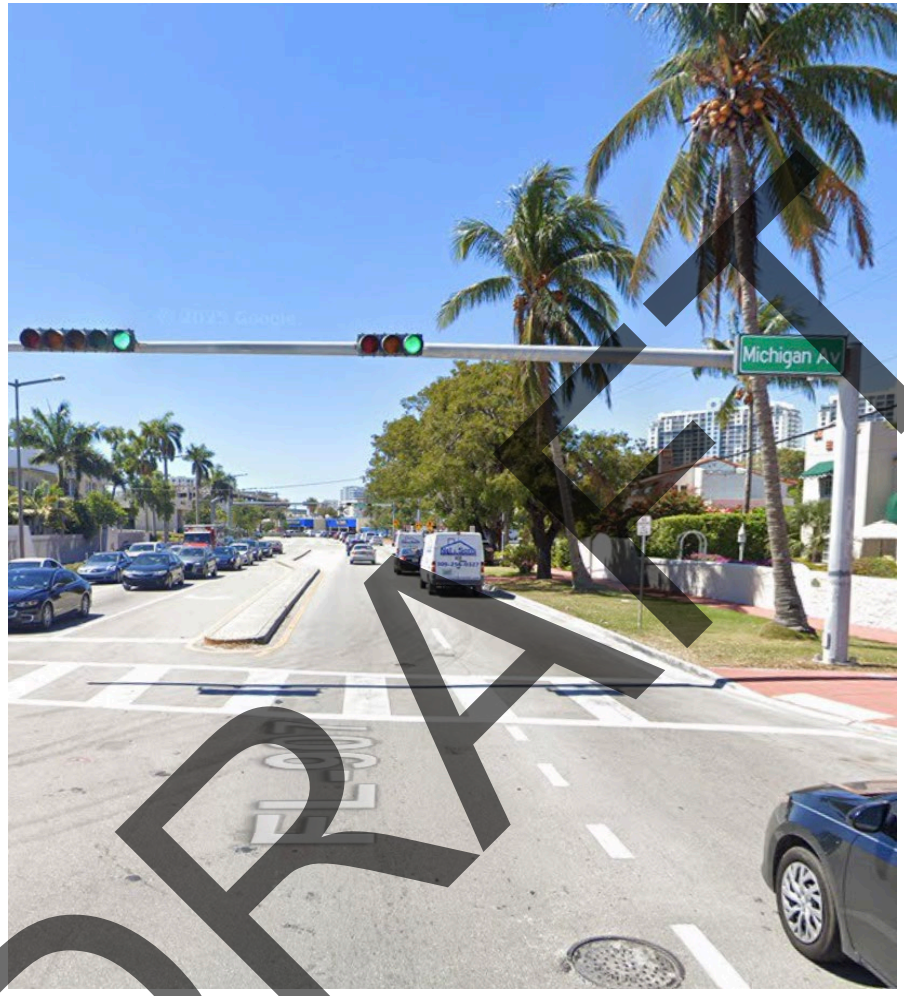
The scope of the project includes the following:

- Improving roadways and drainage
- Changing the roadway elevation for resiliency
- Adding new pump stations at W 29th Street and the I-195 Interchange, with new inlets and upgrades to the existing drainage
- Updating utilities in coordination with the City of Miami Beach
- Widening the northbound lanes towards the golf course to accommodate a bi-direction bicycle facility and sidewalk
- Improving pedestrian signalization and pavement markings
- Adding new lighting along the road.

Design is currently underway with Construction programmed in FY 2027

For information related to this project, visit: https://www.fdotmiamidade.com/project/251/429193-1-52-01

DRAFT



SR 907 Alton Road at Michigan Avenue

DRAFT

SR 860/MIAMI GARDENS DRIVE RECONSTRUCTION PROJECT

This is an operational and safety improvement project along SR 860/Miami Gardens Drive/ 186 Street from east of I-75/SR 93 to NW 79 Place, located entirely within unincorporated Miami-Dade County, Florida.

Key improvements include replacing and restriping the roadway, widening to accommodate one additional travel lane in each direction, adding a Shared-Use Path on the north side of Miami Gardens Drive, access management modifications to increase safety, upgrading drainage, lighting, signing, and pavement markings, adding new vehicular and pedestrian signalization at major intersections.

The following benefits are included in this project:

The scope of the project includes the following:

- Widening the road to add one travel lane in each direction
- Adding a shared-use path
- Modifying medians
- Upgrading storm water drainage, lighting, signs and pavement markings
- Adding new signals at major intersections

Design is currently underway, and Construction is expected in Fiscal Year 2029

For information related to this project, visit: https://www.fdotmiamidade.com/project/250/438864-2-3-4-52-01

DRAFT

SR 860/MIAMI GARDENS DRIVE RECONSTRUCTION

SR 934/NE 79TH STREET BRIDGE REPLACEMENTS

This is a bridge replacement project along SR 934 / NE 79th Street Causeway / John F. Kennedy Causeway from west of Pelican Harbor Drive to east of Adventure Avenue within Miami-Dade County and North Bay Village.

The purpose of this project is to replace the four existing bridges (two bridge pairs).

- The west bridge pair (ID 870083 and 870549) is located between Pelican Harbor Marina and North Bay Island/Harbor Island,
- The east bridge pair (ID 870084 and 870550) is located between North Bay Island/Harbor Island and Treasure Island.

Additional objectives include elevating bridge profiles to enhance resilience against sea level rise and incorporating protection measures. The project will include milling and resurfacing, drainage improvements, widening and reconstructing pavement, updating signage and pavement

DRAFT

makings to align with current standards, and installing new curb ramps and sidewalks. The project will also replace traffic signal systems at two intersections (Harbor Island Dr and Adventure Ave) and install new lighting, pedestrian detection systems, and dedicated bicycle lanes.

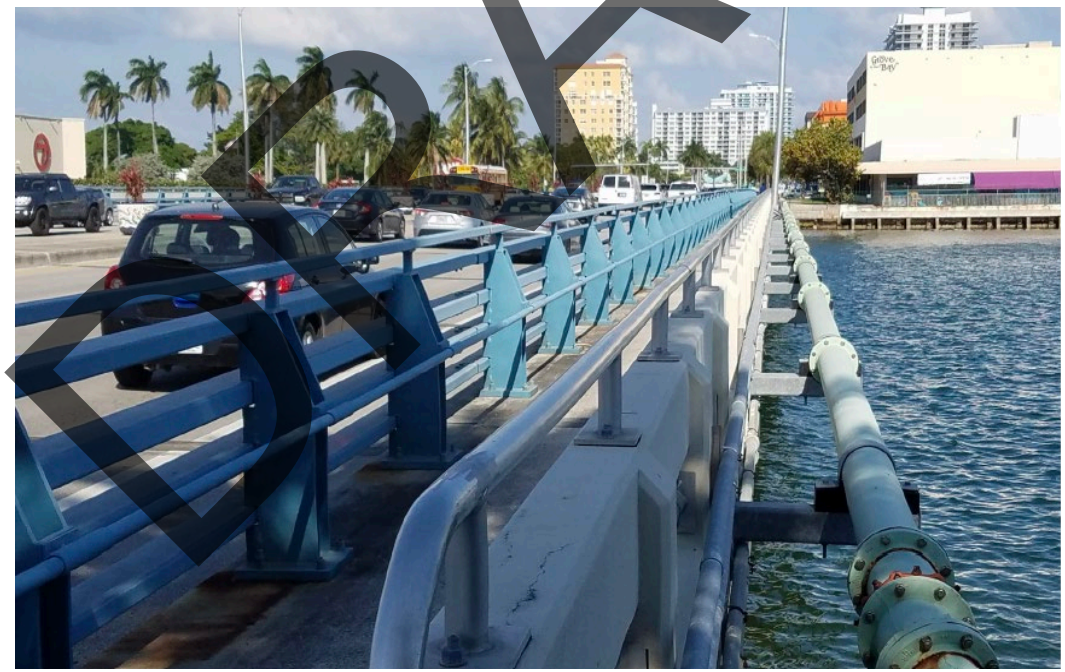
The following benefits are included in this project:

The scope of the project includes the following:

- Replacing four flat bridges along project limits
- Upgrading curbs and stormwater systems
- Upgrading guardrails
- Upgrading medians along project limits

Design for this project is currently underway, and construction is expected in FY 2029.

DRAFT



SR 934/NE 79 Street Bridge Replacement Project

MODAL DEVELOPMENT

The FDOT Modal Development Office aims to deliver and promote rail, transit, paratransit, seaport, waterway, and aviation facilities and services through administration and oversight of Federal and State programs to Agency partners, supporting the FDOT comprehensive multimodal transportation system. This is accomplished through the initiatives described below:

STRATEGIC MIAMI AREA RAPID TRANSIT (SMART) PROGRAM

The Strategic Miami Area Rapid Transit (SMART) Program is an infrastructure investment program of projects developed to improve transportation mobility and create a transit system that will support economic growth and competitiveness in the global arena.

The SMART Program is expected to expand transit options in Miami-Dade County along six critical corridors that are linked to local, regional, national, and global economic markets as highlighted below. Another critical component of the SMART Program will be a network of Express Buses, known as Bus Express Rapid Transit (BERT), which is intended to expand South Florida's Express Lanes network with the implementation of six identified BERT express lane concepts. This innovative approach effectively expands the reach of transit in Miami-Dade County and beyond.

- Beach Corridor: Highest tourist demand in the region with major employment centers.
- East-West Corridor: Heaviest commuter travel for international, state, and local businesses.
- Kendall Corridor: One of the most congested arterial roadways with the highest demand.
- North Corridor: Key regional mobility linkage for access to jobs, the stadium, and educational facilities.
- Northeast Corridor: High transit demand and part of a critical regional corridor stretching into Palm Beach County.
- South Corridor: Experiencing the fastest population growth in Miami-Dade County.

NORTH CORRIDOR

The North Corridor is a 10-mile-long corridor along NW 27th Avenue, from NW 62nd Street/Dr. Martin Luther King, Jr. Metrorail Station to NW 215th Avenue. The Project consists of implementing a Heavy Rail Transit (Metrorail) extension along NW 27 Avenue. The envisioned transit corridor will include public on-street transit stations located along a dedicated running way. These stations can include public or private facilities located adjacent to the corridor where potential park-and-ride or transit terminals will be considered. In October 2019, the Miami-Dade TPO selected elevated heavy rail transit as the locally preferred alternative for the North Corridor. On April 23, 2020, the TPO Governing Board accepted a report by Miami-Dade County's Department of Transportation and Public Works (DTPW) on alternative transit technologies for NW 27 Avenue and directed DTPW to issue a request for proposals to identify whether transit technologies, other than heavy rail are viable for the corridor. FDOT placed its North Corridor PD&E study on hold after consulting with the Federal Transit Administration (FTA) until the outcome of the DTPW Request for Proposals (RFP) process is known and a final decision on the transit technology and alignment for NW 27 Avenue is made by the TPO Governing Board. On November 15, 2022, the Board of County Commissioners (BCC) passed a motion to terminate the development

DRAFT

of the DTPW's RFP and to accelerate the implementation of the North Corridor as an elevated fixed guideway. In May 2023, FDOT and DTPW collaborated to conduct a Value Engineering (VE) Workshop to identify the best and most cost-effective methods of implementing the project. Results of the VE Workshop were formalized in a final VE Report which was completed October 2023. The PD&E Study restarted in April 2024 and is currently ongoing.

For information related to this project, visit: https://www.fdotmiamidade.com/27thAvenueRapidTransit.html

The following benefits are included in this project:

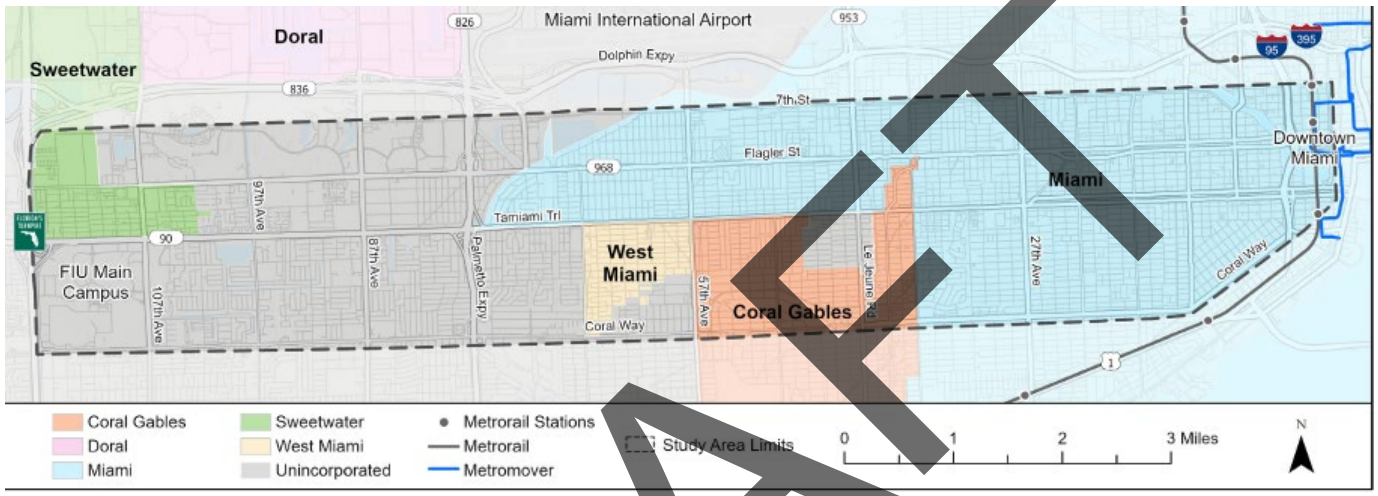
SAFETY TECHNOLOGY WORKFORCE DEVELOPMENT RESILIENCY COMMUNITIES

FLAGLER FEASIBILITY STUDY FROM DOWNTOWN MIAMI TO FIU

The purpose of this feasibility study is to improve transit travel times and person carrying capacity while addressing the needs of the traveling public and enhancing facilities for pedestrians and bicyclists. Through an evaluation of feasible transit alternatives including an elevated fixed guideway system along SR-968/Flagler Street from Downtown Miami to Florida International University (FIU), this study will consider factors

DRAFT

such as costs, community benefits, funding options, transportation improvements, economic development potential, and environmental considerations. The objective is to determine the type of transit investment for implementation that best meets the region's transit and community goals. Currently the study is examining project alternatives, benefits, costs, funding options, economic development, mobility, and environmental considerations.



For information related to this study, visit: https://www.fdotmiamidade.com/sr968_flagler_study_from_downtown_miami_to_fiu

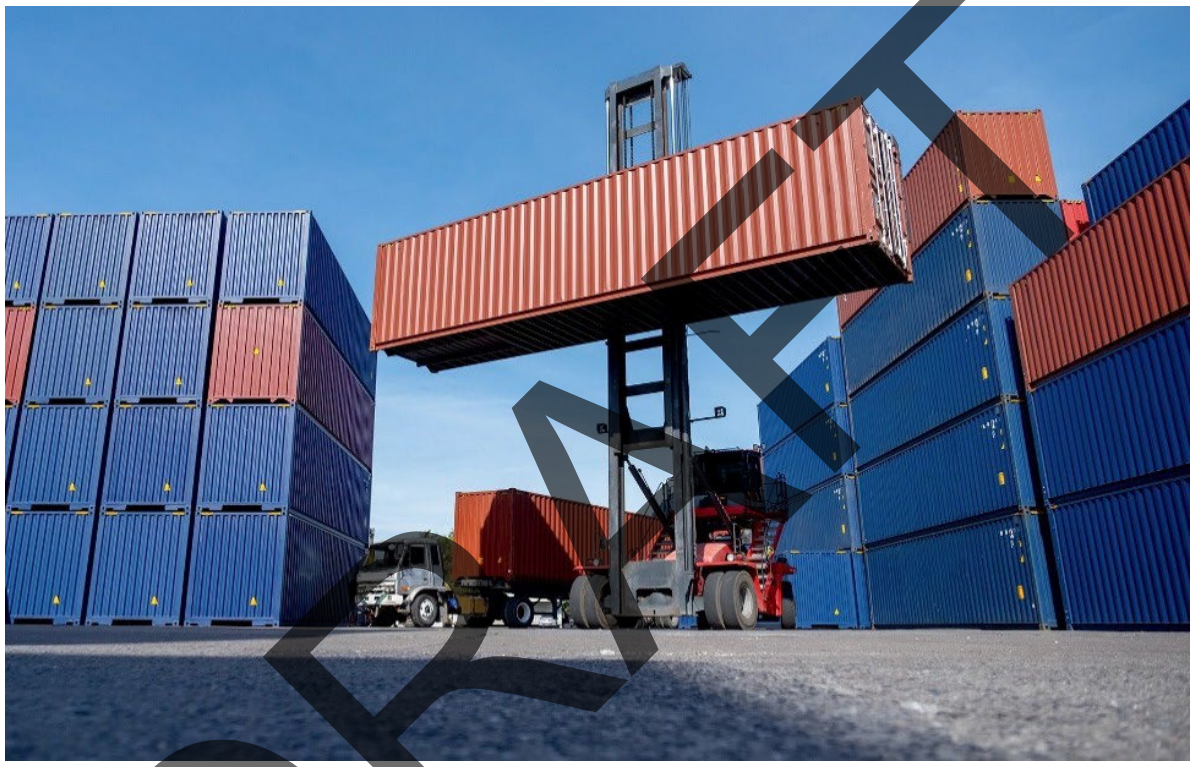
The following benefits are included in this project:

FREIGHT OPERATIONS

The FDOT Modal Development Office (MDO), encompasses a level of modal representation and industry engagement unlike any other state DOT organization. MDO acts as a tool to better connect, develop, and implement a freight planning process that maximizes the use of existing facilities while integrating and coordinating the various modes of transportation, including the combined utilization of both government owned and privately-owned resources.

DRAFT

Annually, MDO allocates funds toward transportation infrastructure improvements in all modes. Working together collaboratively, MDO leads Florida's multimodal transportation initiatives through work with federal and local government partners in planning, coordination, financing, grant management, ridership, and regional analysis



DRAFT

THE MODAL DEVELOPMENT OFFICE (MDO) INCLUDES AVIATION, RAIL FREIGHT, SEAPORTS, AND TRANSIT PROJECTS.

DRAFT

STATE TRANSIT BLOCK GRANT TO DTPW FOR OPERATING COSTS

This grant provides operating assistance for Miami-Dade DTPW Fixed Route Bus Service. The Metrobus fixed route bus service is run by Miami-Dade DTPW and operates seven days a week, 24 hours per day. A total of 57 routes – Miami-Dade DTPW directly operated regular bus service structure which are served by a total fleet of 841 buses and 17 (this includes the 301 and 302 Express routes) contracted routes with 78 contractor - owned buses. Two of these Contract Routes are Express Bus Service in Monroe County with 13 buses of 78 total buses. Metrobus includes local, feeder, circulator, limited-stop, express, and Bus Rapid Transit (BRT) Arterial Transitway services. The FDOT provides 50% State Participation Rate for this program.

The following benefits are included as part of this initiative:

FREIGHT OVERVIEW

From agriculture and heavy equipment to daily consumables, freight movement impacts every aspect of our daily lives. It is crucial for the nation's economy to maintain a safe and reliable transportation system that moves goods efficiently. Freight transportation has been a driving force for economic productivity, global competitiveness, and job creation. Every economic sector depends on a reliable, safe, and cost-effective network to move goods and services. As a leading international hub, this statement is relevant to the state of Florida. With goods worth hundreds of billions of dollars flowing through Florida's airports and seaports, it is critical for the State to maintain and improve its extensive multimodal freight infrastructure. Today, Miami International Airport (MIA) is the leader in the Americas in international freight and the world's largest gateway to Latin America & the Caribbean. Similarly, PortMiami is the State's fifth highest port for total trade tonnage and second highest in Twenty-Foot Equivalent Units (TEU's). It is known as the Global Cargo Gateway. These major freight hubs, along with a booming construction industry, growing population and strong local economy indicate Miami-Dade County is vital for the movement of freight throughout Florida and beyond its borders.

DRAFT

The following benefits are included as part of this initiative:

FDOT District Six is home to diverse communities with unique transportation freight mobility and transportation needs. These needs can be traced back to some of the State's leading freight facilities and international trade gateways such as MIA and PortMiami. It is essential that District Six and its industrial based communities identify and invest in infrastructure improvements to position themselves for economic development and growth in cargo.

Key developments and tools should be incorporated such as ITS/technologies, truck parking needs, economic impact analyses, innovative funding programs, and land use and redevelopment opportunities-helping market these industrial based communities as competitive global logistics service centers.

District Six identified the following freight-intensive sub-areas:

- Town of Medley
- City of Opa-Locka
- Port of Miami River Corridor
- City of Doral
- City of Miami Gardens
- City of Hialeah
- City of Homestead
- Monroe County.

District Six has completed all Sub-area Freight Improvement Studies. District Six is performing one additional Freight Study that is countywide and looks at various types of improvements we can make to our sub-areas.

This is known as the Freight Village Analysis Study of Miami-Dade County. These studies will identify a comprehensive Project Bank of freight-specific and freight-oriented projects that may be considered for further development.

For information related to this project, visit: 437947-1-12-01 District Six Freight Village Analysis Study Countywide, Freight Improvement Plan

DRAFT

FDOT D6 SUB-AREA FREIGHT PLANNING EFFORTS:

NAME	STATUS
Homestead Freight Improvement Plan	Completed 2024
Freight Village Analysis Study	In-Progress

BICYCLE/PEDESTRIAN CORRIDOR IMPROVEMENTS

The bicycle/pedestrian network is a component of the overall transportation system. The FDOT evaluates bicycle and pedestrian improvements in conjunction with capacity and resurfacing projects.

SR 856/LEHMAN CAUSEWAY CORRIDOR IMPROVEMENTS (PD&E)

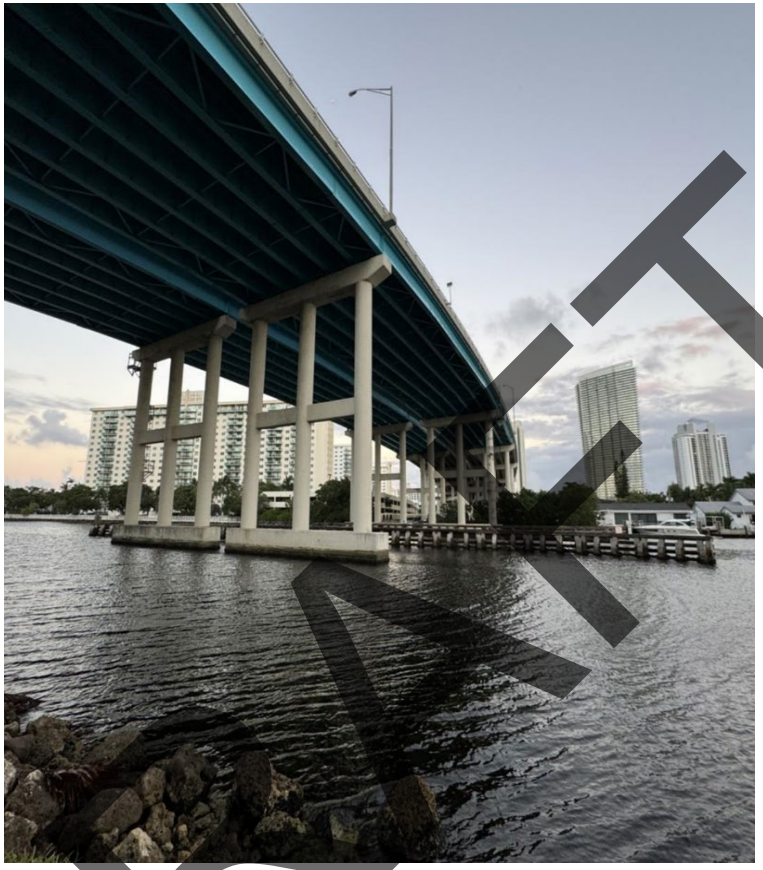
The purpose and need of this PD&E Study is to accommodate non-motorized (pedestrian and bicycle) activity along the SR 856 limited access corridor from SR 5/US-1 to SR A1A/Collins Avenue by providing Shared Use Paths (SUP) and/or similar dedicated bicycle/pedestrian facilities.

The following benefits are included in this project:

The scope of the project includes the following:

- Accommodating non-motorized activity along the Causeway
- Evaluate providing Shared Use Paths (SUP) and/or similar dedicated bicycle and pedestrian facilities

DRAFT



SR 856/Lehman Causeway Corridor Improvement

The PD&E phase is currently underway for this project and construction is expected to start in FY 2028

For information related to this project, visit : 449745-1-22-01 SR 856/William Lehman Causeway PD&E

DRAFT

FDOT D6 SMART TRAILS PROJECTS:

PROJECT	DESCRIPTION
Krome Trail to Kendall Corridor	Construction of a shared use path along S.R. 94/88th Street/Kendall Drive from S.R. 997/Krome Avenue to 167th Avenue (FM# 449583-1).
Ludlam Trail to Dadeland North Metrorail Station/Underline/Kendall Corridor	Administration of a LAP project to construct the 5.6-mile long Ludlam Trail that has been adopted but not begun (FM# 416660-8). Design is underway for pedestrian bridges along the Ludlam Trail over Bird Road, SW 8th Street, and Flagler Street (FM# 450835-3).
Central West Basin Linear Park to Dolphin Park-and-Ride	Administration of a LAP project to build an off-road path along NW 12th Street to connect to the Dolphin Park and Ride is in pre-construction (FM# 446052-1).
Lehman Link to Northeast Corridor	PD&E study for a shared path along Lehman Causeway from U.S. 1 to A1A to improve bicycle and pedestrian connectivity (FM# 449745-1).
Atlantic Greenway to Beach Corridor	100% plans review for the City of Miami Beach's Baywalk pedestrian bridge over S.R. A1A/5th Street has been completed (FM# 450763-3). There is a 2nd project in pre-construction that is planned to add protected bike lanes along S.R. A1A/MacArthur Causeway from S.R. 5/Biscayne Boulevard to S.R. 907/Alton Road (FM# 443432-2).
SW 38th Ave to Douglas Metrorail/ Underline	The Underline Phase 3 is under construction.
Baywalk Path to Northeast Corridor	Administration of a LAP project that will connect the Baywalk by Perez Art Museum Miami to north side of I-395 through the construction of a bridge under I-395. This project is planned to occur after the completion of the signature bridge (FM# 446053-1).
Gold Coast Trail to Golden Glades Tri-Rail Station	Review completed for the revised Preliminary Engineering Report for the Pedestrian Bridge in 2024 (FM# 443861-1). Construction tentatively planned to begin in 2029. Review also completed for a Biscayne Trail Midblock Crossing Evaluation prepared by the City of Miami Gardens which seems to connect to the southern end of the Gold Coast Trail.

DRAFT

The following benefits are included in these projects:

LOCAL AGENCY BICYCLE/PEDESTRIAN IMPROVEMENTS:

Bicycle & pedestrian projects are also implemented by local agencies, who oversee construction and management. In addition, some projects are funded through the federally funded Transportation Alternatives Program (TAP), or state funded Shared Use Non-motorized (SUN) Trail Program. The Safe Routes to Schools (SRTS) program integrate safety, traffic relief, health, environmental awareness, physical activity, and fitness under one program focusing on school zones.

The table below shows some of the ongoing and upcoming improvements by local agencies.

PROJECT AGENCY/ PROGRAM	PROJECT TYPE	PROJECT AREA
City of Hialeah	Bike Lane/Sidewalk	West 4th Ave Sidewalk & Guardrail Improvements
City of Miami	Pedestrian Safety Improvement	Little Havana Pedestrian Priority Zone
City of Miami Beach	Bike Path/Trail	Chase Avenue/34th Street Shared Use Path
City of Miami Beach	Pedestrian Safety Improvement	23rd Street Complete Streets Project
City of Miami Beach	Pedestrian Safety Improvement	South Beach Pedestrian Priority Zone
City of Miami Beach	Pedestrian Safety Improvement	Miami Beach High School Pedestrian Enhancements
City of Miami Gardens	Bike Path/Trail	NW 199th Street/Betty Ferguson Recreation Complex
City of North Miami	Pedestrian/Wildlife Overpass	Pedestrian Bridge Replacement Over C-8 Canal
Miami-Dade County	Pedestrian Safety Improvement	SAFE ROUTES TO SCHOOL: Miami Central High, North Dade Middle, Miami Northwestern Senior High, North Miami Senior High, Carol City Middle, Ruben Dario Middle, North Miami Middle, Brownsville Middle, North Miami Beach Senior High, Miami Southridge Senior High, Homestead Middle, Hialeah Senior High, Booker T Washington Senior High, Horace Mann Middle, American Senior High, Miami Jackson Senior High

DRAFT

Miami-Dade County	Pedestrian Safety Improvement	Citrus Grove School Children and Families Pedestrian Safety Initiative
Miami-Dade County	Pedestrian/Wildlife Overpass	Miami Dade County Pedestrian Bridge
Miami-Dade County	Bike Path/Trail	Smart Trail along NW 12th St; Biscayne Trail SW 117th Ave to SW 137th Ave; South Dade Trail Mobility Corridor; Bike Boulevard Demo Project; Golden Glades Facility to Industrial Park Bike/Pedestrian Bridge and KISS Ride Terminal
Miami Shores Village	Bike Path/Trail	Multimodal Mobility Improvements
North Bay Village	Pedestrian Safety Improvement	Kennedy Causeway Complete Streets Project
North Bay Village	Bike Lane/Sidewalk	Baywalk Plaza Area Phase I
Town of Cutler Bay	Bike Lane/Sidewalk	Caribbean Boulevard Complete Streets
Town of Cutler Bay	Pedestrian Safety Improvement Bike Lane/Sidewalk	Marlin Road Improvement and Expansion Projects
Town of Miami Lakes	Bike Lane/Sidewalk	Park West Bicycle and Pedestrian Improvements
Town of Miami Lakes	Bike Path/Trail	GREEN 2.0
Village of El Portal	Pedestrian Safety Improvement	Traffic Calming Horace Mann Middle School
Village of Pinecrest	Bike Path/Trail	Kendall Drive and Ludlam Road Shared Use Paths

The following benefits are included in these projects:

DRAFT

TRANSPORTATION SYSTEMS MANAGEMENT AND OPERATIONS (TSM&O)

The District Six Transportation Systems Management and Operations (TSM&O) Program Office manages multi-modal traffic strategies that improve the safety and people-moving capacity of the state roadway system in Miami-Dade County.

The Office uses a series of innovative services and technologies to deliver transportation solutions that meet current and future traffic demand.

These services include incident management, traveler information, express lanes operations, arterial management, and others. The combination of these strategies provides a multi-pronged approach to congestion management and benefits all roadway users.

The following benefits are included in this project:

The District Six TSM&O Office is housed at the SunGuide Transportation Management Center (STMC) which serves as the main traffic management hub for Southeast Florida. TSM&O staff located at the STMC use Intelligent Transportation System (ITS) devices such as closed-circuit television cameras, dynamic message signs, roadway detectors, ramp signals, and other devices to manage traffic 24 hours per day, 7 days per week.

Dedicated staff monitor the roadways to provide incident clearance, publish real-time traffic information, and promote the travel-time reliability of the regional transportation network. The goal of the TSM&O staff is to optimize current operations while expanding the program to meet the future traffic needs of South Florida.

The TSM&O Office is committed to achieving the transportation goals of the region and is implementing key projects that will achieve this mission. These projects include several vehicle-to-everything (V2X) projects that integrate advanced communication systems to enable the exchange of information between vehicles and the roadway infrastructure. For more information about the program, please visit www.sunguide.info

DRAFT

TSM&O KEY PROJECTS 2025-2026

PROJECT NAME	LOCATION	IMPROVEMENTS
Keys COAST	State Road (S.R.) 5/U.S. 1, from Mile Marker 0.0 to Mile Marker 112.5	The project added connected vehicle technologies to enable communication between participating vehicles and infrastructure systems such as traffic signals, pedestrian crossings, and school zones.
Wrong-Way Driving Detection System	95 Locations	This project is installing Wrong-Way Driving Detection Systems along 95 exit ramps in Miami-Dade County to reduce wrong-way driving incidents.
Krome Avenue	S.R. 997 Krome Avenue, from S.R. 998/Campbell Drive to S.R. 25/U.S. 27/Okeechobee Road	The project will add TSM&O strategies and technologies along 33.8 miles of Krome Avenue to improve corridor operations.

KROME AVE/S.R. 997 TSM&O INFRASTRUCTURE DEPLOYMENT

FDOT District Six is advancing a major TSM&O deployment along State Road (S.R.) 997/Krome Avenue, from S.R. 998/Campbell Drive to U.S. 27/S.R. 25/Okeechobee Road. The project will implement traffic management strategies and technologies to enhance corridor operations and improve the safety and travel-time reliability of this vital road in Miami-Dade County.

Krome Avenue is an essential north–south arterial that carries high volumes of freight and agricultural traffic. It plays a critical role in regional mobility, hurricane evacuation, goods movement, and daily travel. The implementation of TSM&O strategies and ITS devices will equip the facility with the infrastructure needed to effectively support current and future transportation needs.

The project is currently in the planning phase and is deploying the network infrastructure needed to enhance communications along the corridor. This work includes installing fiber-optic cable, closed-circuit television (CCTV) cameras, and a new communications hub to support real-time traffic management, incident clearance, and traveler information. Once operational, traffic operators at the STMC will be able to actively monitor the facility and coordinate the activation of Rapid Incident Scene Clearance (RISC) services to expedite the removal of heavy-duty vehicle crashes. Together, these improvements will deliver a safer, more reliable roadway that will benefit all drivers across the regional network.

TSM&O Components

- Fiber optic backbone
- CCTV cameras
- Communications hub

The project is scheduled to start in Fiscal Year (FY) 2029/2030 and will be completed by FY 2032/2033. The project cost is: $16.3 Million allocated in the Work Program for FY 2029/2030 and FY 2030/2031 for the construction phase.

PART 2: 5-YEAR PROJECT LISTING
FLORIDA'S TURNPIKE ENTERPRISE

Florida's Turnpike

DRAFT

Florida's Turnpike System is an agency of the Florida Department of Transportation and currently owns and operates 529 miles and 152 interchanges in the State of Florida. The Turnpike System includes the 47-mile-long Turnpike Mainline / SR 821 located in Miami-Dade and Broward counties. It also includes the Turnpike Mainline / SR 91, which extends from North Miami to a junction with Interstate 75 in Central Florida, through Miami-Dade, Broward, Palm Beach, Martin, St. Lucie, Indian River, Okeechobee, Osceola, Orange, Lake, and Sumter counties. The remainder of the Turnpike System comprises several other facilities located throughout the State of Florida.

The Turnpike System is user-financed and uses toll revenues, service plaza sales revenue, and bonds, to pay for new construction and maintenance of the entire system. It does not receive traditional gas tax revenue.

MIAMI-DADE COUNTY TURNPIKE PLANNED MAJOR PROJECTS

WIDENING PROJECTS

#	PROJECT NAME	FPID	LIMITS
1	Turnpike Mainline / SR 91 Widening (Widen from 6 to 8 lanes)	423373-5	MP 2 (South of NW 199TH ST) MP 3.3 (Miami-Dade / Broward County Line)
2	Turnpike Mainline / SR 821 Widening (Widen from 4 to 6 lanes)	444111-1	MP 3 (Campbell Rd) MP 7 (Tallahassee Rd)
3	Turnpike Mainline / SR 821 Widening (Widen from 4 to 6 lanes)	453158-1	MP 5 (Biscayne Dr) MP 11 (216th St)

#	PROJECT NAME	FPID	LIMITS
1	Turnpike Mainline / SR 91 Interchange Improvements (Partnership Project)	437053-1, -2, -3, -4, -5	MP 0X (I-95 / US 441 / SR 826 – Golden Glades)
2	Turnpike Mainline / SR 821 Transportation Systems Management & Operations (TSM&O) Interchange Improvements	452112-1	MP 0 (US 1)
3	Turnpike Mainline / SR 821 Transportation Systems Management & Operations (TSM&O) Interchange Improvements	453762-1	MP 9 (SW 112th Avenue / SR 989)
4	Turnpike Mainline / SR 821 Transportation Systems Management & Operations (TSM&O) Interchange Improvements	453761-1	MP 19 (SW 120th Avenue)

OTHER PROJECTS

#	PROJECT NAME	FPID	LIMITS
1	Safety Improvements along Turnpike Mainline / SR 821	453108-1	MP 12.5 to MP 13.3
2	Snapper Creek Service Plaza General Improvements along Turnpike Mainline / SR 821	442620-1	MP 19

TRANSPORTATION IMPROVEMENT PROGRAM

PART 2: 5-YEAR PROJECT LISTINGS

GREATER MIAMI EXPRESSWAY AGENCY

[TIP]

FISCAL YEARS 2027 - 2031

DRAFT

FDOT · Florida's Turnpike · GMX Greater Miami Expressway · MIA Miami International Airport · PortMiami · Miami-Dade County · RTA South Florida Regional Transportation Authority · SEFTC Southeast Florida Transportation Council

TIP • FISCAL YEARS 2026/2027 TO 2030/2031

PART 2: 5-YEAR PROJECT LISTING

MOVING MIAMI-DADE

Greater Miami Expressway Agency

DRAFT

This section of the TIP focuses on the major mobility improvement projects programmed by the GMX for the next five years. GMX was established by the Florida Legislature, Chapter 348, Section 0304, on July 1, 2023, succeeding the Miami-Dade Expressway Authority ("MDX"), which operated since 1994. GMX was granted ownership, and control of the roads that constitute the expressway system in Miami-Dade County and portions of northeast Monroe County.

THE EXPRESSWAY AGENCY SYSTEM

The GMX System includes five (5) of the busiest and most important expressways in Miami-Dade County: Airport Expressway (SR 112); Dolphin Expressway (SR 836); Don Shula Expressway (SR 874); Snapper Creek Expressway (SR 878); and Gratigny Parkway (SR 924). It also includes NW 138 Street from US-27 to just east of NW 97 Avenue, the LeJeune Frontage Roads from SR 836 to Central Boulevard as well as portions of northeast Monroe County.

PROJECT FUNDING

GMX's primary source of revenue is the tolls collected on its five expressways. GMX does not receive any gas tax, property tax, sales tax, or any other
source of revenue.

FY 2027-2031 TIP

Major projects included in the GMX FY 2027 - 2031 TIP are highlighted within the following pages. The projects have been organized by the following
categories: Existing System Improvements and System Expansion.

EXISTING SYSTEM IMPROVEMENT PROJECTS

The following projects are categorized as Existing System Improvements in the current Five-Year TIP and include widening or reconstruction within an existing roadway segment:

PROJECT 11212-000 – SR 112 RAMP IMPROVEMENTS AT NW 37 AVENUE

This project will construct a new partial interchange at SR 112 and NW 37 Avenue including signalization improvements at NW 37 Avenue. The project provides additional access to industrial hub with new traffic movements within the SR 112/NW 37 Avenue, will relieve congestion on LeJeune Road and NW 36 Street. It is estimated that more than 7,400 additional vehicles would utilize the corridor because of the completion of this project. Construction of this project is anticipated to begin in FY 2027 once the environmental document is completed. The total project cost is estimated at $30.8 million.

PROJECT 11214-000 – SR 112 CORRIDOR MODERNIZATION

GMX is funding the PD&E Study of the SR 112 Airport Expressway for the purpose of modernizing the corridor by bringing the bridges crossing SR 112 up to modern standards, improving safety and operational efficiency at the NW 22 and NW 27 Avenue ramp connections, and improving safety and operational efficiency through the addition of roadway shoulders at locations where none exist. Final design and construction to be advanced once the PD&E is finalized and funding is available. The total cost of the PD&E study is $5.9 million.

PROJECT 83611-001 – SR 836 / I-95 INTERCHANGE IMPROVEMENTS

GMX has partnered with FDOT to acquire right-of-way, design and build the SR 836 improvements from NW 17 Avenue to I-95 in conjunction with the FDOT's I-95/I-395 project. Improvements to SR 836 include both eastbound and westbound widening for operational optimization between NW 17 Avenue to I-95. Additionally, a new viaduct consisting of an elevated 4 lane structure to bypass traffic on the lower level of SR 836 will be provided to improve mobility and eliminate existing weaving conditions to and from Downtown Miami and Miami Beach.

Furthermore, the project will improve access to the Health District by eliminating the current weaving conditions created by southbound I-95 traffic to NW 14 Street and SR 836 mainline, and westbound mainline traffic trying to access the Heath District via NW 14 Street. The design-build contract was executed in July 2018 and completion is anticipated by FY 2029. The total cost for the GMX project is estimated at $284.2 million.

DRAFT

PROJECT 83618-007 SR 836 WIDENING IN THE EASTBOUND AND WESTBOUND DIRECTION FROM HEFT TO EAST OF NW 97 AVENUE

This project constructs an additional lane on SR 836 mainline from HEFT to 97 Avenue in both directions to harmonize with the existing lane configuration and tie into the newly completed SR 836 new ramp connections to the HEFT. The additional capacity along this segment will improve mobility and safety along the expressway. The final design for this project will begin in FY 2026. The total project cost including construction is $52.5 million.

PROJECT 83635-000 – SR 836 PD&E FROM WEST OF SR 826 TO EAST OF SR 923 / LEJEUNE ROAD

GMX is funding the PD&E Study of the SR 836 Dolphin Expressway for the purpose of improving the multilane weaving from traffic entering the system from Flagler Street, NW 72 Avenue and SR 826 exiting at NW 57 Avenue, with traffic continuing onto eastbound SR 836 mainline and MIA as well as lane balance. The Study will also include improving traffic operations on the SR 836 eastbound ramp to MIA. Final design and construction to be advanced once the PD&E is finalized and funding is available. The anticipated cost of the PD&E study is $4.7 million.

PROJECT 87413-000 – SR 874/SW 72 STREET (SUNSET DRIVE) INTERCHANGE IMPROVEMENTS

This project will construct a new partial interchange at SR 874 and SW 72nd Street to provide access to SW 72 Street from southbound SR 874 and to northbound SR 874 from SW 72 Street to improve access to the expressway and reduce congestion at key intersections along SW 72 Street. Design-build is anticipated to begin in FY 2027 once the environmental document is completed. The total project cost is estimated at $40.8 million.

PROJECT 92408-001 – SR 924 PARTIAL INTERCHANGE AT NW 67 AVENUE

This project will construct a new westbound on-ramp and off-ramp on SR 924 at NW 67 Avenue and new eastbound on-ramp from NW 67 Avenue. This partial interchange will provide congestion relief to Miami Lakes and Hialeah by providing additional traffic movements and access to SR 924 at NW 67 Avenue. It is estimated that over 5,000 additional vehicles will utilize the corridor after project completion. Design-build is anticipated to begin in FY 2027 once the environmental document is completed. Total cost is estimated at $101.3 million.

DRAFT

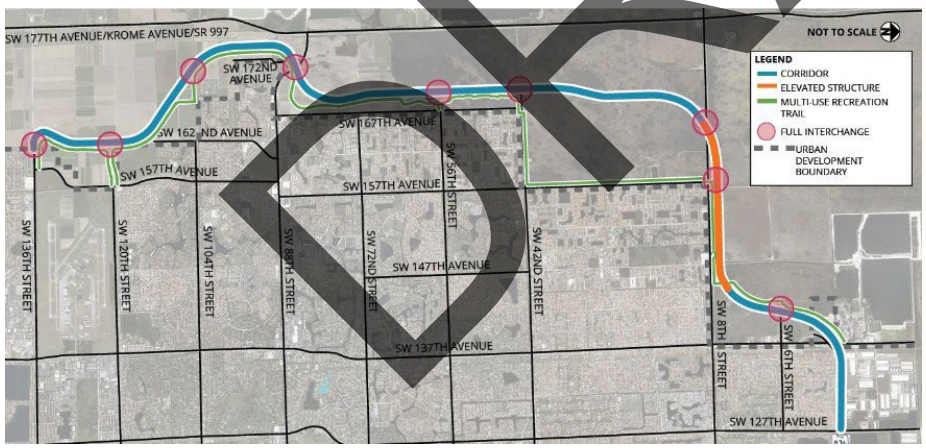
SYSTEM EXPANSION PROJECTS

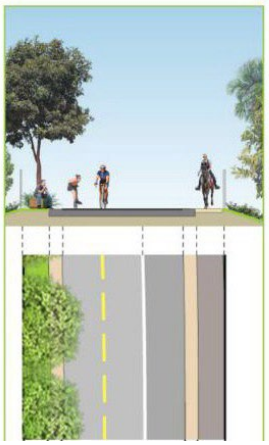
The following projects are categorized as System Expansions in the current Five-Year TIP and include all construction of new roadway segments on new alignments adjacent to the existing system that will increase the total centerline miles of the system.

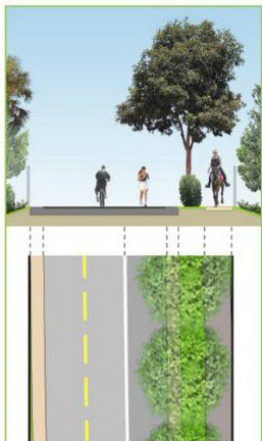
PROJECT 83618 – SR 836 SOUTHWEST EXTENSION/ KENDALL PARKWAY

As an initial phase of the project GMX is advancing the geotechnical investigation from NW 137 Avenue to SW 104 Street as well as the environmental site assessment from NW 137 Avenue to SW 56 Street in order to refine the cost estimate and obtain vital information on existing field conditions for future procurement of final design and construction services. GMX is also coordinating the required environmental permitting, mitigation and right-of-way acquisition program from willing sellers.

The ultimate project is a 14-mile multimodal corridor that will extend SR 836 from NW 137 Avenue to SW 136 Street and provide the residents in the southwestern portion of Miami-Dade County an alternate transportation option to improve travel conditions. The project is envisioned to include: Express bus service and park & ride facilities in the vicinity of SW 88 Street and SW 136 Street; a multi-use recreational trail for non-motorized transportation including walking and biking; a minimum of 1,000 acres of land for wetland preservation and creation that will be held in perpetuity; improvements to 137 Avenue, 157 Avenue, SW 88 Street and SW 104 Street to facilitate access. The improvements to local streets and portions of ramp connections will be contributions to Miami-Dade County. The start date for final design and construction for the mainline extension, multi-use recreational trail and transit stations is to be determined pending funding availability.







DRAFT

OTHERS

PROJECT 83618-009- WIDENING OF SW137 AVENUE FROM 4-LANES TO 6-LANES

Miami-Dade County owns, operates and maintains SW 137 Avenue between SW 8 Street and SW 26 Street. The intent of this project is to correct an operational deficiency because the existing four lane configuration of this corridor does not match the lane configuration south and north of this segment (6-lane configuration), thus creating severe congestion for traffic entering or exiting the SR 836 Extension at the SW 137 Avenue terminus. The project will also correct an operational deficiency at the intersection of SW 137 Avenue and SW 8 Street, which causes severe traffic congestion for southbound traffic during peak hours. This project is an unfunded priority project in the 2040 LRTP. Via resolution, GMX was tasked to fund, procure and manage the design and construction of this transportation infrastructure project which will improve traffic flow and alleviate traffic congestion in Miami-Dade County by providing better access to the SR 836 Extension on and off ramps at SW 137 Avenue. Final design is complete, and Construction is anticipated to begin in FY 2026. The total project cost is $17.4 million.

THREE-CENT LOCAL OPTION FUEL TAX

Miami-Dade County

DRAFT

INTRODUCTION

The Capital Improvement Local Option Fuel Gas Tax, authorized by Section 336.025 (1) (B), Florida Statutes became effective January 1, 1994. It was reduced from five cents to three cents on September 1, 1996. In accordance with state statute, proceeds of this tax have been programmed for transportation expenditures needed to meet the requirements of the capital improvement element of the adopted comprehensive plan.

FY 2025-26 PROJECTED MUNICIPAL DISTRIBUTION

The actual distribution to the municipalities for FY 2025-26 will be based on a weighted formula which accounts for percentage of population (statistics from the Bureau of Economic and Business Research, at the University of Florida) and the centerline mileage of municipal roadway for each incorporated area from the "2024 City/County Mileage Report" – Florida Department of Transportation prepared in the Spring of each year with data reported as of September 30, 2024. The figures contained herein were calculated using these same reports. This estimate for FY 2025-26 will be sent to the municipalities at the time the County files its official estimate with the Florida Department of Revenue in April 2025.

In FY 2025-26, the estimated net revenue for the Capital Improvement Local Option Gas Tax projected as of February 2025 is $27.54 million at 95 percent with $7.16 million to be distributed to the municipalities and $20.38 million to be distributed to the County (26 percent to the municipalities and 74 percent to the County according to the current interlocal agreements). The State of Florida is allowed to impose a 7.3 percent administrative fee. The FY 2025-26 estimates, reflects a minor increase from the current year in fuel tax revenues.

Miami-Dade County Aviation Department

DRAFT

Miami International Airport

The Miami-Dade County Transportation Improvement Program includes Capital Improvements for the Miami-Dade Aviation Department for the continued development of Miami International Airport (MIA) and the General Aviation Airports (GAA) – Miami-Opa Locka Executive Airport (OPF), Miami Executive Airport (TMB), Miami Homestead General Aviation Airport (X51) & Dade-Collier Training and Transition Airport (TNT). The funding for this program is primarily from revenue generated by the Aviation Department and from Federal and State grants.

AVIATION ON-SITE IMPROVEMENTS

"Miami International Airport, America's busiest airport for international freight and the second busiest for international passengers, is receiving an unprecedented investment of $9 billion in capital improvements and maintenance upgrades. MIA offers more flights to Latin America and the Caribbean than any other U.S. airport and is also the leading economic engine for Miami-Dade County and the state of Florida, generating business revenue of $181 billion and approximately 60 percent of all international visitors to Florida annually."

Mayor Daniella Levine Cava, County officials, and partners celebrate groundbreaking of historic Concourse K expansion at MIA

Miami-Dade County Mayor Daniella Levine Cava speaks to attendees at the Concourse K groundbreaking ceremony.

DRAFT

AVIATION ON-SITE IMPROVEMENTS

On June 24, 2025, Miami-Dade County Mayor Daniella Levine Cava, in collaboration with the Board of County Commissioners and Miami International Airport Director and CEO Ralph Cutié, led a groundbreaking for the future Concourse K at MIA.

The new concourse will be a 300,000-square-foot expansion that will add six new passenger gates and boarding areas for domestic and international flights, post-security concessions offering more dining and shopping options for travelers, and a new passenger lounge. The future three-level concourse, MIA's first terminal expansion since 2012, is slated for completion in 2029.

With a total investment of $600.6 million, the Concourse K expansion will also include a new two-level ground support equipment maintenance facility, an enhanced baggage handling system, and critical upgrades to airfield infrastructure — all designed to meet MIA's growing travel demand. Concourse K's design incorporates the highest levels of sustainable construction practices as well, earning LEED Silver certification and Envision verification.

The project has received $91.2 million in grants from the Federal Aviation Administration and $30.1 million in grants from the Florida Department of Transportation. The project's remaining budget will be financed by MIA revenue bonds paid for by airline fees and non-aeronautical concession revenue, at no cost to local taxpayers. Concourse K's groundbreaking is the latest major milestone in MIA's Future-Ready Modernization in Action (M.I.A.) Plan, which positions MIA to accommodate 77 million passengers and 5 million tons of cargo by 2040.

."

DRAFT

Miami-Dade County Mayor announces $94 million in FAA grants for MIA modernization projects

Miami International Airport (MIA) has been awarded a combined $94 million in grant funding from the Federal Aviation Administration (FAA) to accelerate critical improvements as part of its landmark Future-Ready Modernization in Action (M.I.A.) maintenance and capital program.

On September 23, 2025, the FAA announced a $70 million Airport Improvement Program (AIP) grant for MIA, just one week after the airport received $24 million in Airport Infrastructure Grant (AIG) funding. These back-to-back investments will help fund key projects within MIA's multi-year, multi-billion-dollar modernization program, which is designed to strengthen infrastructure, enhance passenger experience, and meet

Miami-Dade County Commissioner Natalie Milian Orbis, Miami-Dade County Mayor Daniella Levine Cava, Miami-Dade County Chief Operating Officer Jimmy Morales, and MIA Director and CEO Ralph Cutié with the $94 million check from the FAA

"MIA is the gateway to our community and one of our greatest economic engines, so securing nearly $100 million in FAA grants in just two weeks – the highest amount of federal funds awarded to any airport nationwide this year - is a tremendous win for Miami-Dade County. This historic investment will help us modernize MIA to meet the needs of our growing county, create good-paying jobs, and ensure that our airport remains resilient, sustainable, and competitive for generations to come - bringing us closer to delivering a world-class, future-ready airport that will make travelers and our community proud."
Miami-Dade County Mayor Daniella Levine Cava.

"These FAA grants will support projects critical to MIA's mission to remain one of the world's leading global gateways for passengers and cargo while preparing for future aviation demands."
Ralph Cutie, MIA Director and CEO.

DRAFT

the demands of record-breaking travel growth. The Future-Ready Modernization in Action program is a $9 billion capital improvement plan to transform nearly every corner of MIA over the next decade.

Major initiatives include:

- Airfield and roadway enhancements: Improving runways, taxiways, and road access to accommodate growing passenger and cargo operations.
- Terminal modernization and expansion: Upgrading concourses, gates, and passenger boarding bridges to improve efficiency and comfort.
- Sustainability and resiliency upgrades: Incorporating energy-efficient systems, storm-hardening measures, and renewable energy infrastructure.
- Parking and mobility improvements: Renovating parking garages and integrating new mobility solutions for seamless access.

Miami-Dade County Mayor hosts ribbon-cutting ceremony for new Ibis Garage at MIA

On December 19, 2025, Miami-Dade County Mayor Daniella Levine Cava, in collaboration with the Board of County Commissioners, Miami International Airport Director Ralph Cutié, and the Lemartec Corporation, hosted a ribbon-cutting ceremony for the new Ibis Garage at MIA – one of the signature projects within the airport's $9 billion Modernization in Action (M.I.A.) Plan. The $137-million, seven-level garage will add 2,240 parking spaces at MIA, joining the airport's Dolphin and Flamingo garages to provide a total of more than 10,500 spaces, and just in time for the winter holiday travel season.

DRAFT

The Ibis Garage at MIA

The Ibis Garage also features sustainable elements, including 50 spaces dedicated to electric vehicle charging, energy-efficient LED lighting fixtures, and a Parksmart Silver Certification design, the global standard for environmentally responsible and high-performing parking structures. Lemartec, a nationally recognized construction management firm, designed and completed the new parking facility ahead of schedule.

Groundbreaking: February 2024

Completion Date: Winter 2025

Cost: $137 Million

By the numbers:

200 Total construction jobs created

34 Spaces for drivers with disabilities

100 Average workers on-site daily from groundbreaking to completion

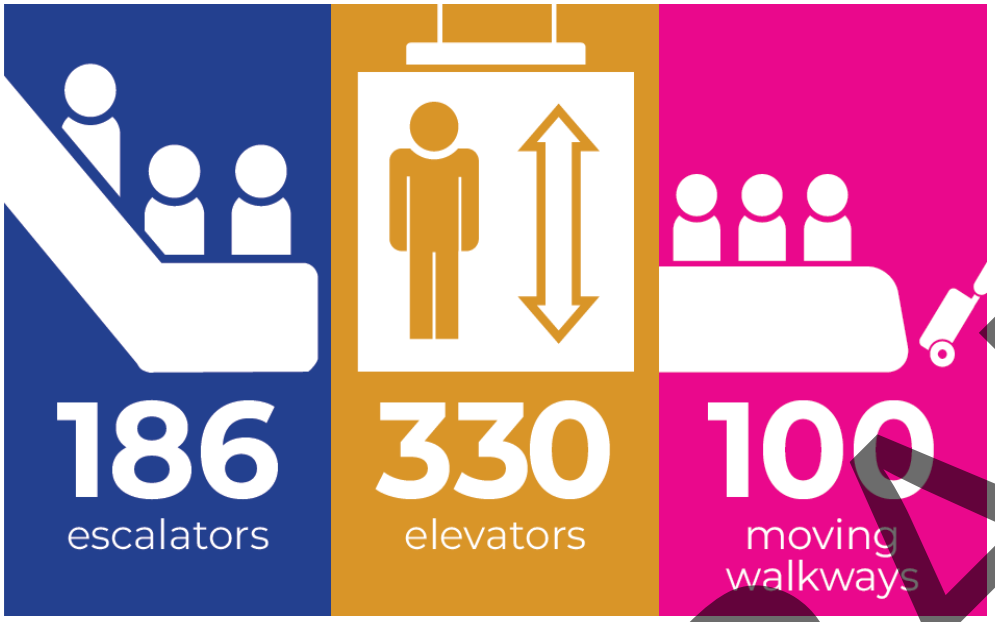
34 Oversized vehicle spaces

50 EV charging spaces; five dual-charger stations on floors 1-5

27 Percent of small business participation during construction

DRAFT

I AM MIA



Conveyance Modernization

Installation of over 600 new escalators, elevators, and moving walkways. To date, 34 modernizations have been completed. More than 95% of all units are operational.

Scheduled Completion: Ongoing for 5-10 years.

Cost $681 Million

Restrooms Renovations

To date 44 of the 196 restrooms included in Phase I have been completed. Ultimately, all 196 restrooms at MIA will be renovated.

Scheduled Completion: 2030

Cost $101 Million

DRAFT

Passenger Boarding Bridges

All of MIA's 126 boarding bridges are scheduled to be replaced and/or refurbished. To date, 32 have been completed. By 2028, 94 of MIA's 126 boarding bridges will be replaced.

Scheduled Completion: 2030

Cost $234.4 Million

South Terminal Gate and Apron Expansion

New Cc "K"

The addition of six gates for narrow-body aircraft, a future lounge, and post-security concessions.

Groundbreaking: Summer 2025

Scheduled Completion: Spring 2029

Cost $746.4 Million

DRAFT

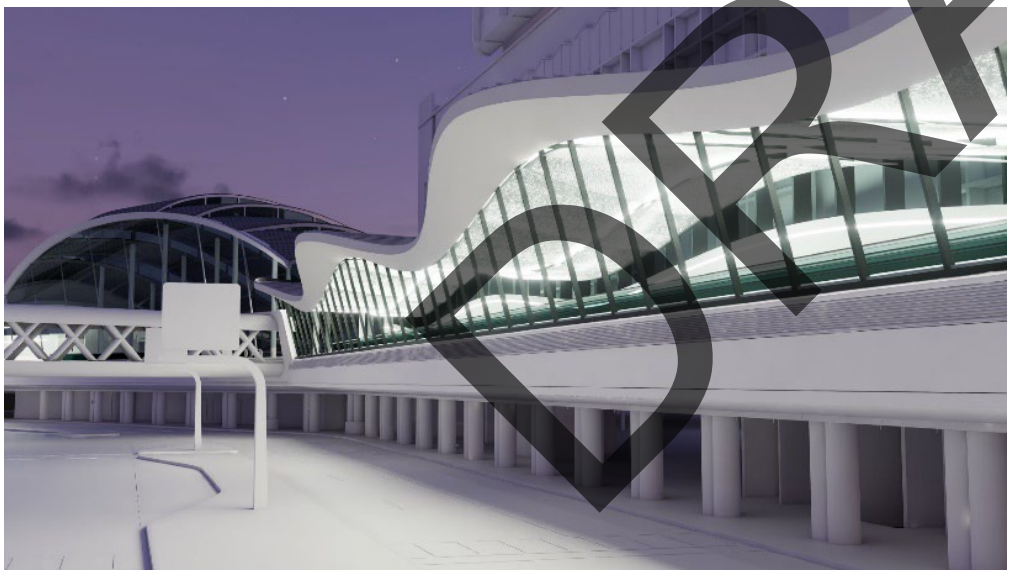
Central Terminal Redevelopment - Phase 1

Four-level renovation and expansion, new post-security corridor between Concourses E and F.

Groundbreaking: Summer 2028

Scheduled Completion: Winter 2030-31

Cost $422.5 Million



Central Terminal Redevelopment - Phase 2

Expansion of queuing area, consolidation of two (2) TSA checkpoints for improved PAX connectivity.

Groundbreaking: Summer 2028

Scheduled Completion: Winter 2030-31

Cost $372 Million

PART 2: 5-YEAR PROJECT LISTING
MULTIMODAL SEAPORT DEVELOPMENT

The Dante B. Fascell Port of Miami-Dade

DRAFT

TRANSPORTATION IMPROVEMENT PROGRAM STRATEGY

PortMiami, one of the nation's busiest seaports, contributes approximately $61 billion and more than 340,000 direct and indirect jobs annually to Florida's economy. Its sustained performance propels PortMiami to be recognized as the Cruise Capital of the World and Cargo Gateway of the Americas.

CRUISE

PortMiami achieved its highest-ever cruise passenger total of 8,233,056 travelers in Fiscal Year 2024, which started October 1, 2023, and ended September 30, 2024. The Port experienced a 12.79% increase in cruise passenger totals compared to its previous record of 7,299,294 passengers in Fiscal Year 2023.

CARGO

As Florida's busiest international port, PortMiami has handled more than one million twenty-foot equivalent units (TEUs) annually for the past nine years. By 2035, PortMiami anticipates an unconstrained container throughput projection ranging between 1.77 and 3.38 million TEUs.

RESILIENCE AND NET ZERO

All PortMiami's projects are inherently committed to improving its robust climate adaptation, carbon mitigation, and resilience. PortMiami has adopted proactive policies that enhance its sustainability and ensure environmentally friendly port operations.

With this in mind, PortMiami has embarked on a visionary and transformational Net Zero program. This will be the nation's first end-to-end net zero carbon emission supply chain in line with the County's goal of a 25% reduction in emissions by 2030 for PortMiami, in accordance with the 2021 Miami-Dade Climate Action Strategy. The program addresses supply chain disruptions and congestion and is a significant step forward for the County's economic development goals.

MULTIMODAL SEAPORT DEVELOPMENT

The Program began with electrification of key elements of the supply chain, including certain electric cargo handling equipment, all electric ship-to-shore gantry cranes, and one state of the art cargo security gate.

As continuation of the Port's drive to sustainability, the Program has progressed with the implementation of shorepower at five cruise berths, infrastructure improvements to support electric cargo handling equipment, and infrastructure investments that address sea-level rise. This Program includes an inland port with electric infrastructure in off-port areas that will create new jobs and have a positive economic impact within Miami-Dade County. The NetZero Program further expands its economic benefit in the community with the development of a workforce training program with Miami Dade College to develop and train future port workers. The training program will expand and focus on new technologies, additional resiliency elements such as a solar farm at the inland port, electric vehicle charging, and infrastructure improvements to key roadways, and rail infrastructure improvements.

TRANSPORTATION

The Port's TIP comprises of a total of approximately $2 billion in funded and unfunded projects over the next five years; and reflects the Port's aggressive strategy for optimizing land use and enhancing throughput capacity to meet the demands of the cargo and cruise industries.

The Port is dedicated to meet and exceed industry demands by supporting the following Capital Improvement Projects:

- Construction of Cruise Terminals and Parking Garages
- Roadway projects for both cruise and cargo efficient movements
- Bascule Bridge rehabilitation
- Modernization and Densification of Cargo Yard Terminals, including additional reefer capacity
- Electric Ship-to-Shore Gantry Cranes
- Bulkhead Improvements and Replacement projects
- Fumigation and Cold Chain Processing Facility
- Inland Port and Logistic Center
- Projects promoting Technological Improvements to reduce delays, emissions, and/or improve safety and efficiencies
- Projects promoting Sustainability and Resiliency
- Intermodal Railway Expansion
- State-of-the-Art Cargo Gates
- Shorepower program
- Sustainable Commercial Development
- Navigational Improvements
- Shorepower program
- Sustainable Commercial Development
- Navigational Improvements

The Port continues to assertively seek grant funding from local, state, and federal sources. The TIP reflects participation from the FDOT with over $20 million in support of roadways, cargo improvements and other infrastructure projects. This agency and the Port's partners continue to be part of the established goals to support the program and accommodate growth.

Upgrade terminals D and E for the new Carnival Cruise Line services.

CRUISE TERMINAL C

PortMiami completed renovations to combine Cruise Terminals B and C (Completed in 2022) into a new Cruise Terminal C (Completed in 2023) for various existing and new cruise lines. Conversions include passenger boarding bridges and waterside improvements.

CRUISE TERMINAL F EXPANSION (Phase 2)

PortMiami completed Cruise Terminal F in 2023 to support Carnival Cruise Line's expanding operations. The project has achieved LEED Silver Certification.

CRUISE TERMINAL V

PortMiami completed the design and construction of this new cruise terminal and expanded berth to support expanding operations with Virgin Voyages. The project achieved LEED Gold certification.

CRUISE TERMINALS A AND AA – ROADWAYS FLYOVER

PortMiami constructed a new road and flyover bridge to handle increased Port traffic to accommodate the new Cruise Terminal AA.

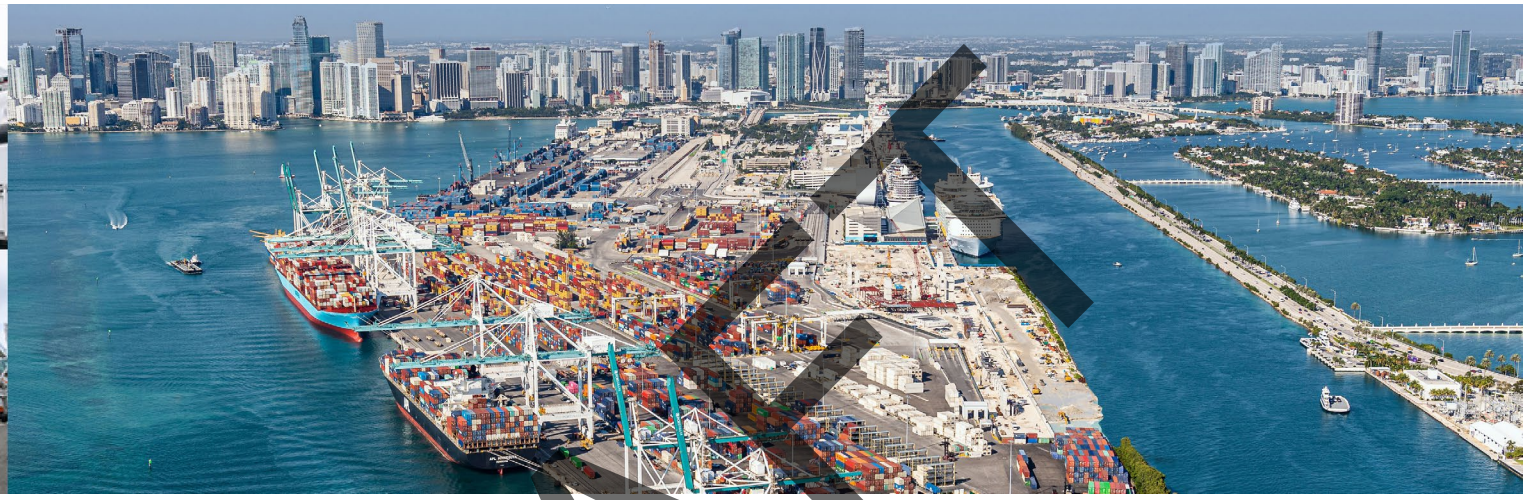
INFRASTRUCTURE IMPROVEMENTS – NORTH CRUISE BOULEVARD EXTENSION

PortMiami extended North Cruise Boulevard for added roadway capacity and increase safe operations.

SHOREPOWER AT CRUISE TERMINALS A, B, and F

PortMiami has completed the fully commissioned shorepower for Cruise Terminals A, B, and F, which will allow ships to turn off their primary engines while docked maintaining our high air quality metrics.

DRAFT



CARGO

INFRASTRUCTURE IMPROVEMENTS – SOUTH FLORIDA CONTAINER TERMINAL (SFCT) – ERTG PHASE 1

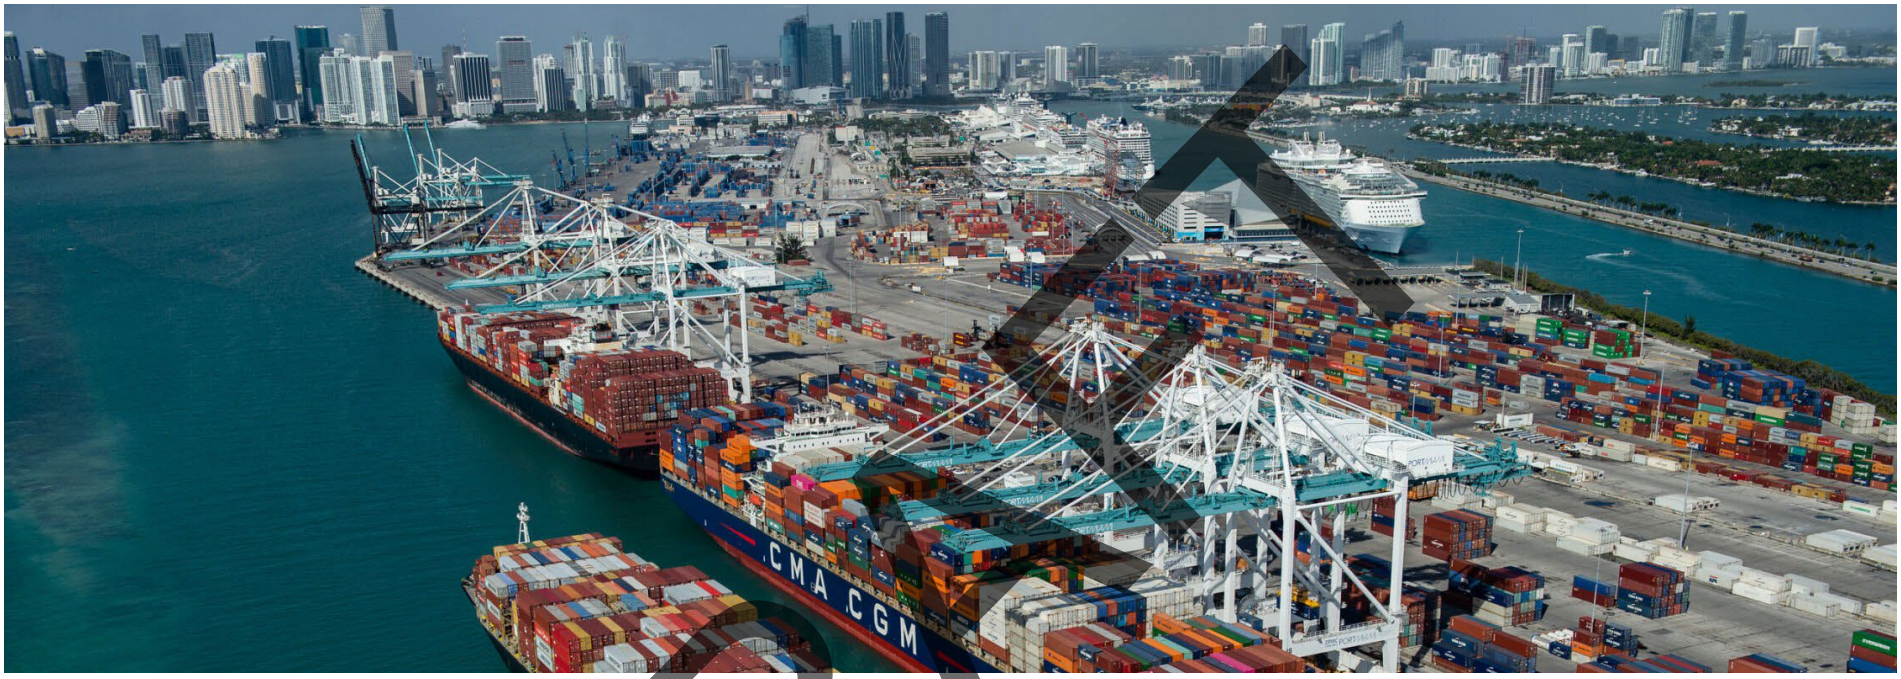
PortMiami has improved the infrastructure within South Florida Container Terminal's cargo yard to transition from diesel power cargo handlers to eRTGs. Each eRTG replaces approximately two diesel top loaders, and this first phase reduces carbon dioxide emissions by 20%.

INFRASTRUCTURE (ELECTRIC)

FPL SUBSTATION EXPANSION

FPL has completed the relocation of its utilities in preparation for the next phase –expanding its substation. The FPL substation expansion was completed in May of 2023.

DRAFT



DRAFT

PORTMIAMI CURRENT PROJECTS

CRUISE

CRUISE TERMINAL G

PortMiami is expanding Cruise Terminal G to support the cruise line's expanding operations. The project will achieve a minimum of LEED Silver Certification, and include solar panels, a multimodal parking garage, and roadway improvements.

CRUISE TERMINAL AA (SHARED TERMINAL)

PortMiami has partnered with MSC Cruise Line to design and construct two new cruise berths, a shared "state of the art" multi-vessel Cruise Terminal, and Parking Garage Complex. The LEED Silver Certified terminal will be equipped with shorepower.

BERTH 10

PortMiami is developing the third berth to supply berthing space for Cruise Terminal AA (Shared Terminal) and introduce a resilient bulkhead system capable of addressing future sea level rise.

SHOREPOWER

As part of PortMiami's Net Zero goals, the Port will complete shorepower at two remaining Cruise Terminals (CTV and CTAA) which will allow ships to turn off their primary engines while docked, resulting in reduced air emissions. With the existing three Cruise Terminals currently served by shorepower the total near-future terminals with access to shorepower service will be a total of five.

CARGO

RESILIENT CARGO PROGRAM

PortMiami is developing the nation's first end-to-end resilient supply chain in line. Transformational endeavors include rail expansion, improved cargo gates, cargo yard's operational efficiencies, and infrastructure improvements to support various types of cargo yard equipment. As part of the program, PortMiami will construct additional rail capacity and increase the cargo gate optimization to reduce traffic congestion at the Port and lower carbon emissions.

GANTRY CRANES

As PortMiami receives deeper draft vessels, the Port will add up to eight super post-panamax gantry cranes. The gantry cranes will improve productivity and support expanding operations, reduce energy costs with higher efficiencies and by significantly reducing maintenance and repair.

INSPECTION & FUMIGATION FACILITY

The new facility will be a state-of-the-art cold chain processing and fumigation center that will provide a more efficient inspection, cold chain processing, and phytosanitary services for the Port's perishable goods. The facility will become the port's central location to serve various markets and reduce truck travel times and traffic accidents.

CARGO YARD TERMINAL EQUIPMENT & RTGs

As part of the Resilient Program, cargo yard equipment will continue to be upgraded with lower emission diesel engines, hybrids and electrical engines. .

INFRASTRUCTURE

INFRASTRUCTURE IMPROVEMENTS – VARIOUS THROUGHOUT PORTMIAMI

PortMiami is improving infrastructure that includes, but is not limited to, road work, stormwater, landscape, and relocations for future buildings.

INFRASTRUCTURE IMPROVEMENTS - PASSENGER BOARDING BRIDGES (PBBS)

PortMiami is purchasing passenger boarding bridges for various terminals in response to new Cruise Terminal construction, increased demand, and the north bulkhead rehabilitation project.

INFRASTRUCTURE IMPROVEMENTS - CONTAINER YARD (SEABOARD)

PortMiami is providing drainage improvements and various other resiliency improvements in Seaboard's container yard area. The projects will increase capacity, modernize the cargo gate, improve cargo yard pavement to handle various types of cargo handling equipment, install LED high mast lighting retrofits, and implement improved reefer racks for refrigerated cargo.

INFRASTRUCTURE IMPROVEMENTS - CONTAINER YARD (POMTOC)

PortMiami is providing drainage improvements and various other improvements in the container yard area to increase capacity, and improve stormwater management, modernize cargo yard operations, security gates, charging stations, and similar resiliency projects.

DRAFT

INFRASTRUCTURE IMPROVEMENTS – SOUTH FLORIDA CONTAINER TERMINAL (SFCT) - PHASE 2

PortMiami and SFCT have partnered to continue to improve the drainage in the SFCT's cargo yard, construct infrastructure improvements to support eRTGs, and construct a parking garage which in turn increases capacity with the cargo yard. This continued effort addresses sea level rise and meets the port's resilient goals by introducing 18 eRTGs across Phase 1 and 2.

INFRASTRUCTURE IMPROVEMENTS – PORTWIDE SECURITY ENHANCEMENTS

PortMiami is establishing a new Command, Control, and Communications (C3) facility, and other security enhancements.

INFRASTRUCTURE IMPROVEMENTS - NORTH BULKHEAD REHABILITATION

PortMiami will rehabilitate six bulkheads along cruise berths over six years to add at least 75 years of life to the Port, improve resiliency, and raise the bulkhead in preparation for sea level rise. This project includes shorepower infrastructure within the berth, water upgrades, fenders, and mooring improvements. The infrastructure project is seeking Envision Certification.

INFRASTRUCTURE IMPROVEMENTS – SOUTH BULKHEAD REHABILITATION

PortMiami is providing repairs and improvements to the Port's south bulkhead.

INFRASTRUCTURE IMPROVEMENTS - FEDERAL INSPECTION FACILITY (FIF)

PortMiami is planning a facility for Central Examination Stations and cargo related services, and the seaport is planning to upgrade the current US Customs and Border Patrol (US CBP) facility. This investment directly supports the local and national economies and helps ensure the safety and security for the residents of Miami Dade County.

INFRASTRUCTURE IMPROVEMENTS - WATER & SEWER UPGRADES

PortMiami is upgrading its water, sewer and stormwater system for new services that improve the seaport's resiliency. To maintain or resume operations following a storm event it is critical that all Port asset types maintain their functional services. This Project will provide necessary stormwater improvements to reinforce the resilience of a critical at- risk coastal infrastructure so that operations can continue.

INFRASTRUCTURE IMPROVEMENTS - PORTWIDE

PortMiami is undergoing infrastructure improvements in various areas of the port. Port wide infrastructure improvements include beautification, drainage, dredging, road improvements, BMS upgrades, wayfinding, landscaping, lighting, HVAC, sidewalks, etc. The upgrades promote innovative technology that increases safety and operational efficiencies, improves economic competitiveness, cost savings, and resiliency.

INFRASTRUCTURE IMPROVEMENTS – VARIOUS FACILITY MOVES

PortMiami is overseeing the movement of customer warehouses and/or other facilities, as determined.

INFRASTRUCTURE IMPROVEMENTS – CTJ SEAWALL

PortMiami is continuing to rehabilitate the bulkhead cap, expected to add at least 30 years of life to the Port, to address upkeep, address sea level rise, and improve resiliency.

DRAFT

INFRASTRUCTURE IMPROVEMENTS – BERTH REDEVELOPMENT (BAYS 165-177 AND 148-155)

PortMiami is improving the bulkheads along part of Seaboard Marine's cargo yards to address sea level rise and improve PortMiami's resiliency. The Port's infrastructure will be strengthened, and the berthing capacities will increase by fixing the grade elevation, providing stormwater improvements, and removing two existing roll-/roll-off ramps, which increase the overall linear length of the berth to allow multiple ships.

INFRASTRUCTURE IMPROVEMENTS – CHANNEL MODIFICATIONS

PortMiami is undergoing a safety and navigation improvements planning program with the US Army Corps of Engineers.

ROADWAY IMPROVEMENTS - TRANSPORTATION MASTER PLAN

PortMiami is developing roadway expansion and improvement projects to enable the Seaport to manage increased cargo and cruise traffic.

INFRASTRUCTURE IMPROVEMENTS – CARGO GATE MODIFICATIONS

PortMiami is providing infrastructure for a new cargo security gate system, including weigh stations, stormwater improvements, and realigned roadways.

INFRASTRUCTURE COMPLIANCE

PortMiami is rehabilitating and conducting other infrastructure and shoreline improvements throughout the seaport.

OFF-DOCK LOGISTICS YARD RAIL EXTENSION

PortMiami is expanding a railroad track along US27 to connect to the Inland Port and Logistics Center. The Rail Extension project will provide rail connection from the existing rail line in west Miami-Dade County to the future inland port. The shift to rail will reduce truck traffic and emissions throughout the County.

NEW PARKING GARAGES

PortMiami is planning parking garages for both cargo and cruise operations.

PORT ADMINISTRATION FACILITY

PortMiami is planning a new PortMiami Administrations and Operations Facility. The new facility will include police, safety, and security headquarters, and other maritime related offices.

PORTMIAMI FUTURE PROJECTS

INFRASTRUCTURE IMPROVEMENTS – INLAND PORT LOGISTICS SUPPORT YARD

PortMiami is undergoing an Inland Port development of the container storage and transfer staging areas, including truck parking, workforce training center, solar farm, security gates, improved infrastructure for eRTGs, charging stations, reefer racks, etc.

INLAND PORT DEVELOPMENT – PHASE 1

As part of the Resilient Program, an inland port will increase Port Miami's cargo capacity and volume, leading to new business opportunities and access to the burgeoning Orlando and Tampa markets. Preliminary estimates indicate that a new inland port could provide approximately 50% increase in container volume annually, increasing Miami Dade County's economic competitiveness at various scales. The program will include a variety of projects, including truck parking, export consolidation, eRTGs, rail shuttles, etc.

DRAFT

BRIGHTLINE TRAIN STATION

PortMiami is planning to build a train station for passengers and employees at a location that reduces congestion and emissions by optimizing access to terminals and employment destinations.

CRUISE TERMINAL K

PortMiami is planning to design and construction of a new Cruise Terminal, Parking Garages and intermodal facilities to support expanding operations.

WALKABILITY PROGRAM – SIDEWALKS & TREE CANOPY INSTALLATION

The Port's Walkability Program focuses on enhancing infrastructure and promoting pedestrian-friendly areas that provide safe, covered, and efficient mobility options for the millions of cruise passengers who visit the Cruise Capital of the World annually. The project involves comprehensive urban programming, sidewalk enhancements, tree canopies, crosswalk installations, and traffic calming measures that will also help address the dangers of extreme heat. These improvements will provide enhancements to the passenger experience and provide a competitive advantage.

PORTWIDE UTILITIES MASTER PROGRAMMING & IMPLEMENTATION

PortMiami will be developing a stormwater Master Plan, and Decarbonization and Electrification Master Plan Program. The Port is implementing master plans and other portwide projects to reduce emissions through electrification and stormwater management for a more resilient PortMiami.

HYBRID TUGBOATS

As part of the Resilient Program the seaport is introducing hybrid harbor tugboats to the seaport's end-to-end services.

SHOREPOWER

Phase 2

Further investments in the Port's shorepower infrastructure will improve resiliency at the Port. GOB funding will support the purchase of 2 additional electrical feeders for dedicated shorepower to five terminals, instead of sharing 3 electrical feeders amongst the 5 terminals. The implementation of a battery energy storage system (BESS) will help address peak electrical demand needs and help support the Seaport's Resilient initiative by storing excess energy during non-demand periods when shorepower is not in use at any of the five terminals and relaying it during peak hours for the various needs across the cruise, cargo, and administrative programs. The backup power can also act as a reliable source of backup power during grid outages.

Phase 3

The Shorepower Phase 3 project will provide electrical power to additional cruise berths and introduce shorepower to certain cargo berths. The project will also fund power transmission lines and a substation in coordination with FPL, if needed.

MIAMI HARBOR NAVIGATIONAL IMPROVEMENTS

PortMiami is planning to implement a navigational channel and berth improvements project in partnership with the US Army Corps of Engineers for safe transit and expanded operations.

COMMERCIAL DEVELOPMENT

PortMiami is planning to expand the Port's business model for economic competitiveness and maritime development at PortMiami.

BASCULE ROAD BRIDGE

PortMiami is planning to improve the bascule road bridge to return to full operation.

PART 2: 5-YEAR PROJECT LISTING

COUNTY TRANSPORTATION SYSTEM AND MAJOR PROJECTS

Miami-Dade County Department of Transportation and Public Works

DRAFT

This section of the TIP focuses on Major Projects from Miami-Dade's DTPW. DTPW's goal is to enhance the quality of life of Miami-Dade County's residents, businesses, and visitors by providing high-quality, safe, clean, efficient, and connected public transportation infrastructure services.

SHIFT305 is an initiative to revitalize Miami-Dade's transportation system, encompassing four key objectives:

CLEAN **EFFICIENT** **SAFE** **CONNECTED**

The projects listed are the tactical execution of the SHIFT 305 strategy and include improvements to highways, transit, and bicycle/pedestrian modes.

The DTPW section provides an overview of the following topics:

- Funding Overview
- SMART Program
- Metrobus System
- Metrorail & Metromover
- Transit Maintenance and Modernization
- Transit Capital Projects
- Pedestrian & Bicycle
- Vision Zero Program
- Major Highway and Bridge Improvement Projects
- Neighborhood Improvement Projects

FUNDING OVERVIEW

DTPW uses a mix of funding sources to plan for, construct and maintain transportation projects, including but not limited to:

- Local General Funds
- Secondary Gas Tax (SGT)
- Mobility Impact Fees (MIF)
- People's Transportation Plan (PTP)
- Federal and State Grants
- Private Sector
- Municipal Partners

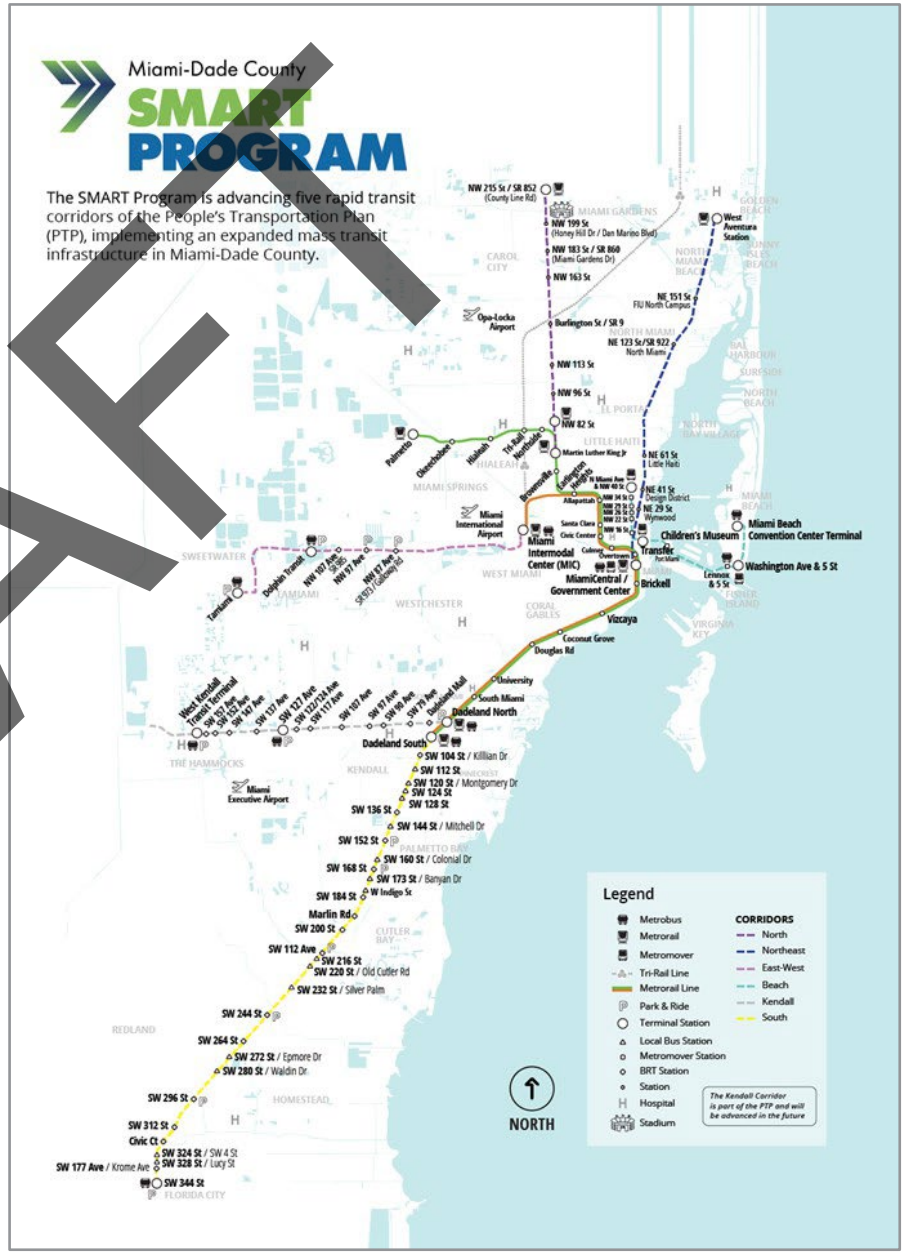
SMART PROGRAM

The SMART Program is advancing the rapid transit corridors of the PTP, implementing an expanded mass transit infrastructure in Miami-Dade County. It represents a strategic and far-reaching vision for the region, leveraging existing infrastructure and advanced technology to expand transportation options.

In partnership with the Federal Transit Administration (FTA) and the Florida Department of Transportation (FDOT), the SMART Program is expanding regional Transit-Oriented Development (TOD) and connecting key destinations through a premium transit network. By improving reliability and providing real-time on-time arrival data, the program supports job creation and prepares the region for projected population and employment growth. A major milestone was recently achieved with the opening of the South Corridor, marking a significant step in expanding the region's premium transit network.

Continuing momentum, DTPW and FDOT are advancing the following rapid transit corridors:

- Northeast Corridor: High transit demand and part of a critical regional corridor stretching to Palm Beach County. (DTPW)
- Beach Corridor: Highest tourist demand in the region with major employment centers. (DTPW)
- East-West Corridor: Heaviest commuter travel for international, state, and local businesses. (DTPW)
- North Corridor: Key regional mobility linkage for access to jobs, the stadium, and educational facilities. (FDOT)
- Kendall Corridor: One of the most congested arterial roadways with the highest demand. (FDOT)



DRAFT

SOUTH CORRIDOR BUS RAPID TRANSIT (BRT)

The South Corridor operates along the existing South Dade Transitway, extending from Dadeland South Metrorail Station to the SW 344 Street Park-and-Ride/Transit Terminal Facility. The corridor connects Florida City, Homestead, Cutler Bay, Palmetto Bay, and Pinecrest–the fastest growing areas in Miami-Dade County–the corridor provides a high-capacity link for passengers traveling between southern Miami-Dade and Downtown Miami. The project delivered improved travel times and safety, featuring enhanced station platforms and increasing accessibility for all riders.

The project followed a rigorous development timeline, beginning with a Planning, Development, and Environmental (PD&E) study in 2017. The TPO Governing Board selected Bus Rapid Transit (BRT) as the Locally Preferred Alternative (LPA) in 2018, and a Notice to Proceed was issued to the Design-Build firm in early 2021. This $300 million investment was made possible through a funding partnership of $100 million Miami-Dade County, $100 million FDOT, and $100 million from FTA Small Starts Grant program.

With revenue service having launched on October 27, 2025, the BRT now delivers a “rail-like” experience defined by competitive travel times and premium transit service. Passengers benefit from iconic stations, level boarding through all doors, and pre-paid fares for speedy, efficient access. The system provides enhanced safety features and dedicated lanes with multilayered service lines.

By actively serving the county’s southern municipalities, the South Corridor has successfully transformed the daily commute for thousands of residents, providing a premium transit alternative to the region's most high-demand travel corridor.

DRAFT

20-mile Corridor running from Florida City to Dadeland South Metrorail, along the South Dade TransitWay	STRATEGIC TARGETS
BRT	Completed; Post-Construction Elements

NORTHEAST CORRIDOR

The Northeast Corridor represents the first 13.5-mile segment of the Coastal Link, an 85-mile commuter rail initiative connecting Miami-Dade, Broward, and Palm Beach counties. Leveraging the existing Florida East Coast Railway (FECR) rail corridor, the project integrates with Brightline and Tri-Rail to provide regional commuter rail service. The corridor utilizes Brightline's Miami Central and West Aventura stations while adding five new stops, providing direct connections to Wynwood, Design District, Little Haiti, North Miami, and the FIU Biscayne Bay Campus. The corridor will feature 30-minutes headway during weekday peak and 60-minute headway during off-peak and weekend periods. The project is also to build a new vehicle maintenance and storage facility in FDOT's existing Hialeah Yard.

Following the selection of commuter service as the LPA in early 2021, the project entered the FTA's New Starts Project Development phase that October. By November 2023, the project received approval of the Categorical Exclusion (CE), successfully completing the planning and environmental requirements under the National Environmental Policy Act (NEPA).

In October 2024, the FTA awarded the project a 'Medium-High' rating and granted DTPW approval to enter the Engineering phase. This critical milestone allows DTPW to move forward with engineering design activities. Although these activities are currently advancing at the County's risk while awaiting standard federal budget appropriations, the rating reflects strong federal confidence in the corridor's viability.

The financial framework for the $927.3 million project relies on a multi-tiered strategy. The FTA has committed $389.5 million in federal funding through the New Starts program. Miami-Dade County's local contribution is secured through the People's Transportation Plan (PTP) and Federal Flex Funds, providing a stable financial foundation that remains independent of state commitments. Regarding state participation, FDOT originally committed $200 million to the Northeast Corridor; however, that funding has since been adjusted. The current FDOT 5-Year Work Program has allocated $8.25 million, with the remaining balance pending future programming by the State.

Downtown Miami to the City of Aventura, along the existing FECR tracks (13.5 miles)

Commuter Rail

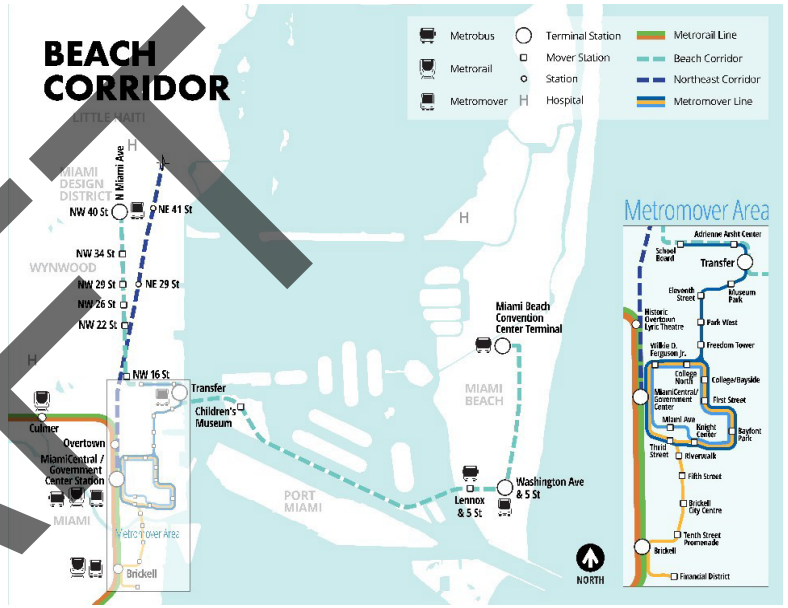
Engineering Design

STRATEGIC TARGETS

DRAFT

BEACH CORRIDOR

The Beach Corridor serves as a vital link within the SMART program, traversing Biscayne Bay to connect Downtown Miami and the Design District with the City of Miami Beach. Both the Downtown Miami/Overtown area and Miami Beach continue to experience rapid population growth, necessitating high-capacity solutions. To address this demand, the project focuses on providing a rapid transit connection between the mainland to South Beach.



The Beach Corridor is divided into three distinct sections: the mainline extension serving Miami and the Design District, the "Trunkline" crossing Biscayne Bay, and the Miami Beach extension.

In May 2017, DTPW initiated a PD&E Study to evaluate transit connecting Downtown Miami and the City of Miami Beach via I-395 and I-195 corridors. By January 2020, the TPO adopted the LPA, which recommended elevated automated rail transit (automated people mover) for the Miami/Design District and Trunkline segments, completed by dedicated bus or trolley lanes for the Miami Beach extension. The project received an Environmental Assessment (EA) as the NEPA class of action for the Trunkline segment from the United States Coast Guard (USCG). In accordance with this federal process, DTPW published the Draft EA document for public review and comment in Summer 2022.

Ongoing efforts include preliminary ridership and traffic analyses for the mainland segment and a reassessment of stop locations for the Design District extension to optimize service. Additionally, DTPW is conducting value engineering for the bay-crossing "Trunkline" segment in coordination with FDOT and collaborating with the City of Miami Beach to refine the Miami Beach extension.

DRAFT

Along a 9.7-mile corridor, crossing Biscayne Bay linking Downtown Miami to Miami Beach

Various premium transit modes

Project Development, NEPA for Baylink

STRATEGIC TARGETS

EAST-WEST CORRIDOR

The East-West Corridor project spans approximately 14 miles from the Miami Intermodal Center (MIC) at Miami International Airport (MIA), west along the SR-836/ Dolphin Expressway, to Tamiami Terminal Station and Park-and-Ride facility (SW 8 Street and SW 147 Avenue). It provides multimodal solutions for the severe traffic congestion along SR 836, the only east- west expressway in central Miami-Dade County. The project is designed to connect western residential communities with the region's major activity centers and employment hubs. By providing high-capacity transit alternatives, the corridor connects residents to MIA, MIC, the Health District, and Downtown Miami, as well as major commercial areas in Sweetwater, Doral, and Brickell.

In April 2017, DTPW initiated a PD&E study to evaluate transportation solutions along the SR 836/ Dolphin Expressway corridor. The TPO Governing Board selected BRT as the LPA in October 2020. This plan featured transit-only lanes, including reversible lanes along SW 8 Street from the Tamiami Terminal to SW 137 Avenue and along SW 137 Avenue, and utilized the inside shoulders of SR 836 to provide direct access to the MIC and Downtown Miami. However, the project is currently undergoing a strategic reassessment. In April 2023, the TPO Governing Board urged DTPW to reconsider the corridor's LPA, followed by a formal request from the Miami-Dade Board of County Commissioners in December 2024 (Resolution No. R-1103-24) requesting to examine alternative modes, including passenger rail utilizing existing railroad infrastructure such as CSX's existing freight line. DTPW has developed the scope for the additional analysis needed to provide recommendations to the TPO Governing Board. This study will involve collecting current data to explore modifications to the BRT LPA, exploring the willingness of CSX to allow public use of its rail right-of-way and identification of any constraints or major construction efforts that might be required to achieve commuter rail within the corridor.

DRAFT

Miami-Dade Board of County Commissioners acted on December 03, 2024, and unanimously approved the DTPW to re-evaluate the project.

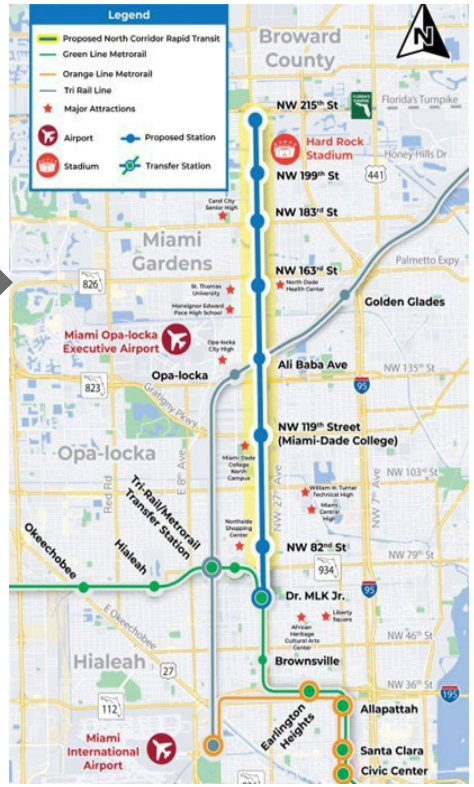
BRT or Commuter Rail

Project Development

STRATEGIC TARGETS

NORTH CORRIDOR

The North Corridor spans 10-miles along NW 27 Avenue, extending from NW 62 Street/Dr. Martin Luther King, Jr. Metrorail Station to NW 215 Avenue. The Project consists of implementing an elevated Heavy Rail Transit (Metrorail) extension, serving as a vital regional link for access to jobs, educational facilities, and major entertainment venues. The envisioned corridor includes on-street transit stations located along a dedicated running way. These stations are designed to integrate with both public and private facilities, incorporating potential park-and-ride lots or transit terminals to maximize accessibility. In October 2019, the Miami-Dade TPO selected elevated heavy rail transit as the LPA, aligning the project with the existing Metrorail system.



In April 2020, the TPO Governing Board directed DTPW to explore alternative transit technologies, other than heavy rail, for the North Corridor. Consequently, FDOT placed its PD&E study on hold until the outcome DTPW's Request for Proposals (RFP) process. This direction changed on November 2022, when the Board of County Commissioners (BCC) terminated the RFP and accelerated the project as an elevated fixed guideway system. Following g this directive, FDOT and DTPW conducted a Value Engineering (VE) Workshop in May 2023 to identify the most cost-effective methods of implementing the project. The findings were formalized in a final VE Report in October 2023, paving the way for the start of the PD&E Study in April 2024.

In May 2025, joint workshop between FDOT and DTPW finalized critical elements to the LPA. These improvements addressed alignment, station locations, type of structures, light maintenance facility components and access, as well as roadway design considerations. With these critical decisions in place, the agencies are advancing the Heavy Rail Transit project by coordinating with the FTA on environmental analysis, and develop a funding strategy with local, state, and federal agencies. For information related to this project, visit: https://www.fdotmiamidade.com/27thAvenueRapidTransit.html

Heavy Elevated Rail

FDOT PD&E

STRATEGIC TARGETS

DRAFT

KENDALL CORRIDOR

The Kendall Corridor consists of implementing a premium transit service along SR 94/Kendall Drive (SW 88 Street) corridor. The project scope includes evaluating a connection along SR 874 and SR 878 from Kendall Drive to the Dadeland North Metrorail Station. Additionally, the project explores potential northern extension along the Homestead Extension of the Florida Turnpike (HEFT) to the proposed Florida International University (FIU) Panther Station and/or to the proposed Dolphin Station (at SR 836).

In November 2019, the TPO identified Curbside Business Access and Transit (BAT) Lanes as the recommended alternative for the corridor. However, in March 2022, a joint-agency recommendation by the FDOT and DTPW to place the Kendall PD&E study on hold was approved by the TPO Governing Board. Consequently, the Kendall Corridor PD&E study is currently on hold.

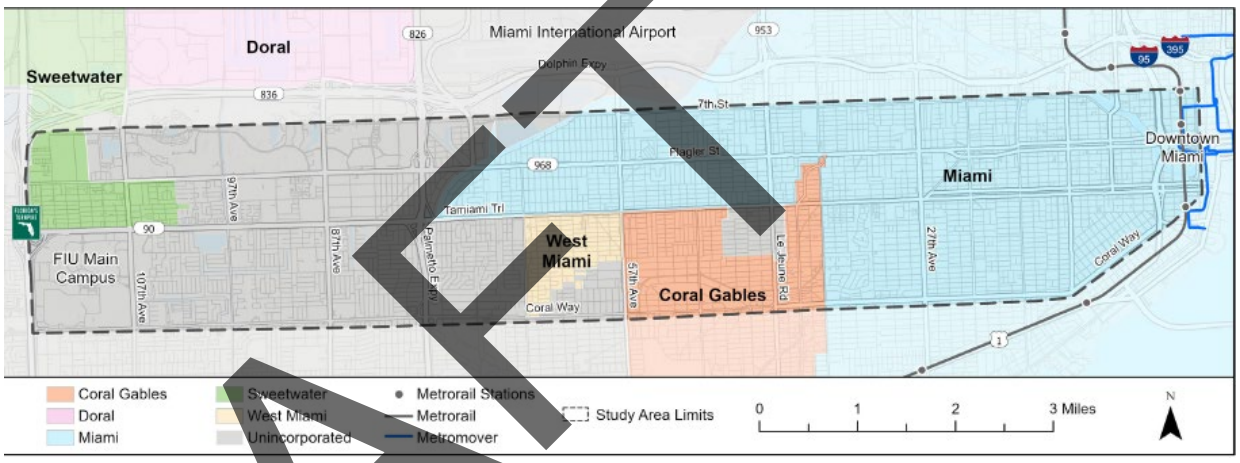
FDOT PD&E on Hold

STRATEGIC TARGETS

FLAGLER FEASIBILITY STUDY FROM DOWNTOWN MIAMI TO FIU

FDOT is conducting a feasibility study to evaluate an elevated transit alignment along SR 968/Flagler Street from Downtown Miami to FIU to provide direct or intermodal connectivity to the region's existing transit network, offering an alternative to an area with increasing traffic congestion and with few options for expanding roadway capacity due to limited right-of-way availability.



The primary objective of this feasibility study is to improve transit travel times and increase person carrying capacity while enhancing facilities for pedestrians and bicyclists. By evaluating feasible transit alternatives including an elevated fixed guideway system, the study assesses critical factors such as costs, community benefits, funding options, transportation improvements, economic development potential, and environmental considerations.

Currently, the study is in the alternatives phase, examining various project configurations and funding options to determine the transit investment that aligns with the region's long-term mobility and community goals.

For information related to this study, visit: https://www.fdotmiamidade.com/sr968_flagler_study_from_downtown_miami_to_fiu

METROBUS SYSTEM

Metrobus is DTPW's fixed-route bus service, operating seven days a week, 24 hours a day. The network consists of 74 routes operated by a fleet of 800 buses, including 17 contracted routes with 50 buses. Metrobus offers a variety of services, including local, circulator, limited-stop, express, and bus rapid transit (Metro Express).

DTPW implements three scheduled service adjustments each year to enhance the network based on performance data, operator input, and passenger feedback. These changes aim to improve reliability, efficiency, and on-time performance.

DTPW initiated a data-driven Comprehensive Operational Analysis (COA) effort to analyze the transit system's productivity and efficiency following the implementation of the Better Bus Network in November 2023. The COA analyzes the effectiveness of the transit system by examining routes, performance, and other characteristics of services provided. With data and insights from our stakeholders and partners are synthesized into findings used to develop short-, medium-, and long-term operational recommendations for our Metrobus system.

DTPW collaborates with municipalities to ensure local services complement the regional network—a vital strategy for enhancing transit connectivity across the entire county.

BUS PASSENGER AMENITIES PROGRAM

The Bus Passenger Amenities Program is part of the department's strategic vision to operate and grow a safer, cleaner, quicker, and more connected transit system. As a key component of the Mayor's Extreme Heat Action Plan, this Program involves upgrading bus passenger shelters in the Metrobus service area. The Program consists of the installation of new bus passenger amenities including new bus shelters, bus passenger benches, trash containers and bicycle racks, improved pedestrian accessibility to and from bus passenger amenities, and a complete renovation of the existing bus passenger amenities inventory. The program ensures that all bus passenger amenities, either new or existing, trash containers and bicycle racks are well maintained, safe, clean, well illuminated, and have an attractive appearance.

As of December 2024, the Program has successfully installed 373 new bus shelters, trash containers, and illuminations systems, along with 800 bicycle racks. An additional 350 transit amenities are scheduled to be installed by Summer 2026. To maintain this momentum and meet the Extreme Heat Action Plan goal —providing shelters for 75% of bus stops within the UMSA—funding is underway for a new batch of 500 units. These are slated for completion between the summers of 2026 and 2029.

Shelter Types

Cantilever shelter
Installation will be on sidewalks with 5 or 6 feet of ROW

Slim shelter
Installation will be on sidewalks with 8 feet of ROW

Shelter with advertising panel
Installation will be on sidewalks with 11 feet of ROW

Shelter without advertising panel
Installation will be on sidewalks with 11 feet of ROW

Ongoing

STRATEGIC TARGETS

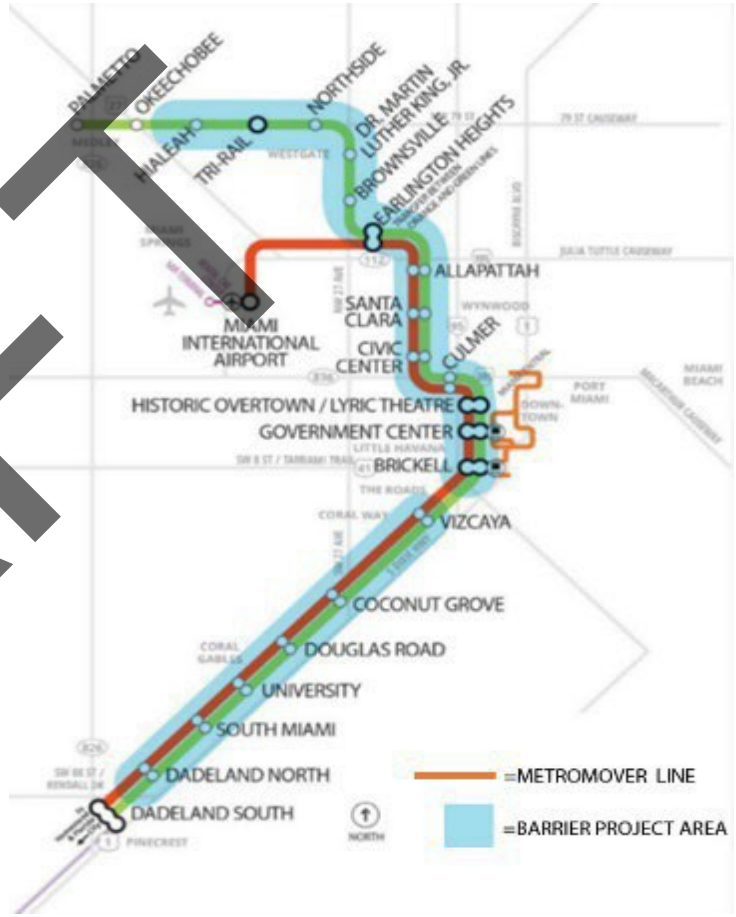
METRORAIL & METROMOVER

DTPW is actively working to upgrade the Metrorail, a 25-mile dual track system that provides heavy rail service to MIA and runs from Kendall through South Miami, Coral Gables, and Downtown Miami; to the UHealth Jackson Station/Jackson Memorial Hospital area; and to Brownsville, Liberty City, Hialeah, and Medley in northwest Miami-Dade, as well as upgrade the Metromover, the free elevated people mover system that operates seven days a week in the Downtown Miami, Omni, and Brickell areas.

METRORAIL ACOUSTICAL BARRIER REPLACEMENT

This Program consists of the installation of acoustical barriers with associated hardware along the Metrorail system where Type "B" concrete barriers have been removed. The new barriers are intended to abate sound/noise produced by passing trains avoiding their propagation to adjacent properties.

Launched in 2019, DTPW three-phase acoustic barrier replacement program is now successfully complete. After an initial removal of Type B barriers during Phases One and Two, Phase Three began in January 2021 to install modern replacements. The project's scope was expanded in November 2023 to include the removal and replacement of all remaining existing barriers. This $100 million program concluded in August 2025—on schedule and under budget.



Countywide

Heavy Rail

Ongoing

STRATEGIC TARGETS

DRAFT

METROMOVER WAYSIDE SYSTEM OVERHAUL

The Metromover, an automated people mover system originally designed and installed by Bombardier Transportation (most recently Alstom, formerly Westinghouse), has served Miami-Dade since April 1986. The system spans 4.4 miles of dual lane guideway serving is comprised of 21 stations with a fleet of 29 vehicles managed from a central control facility located at the Government Center.

While the system has expanded and the vehicle fleet has been modernized over its 40-year history, many major subsystems have not been upgraded and have now reached the end of their design life. These subsystems include the Automatic Train Control (ATC) System, Data Transmission System (DTS) with Supervisory Control and Data Acquisition (SCADA), several Power Distribution System (PDS) elements (e.g., low voltage breakers, protective relays, ground switches, etc.), guideway switch equipment and central control equipment. To maintain good equipment reliability and an overall high Metromover system service availability, these major subsystems need to be replaced or refurbished.

The ongoing $152 million wayside overhaul project represents a significant investment in the system's future, covering design, supply, manufacture, installation, testing and commissioning of the system, including transition to Communication-Based Train control capabilities. This upgrade is essential for ensuring a fully functional, safe, and reliable Metromover system experience. Although the original baseline schedule targeted a 2025 completion, the project is currently experiencing delays and awaiting a recovery schedule to realign the timeline.

DRAFT

Improvements Across Most of Metrorail System

Rapid Transit Improvement

Construction Phase

STRATEGIC TARGETS

TRANSIT MAINTENANCE AND MODERNIZATION

Regular maintenance and upgrades to the transit infrastructure not only improve passenger experience, but also help to reduce delays and breakdowns, which can have a significant impact on the overall efficiency of the system. Additionally, modernization efforts, such as the introduction of new technologies and the use of cleaner and more sustainable energy sources, help to improve the environmental impact of transit.

These improvements have become more critical with the implementation of the updated Metrobus System, as the need for transfers has increased. Key transfer locations within the County have been identified so enhanced facilities can be implemented to ease these transfers. For example, DTPW modernization efforts include:

- Electric signage at Metrorail and Metromover stations
- Parking space counters at Metrorail parking garages

SOUTH DADE TRANSIT OPERATIONS CENTER (SDTOC)

With the implementation of the SMART Program, the County inventoried the availability of garages located within the south area of the County for bus maintenance facilities and determined that the closest maintenance facility to the South Miami-Dade area is the Coral Way facility, which has reached its capacity and is approximately 30-miles away from the southern county line of Miami-Dade. A new facility in this area is necessary. This new maintenance facility improves transits operational efficiency by decreasing the turnaround time for placing buses back in revenue service. The county-owned facility at Biscayne Drive and SW 127 Avenue is currently under construction following a June 10, 2024, NTP. With the building's shell (vertical construction) finished, crews are now focused on interior buildouts, site work, and landscaping. The project is slated for completion in September 2026.

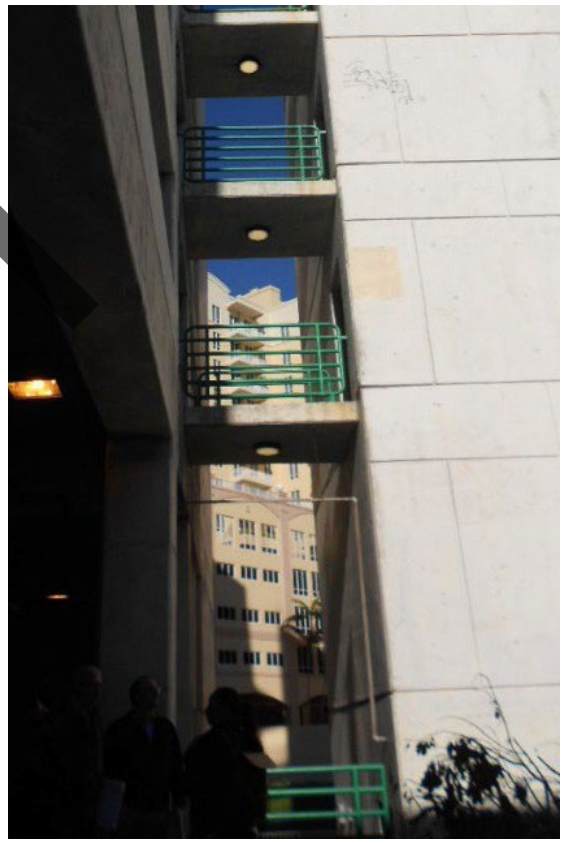
Transit Modernization	Construction Phase	

DRAFT

ADDITIONAL ELEVATORS AT DADELAND NORTH METRORAIL STATION PARKING GARAGE

Since its completion in 1984, the Dadeland North Metrorail Station's use has increased over the years. Because of increasing ridership, the existing bank of elevators (four elevators) does not provide an acceptable level of service during peak hours. Peak passenger flows create congestion and long waiting periods for Metrorail passengers, generating complaints from existing customers.

DTPW is expanding the parking garage with the addition of two elevators at the facilities northern end. Following the project's presentation to the Board of County Commissioners (BCC) on July 16, 2024, the contract with the selected Design-Build firm was executed on November 1, 2024. With the Notice to Proceed (NTP) issued in January 2025, the project has reached the 90% design phase. Final completion is currently projected for July 2028.



DRAFT

Proposed 11-story building to house two elevators at the North end of the existing Dadeland North Metrorail Station Parking Garage

Station Modernization

Design-Build Underway

STRATEGIC TARGETS

BUS NEW VEHICLE REPLACEMENT

DTPW continues to implement its bus replacement program. Funding for this program is provided through various sources including PTP, FDOT and Federal funding sources. The DTPW bus fleet is continuously aging; therefore, an aggressive bus replacement plan is in place to ensure compliance with FTA's bus retirement criteria.

After examining various alternative fuels, DTPW decided to migrate its bus fleet to clean-burning, compressed natural gas (CNG). The purchase of alternative fuel buses for replacements and enhancements are not only an improvement to transit but also promotes the County's long- term initiative towards a state of good repair, economic competitiveness, livability, sustainability, safety, job creation, and economic stimulus.

In addition to CNG, a total of 69 Proterra 40' Electric Buses have been delivered and assigned to provide services to date. These vehicles are the first of their kind in Miami-Dade County's Metrobus Fleet and complement the ongoing modernization of the fleet. In January 2023, Miami-Dade County and New Flyer of America, Inc., entered into an agreement to procure one-hundred articulated 60-foot battery electric, zero- emission, low floor buses, fifty chargers for depot-based charging and two on-route fast chargers for charging the buses while awaiting passengers to board at the end stations. As of December 2025, 92 New Flyer 60-foot Battery Electric buses have been delivered to DTPW.

DRAFT

Procurement Phase

Transit Modernization

STRATEGIC TARGETS

TRANSIT CAPITAL PROJECTS

TRANSIT FACILITIES MASTER PLAN

The Transit Facilities Master Plan provides a comprehensive, 20-year roadmap for the future of Miami-Dade County's DTPW transit facilities. This plan evaluates ten key transit facilities, assessing their current conditions and identifying necessary improvements to support service expansion, fleet transitions, and operational efficiency. The plan reviews facility conditions, analyze operational needs, and determine space requirements and design criteria. It also evaluates Metrobus fixed routes to understand service capabilities and develop a Zero-Emission Transition Plan to support the County's move toward a 100% battery electric bus fleet. Each facility has been assessed against its future space and design needs to identify deficiencies and recommend solutions, which may include renovations, expansions, new facilities, or a combination of these approaches.

The master plan includes concept site and floor plans, cost estimates covering construction and operational impacts, and a cost-loaded implementation plan outlining project sequencing, funding, vehicle acquisition, design, construction, move-in, and start-up. Additionally, immediate short-term facility improvements have been identified to address pressing operational needs and are moving into the design phase. This plan is a critical step in ensuring DTPW's transit facilities remain functional, efficient, and capable of supporting Miami-Dade County's evolving transportation network.

DRAFT

Countywide		STRATEGIC TARGETS
Facilities Master Plan	Planning Phase	

NORTH CORRIDOR TOD MASTERPLAN

DTPW's Transit Oriented Development (TOD) Master Plan program supports the County's SMART Program by promoting transit-oriented communities within a one-mile radius of existing and proposed transit network stations.

As part of the County's long-term development strategy, DTPW has begun the North Corridor TOD Master Plan with the goal to establish a strategy for guiding future growth and development along the planned rapid transit corridor. The study will establish a framework that aligns land use, mobility needs, and economic development goals with the planned transit investment. It will provide criteria for TOD development, identify opportunities for investment, and recommend strategies to revitalize communities along the corridor while improving mobility, affordability and quality of life.

Community input is a central part of the TOD Master Plan. Residents, businesses, and local organizations are invited to participate in workshops, surveys, and outreach activities throughout the planning process. The goal is to ensure that the plan reflects local priorities—such as housing affordability, economic opportunity, and improved mobility—while building strong partnerships to support long-term implementation. The first community workshop was held at the Sherbondy Village Community Center on Wednesday, Oct. 22. The Plan is expected to conclude in July 2026.

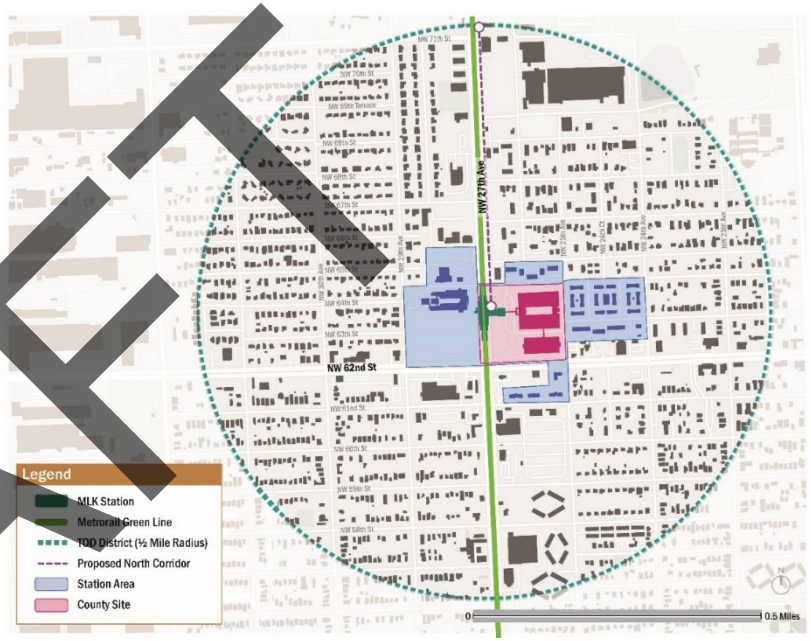
STRATEGIC TARGETS

DRAFT

DR. MARTIN LUTHER KING, JR. PLAZA TOD MASTERPLAN

The purpose of this study is to advance a plan and feasibility analysis of an equitable transit-oriented development (TOD) at the county-owned site surrounding the Martin Luther King, Jr. (MLK) Plaza Metrorail Station (NW 27th Ave and SW 62nd Street), which currently includes an aging public parking structure, a corrections department facility, and adjacent facilities. This study responds to the need to identify higher and better use for the site and its surroundings through a robust, community-driven planning process to create a TOD that provides future mixed-use development, enhances access to existing and future transit services, improves the public realm, and prioritizes equitable access to future economic opportunities.



The study will establish an equity and transit focused vision, and key outcomes will include development strategies and a conceptual TOD master plan that positions the area for long-term sustainable growth. The Masterplan will articulate a bold, 21st century vision for transit-oriented development that is well integrated with transit infrastructure and supports housing opportunities, employment, new retail development, micromobility, parks and open space; and strong connections to the surrounding community. Overall, the study will address how the area can support future TOD while improving equity and quality of life for both existing and future residents.

TOD Master Plan	Planning Phase

SUNSHINE STATION – GGMTF KISS & RIDE AND PEDESTRIAN BRIDGE

The project includes the design and construction of a pick-up/drop-off ("Kiss-and-Ride") facility (Sunshine Station) located in the Sunshine State Industrial Park on the west side of the South Florida Rail Corridor (SFRC), just north of the Golden Glades Tri-Rail Station. The project also includes a pedestrian and bike overpass comprised of two bridges: one over the SFRC to connect to the Golden Glades Tri-Rail Station, and another to replace the existing bridge over SR 9 to connect to the Golden Glades Multimodal Transportation Facility (GGMTF). The proposed Sunshine Station facility would improve access for individuals traveling to and from the Golden Glades Tri-Rail Station and GGMTF via walking, biking, transit modes including the Miami Gardens Trolley, and auto drop-off, eliminating the need to drive on the highway along a circuitous and highly congested route to access the GGMTF from the City of Miami Gardens.

DRAFT

PEDESTRIAN & BICYCLE

THE UNDERLINE

The Underline is a 10-mile mobility corridor from Brickell to the Dadeland South Metrorail station that repurposes existing underutilized industrial space under the existing Metrorail alignment. The project increases connectivity to eight Metrorail stations and bus terminals, facilitating increased ridership and safety. As a multi-modal corridor, this project helps to connect individual streets and neighborhoods.

The Underline serves as the first and last mile connections to twenty-four (24) schools, one (1) university, two (2) hospitals, three (3) urgent care facilities, four (4) major malls and over 250,000 residents within a ¼ mile. The project includes transportation and non-transportation components. The project is building separate bicycle and pedestrian paths as well as improving 34 intersections along US 1. DTPW and FDOT are working together in the coordination of intersection improvements. It encourages active transportation and a healthier lifestyle by promoting mass transit, walking, and biking, and reducing US 1 traffic by five percent. It will serve as the spine for a future network of 180 miles of county and city trails and as the spine for the 22-mile Miami Loop.

Originally planned across nine developmental segments, The Underline is being delivered in three distinct phases. Phase 1 and 2 were completed in 2021, and Phase 2 was completed in early 2024. As of February 2025, the estimated completion date for Phase 3 is expected towards the end of the second quarter of 2026.

DRAFT

From the southern bank of the Miami River to the northern curb of Dadeland Boulevard

Multimodal Urban Trail

Phase III Under Construction

STRATEGIC TARGETS

The Underline Phase I – Brickell Backyard Project — The Brickell Backyard is 0.5 miles long and the most complex of all the phases. It extends from the southern edge of the Miami River to SW 13 Street (Coral Way). This phase is within the limits of the City of Miami. This phase of The Underline features urban biking and walking paths, flex basketball and soccer courts, outdoor gym, nature, and butterfly gardens gathering spaces to eat, play, discover and relax.

Commenced Construction in December 2018; Completed 2021

The Underline Phase II – Hammock Trail — The Hammock Trail is 2.14 miles long and extends from SW 13 Street (Coral Way) to SW 19 Avenue. This phase is also within the City of Miami and features three amenities: The Hammock Playground, Vizcaya Connect and the Rain Gardens.

Completed Spring 2024

The Underline Phase III —This segment is the longest of all the Underline Phases. It extends 7.36 miles, from SW 19 Avenue to the Dadeland South Kiss-and-Ride Facility. The phase will traverse through the Cities of Miami, Coral Gables, and South Miami and end in Unincorporated Miami-Dade County. Like Phases 1 and 2, this phase is also designed on three key drivers, highlighting safe multi- modal transportation, nature, and community. This phase is divided into 7 segments to facilitate construction and accessibility. Segments 3 and 5 were completed and open to the public. Phase 3 has nine amenities.

Construction Completion Expected in 2026

DRAFT

SOUTH DADE TRAIL

The South-Dade Trail is a transportation solution providing multimodal connectivity to several new Rapid Transit (BRT) terminals and bus shelters along the Transit Way. It is intended to be a bicycle and pedestrian connection from the southern end of the BRT corridor at SW 244 Street in Florida City to the northern end at the Dadeland South Metrorail Station. At this point, connection to the Underline is required which will provide a continuous connection to the Miami River, in Downtown Miami. Primarily running alongside the South Dade Transit way, it allows it to be a transportation solution and serve as a gateway to the adjacent communities, by improving physical access from north to south, and by tapping into the unique identities of each ad joining neighborhood.

Aspirations of the South Dade Trail enhancements:

- Increase safety (improve intersections)
- Provide for connectivity to adjacent communities
- Connect to future Transit Oriented Development (TOD), trails and parks

Elements to be included along the typical path:

- Lighting
- Hydration stations
- Native vegetation
- Seating
- Intersection improvements

The corridor is 22 miles long. The shared use path will be realigned at the intersections to improve visibility. The project will be delivered in two phases. Phase 1 focuses on the safety improvements which include the resurfacing of the existing trail; construction of concrete shoulders on both sides of the trail to reduce overall maintenance costs overtime; Transitway and Shared use path lighting; Intersection improvements and 14 new connections to adjacent communities. Phase 2 focuses on the installation of hydration stations, way finding, natural seating areas and some landscaping closer to the BRT stations.

DRAFT

From SW 244 St to Dadeland South Metrorail Station

Multimodal Corridor

Design Phase

STRATEGIC TARGETS

SOUTH BAYSHORE DRIVE

The South Bayshore Drive project provides continuous pedestrian and bicycle facilities to improve the connections to parks, trails, and transit facilities. This project includes an 8 to 12 feet wide shared-use path north of Aviation Avenue that forms part of the Commodore Trail – an essential trail that connects the Old Cutler Trail to the Rickenbacker Causeway. Improvements include roadway reconstruction, new drainage, a new pump station on David Kennedy Park, new lighting, new signing and pavement markings, continuous shared-use path, landscaping, and utility improvements via Memorandum of Agreement (MOA) with the County Water and Sewer Department (WASD). This project removes pinch points and deficiencies in the trail network, improve existing trail crossings and increase safe access to the trail. The project's completion is anticipated by Fall of 2031.

This segment is excluded from the City of Miami Commodore Trail Master Plan, however, coordination with the city is ongoing to ensure the master plan connects to this project at the south and north limits

VISION ZERO PROGRAM

Vision Zero is a countywide safety initiative with a goal to eliminate all traffic fatalities and severe injuries by 2040, while increasing the safety, mobility, and health of all county residents. DTPW's Vision Zero program is focused on system-level changes in how we plan, design, and build our transportation network.

The program kicked off in late 2021 with the development of the Vision Zero Framework Plan which identified over 2,000 locations where fatalities or serious injuries have occurred across the County and established actions the County must take to achieve zero.

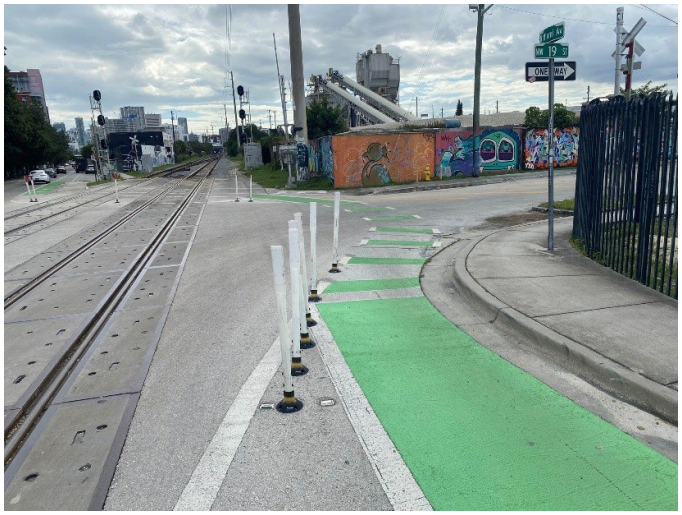
On average, over 300 vehicle crash fatalities occur annually in Miami-Dade County, with more than 100 involving vulnerable road users such as pedestrians and bicyclists. Miami-Dade County continues to be identified as one of the most dangerous counties for vulnerable road users (Smart Growth America: Dangerous by Design 2010 to 2022). While the County continues to thrive economically and grow in population and travel demand, it is DTPW's responsibility to ensure a safe transportation network. Miami-Dade County is committed to eliminating traffic deaths and serious injuries within our transportation network by 2040. Building from the results of the 2021 Vision Zero Framework Plan Miami-Dade County formally established the Vision Zero Program and identified the top 100 high injury crash locations to implement safety countermeasures across the County, prioritizing locations near transit facilities and equity neighborhoods.

Making a commitment to zero traffic deaths means addressing all aspects of safety through five overarching program focus areas. DTPW's focus areas are based on the Safe System Approach that, together, creates a comprehensive approach with layers of protection for all road users.

Our focus areas are:

- Promote a Culture of Safety
- Enhance Process and Collaboration
- Build Safe Streets for Everyone
- Create Safe Speeds
- Making Data-Driven Decisions

DRAFT



To reach our Vision Zero goals, the County has received several state and federal grants for the program, as well as committed local funding, to move the County closer achieving their goal of zero fatalities along the County's roadway network. The Safe Streets and Roads for All Grant (SS4A) through the United States Department of Transportation (USDOT)provided $16 million in funds to construct 22 safety improvement projects throughout the County. The funding also supports eight (8) demonstration projects, which test innovative safety strategies in high-risk areas before broader implementation, and five (5) supplemental projects, which enhance existing safety initiatives with additional infrastructure, design improvements, and community engagement efforts. To date, DTPW has completed the construction and operational improvements of 21 out of an identified 22 Vision Zero safety projects throughout Miami-Dade County.

DRAFT

22 of the 24 Vision Zero Projects Have Been Completed

County

Safety Initiative

STRATEGIC TARGETS

MAJOR HIGHWAY AND BRIDGE IMPROVEMENT PROJECTS

Major road and bridge projects under construction or scheduled to begin construction include, but are not limited to:

NW 25 STREET CORRIDOR ROAD WIDENING

NW 25 Street is a county-maintained section line road within the cities of Doral and Sweetwater. A feasibility study was completed in 2015. Recommendations from the study include widening the road, providing raised medians, improving sidewalks, new drainage system, adding a new signalized intersection at 99 Avenue, and adding turning lanes at major intersections to increase capacity. As the next step for this project, DTPW is seeking to develop a PD&E study to further evaluate the future widening and other capacity and multimodal needs of the corridor. While DTPW is conducting the PD&E, the Department understands the need for more immediate improvements on the corridor and are planning a roadway resurfacing and reconstruction project that provides drainage improvements, signalization improvements, additional turning lanes at major intersections, and other operational improvements.

DRAFT

NW 25 Street from West of NW 117 Avenue to NW 87 Avenue		STRATEGIC TARGETS
Infrastructure Improvement	Construction Phase	

NW 12 STREET IMPROVEMENTS

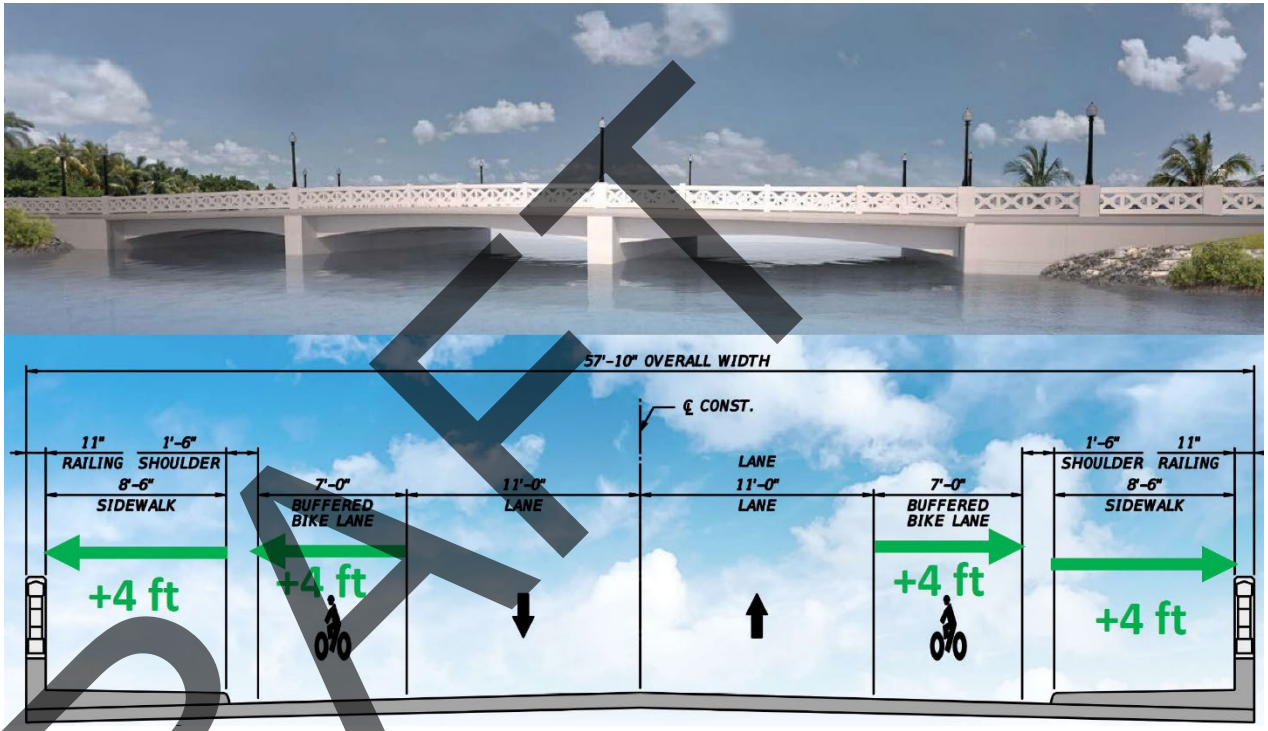
The project consists of widening and resurfacing NW 12 Street from the Dolphin Park and Ride Facility to NW 114 Avenue. The project increases the capacity for existing left turn and right turn lanes as well as provide new left turn and right turn lanes along NW 12 Street. Exit ramps from the Florida Turnpike, and the right turn lane exit from the Dolphin Mall at NW 114 Avenue will be improved. The project also adds new Bus Only lanes to service the new Dolphin Park-and-Ride facility.

The project will include a new storm drainage system, pavement markings and signage, intersection and signalization improvements, roadway lighting, culvert extension, and construction administration services. The project length is approximately 0.65 miles. The project is currently in the design phase will be completed in May 2026

DRAFT

NW 12 Street from the Dolphin Park and Ride Facility to NW 114 Avenue		STRATEGIC TARGETS
Infrastructure Improvement	Design Phase	

VENETIAN CAUSEWAY



The historic Venetian Causeway is a 2.5-mile-long facility that provides a major link between the City of Miami on the west and the City of Miami Beach on the east. The Venetian Causeway is comprised of ten fixed bridges and two bascule bridges separated by five spoil islands, and six residential islands. Following the PD&E study, it was determined that eleven of the twelve bridges require replacement. Miami-Dade County has started the final design phase for the replacement of the 11 bridges along the Venetian Causeway, following completion of the PD&E study performed by FDOT.

The final design will provide new wider bridges which enhances safety and connectivity for all modes, including pedestrians, bicyclists, navigable traffic, and vehicular traffic. The replacement bridges will adhere to the existing causeway historic aesthetic and ensure minimal environmental impact. Additionally, resiliency measures are being studied to ensure the new bridges are not affected by sea-level rise effects, and that they can provide continued connectivity for emergency services, construction, and commerce vehicles. The final design phase has begun and is estimated to conclude in Summer 2026, with Construction advertisement to immediately follow.

DRAFT

11 bridges along the Venetian Causeway, a 2.5-mile-long roadway spanning 11 man-made islands		STRATEGIC TARGETS
Infrastructure Improvement	Final Design Phase	

RICKENBACKER CAUSEWAY

The Rickenbacker Causeway is a multimodal corridor that provides the only ingress and egress connection to the Village of Key Biscayne, including access to several unique cultural sites and water sports opportunities, and serves as one of the busiest bicycling and running routes in the County. The Causeway is approximately 3.6 miles in length with 1.2 miles of bridge structures and 2.4 miles of roadway with the toll facility near its western terminus at Brickell Avenue on the mainland. The eastern terminus is located at the end of the Bear Cut Bridge where the roadway becomes Crandon Boulevard.

MASTER PLAN

DTPW is developing the Rickenbacker Causeway Master Plan to establish a coordinated and implementation-focused planning framework that prioritizes short- and mid-term improvements to enhance safety, operations, and multimodal mobility along the corridor. The Master Plan includes coordination with partner agencies and stakeholders and is structured to identify near-term projects suitable for advancement through the County's Capital Improvement Program (CIP), as well as mid-term improvements that may require additional design development and future funding strategies.

The Master Plan incorporates a comprehensive public engagement process, including pop-up informational events, a study advisory committee, interactive online mapping and surveys, and public workshops. This process ensures that community priorities and stakeholder feedback directly inform project identification and phasing.

The resulting plan consolidates recommended improvements into a coordinated set of implementable actions aimed at improving traffic operations while advancing a safer and more balanced multimodal environment. Continued coordination with the Village of Key Biscayne, Miami-Dade Police Department, Miami-Dade Parks, Recreation and Open Spaces, and other key stakeholders is integral to the development and delivery of these improvements. The Master Plan is scheduled for completion in Early 2026.

In parallel with the Master Plan development, DTPW and partner agencies have implemented several near-term safety enhancements along the Causeway, including roadway resurfacing, traffic signal upgrades, and drainage improvements. These efforts address immediate safety and operational needs while informing and complementing the short- and mid-term recommendations being advanced through the Master Plan.

BEAR CUT BRIDGE PD&E STUDY

Miami-Dade County is performing a planning study to analyze the options for replacement or major rehabilitation of the Bear Cut Bridge from Virginia Key to Key Biscayne. A portion of the bridge was constructed in 1944 and requires replacement of part, all or major rehabilitation to continue to serve as the only connection between mainland Miami and the Village of Key Biscayne. The study includes public outreach and input, stakeholder coordination, design alternative development, cost benefit analysis, long range cost estimating, and analysis of the environmental, archaeological, and socioeconomic impact of the design alternatives. The PD&E study started in October 2024 and is set to be completed in spring 2028.

DRAFT

Bear Cut Bridge from Virginia Key to Key Biscayne		STRATEGIC TARGETS
Infrastructure Improvement	PD&E Study	

NW 17 AVENUE BRIDGE OVER MIAMI RIVER PD&E STUDY

Miami-Dade County is performing a PD&E study to analyze alternatives, such as replacement or rehabilitation, of the NW 17 Avenue Bascule Bridge over Miami River from NW 7 Street to NW 14 Street, within the City of Miami and Miami-Dade County. Also included is the entrance ramp to westbound SR 836/Dolphin Expressway, and NW North River Drive from NW 17th Avenue to NW 13th Terrace. The study aims to address operational reliability, structural and functional deficiencies, as well as address future transportation demands and multimodal safety opportunities for pedestrians and bicyclists. Constructed in 1928, this bridge provides access to many major points of interest and emergency services in Miami and provides interchange access to the Dolphin Expressway/SR836.

The PD&E study includes public outreach and input, stakeholder coordination, design alternative development, cost benefit analysis, long range cost estimating, and analysis of the environmental, archaeological, and socioeconomic impact of the design alternatives. The PD&E study is expected to take approximately four years to conclude, which will then be followed by Final Design. The Final Design phase is tentatively expected to take approximately two years to complete.

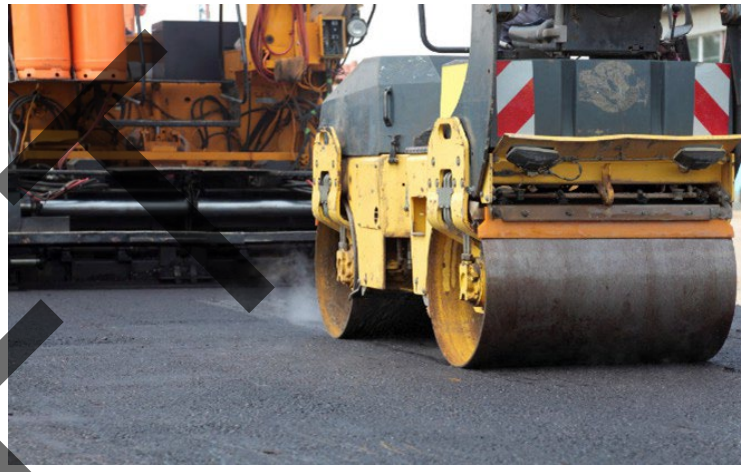
Infrastructure Improvement

PD&E Study

STRATEGIC TARGETS

NEIGHBORHOOD IMPROVEMENT PROJECTS



As part of the People's Transportation Plan (PTP), DTPW is responsible for coordinating and delivering Neighborhood Improvement Projects. To equitably allocate funding for non-site-specific improvements authorized under the PTP Ordinance, DTPW developed the Neighborhood Improvement Projects Formula. The formula considers population within the Unincorporated Municipal Service Area by commission district, documented infrastructure needs, and the percentage of maintained arterial and collector lane miles, with a portion of funding distributed evenly among all districts.

PTP Neighborhood Improvement Projects encompass a wide range of multimodal and roadway-related enhancements, including intersection modifications, roadway resurfacing, guardrail installation and repair, school flashing signals, greenway and bikeway improvements, ADA curb ramps, pavement markings, roadway lighting, traffic calming features, traffic signals, and traffic sign replacement or repair. Improvements also include sidewalk construction and repair, drainage improvements, and landscape beautification projects associated with the development, operation, or maintenance of roadways, bridges, and transit facilities, including bus and fixed guideway systems.

Neighborhood Improvement Projects are implemented through the following categories: site-specific neighborhood improvements, non-site-specific neighborhood improvements, countywide neighborhood improvements, and the School Flashing Signals Program. Overall, PTP Neighborhood Improvement Projects are designed to enhance safety, accessibility, and quality of life in residential areas by improving pedestrian and bicycle infrastructure, roadway conditions, drainage and flood resilience, traffic operations, school zone safety, streetscape aesthetics, and transit access, including first- and last-mile connections.

DRAFT

NOTE 1: *PTP NEIGHBORHOOD IMPROVEMENTS Provided each Commission District with funds for Neighborhood Improvements in the categories listed below and according to an allocation formula based on population, reported needs and County-maintained road lane miles. DTPW continues to coordinate the Neighborhood Improvement Projects with County Commissioners' Offices based on their remaining allocation. Improvement categories include: modifications of intersections; resurfacing of local and arterial roads; installation / repairs of guardrails; installation of school flashing signals, enhancement of greenways and bikeways, A.D.A. curb cuts / repairs, pavement markings, roadway lighting, traffic calming, traffic signals, and traffic sign replacement / repair. Such improvements also include replacement / repair of sidewalks, repair / installation of drainage and landscape beautification (including community image enhancements) related to the development, construction, operation or maintenance of roads and bridges in the County.*

NOTE 2: PE = Preliminary Engineering; CST = Construction; FS = Feasibility Study.

DRAFT

The mission of the SFRTA is to collaborate with partners and deliver a safe, convenient, and effective service that serves as South Florida's multimodal backbone. SFRTA is an agency of the State of Florida, created in 2003 by Chapter 343, Florida Statute, and is authorized to own, operate, maintain, and manage the Tri-Rail Commuter Rail System in the tri-county area of Miami-Dade, Broward, and Palm Beach Counties. The following projects are included in SFRTA's Capital Budget and/or Five-Year Plan in Fiscal Year 2026 through 2030.

TRI-RAIL DOWNTOWN MIAMI LINK

SFRTA, in coordination with multiple partners, has extended the Tri-Rail Commuter Rail System to provide a new service into Downtown Miami at the MiamiCentral Station. The 9.05-mile extension, known as Tri-Rail Downtown Miami Link (TRDML), provides a connecting service from the SFRC at the Tri-Rail Metrorail Transfer Station, to the FECR corridor, into Downtown Miami. The MiamiCentral Station serves as Downtown Miami's multimodal hub, providing connections to Brightline, Tri-Rail, the existing Miami Dade county bus system, Metrorail, and Metromover.

TRDML is a cost-effective and strategic transit solution for Miami-Dade County. In addition to the recent SFRC connections to the FEC railway corridor, the quiet zone funds provided by the Miami-Dade TPO, and the region's previous investment in the Tri-Rail system - this new service will also leverage Brightline's express train service and station investments.

TRDML service began on January 13, 2024, providing twenty-three (23) weekday and twenty-two (22) weekend trains. In July 2024, SFRTA initiated a one-year pilot project, implementing a round-trip Express Train to bring passengers directly to and from MiamiCentral, with limited stops along the SFRC. Average ridership is approximately 400 riders per day.

ROLLING STOCK

On May, 5, 2023, SFRTA was awarded $71.7M in federal funds to support the purchase of new Rolling Stock to replace up to 24 rail vehicles or a third On May, 5, 2023, SFRTA was awarded $71.7M in federal funds to support the purchase of new Rolling Stock to replace up to 24 rail vehicles or a third of its

current fleet. Procurement of new Tri-Rail Rolling stock will enable SFRTA to both maintain and increase passenger service operations along the existing SFRC. New rolling stock will also allow for increased ridership capacity, operational improvements, and train scheduling flexibility.

Currently, SFRTA is in advanced negotiations with the manufacturers for the purchase of locomotives, coaches, and cab cars. A contract for locomotives is expected to be finalized by Spring 2025. A contract for coaches and cab cars is expected to be finalized by Summer 2025.

TRI-RAIL PASSENGER INFORMATION SYSTEM (PIS)

Tri-Rail PIS will provide train locations and predicted arrival times at each station via the internet/web-site, smartphone app, automated telephone calls, text messages, and Liquid Crystal Displays (LCDs) located on the station platforms. The system will also include onboard signage and an audio system on train cars - which will display and announce upcoming station arrival and destination information. Installation of the PIS is ongoing, with anticipated completion in Spring 2025.

SAFETY AND SECURITY CAMERAS, PHASE 2

This project is for the installation of surveillance camera hardware and monitoring technology at all Tri-Rail Stations. Cameras will be installed in parking lots, stairwells, pedestrian walkways and bridges, and locations within Tri-Rail stations that require safety monitoring (Phase 2). The recently completed Phase 1 project focused on installing surveillance cameras on Tri-Rail station platforms.

Phase 2 allows SFRTA's Public Safety Coordination Center (PSCC) to monitor/detect suspicious and/or unlawful activities in real time for timely detection and response. Activities are recorded for reference, training, system improvement, and/or as video evidence when further law enforcement is needed. As part of the Phase 2 project, new cameras have been installed and brought online for Pompano Beach, Deerfield Beach, Hialeah Market, and the Ft. Lauderdale Airport stations and the parking garage at the Ft. Lauderdale Airport Station. Phase 2 is scheduled to be completed by the end of Spring 2025.

DRAFT

PUBLIC TRANSPORTATION IMPROVEMENTS

MR-MICCI PROJECT

The MR-MICCI Project will provide an additional mainline track within the last 1.25 miles of the SFRC from just north of the Tri-Rail Hialeah Market Station to the Tri-Rail Miami Airport Station located at the MIC. The project will increase capacity and improve track connections across the Miami River, including bridge, track, and signal upgrades. SFRTA has finalized the PD&E Study. The final design and construction will be completed by the FDOT, District Four. 90% project design is underway, and the project is fully funded.

PLANNING AND CAPITAL DEVELOPMENT

The Planning and Capital Development Department performs short and long-term planning activities and facilitates the performance of planning studies and various regional coordination efforts. Such activities include: the 5-Year Transit Development Plan (TDP), 20-Year Capital Plan, TOD station area plans, Bicycle and Pedestrian Studies and Passenger Surveys, along with other regionally significant activities.

PROGRAM OF PROJECTS

SFRTA receives annual Federal Appropriations of Sections 5307 and 5337 funding from the FTA. This funding is programmed within SFRTA's Capital Budget to cover preventive maintenance expenditures (such as rolling stock and station maintenance) and other FTA-allowable capital projects/initiatives that the Agency plans to undertake.

NON-MOTORIZED COMPONENT

DRAFT

The development of safe facilities for people who walk or use a bicycle is guided by the Comprehensive Development Master Plan (CDMP) and the 2050 Long Range Transportation Plan (LRTP).

CDMP Transportation Element Objective TE-2 states: "In furtherance of pedestrianism and other non-motorized modes of transportation in the planned urban area, Miami-Dade County shall enhance its transportation plans, programs and development regulations as necessary to accommodate the safe and convenient movement of pedestrians, non-motorized vehicles and motorized vehicles."

The 2050 LRTP lists the following goals and objectives, related to non-motorized projects/programs:

LRTP GOAL 1: MAXIMIZE MOBILITY CHOICES SYSTEMWIDE

- Objective: Provide a comprehensive transportation network for dependable and reliable transportation options.
- Objective: Increase mobility choices throughout the county

LRTP GOAL 2: INCREASE THE SAFETY OF THE TRANSPORTATION SYSTEM FOR ALL USERS

- Objective: Improve the safety of the transportation system
- Objective: Promote projects in high crash locations – (locations with the highest number of crashes)
- Objective: Improve safety of the transportation system for the elderly and disabled

Bicycle and pedestrian projects in the 2026/2027 to 2030/2031 Transportation Improvement Program are taken from the non-motorized section of the 2050 LRTP, the Transportation Alternatives Program application cycle and through agency coordination for other transportation projects. Projects are presented to the Miami-Dade Bicycle Pedestrian Advisory Committee (BPAC) for public information and comment.

NON-MOTORIZED COMPONENT

The Miami-Dade 2050 Bicycle Pedestrian Master Plan assesses opportunities amongst the SMART Plan transit hubs and stations to expand the reach of bicycle and pedestrian trip distances to the entire county, with the help of transit connections. This plan's primary focus is on the daily commuter trip and aims to incentivize projects that safely connect the largest number of people, that need it the most, to the most places, on a daily basis. This plan also looks at other pedestrian and bicycle trip destinations such as educational facilities, major medical centers, high employment areas, and outdoor recreational locations. Realizing these opportunities will help manage the ever-present issue of traffic any metropolitan area deals with and further encourages healthy and sustainable communities within the County. This plan serves as the Bicycle and Pedestrian element of the 2050 LRTP.

More information on the TPO's Bicycle Pedestrian Program is available from the TPO website at: https://miamidadetpo.org/library/studies/mdtpo-2050-bicycle-pedestrian-master-plan-final-report-2024-09.pdf

INTELLIGENT TRANSPORTATION SYSTEMS

DRAFT

Intelligent Transportation Systems (ITS) is a combination of leading-edge applications and communication technologies used to improve transportation safety, efficiency, and sustainability of surface transportation system. ITS technologies enable the users to be better informed and make smarter use of the network in our region. ITS encompasses a broad range of advanced and traditional communications-based information and electronic technologies to:

- Improve safety by increasing information to the driver and augmenting driver control of the vehicle. Features include warning systems that activate when cars get too close to another vehicle or the edge of the road and enhanced traffic control systems that decrease stops and speed variations, reducing the number of crashes.
- Reduce congestion and improve accessibility through rapid detection and clearing of incidents that cause delays; enhanced public transit systems can reduce highway traffic; and real-time traffic control systems can adapt automatically to changing conditions and improve the flow of traffic.
- Improve energy efficiency and environmental quality by providing travelers with information to support decisions that can reduce highway demand and travel time and vehicle emissions by providing mobility options to use high occupancy vehicles or public transit or on demand services to mitigate congestion.
- Enhance economic productivity by improving the transportation system efficiency through better routing of vehicles, automated toll collection, safety enhancements and streamlining commercial vehicle regulatory enforcement and compliance.

TRANSPORTATION DISADVANTAGED SECTION

DRAFT

Section 427.015, Florida Statutes, requires that the Metropolitan Planning Organization, as part of its Transportation Improvement Program "shall... identify transportation improvements that will be advanced with [transportation disabled] funds during the program period." This requirement is reiterated in section 3(f)2.g of the Florida Department of Transportation directive 525-010-012-c ("Transportation Improvement Program Development and Review"). The purpose of this section is to meet these requirements, and to reference, in a user-friendly format, transportation improvements to assist the safe and efficient transport of those citizens who need special services and facilities to obtain access to life-sustaining activities.

EXPLANATION

The projects listed in this section do show funding amounts but no construction schedules. This is because the same projects are also listed in other sections of this document grouping projects by funding category. The items listed are referenced by the page number in which they appear in other TIP sections.

In addition, this section includes pedestrian facilities and sidewalks and some transit passenger amenities which, once completed, could enhance and facilitate usage by not only disadvantaged passengers but the public in general. This section does not include relevant improvements associated with larger transportation projects. Examples would include curb cuts and tactile surface treatments added onto sidewalks as part of an intersection widening and reconstruction, or wheelchair ramps and elevators included within the design of major facilities, as required by the 1991 Americans with Disabilities Act.

CONGESTION MANAGEMENT PROCESS

DRAFT

The Miami-Dade TPO has developed a Congestion Management Plan (CMP) to meet the unique needs of the Miami-Dade metropolitan area. The federal regulations, as provided in 23 C.F.R. 450.322, require metropolitan planning organizations with a population over 200,000 to develop and implement a congestion management process as a part of the overall transportation planning process. The CMP is intended to be a systematic way to monitor, measure and identify transportation congestion within the metropolitan area. It is used to evaluate and advance performance-based strategies to manage current and future transportation congestion. The CMP was developed with input from local, state and regional transportation partners and stakeholders.

The 2024 CMP builds on the 2019 analysis which identified 16 congested corridors. Most of the 2019 corridors still reflect relatively moderate to high when the 2024 analysis was completed and therefore retained as corridors for continued observation and intervention. In both the 2024 and 2019 analysis, a point scoring system was used to identify congested segments within the SMART Congestion Management Dashboard (CMD) network. The selected corridors were further prioritized by their proximity to the SMART Program corridors in order to expand and improve mobility options.

In addition to the identified corridors, there are the main limited-access facilities such as I-95, SR 836, SR 826, SR 874, I-75 and others which continue to have recurring congestion. The agencies maintaining these facilities are working on alleviating traffic congestion through many strategic approaches. The focus on future corridors to address congestion provides direction for funding prioritization apart from the Strategic Intermodal System (SIS) and allows for justification of priorities in the Cost Feasible Plan (CFP). Further details of this process are documented in the Projects chapter of the 2050 LRTP.

This section of the FY 27-31 TIP includes projects that are in close proximity to, or included in the list of congested corridors identified in the 2024 CMP.

Ongoing advancement of these corridors will involve close coordination with respective facility owners.

DRAFT

1. LUDLAM TRAIL

MDPROS is working to develop the Ludlam Trail, a 5.6-mile multi-use trail within a former railroad corridor. As a priority paved land trail from the Florida Greenways and Trails System (FGTS) Priority Network and SUN Trail Network, the proposed publicly accessible corridor will serve bicyclists, pedestrians, and other types of non-motorized uses. The Ludlam Trail is intended to provide a safe, dedicated, and direct means of non-motorized transportation to and from areas of residences, transit, work, schools, parks, and shopping centers.

Illustrative Conceptual Rendering of the Proposed Ludlam Trail

The project limits extend from SW 80 Street to 400 feet north of NW 7 Street, between 69 and 70 Avenue. The County acquired the ROW for the Ludlam Trail in December 2018, including fee simple owned areas and easements through three private development node areas for a continuous trail. The ROW for the proposed Ludlam Trail Corridor is approximately 100 feet wide for most of its length, although it narrows to between 75 and 80 feet in some areas and down to 18 feet in easement sections through areas designated for mixed-use development. The Ludlam Trail traverses sections of the City of Miami and unincorporated Miami-Dade County (MDC). It is adjacent to the City of South Miami and proximate to the City of West Miami.

The multi-use trail generally consists of a 12-foot-wide, two-way, asphalt bike path, separated by a landscaped buffer from an 8-foot-wide concrete pedestrian path with a 2-foot-wide soft natural jogging surface adjacent to it.

The trail development will include eleven (11) at-grade crossings, four (4) grade-separated bridge crossings over roadways (at SR 976 / SW 40 Street / Bird Road; SW 24 Street / Coral Way; US 41 / SR 90 / SW 8 Street / Tamiami Trail / Calle Ocho; and SR 968 / W Flagler Street), and two (2) bridges across existing South Florida Water Management District (SFWMD) canals (C-3/ Coral Gables Canal and C-4 / Tamiami Canal).

The purpose of the proposed Ludlam Trail Corridor Project is to encourage the use of alternate modes of transportation and enhance overall connectivity and accessibility to schools, parks, transit stations, and bus stops for more than 30,500 residents present within two (2) miles of the proposed project corridor. The need for the proposed project is based on the criteria identified below.

The project supports the vision of the MDPROS Open Space Master Plan (OSMP), a primary element of which is to "provide an interconnected trail system which offers transportation alternatives and reduces traffic congestion." The OSMP provides a 50-year unifying vision for a livable and sustainable MDC, which involves the development of a seamless system of greenways, trails, and water trails. The Ludlam Trail will be a vital component of this network as it will link open spaces and civic institutions to neighborhoods, while offering a reliable transportation alternative.

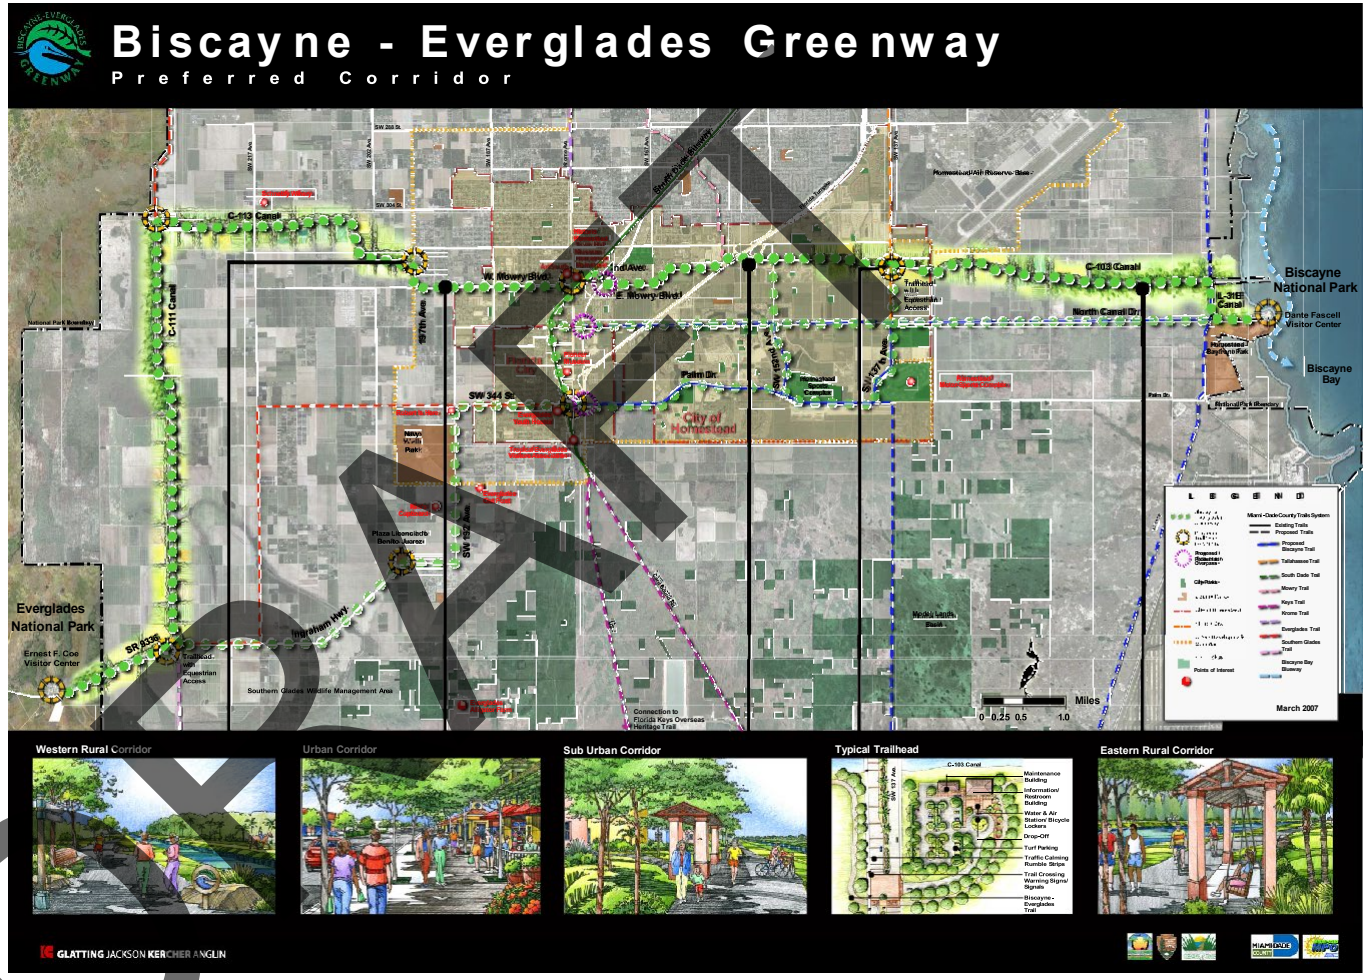
From a regional perspective, the proposed project will connect to the Metrorail Dadeland North Station via existing sidewalks along SW 70 Avenue from SW 80 Street to SW 85 Street; the proposed SMART Plan Corridor #2 (East-West Corridor) near NW 7 Street to the north; and to other planned trails including The Underline/East Coast Greenway, South Dade Trail, Snapper Creek Trail, East/West Trail, and Merrick Trail.

Illustrative Conceptual Rendering of theProposed Ludlam Trail

DRAFT

2. BISCAYNE TRAIL

MDPROS is developing the 43-mile Biscayne-Everglades Greenway Segments D including phase 1 and phase 2, and Segment 8. As a priority paved land trail from the FGTS Priority Network and SUN Trail Network, the trail corridor will serve bicyclists, pedestrians, and users of other types of non-motorized vehicles. The purpose of the Biscayne-Everglades Greenway is to encourage the use of alternate modes of transportation and enhance overall connectivity and accessibility to schools, local and national parks, and transit hubs for more than 127,000 residents present within the census tracts of the proposed corridor.



Biscayne-Everglades Greenway Network, Highlighting Current MDPROS Project Segments

The project limits for Segment D Phase 1 begin at SW 328 Street at Biscayne National Park and Miami-Dade County's Homestead Bayfront Park, then head north along the L31-E Canal, then west along the south bank of the Mowry Canal to SW 117 Avenue. Phase 2 of the Biscayne-Everglades Greenway picks up at SW 117 Avenue, then continues west along the Mowry Canal, south along SW 127 Avenue, west along SW 320 Street, then north along SW 137 Avenue and ending at the Mowry Canal, where it will connect to the segment recently completed by the City of Homestead. Segment 8 limits from intersection of C-111 and C-113 Canals, and runs for 4.5-miles up to the intersection of W Mowry Drive/SW 320 Street and SW 192 Avenue. Together, these segments will connect users between Downtown Homestead, and Biscayne National Park to the east, with connection to convenient transit access to the rest of Miami-Dade County.

DRAFT

The trail at Segment D will generally consist of a 10 to 12-foot-wide, two-way, asphalt multi-use path within SFWMD right-of-way, and Segment 8 roughly 8-foot-wide similar path including dedicated bikes when the trail utilizes road right-of-way. The trail will include high emphasis pavement markings at intersections, regulatory and wayfinding signage, bike racks, benches, and bike repair stations.

This trail project supports the vision of the MDPROS OSMP, a primary element of which is to "provide an interconnected trail system which offers transportation alternatives and reduces traffic congestion." The OSMP provides a 50-year unifying vision for a livable and sustainable MDC, which involves the development of a seamless system of greenways, trails, and water trails. The Biscayne-Everglades Greenway Segment D, and Segment 8 will be a vital component within the overall OSMP network as it will link people to Homestead and Florida City, National Parks, and transit hubs, while offering a reliable transportation alternative. From a regional perspective, the trail will connect to the SMART Plan South Corridor in Downtown Homestead, as well as the South Dade Trail.

DRAFT

3. SNAPPER CREEK TRAIL

MDPROS is developing the Snapper Creek Trail, a 9.4-mile greenway corridor consisting of a multi-use, non-motorized trail. As a priority paved land trail from the FGTS Priority Network and SUN Trail Network, the trail corridor will serve bicyclists, pedestrians, and users of other types of non-motorized vehicles. This greenway corridor was initially conceptualized in the 1998 North Dade Greenways Master Plan, where it was envisioned into two segments: Segment A (5.6 miles) and Segment B (3.8 miles). The long-term vision for the Snapper Creek Trail is to create a continuous route that will connect FIU with Dante B. Fascell Park near Red Road. The greenway corridor will provide a vital link between local parks, schools, Metrobus routes, and other community amenities, while offering an alternative to motor vehicle travel and reducing traffic congestion. It will create a safer, more accessible route for residents and visitors in the area.

The trail will be located primarily along the Snapper Creek (C-2) Canal bank, within SFWMD land, with some portions within the street right-of-way. MDPROS is currently developing three projects including the SW 107 Avenue Gap within Segment A, and two other areas within Segment B. The project limits for Segment A SW 107 Avenue Gap continues through SW 107 Avenue to SW 105 Court, which will connect to an existing portion of the trail north of it. The Segment B Dadeland connection project extends between the existing pedestrian bridge across Snapper Creek just east of the Palmetto Expressway, near Dadeland North Metrorail Station. The third project that MDPROS is developing within Snapper Creek Trail is Segment B,

Snapper Creek Trail's Current MDPROS Project Segments

DRAFT

Phase 1 which extends between US 1 and SW 67 Avenue. These projects phases are approximately 1-mile of the 94-mile greenway corridor, planned to become a 12-foot-wide, two-way, asphalt multi-use path, enhancing transit routes and connectivity for users.

The Snapper Creek Trail is part of a broader effort to create an interconnected trail system in South Florida, aligning with regional plans to reduce congestion and provide transportation alternatives. The Snapper Creek Trail supports the vision of the MDPROS OSMP, a primary element of which is to "provide an interconnected trail system which offers transportation alternatives and reduces traffic congestion." The OSMP provides a 50-year unifying vision for a livable and sustainable MDC, which involves the development of a seamless system of greenways, trails, and water trails. The Snapper Creek Trail will be a vital component of this network as it will link open spaces and civic institutions to neighborhoods, while offering a reliable transportation alternative. From a regional perspective, the proposed project will connect to the Metrorail Dadeland North Station via existing sidewalks along SW 70 Avenue from SW 80 Street to SW 85 Street; the proposed SMART.

TPO

Miami-Dade Transportation Planning Organization

Miami-Dade TPO has set a policy that assures that no person shall on the basis of race, color, national origin, sex, age, disability, family, or religious status, as provided by Title VI of the Civil Rights Act of 1964, the Civil Rights Restoration Act of 1987, and the Florida Civil Rights Act of 1992, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination or retaliation under any program or activity. It is the policy of the Miami-Dade TPO to comply with all requirements of the Americans with Disabilities Act (ADA). To request this document in accessible format, please call (305) 375-1881. If you are interested in participating in the transportation planning process, please contact TPO at (305) 375-4507.

The preparation of this report has been funded in part from the U.S. Department of Transportation (USDOT), the Federal Highway Administration (FHWA), and the Federal Transit Administration (FTA), the State Planning and Research Program (Section 505 of Title 23, U.S. Code), and Miami-Dade County, Florida. The contents of this report do not necessarily reflect the official views or policy of the USDOT.
